If it is claimed that the writing contains matters not related to the subject matter of the testimony, the judge shall examine the writing in camera, excise any portions not so related, and order delivery of the remainder to the party entitled thereto. (1) The court may call witnesses whom all parties may cross-examine.

(2) When required by the interests of justice, the court may interrogate witnesses, whether called by the court or by a party.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.701 Opinion testimony of lay witnesses.—

If a witness is not testifying as an expert, his testimony about what he perceived may be in the form of inference and opinion when:

(1) The witness cannot readily, and with equal accuracy and adequacy, communicate what he has perceived to the trier of fact without testifying in terms of inferences or opinions and his use of inferences or opinions will not mislead the trier of fact to the prejudice of the objecting party; and

(2) The opinions and inferences do not require a special knowledge, skill, experience, or training.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.702 Testimony by experts.—If scientific, technical, or other specialized knowledge will assist the trier of fact in understanding the evidence or in determining a fact in issue, a witness qualified as an expert by knowledge, skill, experience, training, or education may testify about it in the form of an opinion; however, the opinion is admissible only if it can be applied to evidence at trial.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.703 Opinion on ultimate issue.—Testimony in the form of an opinion or inference otherwise admissible is not objectionable because it includes an ultimate issue to be decided by the trier of fact.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.704 Basis of opinion testimony by experts.—The facts or data upon which an expert bases an opinion or inference may be those perceived by, or made known to, him at or before the trial. If the facts or data are of a type reasonably relied upon by experts in the subject to support the opinion expressed, the facts or data need not be admissible in evidence.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.705 Disclosure of facts or data underlying expert opinion.—

(1) Unless otherwise required by the court, an expert may testify in terms of opinion or inferences and give his reasons without prior disclosure of the underlying facts or data. On cross-examination he shall be required to specify the facts or data.

(2) Prior to the witness giving his opinion, a party against whom the opinion or inference is offered may conduct a voir dire examination of the witness directed to the underlying facts or data for his opinion. If the party establishes prima facie evidence

that the expert does not have a sufficient basis for his opinion, the opinions and inferences of the expert are inadmissible unless the party offering the testimony establishes the underlying facts or data.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.706 Authoritativeness of literature for use in cross-examination.—Statements of facts or opinions on a subject of science, art, or specialized knowledge contained in a published treatise, periodical, book, dissertation, pamphlet, or other writing may be used in cross-examination of an expert witness if the expert witness recognizes the author or the treatise, periodical, book, dissertation, pamphlet, or other writing to be authoritative, or, notwithstanding nonrecognition by the expert witness, if the trial court finds the author or the treatise, periodical, book, dissertation, pamphlet, or other writing to be authoritative and relevant to the subject matter.

History.—s. 18, ch. 78-361; s. 2, ch. 78-379.

90.801 Hearsay; definitions; exceptions.—

(1) The following definitions apply under this chapter:

(a) A "statement" is:

1. An oral or written assertion; or
2. Nonverbal conduct of a person if it is intended by him as an assertion.

(b) A "declarant" is a person who makes a statement.

(c) "Hearsay" is an out-of-court statement, other than one made by a declarant who testifies at the trial or hearing, offered in court to prove the truth of the matter contained in the statement.

(2) A statement is not hearsay if the declarant testifies at the trial or hearing and is subject to cross-examination concerning the statement and the statement is:

(a) Inconsistent with his testimony and was given under oath subject to the penalty of perjury at a trial, hearing, or other proceeding or in a deposition;

(b) Consistent with his testimony and is offered to rebut an express or implied charge against him of improper influence, motive, or recent fabrication; or

(c) One of identification of a person made after perceiving him.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; ss. 19, 22, ch. 78-361; ss. 1, 2, ch. 78-379.

90.802 Hearsay rule.—Except as provided by statute, hearsay evidence is inadmissible.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.803 Hearsay exceptions; availability of declarant immaterial.—The provision of s. 90.802 to the contrary notwithstanding, the following are not inadmissible as evidence, even though the declarant is available as a witness:

(1) **SPONTANEOUS STATEMENT.**—A spontaneous statement describing or explaining an event or condition made while the declarant was perceiving the event or condition, or immediately thereafter, except when such statement is made under circumstances that indicate its lack of trustworthiness.

(2) **EXCITED UTTERANCE.**—A statement or excited utterance relating to a startling event or con-

dition made while the declarant was under the stress of excitement caused by the event or condition.

(3) THEN EXISTING MENTAL, EMOTIONAL, OR PHYSICAL CONDITION.—

(a) A statement of the declarant's then existing state of mind, emotion, or physical sensation, including a statement of intent, plan, motive, design, mental feeling, pain, or bodily health, when such evidence is offered to:

1. Prove the declarant's state of mind, emotion, or physical sensation at that time or at any other time when such state is an issue in the action.

2. Prove or explain acts of subsequent conduct of the declarant.

(b) However, this subsection does not make admissible:

1. An after-the-fact statement of memory or belief to prove the fact remembered or believed, unless such statement relates to the execution, revocation, identification, or terms of the declarant's will.

2. A statement made under circumstances that indicate its lack of trustworthiness.

(4) STATEMENTS FOR PURPOSES OF MEDICAL DIAGNOSIS OR TREATMENT.—Statements made for purposes of medical diagnosis or treatment by a person seeking the diagnosis or treatment, or made by an individual who has knowledge of the facts and is legally responsible for the person who is unable to communicate the facts, which statements describe medical history, past or present symptoms, pain, or sensations, or the inceptions or general character of the cause or external source thereof, insofar as reasonably pertinent to diagnosis or treatment.

(5) RECORDED RECOLLECTION.—A memorandum or record concerning a matter about which a witness once had knowledge, but now has insufficient recollection to enable him to testify fully and accurately, shown to have been made by the witness when the matter was fresh in his memory and to reflect that knowledge correctly. A party may read into evidence a memorandum or record when it is admitted, but no such memorandum or record is admissible as an exhibit unless offered by an adverse party.

(6) RECORDS OF REGULARLY CONDUCTED BUSINESS ACTIVITY.—

(a) A memorandum, report, record, or data compilation, in any form, of acts, events, conditions, opinion, or diagnosis, made at or near the time by, or from information transmitted by, a person with knowledge, if kept in the course of a regularly conducted business activity and if it was the regular practice of that business activity to make such memorandum, report, record, or data compilation, all as shown by the testimony of the custodian or other qualified witness, unless the sources of information or other circumstances show lack of trustworthiness. The term "business" as used in this paragraph includes a business, institution, association, profession, occupation, and calling of every kind, whether or not conducted for profit.

(b) No evidence in the form of an opinion or diagnosis is admissible under paragraph (a) unless such opinion or diagnosis would be admissible under ss. 90.701-90.705 if the person whose opinion is recorded

were to testify to the opinion directly.

(7) ABSENCE OF ENTRY IN RECORDS OF REGULARLY CONDUCTED ACTIVITY.—Evidence that a matter is not included in the memoranda, reports, records, or data compilations, in any form, of a regularly conducted activity to prove the nonoccurrence or nonexistence of the matter, if the matter was of a kind of which a memorandum, report, record, or data compilation was regularly made and preserved, unless the sources of information or other circumstances show lack of trustworthiness.

(8) PUBLIC RECORDS AND REPORTS.—Records, reports, statements reduced to writing, or data compilations, in any form, of public offices or agencies, setting forth the activities of the office or agency, or matters observed pursuant to duty imposed by law as to matters which there was a duty to report, excluding in criminal cases matters observed by a police officer or other law enforcement personnel, unless the sources of information or other circumstances show their lack of trustworthiness.

(9) RECORDS OF VITAL STATISTICS.—Records or data compilations, in any form, of births, fetal deaths, deaths, or marriages, if a report was made to a public office pursuant to requirements of law. However, nothing in this section shall be construed to make admissible any other marriage of any party to any cause of action except for the purpose of impeachment as set forth in s. 90.610.

(10) ABSENCE OF PUBLIC RECORD OR ENTRY.—Evidence, in the form of a certification in accord with s. 90.902, or in the form of testimony, that diligent search failed to disclose a record, report, statement, or data compilation or entry, when offered to prove the absence of the record, report, statement, or data compilation or the nonoccurrence or nonexistence of a matter of which a record, report, statement, or data compilation would regularly have been made and preserved by a public office and agency.

(11) RECORDS OF RELIGIOUS ORGANIZATIONS.—Statements of births, marriages, divorces, deaths, legitimacy, ancestry, relationship by blood or marriage, or other similar facts of personal or family history contained in a regularly kept record of a religious organization.

(12) MARRIAGE, BAPTISMAL, AND SIMILAR CERTIFICATES.—Statements of facts contained in a certificate that the maker performed a marriage or other ceremony or administered a sacrament, when such statement was certified by a clergyman, public official, or other person authorized by the rules or practices of a religious organization or by law to perform the act certified, and when such certificate purports to have been issued at the time of the act or within a reasonable time thereafter.

(13) FAMILY RECORDS.—Statements of fact concerning personal or family history in family Bibles, charts, engravings in rings, inscriptions on family portraits, engravings on urns, crypts, or tombstones, or the like.

(14) RECORDS OF DOCUMENTS AFFECTING AN INTEREST IN PROPERTY.—The record of a document purporting to establish or affect an interest in property, as proof of the contents of the original recorded or filed document and its execution and

delivery by each person by whom it purports to have been executed, if the record is a record of a public office and an applicable statute authorized the recording or filing of the document in the office.

(15) **STATEMENTS IN DOCUMENTS AFFECTING AN INTEREST IN PROPERTY.**—A statement contained in a document purporting to establish or affect an interest in property, if the matter stated was relevant to the purpose of the document, unless dealings with the property since the document was made have been inconsistent with the truth of the statement or the purport of the document.

(16) **STATEMENTS IN ANCIENT DOCUMENTS.**—Statements in a document in existence 20 years or more, the authenticity of which is established.

(17) **MARKET REPORTS, COMMERCIAL PUBLICATIONS.**—Market quotations, tabulations, lists, directories, or other published compilations, generally used and relied upon by the public or by persons in particular occupations if, in the opinion of the court, the sources of information and method of preparation were such as to justify their admission.

(18) **ADMISSIONS.**—A statement that is offered against a party and is:

- (a) His own statement in either an individual or a representative capacity;
- (b) A statement of which he has manifested his adoption or belief in its truth;
- (c) A statement by a person specifically authorized by him to make a statement concerning the subject;
- (d) A statement by his agent or servant concerning a matter within the scope of the agency or employment thereof, made during the existence of the relationship; or
- (e) A statement by a person who was a coconspirator of the party during the course, and in furtherance, of the conspiracy. Upon request of counsel, the court shall instruct the jury that the conspiracy itself and each member's participation in it must be established by independent evidence, either before the introduction of any evidence or before evidence is admitted under this paragraph.

(19) **REPUTATION CONCERNING PERSONAL OR FAMILY HISTORY.**—Evidence of reputation:

- (a) Among members of his family by blood, adoption, or marriage;
- (b) Among his associates; or
- (c) In the community,

concerning a person's birth, adoption, marriage, divorce, death, legitimacy, relationship by blood, adoption, or marriage, ancestry, or other similar fact of his personal or family history.

(20) **REPUTATION CONCERNING BOUNDARIES OR GENERAL HISTORY.**—Evidence of reputation:

- (a) In a community, arising before the controversy about the boundaries of, or customs affecting lands in, the community.
- (b) About events of general history which are important to the community, state, or nation where located.

(21) **REPUTATION AS TO CHARACTER.**—Evi-

dence of reputation of a person's character among his associates or in the community.

(22) **FORMER TESTIMONY.**—Former testimony given by the declarant at a civil trial, when used in a retrial of said trial involving identical parties and the same facts.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 1, ch. 77-174; ss. 20, 22, ch. 78-361; ss. 1, 2, ch. 78-379.

90.804 Hearsay exceptions; declarant unavailable.—

(1) **DEFINITION OF UNAVAILABILITY.**—“Unavailability as a witness” means that the declarant:

- (a) Is exempted by a ruling of a court on the ground of privilege from testifying concerning the subject matter of his statement;
- (b) Persists in refusing to testify concerning the subject matter of his statement despite an order of the court to do so;
- (c) Has suffered a lack of memory of the subject matter of his statement so as to destroy his effectiveness as a witness during the trial;
- (d) Is unable to be present or to testify at the hearing because of death or because of then existing physical or mental illness or infirmity; or
- (e) Is absent from the hearing, and the proponent of his statement has been unable to procure his attendance or testimony by process or other reasonable means.

However, a declarant is not unavailable as a witness if such exemption, refusal, claim of lack of memory, inability to be present, or absence is due to the procurement or wrongdoing of the party who is the proponent of his statement in preventing the witness from attending or testifying.

(2) **HEARSAY EXCEPTIONS.**—The following are not excluded under s. 90.802, provided that the declarant is unavailable as a witness:

(a) *Former testimony.*—Testimony given as a witness at another hearing of the same or a different proceeding, or in a deposition taken in compliance with law in the course of the same or another proceeding, if the party against whom the testimony is now offered, or, in a civil action or proceeding, a predecessor in interest, had an opportunity and similar motive to develop the testimony by direct, cross, or re-direct examination.

(b) *Statement under belief of impending death.*—In a civil or criminal trial, a statement made by a declarant while reasonably believing that his death was imminent, concerning the physical cause or instrumentalities of what he believed to be his impending death or the circumstances surrounding his impending death.

(c) *Statement against interest.*—A statement which, at the time of its making, was so far contrary to the declarant's pecuniary or proprietary interest or tended to subject him to liability or to render invalid a claim by him against another, so that a person in the declarant's position would not have made the statement unless he believed it to be true. A statement tending to expose the declarant to criminal liability and offered to exculpate the accused is inadmissible, unless corroborating circumstances show the trustworthiness of the statement. A state-

ment or confession which is offered against the accused in a criminal action, and which is made by a codefendant or other person implicating both himself and the accused, is not within this exception.

(d) *Statement of personal or family history.*—A statement concerning the declarant's own birth, adoption, marriage, divorce, legitimacy, ancestry, or other similar fact of personal or family history, including relationship by blood, adoption, or marriage, even though the declarant had no means of acquiring personal knowledge of the matter stated.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.805 Hearsay within hearsay.—Hearsay within hearsay is not excluded under s. 90.802, provided each part of the combined statements conforms with an exception to the hearsay rule as provided in s. 90.803 or s. 90.804.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.806 Attacking and supporting credibility of declarant.—

(1) When a hearsay statement has been admitted in evidence, credibility of the declarant may be attacked and, if attacked, may be supported by any evidence that would be admissible for those purposes if the declarant had testified as a witness. Evidence of a statement or conduct by the declarant at any time inconsistent with his hearsay statement is admissible, regardless of whether or not the declarant has been afforded an opportunity to deny or explain it.

(2) If the party against whom a hearsay statement has been admitted calls the declarant as a witness, the party is entitled to examine him on the statement as if under cross-examination.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.901 Requirement of authentication or identification.—Authentication or identification of evidence is required as a condition precedent to its admissibility. The requirements of this section are satisfied by evidence sufficient to support a finding that the matter in question is what its proponent claims.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.902 Self-authentication.—Extrinsic evidence of authenticity as a condition precedent to admissibility is not required for:

(1) A document bearing:

(a) A seal purporting to be that of the United States or any state, district, commonwealth, territory, or insular possession thereof; the Panama Canal Zone; the Trust Territory of the Pacific Islands; or a court, political subdivision, department, officer, or agency of any of them; and

(b) A signature by the custodian of the document attesting to the authenticity of the seal.

(2) A document not bearing a seal but purporting to bear a signature of an officer or employee of any entity listed in subsection (1), affixed in his official capacity.

(3) An official foreign document, record, or entry that is:

(a) Executed or attested to by a person in his official capacity authorized by the laws of a foreign

country to make the execution or attestation; and

(b) Accompanied by a final certification, as provided herein, of the genuineness of the signature and official position of:

1. The executing person; or

2. Any foreign official whose certificate of genuineness of signature and official position relates to the execution or attestation or is in a chain of certificates of genuineness of signature and official position relating to the execution or attestation.

The final certification may be made by a secretary of an embassy or legation, consul general, consul, vice consul, or consular agent of the United States or a diplomatic or consular official of the foreign country assigned or accredited to the United States. When the parties receive reasonable opportunity to investigate the authenticity and accuracy of official foreign documents, the court may order that they be treated as presumptively authentic without final certification or permit them in evidence by an attested summary with or without final certification.

(4) A copy of an official public record, report, or entry, or of a document authorized by law to be recorded or filed and actually recorded or filed in a public office, including data compilations in any form, certified as correct by the custodian or other person authorized to make the certification by certificate complying with subsections (1), (2), or (3) or complying with any act of the Legislature or rule adopted by the Supreme Court.

(5) Books, pamphlets, or other publications purporting to be issued by a governmental authority.

(6) Printed materials purporting to be newspapers or periodicals.

(7) Inscriptions, signs, tags, or labels purporting to have been affixed in the course of business and indicating ownership, control, or origin.

(8) Commercial papers and signatures thereon and documents relating to them, to the extent provided in the Uniform Commercial Code.

(9) Any signature, document, or other matter declared by the Legislature to be presumptively or prima facie genuine or authentic.

(10) Any document properly certified under the law of the jurisdiction where the certification is made.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 1, ch. 77-174; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.903 Testimony of subscribing witness unnecessary.—The testimony of a subscribing witness is not necessary to authenticate a writing unless the statute requiring attestation requires it.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.951 Definitions.—For purposes of this chapter:

(1) "Writings" and "recordings" include letters, words, or numbers, or their equivalent, set down by handwriting, typewriting, printing, photostating, photography, magnetic impulse, mechanical or electronic recording, or other form of data compilation, upon paper, wood, stone, recording tape, or other materials.

(2) "Photographs" include still photographs, x-ray films, videotapes, and motion pictures.

(3) An "original" of a writing or recording means the writing or recording itself, or any counterpart intended to have the same effect by a person executing or issuing it. An "original" of a photograph includes the negative or any print made from it. If data are stored in a computer or similar device, any print-out or other output readable by sight and shown to reflect the data accurately is an "original."

(4) "Duplicate" includes:

(a) A counterpart produced by the same impression as the original, from the same matrix; by means of photography, including enlargements and miniatures; by mechanical or electronic rerecording; by chemical reproduction; or by other equivalent technique that accurately reproduces the original; or

(b) An executed carbon copy not intended by the parties to be an original.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.952 Requirement of originals.—Except as otherwise provided by statute, an original writing, recording, or photograph is required in order to prove the contents of the writing, recording, or photograph.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 1, ch. 77-174; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.953 Admissibility of duplicates.—A duplicate is admissible to the same extent as an original, unless:

(1) The document or writing is a negotiable instrument as defined in s. 673.104, a security as defined in s. 678.102, or any other writing that evidences a right to the payment of money, is not itself a security agreement or lease, and is of a type that is transferred by delivery in the ordinary course of business with any necessary endorsement or assignment.

(2) A genuine question is raised about the authenticity of the original or any other document or writing.

(3) It is unfair, under the circumstance, to admit the duplicate in lieu of the original.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.954 Admissibility of other evidence of contents.—The original of a writing, recording, or photograph is not required, except as provided in s. 90.953, and other evidence of its contents is admissible when:

(1) All originals are lost or destroyed, unless the proponent lost or destroyed them in bad faith.

(2) An original cannot be obtained in this state by any judicial process or procedure.

(3) An original was under the control of the party against whom offered at a time when he was put on notice by the pleadings or by written notice from the adverse party that the contents of such original would be subject to proof at the hearing, and such

original is not produced at the hearing.

(4) The writing, recording, or photograph is not related to a controlling issue.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 1, ch. 77-174; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.955 Public records.—

(1) The contents of an official record or of a document authorized to be recorded or filed, and actually recorded or filed, with a governmental agency, either federal, state, county, or municipal, in a place where official records or documents are ordinarily filed, including data compilations in any form, may be proved by a copy authenticated as provided in s. 90.902, if otherwise admissible.

(2) If a party cannot obtain, by the exercise of reasonable diligence, a copy that complies with subsection (1), other evidence of the contents is admissible.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.956 Summaries.—When it is not convenient to examine in court the contents of voluminous writings, recordings, or photographs, a party may present them in the form of a chart, summary, or calculation by calling a qualified witness. The party intending to use such a summary must give timely written notice of his intention to use the summary, proof of which shall be filed with the court, and shall make the summary and the originals or duplicates of the data from which the summary is compiled available for examination or copying, or both, by other parties at a reasonable time and place. A judge may order that they be produced in court.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.957 Testimony or written admissions of a party.—A party may prove the contents of writings, recordings, or photographs by the testimony or deposition of the party against whom they are offered or by his written admission, without accounting for the nonproduction of the original.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 22, ch. 78-361; s. 1, ch. 78-379.

90.958 Functions of court and jury.—

(1) Except as provided in subsection (2), when the admissibility under this chapter of other evidence of the contents of writings, recordings, or photographs depends upon the existence of a preliminary fact, the question as to whether the preliminary fact exists is for the court to determine.

(2) The trier of fact shall determine whether:

(a) The asserted writing ever existed.

(b) Another writing, recording, or photograph produced at the trial is the original.

(c) Other evidence of the contents correctly reflects the contents.

History.—s. 1, ch. 76-237; s. 1, ch. 77-77; s. 22, ch. 78-361; s. 1, ch. 78-379.

95.022 Effective date; saving clause.—This act shall become effective on January 1, 1975, but any action that will be barred when this act becomes effective and that would not have been barred under prior law may be commenced before January 1, 1976, and if it is not commenced by that date, the action shall be barred.

History.—s. 36, ch. 74-382.

95.03 Contracts shortening time.—Any provision in a contract fixing the period of time within which an action arising out of the contract may be begun at a time less than that provided by the applicable statute of limitations is void.

History.—ss. 1, 2, ch. 6465, 1913; RGS 2931; CGL 4651; s. 2, ch. 74-382.

95.031 Computation of time.—Except as provided in subsection 95.051(2) and elsewhere in these statutes, the time within which an action shall be begun under any statute of limitations runs from the time the cause of action accrues.

(1) A cause of action accrues when the last element constituting the cause of action occurs. For the purposes of this chapter, the last element constituting a cause of action on an obligation or liability founded on a negotiable or nonnegotiable note payable on demand or after date with no specific maturity date specified in the note, and the last element constituting a cause of action against any endorser, guarantor, or other person secondarily liable on any such obligation or liability founded on any such note, is the first written demand for payment, notwithstanding that the endorser, guarantor, or other person secondarily liable has executed a separate writing evidencing such liability.

(2) Actions for products liability and fraud under s. 95.11(3) must be begun within the period prescribed in this chapter, with the period running from the time the facts giving rise to the cause of action were discovered or should have been discovered with the exercise of due diligence, instead of running from any date prescribed elsewhere in s. 95.11(3), but in any event within 12 years after the date of delivery of the completed product to its original purchaser or within 12 years after the date of the commission of the alleged fraud, regardless of the date the defect in the product or the fraud was or should have been discovered.

(3) No cause of action on behalf of the state for conversion of property severed from, for trespass upon, or for other unauthorized use or invasion of

state-owned lands, including sovereignty lands, shall be barred by any provision of this chapter. This subsection will expire on July 1, 1980.

History.—s. 3, ch. 74-382; s. 1, ch. 75-234; s. 2, ch. 77-54; ss. 1, 2, ch. 78-289; s. 1, ch. 78-418.

95.04 Promise to pay barred debt.—An acknowledgment of, or promise to pay, a debt barred by a statute of limitations must be in writing and signed by the person sought to be charged.

History.—s. 1, ch. 4375, 1895; GS 1717; RGS 2930; CGL 4650; s. 6, ch. 74-382.

95.051 When limitations tolled.—

(1) The running of the time under any statute of limitations except ss. 95.281, 95.35, and 95.36 is tolled by:

(a) Absence from the state of the person to be sued.

(b) Use by the person to be sued of a false name that is unknown to the person entitled to sue so that process cannot be served on him.

(c) Concealment in the state of the person to be sued so that process cannot be served on him.

(d) The adjudicated incompetency, before the cause of action accrued, of the person entitled to sue. In any event, the action must be begun within 7 years after the act, event, or occurrence giving rise to the cause of action.

(e) Voluntary payments by the alleged father of the child in paternity actions during the time of the payments.

(f) The payment of any part of the principal or interest of any obligation or liability founded on a written instrument.

Paragraphs (a)-(c) shall not apply if service of process or service by publication can be made in a manner sufficient to confer jurisdiction to grant the relief sought.

(2) No disability or other reason shall toll the running of any statute of limitations except those specified in this section, s. 95.091, the Florida Probate Code, or the Florida Guardianship Law.

History.—s. 16, Nov. 10, 1828; ss. 14, 17, ch. 1869, 1872; RS 1284, 1285; GS 1715, 1716; RGS 2928, 2929; CGL 4648, 4649; s. 4, ch. 74-382; s. 2, ch. 75-234; s. 1, ch. 77-174.

95.091 Limitation on actions to collect taxes.—

(1) Except in the case of taxes for which certificates have been sold or of taxes levied under chapters 198 and 220, any tax lien granted by law to the state or any of its political subdivisions, any municipality, any public corporation or body politic, or any other entity having authority to levy and collect taxes shall expire 5 years after the date the tax is assessed or becomes delinquent, whichever is later. No action may be begun to collect any tax after the expiration of the lien securing the payment of the tax.

(2) If no lien to secure the payment of a tax is provided by law, no action may be begun to collect the tax after 5 years from the date the tax is assessed or becomes delinquent, whichever is later.

(3) Except as otherwise provided by law, the

amount of any tax may be determined and assessed within 3 years after the first day of the month following the date on which the tax becomes due and payable. However, this limitation shall be tolled for a period of 2 years by a request for inspection and examination of a taxpayer's books and records by the taxing authority within that period, in which event the period for which tax due may be determined and assessed shall be the 3 years immediately preceding the first day of the month in which a request for inspection and examination of the books and records has been made by the taxing authority.

(4) If administrative or judicial proceedings for review of the tax assessment or collection are begun within a period of limitation prescribed in this section, the running of the period shall be tolled during the pendency of the proceeding.

History.—s. 20, ch. 74-382.

95.10 Causes of action arising out of the state.

In any event the action must be commenced within 12 years after the date of actual possession by the owner, the date of abandonment of construction if not completed, or the date of completion or termination of the contract between the professional engineer, registered architect, or licensed contractor and his employer.

(d) An action to recover public money or property held by a public officer or employee, or former public officer or employee, and obtained during, or as a result of, his public office or employment.

(a) An action for professional malpractice, other than medical malpractice, whether founded on contract or tort; provided that the period of limitations shall run from the time the cause of action is discovered or should have been discovered with the exercise of due diligence. However, the limitation of actions herein for professional malpractice shall be limited to persons in privity with the professional.

(b) An action for medical malpractice shall be commenced within 2 years from the time the incident giving rise to the action occurred or within 2 years from the time the incident is discovered, or should have been discovered with the exercise of due diligence; however, in no event shall the action be commenced later than 4 years from the date of the incident or occurrence out of which the cause of action accrued. An "action for medical malpractice" is defined as a claim in tort or in contract for damages because of the death, injury, or monetary loss to any person arising out of any medical, dental, or surgical diagnosis, treatment, or care by any provider of health care. The limitation of actions within this subsection shall be limited to the health care provider and persons in privity with the provider of health care. In those actions covered by this paragraph in which it can be shown that fraud, concealment, or intentional misrepresentation of fact prevented the discovery of the injury within the 4-year period, the period of limitations is extended forward 2 years from the time that the injury is discovered or should have been discovered with the exercise of due diligence, but in no event to exceed 7 years from the date the incident giving rise to the injury occurred.

(6) LACHES.—Laches shall bar any action unless it is commenced within the time provided for legal actions concerning the same subject matter regardless of lack of knowledge by the person sought to be held liable that the person alleging liability would assert his rights and whether the person sought to be held liable is injured or prejudiced by the delay. This subsection shall not affect application of laches at an earlier time in accordance with law.

(1) When the occupant or those under whom he claims have been in actual continued occupation of real property for 7 years under a claim of title exclusive of any other right, but not founded on a written

instrument, judgment, or decree, the property actually occupied shall be held adversely if the person claiming adverse possession made a return of the property by proper legal description to the property appraiser of the county where it is located within 1 year after entering into possession and has subsequently paid all taxes and matured installments of special improvement liens levied against the property by the state, county, and municipality.

Upon such abandonment, the tax deed grantee and any claimant under him is the legal owner of the property described by the tax deed.

(3) This statute applies whether the tax deed grantee or any claimant under him has been in actual possession of the property described in the tax deed or not. If a tax deed has been issued to property in the actual possession of the legal owner and he or any claimant under him continues in actual possession 1 year after issuance of the tax deed and before

an action to eject him is begun, subsections (1) and (2) shall not apply.

The title shall not be questioned at any time by anyone who has received the money to which he was entitled from the sale. This section shall not bar an action for fraud or an action against the executor, administrator, or guardian for personal liability to any heir, distributee, or ward.

(2) This section shall not apply to persons whose names appear of record as devisees under the will or as the heirs in proceedings brought to determine their identity in the office of the judge administering the estate of decedent.

95.231 Limitations where deed or will on record.—

(1) Five years after the recording of a deed or the probate of a will purporting to convey real property, from which it appears that the person owning the property attempted to convey or devise it, the deed or will shall be held to authorize the conveyance or devise of, or to convey or devise, the fee simple title to the real property, or any interest in it, of the person signing the instrument, as if there had been no lack of seal or seals, witness or witnesses, defect in acknowledgment or relinquishment of dower, in the absence of fraud, adverse possession, or pending litigation. The instrument shall be admissible in evidence.

(2) After 20 years from the recording of a deed or the probate of a will purporting to convey real property, no person shall assert any claim to the property against the claimants under the deed or will or their successors in title.

(c) For all obligations, including taxes, paid by the mortgagee, 5 years from the date of payment. A mortgagee shall have no right of subrogation to the lien of the state for taxes paid by the mortgagee to protect the security of his mortgage unless he obtains an assignment from the state of the tax certificate. Redemption of the tax certificate shall be insufficient for subrogation.

(2) If an extension agreement executed by the mortgagee or his successors in interest and the mortgagor or his successors in interest is recorded, the time shall be extended as follows:

(a) If the final maturity of the obligation, as extended, secured by the mortgage is ascertainable from the record of the extension agreement, 5 years after the date of final maturity of the obligation as extended.

(b) If the final maturity of the obligation, as extended, secured by the mortgage is not ascertainable from the record of the extension agreement, 20 years after the date of the extension agreement.

(3) If the record of the mortgage shows that it secures an obligation payable in installments and the maturity date of the final installment of the obligation is ascertainable from the record of the mortgage, the time shall run from the maturity date of the final installment.

(4) The time shall be extended only as provided in this law and shall not be extended by any other agreement, nonresidence, disability, part payment, operation of law, or any other method.

98.031 Registration and election districts, precincts and polling places; boundaries.—

(1) Subject to the provisions of s. 98.091, each county election precinct, election district, and polling place in this state as defined and fixed is recognized and continued. Except as otherwise provided in paragraph (a) of subsection (3), the board of county commissioners in each county, upon recommendation and approval of the supervisor, shall alter or create new districts or precincts. Each precinct as nearly as practicable shall be composed of contiguous and compact areas having clearly observable boundaries and shall be numbered and a polling place at a suitable location designated. The district or precinct shall not be changed thereafter except with the consent of four members of the board of

county commissioners and the supervisor. The board of county commissioners and the supervisor may have precinct boundaries conform to municipal boundaries in accordance with the provisions of s. 98.091, but, in any event, the registration books shall be maintained in such a manner that there may be determined therefrom the total number of electors in each municipality.

(2) When in any election there are less than 25 registered electors of the only political party having candidates on the ballot at any precinct, such precinct may be combined with other adjoining precincts into one election district upon the recommendation of the supervisor and the approval of the county commissioners. Notice of the combination of precincts into election districts shall be given in the same manner as provided in s. 101.71(2).

(3)(a)1. No election precinct or district shall be created, divided, abolished, or consolidated, or the boundaries therein changed, during the period between January 1 of any year the last digit of which is 7 and December 1 of any year the last digit of which is 0.

2. In addition to those periods of time during which change of precinct or district boundaries is not prohibited pursuant to subparagraph 1., the boundaries of election precincts and districts may be changed during the period between January 1 of any year the last digit of which is 7 and January 1 of any year the last digit of which is 0, when such change is due to the subdivision of an existing precinct or district or to municipal annexation, detachment, or consolidation or other such action.

(b) The Secretary of State may, upon the request of a county, waive compliance with paragraph (a) if such county has met the requirements of the U.S. Bureau of the Census as set forth in its guidelines.

(4)(a) Each supervisor of elections shall provide and maintain a suitable map drawn to a scale no smaller than 3 miles to the inch and clearly delineating all major observable features such as roads, streams, and railway lines and showing the current geographical boundaries of each precinct, election district, representative district, and senatorial district in the county. A word description of the geographical boundaries shall be attached to each map.

(b) Each supervisor of elections shall send a copy of each map with attached description to the Secretary of State no later than March 1 of any year the last digit of which is 7. No later than April 1 in any such year, the Secretary of State shall transmit an appropriate copy or facsimile of each map to the United States Bureau of the Census.

(c) The supervisor of elections shall notify the Secretary of State in writing within 30 days of any reorganization of precincts or election districts and shall furnish a copy of the map showing the current geographical boundaries, designation, and word description of each new precinct or election district.

98.041 Permanent single registration system established.—A permanent single registration system for the registration of electors to qualify them to vote in all elections is provided for the several counties and municipalities. This system shall be put into use by all municipalities and shall be in lieu of any other system of municipal registration. Electors shall be registered in pursuance of this system by the supervisor or by a deputy supervisor, and electors registered shall not thereafter be required to register or reregister except as provided by law.

History.—s. 1, ch. 25391, 1949; s. 2, ch. 26870, 1951; s. 1, ch. 59-237; s. 2, ch. 69-377; s. 1, ch. 73-155; s. 32, ch. 73-333; s. 5, ch. 77-175.
 Note.—Former s. 97.01.

98.051 Registration books for permanent registration system; when open.—

(1)(a) The office of the Supervisor of Elections shall be open Monday through Friday, excluding legal holidays, for a period of not less than 8 hours per day, beginning no later than 9 a.m.

(b) A supervisor may keep his office and any branch offices open on any weekday, excluding legal holidays, for 10 hours in addition to the 8 hours specified in paragraph (a), provided notice of the time and place shall be published at least once, not less than one day prior to such extension of time, in a newspaper of general circulation in the county in which such offices are to be located. However, if the publication deadline for such notice cannot be met, the public notice shall be posted at the courthouse and may be advertised in the news media.

(c) During the 30-day period prior to the closing of the registration books for any statewide or federal election, the supervisor shall keep his office open each weekday for a period not less than 8 hours per day and may keep any branch office open each weekday, excluding legal holidays.

(2) When registration books are open, voter registration and changes in registration shall be accepted in the office or branch office of the supervisor when such office is open as provided by law.

(3)(a) The registration books shall close for the first and second primary elections at 5 p.m. on the 30th day before the first primary election and shall remain closed until after the second primary election, during which time no registration, address change, party change, or name change shall be accepted for such elections. For any other election, the books shall close at 5 p.m. on the 30th day before such election and shall remain closed until after such election, during which time no registration, address change, party change, or name change shall be accepted for such election. However, when the books are closed for an election, registration and changes in registration shall be accepted for all subsequent elections. For purposes of this subsection, however, a first and second primary shall be considered one election.

(b) In computing the 30-day period for closing of the registration books, the election day shall be excluded, but all other holidays and Sundays shall be included. Registration shall be conducted on weekdays only and should the 30th day preceding an elec-

tion fall on Sunday or a legal holiday, then the registration books shall close at 5 p.m. on the immediately preceding day which is not a Sunday or legal holiday.

(c) When a district, municipal, or special election is called at a time when the books are open, the supervisor shall close the books to further registration, address changes, party changes, and name changes for such district, municipal, or special election on the 30th day before such election, or immediately, in the event the date of the election is less than 30 days away, but the books shall remain open for all subsequent elections.

 Note.—Former s. 97.02.

98.081 Removal of names from registration books; procedure.—

(1) During each odd-numbered year the supervisor shall mail, to each elector who did not vote in any election in the county during the past 2 years, a form to be filled in, signed, and returned by mail within 30 days after the notice is postmarked. The form returned shall advise the supervisor whether the elector's status has changed from that of the registration record. Names of electors failing to return the forms within this period shall have their names withdrawn temporarily from registration books. The list of the electors temporarily withdrawn shall be posted at the courthouse. When the list is completed, the supervisor shall provide a copy thereof, upon request, to the chairman of the county executive committee of any political party, and the supervisor may charge the actual cost of duplicating the list. A name shall be restored to the registration records when the elector, in writing, makes known to the supervisor that his status has not changed. The supervisor shall then reinstate the name on the registration books without the elector reregistering. Notice of these requirements shall be printed on the voter registration identification card. This method prescribed for the removal of names is cumulative to other provisions of law relating to the removal of names from registration books. This is not a reregistration but a method to be used for keeping the permanent registration list up to date. However, the name of any elector temporarily withdrawn from the registration books shall be removed from such books if the elector fails to respond to the notice within 3 years from the date the last such notice was mailed to him, and such person shall be required to reregister to have his name restored to the registration books.

(2) Any elector may have his name removed from the registration books by filing with the supervisor a written request, duly acknowledged, and upon receipt of such request the supervisor shall remove the name of the elector from the registration books. Any person whose name is removed between the first primary and the subsequent general election shall not register in a different political party after the first primary and before the subsequent general election.

(3) When the name of any elector is removed from the books pursuant to this section, s. 98.201, or s. 98.301, his original registration form shall be filed

alphabetically in the office of the supervisor.

(4) When the name of any elector has been erroneously or illegally removed from the registration books pursuant to this section, s. 98.201, or s. 98.301, the name of the elector shall be restored by the supervisor upon satisfactory proof, even though the registration books are closed.

Note.—Former s. 97.08.

98.091 Use of system by municipalities.—

(1) The board of county commissioners, with the concurrence of the supervisor of elections, may arrange the boundaries of the precincts in each municipality within the county to conform to the boundaries of the municipality, subject to the concurrence of the governing body of the municipality. All binders, files, and other equipment or materials necessary for the permanent registration system shall be furnished by the board of county commissioners.

(2) The supervisor of elections shall deliver the records required for a municipal election to the municipal elections boards or other appropriate elections officials before the election and collect them after the election. The municipality shall reimburse the county for the actual costs incurred.

(3) Any person who is a duly registered elector pursuant to this code and who resides within the boundaries of a municipality is qualified to participate in all municipal elections, the provisions of special acts or local charters notwithstanding. Electors who are not registered under the permanent registration system shall not be permitted to vote.

Note.—Former s. 97.04.

98.101 Specifications for permanent registration binders, files and forms.—In the permanent registration system, visible record binders, files, and registration forms shall be used as registration books. The binders shall be visible record binders, metal bound with built-in shifts, to hold executed registration forms, with labelholders and followers for sheet protection as necessary. The registration forms shall consist of duplicates, both to be signed by the registrant. One of the original executed forms shall be used for the poll binders, which binders shall have a built-in lock to protect the forms. The poll binders shall be divided in a manner convenient for electors to vote. The other original form shall be used for the office copies and arranged alphabetically, in suitable filing cabinets, thus providing a master list of all electors in the county; however, any county may, as an alternate method, use electronic data processing equipment to fulfill the requirements of this chapter.

An impression of the seal with a description thereof shall be filed with the Department of State. Such set of indexes or records may be limited to cover those persons residing in such municipality and its environs. If there be two or more such municipalities in a county, then an additional set shall be kept, or such number of sets as may be required to serve each such municipality.

Should there be evidence that the notice was not received, then notice shall be given by publication in a newspaper of general circulation in the county where the person was last registered or last known. The notice by publication shall run one time. The notification shall plainly state that the registration is allegedly invalidated and shall be in the form of a notice to show cause why the person's name should not be removed from the registration books. The notice shall state a time and place for the person so notified to appear before the supervisor to show cause why his name should not be removed. Upon hearing all evidence in an administrative hearing, the supervisor of elections shall determine whether or not there is sufficient evidence to strike the person's name from the registration books. If the supervisor determines that there is sufficient evidence he shall strike the name forthwith. Appeal shall be to the circuit court in and for the county wherein the person was registered. Notice of appeal shall be filed within the time and in the manner provided by the Florida Appellate Rules and shall act as supersedeas. Trial in the circuit court shall be de novo and governed by the rules of that court. 98.391 Registration; automation in processing.—For the purpose of providing a supplemental and alternative procedure for the registration of electors and for conducting elections at the precinct level, in those counties of the state where voting machines are used in the conduct of elections, the supervisor of elections and the officials lawfully charged with conducting elections may employ and adopt a system of automation in the processing of registration data, and make use of computers and data processing equipment and records adaptable for efficiency in conducting elections in such counties. The forms to be used in the system herein pro-

vided for shall be submitted to the Department of State for approval.

History.—s. 1, ch. 65-139; s. 2, ch. 65-60; ss. 10, 35, ch. 69-106.

98.401 Data processing cards; contents.—The data processing cards herein authorized shall be prepared to elicit the following information about electors: Last name, first name and middle name or initial; precinct number; certificate number; party; race; sex; height; weight; color of eyes; color of hair; freeholder status; month, day and year of birth; physical infirmities; if the registrant can read and write, and such other additional information as to readily identify the voter. Data processing cards used for registration of electors shall contain a printed oath of elector as otherwise required by law with space for the elector's signature and address. The reverse side of the voter's registration application data card shall contain a line for a sample signature of the applicant for registration with space for the registrant to verify and write his signature on each succeeding line below the sample signature at any election in which the elector shall participate. The reverse side of the data processing card shall also be prepared with a column one-half inch wide on the left side of the card for the inspector of election (record inspector) to initial after verifying the voter's signature. There shall also be a column five-eighths inch wide on the right side of the data processing card for an inspector of election to write the machine number used by the elector and to initial upon admitting the elector to the voting machine.

History.—s. 2, ch. 65-139.

98.412 Electors' master data record cards.—A master registration data record card shall be prepared, completed and kept by the supervisor of elections on each registered elector. Said master record cards shall be filed in alphabetical order, thus providing a master list of all voters throughout the county.

History.—s. 3, ch. 65-139; s. 2, ch. 65-60.

98.421 Use of cards at precinct level.—The registration record data card as defined in s. 98.401 shall be used at the precinct level for the purpose of identifying and processing of the elector prior to entering the voting booth to cast a ballot. The election inspectors may, if deemed necessary for the purpose of identification, require each elector upon entering the polling place to present to the election inspector his voting registration identification card or other personal identification sufficient to satisfy the requirements necessary to identify the elector. The elector shall sign his name on the reverse side of the data processing card under his sample signature in lieu of signing a signature identification slip required under chapter 101. All other provisions of chapter 101, other than those relating to the use of the printed identification slip, shall be complied with. The data processing card, when signed by the voter, will be verified and initialed by the clerk or record inspector. The data processing card will be returned to the voter, who will then present the registration record data card to the machine inspector who will admit the voter to a voting machine to cast his ballot. The machine inspector will write the ma-

chine number on the card in the space provided for that purpose and initial it. The machine inspector will use an abbreviated rubber stamp indicating the type of election, superimposing the rubber stamp over the voter's signature. The machine inspector will then place the data card in a receptacle provided on the end of the voting machine. This process shall be prima facie evidence that the person whose name appears thereon as an elector was admitted to the voting machine and that the elector then and there voted.

History.—s. 4, ch. 65-139.

98.431 Precinct record boxes; seal.—The supervisor of elections under the system provided for in this act shall furnish the election officials of each election precinct in the county the registration records of the qualified electors registered in the particular precinct in which the election is being held. Records of the affected precinct shall be contained in a metal file box, which can be sealed and properly identified by the supervisor of elections, and across the face of such seal shall be a certificate to be executed in the presence of a majority of the members of the affected election board prior to the opening of the polls. The form of the certificate shall be as follows:

We, the undersigned inspectors of election, constituting a majority of the election board of Precinct No., hereby certify that the certificate sealing the metal box containing the registration records of electors of said precinct was intact and said records had not been tampered with and that the seal thereon was broken in the presence of the following members of the election board of said precinct:

History.—s. 6, ch. 65-139; s. 5, ch. 77-175.

98.451 Registration; automation in processing.—For the purpose of providing a supplemental and alternative procedure for the registration of electors and for conducting elections, the supervisor of elections may require a system of automation in the processing of registration data, and may make use of computers and data processing equipment and records adaptable for efficiency in conducting elections.

History.—s. 1, ch. 77-267.

98.461 Registration form, precinct register; contents.—A registration form, approved by the Department of State, containing the information required in s. 98.111 shall be filed alphabetically in the office of the supervisor as the master list of electors

of the county. A computer printout may be used at the polls as a precinct register in lieu of the registration books. The precinct register shall contain the date of the election, the precinct number, and the following information concerning each registered elector: last name, first name and middle name or initial; party affiliation; residence address; registration number; date of birth; sex; race; state or country of birth; whether the voter needs assistance in voting; and such other additional information as to readily identify the elector. The precinct register may also contain a list of the forms of identification approved by the Department of State, which shall include, but not be limited to, the voter registration identification card and Florida driver's license. The precinct register may also contain a space for the elector's signature, a space for the initials of the witnessing clerk or inspector, and a space for the signature slip or ballot number.

History.—s. 1, ch. 77-267.

98.471 Use of precinct register at polls.—The precinct register, as prescribed in s. 98.461, may be used at the polls in lieu of the registration books for the purpose of identifying the elector at the polls prior to allowing him to vote. The clerk or inspector shall require each elector, upon entering the polling place, to present one of the forms of identification which are on the list of forms approved by the Department of State pursuant to s. 98.461. The elector shall sign his name in the space provided, and the clerk or inspector shall compare the signature with

that on the identification provided by the elector and enter his initials in the space provided and allow the elector to vote if the clerk or inspector is satisfied as to the identity of the elector. If the elector fails to furnish the required identification, or if the clerk or inspector is in doubt as to the identity of the elector, such clerk or inspector shall follow the procedure prescribed in s. 101.49. The precinct register may also contain the information set forth in s. 101.47(8) and, if so, the inspector shall follow the procedure required in s. 101.47, except that the identification provided by the elector shall be used for the signature comparison.

History.—s. 1, ch. 77-267.

98.481 Challenge to electors.—In any county using a precinct register in lieu of registration books at the polls, the right to vote of any person who desires to vote may be challenged in accordance with the provisions of s. 101.111, except that the inspector shall compare information supplied by such person with that entered or described on the precinct register opposite the elector's name.

History.—s. 1, ch. 77-267.

98.491 Alternative procedure.—The provisions of ss. 98.451, 98.461, 98.471, and 98.481 are not intended to repeal any of the other provisions of this code. These provisions are intended to provide an alternative procedure which may be followed at the discretion of the supervisor of elections.

This, however, does not apply to political party offices.

(2) No individual may qualify as a candidate for public office who holds another elective or appointive office, whether state, county or municipal, the term of which or any part thereof runs concurrently with the term of office for which he seeks to qualify without resigning from such office not less than 10 days prior to the first day of qualifying for the office he intends to seek. Said resignation shall be effective not later than the date upon which he would assume office, if elected to the office to which he seeks to qualify, the expiration date of the term of the office which he presently holds, or the general election day at which his successor is elected, whichever occurs earliest. With regard to elective offices, said resignation shall create a vacancy in said office thereby permitting persons to qualify as candidates for nomination and election to that office in the same manner as if the term of such public officer were otherwise scheduled to expire; or, in regard to elective municipal or home rule charter county offices, said resignation shall create a vacancy which may be filled for the unexpired term of the resigned officer in such manner as provided in the municipal or county charter. This does not apply to political party offices.

(3) Any incumbent public officer whose term of office or any part thereof runs concurrently to the term of office for which he seeks to qualify shall resign his office pursuant to the provisions of this

The resignation shall be presented to the governor with a copy to the Department of State except that, in the case of a county or municipal public officer, the resignation shall be directed and presented to the officer with whom he qualified for the office from which he is resigning, or, in the case of an appointed official, to the officer or authority by whom he was appointed to the office from which he is resigning, with a copy to the governor and to the Department of State. The resignation shall become effective and shall have the effect of creating a vacancy in office as provided herein, and the public officer shall continue to serve until his successor is elected or the vacancy otherwise filled as provided in subsection (2).

(4) Nothing contained in subsections (2) and (3) shall relate to persons holding any federal office.

(5) No person who serves as a member of any appointive board or authority without salary shall be in violation of this section by reason of holding any such office.

(6) No individual may qualify as a candidate for public office until he has filed a statement of financial interest pursuant to s. 112.3145.

(7) For the purposes of this section, no individual who is a subordinate personnel, deputy sheriff, or police officer need resign pursuant to subsection (2) or subsection (3) unless such individual is seeking to qualify for a public office which is currently held by an individual who has the authority to appoint, employ, promote, or otherwise supervise that subordinate personnel, deputy sheriff, or police officer and who has qualified as a candidate for reelection to that public office. However, any such personnel, deputy sheriff, police officer, or other such individual shall take a leave of absence without pay from his employment during the period in which he is seeking election to public office.

99.092 Filing fee of candidate; notification of Department of State.—

(1) Each person seeking to qualify for nomination or election to any office, except a person seeking to qualify pursuant to s. 99.095, shall pay a filing fee to the officer with whom he qualifies and, if any party assessment has been levied, attach the original or signed duplicate of the receipt for his party assessment or pay the same, in accordance with the provisions of s. 103.121, at the time of filing his other qualifying papers. The amount of the filing fee is 3 percent of the annual salary of the office. The amount of the committee assessment is 2 percent of the annual salary unless made less by the executive committee. The annual salary of the office for purposes of computing the filing fee and party assessment shall be computed by multiplying 12 times the monthly salary, excluding any special qualification pay, authorized for such office as of July 1 immediately preceding the first day of qualifying. No qualifying fees shall be returned to the candidate unless he withdraws his candidacy before the last date to qualify. If a candidate dies prior to an election and has not withdrawn his candidacy before the last date to qualify, his qualifying fee shall be returned to his designated beneficiary, and, if the filing fee or any portion thereof has been transferred to the political party of the candidate, the Secretary of State shall direct the party to return that portion to the candidate's designated beneficiary.

(2) The supervisor of elections shall, immediately after the last day for qualifying, submit to the Department of State a list containing the names, party affiliation, and addresses of all candidates and the offices for which they qualified.

(3) Each candidate for the office of Governor and each candidate for the office of Lieutenant Governor

shall pay a separate fee for his office in accordance with this section.

99.095 Alternative method of qualifying.—

(1) A person seeking to qualify for nomination to any office who is unable to pay the filing fee and party assessment prescribed by s. 99.092 without imposing an undue burden on his personal resources or on resources otherwise available to him may qualify to have his name placed on the ballot for the first primary election by means of the petitioning process prescribed in this section. A person using this petitioning process shall file an oath with the officer before whom the candidate would qualify for the office sought and stating that he is unable to pay the filing fee and party assessment for that office without imposing an undue burden on his personal resources or on resources otherwise available to him. Such oath shall be filed at any time after the first Tuesday after the first Monday in January of the year in which the first primary is held, but prior to the 92nd day prior to the date of the first primary election. The Department of State shall prescribe the form to be used in administering and filing such oath. No signatures shall be obtained by a candidate on any nominating petition until he has filed the oath required in this section.

(2) Upon receipt of a written oath from a candidate, the qualifying officer shall provide the candidate with petition forms in sufficient numbers to facilitate the gathering of signatures pursuant to this section. Such forms shall be prescribed by the Department of State.

(3) When a candidate has filed the oath prescribed in subsection (1), he may begin to seek signatures on petitions supporting his candidacy. Only signatures of electors who are registered in the political party by which the candidate seeks to be nominated and who are registered to vote in the county, district, or other geographical entity represented by the office sought shall be counted toward obtaining the minimum numbers of signatures prescribed in this subsection. A candidate for an office elected on a statewide basis shall obtain the signatures of a number of qualified electors equal to at least 3 percent of the total number of registered electors of Florida who are registered in the party by which he seeks nomination, as shown by the compilation by the Department of State for the last preceding general election. A candidate for any federal, state, county, or district office to be elected on less than a statewide basis shall obtain the signatures of a number of qualified electors of the district, county, or other geographical entity equal to at least 3 percent of the total number of registered voters of the party by which he seeks nomination that are registered within the district, county, or other geographical entity represented by the office sought, as shown by the compilation by the Department of State for the last preceding general election. A separate petition shall be circulated for each candidate availing himself of the provisions of this section. However, candidates

for the offices of Governor and Lieutenant Governor forming joint candidacies shall use the same nominating petition for both candidates.

(4)(a) Each candidate for nomination to federal, state, or multicounty district office shall file a separate petition for each county from which signatures are sought. Each petition shall be submitted, prior to noon of the 92nd day preceding the first primary election, to the supervisor of elections of the county for which such petition is circulated. Each supervisor of elections to whom a petition is submitted shall check the signatures on the petition to verify their status as electors of the political party by which the candidate seeks nomination and of that county, district, or other geographical unit represented by the office being sought by the candidate. Prior to the first date for qualifying, the supervisor shall certify the number shown as registered electors of such county, district, or other geographical unit and of the appropriate political party and submit such certification to the Department of State. The Department of State shall determine whether the required number of signatures has been obtained for the name of the candidate to be placed on the ballot and shall notify the candidate. If the required number of signatures has been obtained, the candidate shall, during the time prescribed for qualifying for office, submit a copy of such notice to, and file his qualifying papers and oath prescribed by s. 99.021 with, the Department of State. Upon receipt of the copy of such notice and the qualifying papers, the department shall certify the name of the candidate to the appropriate supervisor or supervisors of elections as having qualified for the office sought.

(b) Each candidate for nomination to a county office, or district office not covered by paragraph (a), shall submit his petition, prior to noon of the 92nd day preceding the first primary election, to the supervisor of elections of the county for which the petition was circulated. The supervisor shall check the signatures on the petition to verify their status as electors of the political party for which the candidate seeks nomination and of the county, district, or other geographical entity represented by the office being sought. Prior to the first date for qualifying, the supervisor shall determine whether the required number of signatures has been obtained for the name of the candidate to be placed on the ballot and shall notify the candidate. If the required number of signatures has been obtained, the candidate shall, during the time prescribed for qualifying for office, submit a copy of the notice and file his qualifying papers and oath prescribed by s. 99.021 with the supervisor of elections. Upon receipt of the copy of such notice and the qualifying papers by the supervisor of elections, such candidate shall be entitled to have his name printed on the ballot.

History.—s. 2, ch. 74-119; s. 6, ch. 77-175; s. 29, ch. 79-400.

99.0955 Independent candidate for office; name on general election ballot.—

(1) Any registered elector seeking to have his name placed on the ballot at the general election as an independent candidate for an office may have his name printed on the general election ballot in which election such office is to be filled, provided he is otherwise qualified to hold the office that he seeks and

provided a petition requesting that he be assigned a position on the general election ballot is signed by the required number of registered electors. Such person shall obtain the signatures on a petition form prescribed by the Department of State and furnished by the appropriate qualifying officer. Such forms may be obtained from the qualifying officer at any time after the first Tuesday following the first Monday in January preceding the general election, but prior to the 49th day prior to the date of the first primary election.

(2) A candidate for an office elected on a statewide basis shall obtain the signatures of a number of the qualified electors equal to 3 percent of the registered electors of Florida, as shown by the compilation by the Department of State for the last preceding general election. When joint candidacies for the offices of Governor and Lieutenant Governor are provided by law, independent candidates for the offices of Governor and Lieutenant Governor shall form a joint candidacy, and only one petition shall be used to place both names on the ballot as otherwise provided in this section. A candidate for any federal, state, county, or district office to be elected on less than a statewide basis shall obtain the signatures of a number of the qualified electors of the district, county, or other geographical entity equal to at least 3 percent of the total number of the registered voters of the district, county, or other geographical entity represented by the office sought, as shown by the compilation by the Department of State for the last preceding general election.

(3)(a) Each candidate for a federal, state, or multicounty district office shall submit a separate petition for each county from which signatures are sought. Each petition shall be submitted, prior to noon of the 49th day preceding the first primary election, to the supervisor of elections of the county for which such petition was circulated. Each supervisor to whom a petition is submitted shall check the names and shall, upon payment of the cost of checking the petitions or filing of the oath as prescribed in s. 99.097, certify to the Department of State, within 30 days of the last day for qualifying, the number shown as registered electors of said county. The Department of State shall determine whether or not the required number of signatures has been obtained and shall notify the candidate. If the required number of signatures has been obtained and the candidate has, during the time prescribed for qualifying for office, filed his qualifying papers with the Department of State, paid his filing fee, and taken the oath provided in s. 99.021, such candidate shall be entitled to have his name printed on the general election ballot. However, any candidate who is unable to pay such fee without imposing an undue burden on his personal resources or upon resources otherwise available to him shall, upon written certification of such inability given under oath to the Department of State, be exempt from paying the filing fees. The name of each candidate who is entitled pursuant to this paragraph to have his name printed on the general election ballot shall be certified to the supervisor of elections of each county affected by such candidacy by the Department of State at the time the names of other candidates to be printed on the

general election ballot are certified to each supervisor.

(b) Each candidate for a county office, or district office not covered by paragraph (a), shall submit his petition, prior to noon of the 49th day preceding the first primary election, to the supervisor of elections of the county for which such petition was circulated. The supervisor shall determine whether the required number of signatures has been obtained and shall, within 30 days of the last day for qualifying, notify the candidate. If the required number of signatures has been obtained for the name of the candidate to be placed on the ballot and the candidate has, during the time prescribed for qualifying for office, filed his qualification papers with the supervisor of elections, paid his filing fee, and taken the oath prescribed in s. 99.021, such candidate shall be entitled to have his name printed on the general election ballot. However, any candidate who is unable to pay such fee without imposing an undue burden on his personal resources or upon resources otherwise available to him shall, upon written certification of such inability given under oath to the supervisor, be exempt from paying the filing fee. Upon paying the cost of checking the petitions or filing the oath required by s. 99.097, such candidate shall be entitled to have his name placed on the general election ballot.

Note.—Former s. 99.152.

99.096 Minor party candidates; names on ballot.—

(1) A minor political party may have the names of its candidates for offices which are elected on a statewide basis printed on the general election ballot in an election in which one or more of those offices will be filled if a petition requesting that the party be assigned a position on the general election ballot is signed by 3 percent of the registered electors of the state, as shown by the compilation by the Department of State for the last preceding general election. A minor political party may have the names of its candidates for offices which are elected on less than a statewide basis printed on the general election ballot in an election in which one or more of those offices are to be filled if such party has qualified by petition to have a slate of candidates for offices elected on a statewide basis printed on the ballot and if such petition requesting that the party be assigned a position on the general election ballot is signed by 3 percent of the registered electors of the district, county, or other geographical entity represented by the office, as shown by the compilation by the Department of State for the last preceding general election.

(2) Petitions to have a slate of candidates printed on the ballot shall be provided by the Department of State. The form of the petitions shall be prescribed by the Department of State. A minor political party may obtain such petition forms at any time after the first Tuesday after the first Monday in January preceding said general election, but prior to the 49th day prior to the date of the first primary election.

(3) A separate petition shall be submitted from each county for which signatures are solicited. The

petition shall be submitted to the supervisor of elections of the county prior to noon of the 49th day preceding the first primary election, and the supervisor shall check the names and shall, upon payment of the cost of checking the petitions prescribed in s. 99.097, certify, within 30 days of the last day for qualifying, the number shown as registered electors of the county. The supervisor shall then forward the certificate to the Department of State which shall determine whether or not the percentage factor as required in this section has been met. When the percentage factor has been met, the Department of State shall notify the minor party executive committee that the party has secured a position on the general election ballot.

(4) The executive committee of the party shall, at the time of submitting the petitions to the various supervisors of elections, but no later than noon of the 49th day preceding the first primary election, submit to the Department of State an official list of the candidates nominated by that party to be on the ballot in the general election. If the minor party has qualified to have a slate of candidates for any offices for which candidates are required to qualify with a supervisor of elections, the Department of State shall notify such supervisor of the name of each candidate eligible to qualify for such an office. Candidates selected by a party pursuant to this section shall qualify with the Department of State or appropriate supervisor of elections, pay their filing fees, and take and subscribe to the oath provided in s. 99.021 during the time prescribed for qualifying for office. Any candidate who is unable to pay such fee without imposing an undue burden on his personal resources or upon resources otherwise available to him shall, upon written certification of such inability given under oath to the Department of State or appropriate supervisor of elections, be exempt from paying the filing fee. The official list of nominated candidates may not be changed by the party after having been filed with the Department of State, except that candidates who have qualified may withdraw from the ballot pursuant to the provisions of this code.

History.—s. 5, ch. 70-269; s. 1, ch. 70-439; s. 4, ch. 74-119; s. 8, ch. 77-175; s. 3, ch. 78-188.

Note.—Former s. 101.261.

99.0965 Minor parties; selection of candidates.—A minor political party with a position on the general election ballot may provide for the designation of its official list of nominated candidates in any manner that it deems proper. The state executive committee of the party shall by resolution adopt a procedure for the selection of candidates, a copy of which shall be submitted to the Department of State.

History.—s. 5, ch. 70-269; s. 1, ch. 70-439; s. 9, ch. 77-175.

Note.—Former s. 101.263.

99.097 Verification of signatures on petitions.—

(1) As determined by each supervisor, based upon local conditions, the checking of names on petitions may be based on the most inexpensive and administratively feasible of either of the following methods of verification:

(a) A name-by-name, signature-by-signature

check of the number of authorized signatures on the petitions; or

(b) A check of a random sample, as provided by the Department of State, of names and signatures on the petitions. The sample must be such that a determination can be made as to whether or not the required number of signatures have been obtained with a reliability of at least 99.5 percent. Rules and guidelines for this method of petition verification shall be promulgated by the Department of State, which may include a requirement that petitions bear an additional number of names and signatures, not to exceed 15 percent of the names and signatures otherwise required. If the petitions do not meet such criteria, then the use of the verification method described in this paragraph shall not be available to supervisors.

(2) When a petitioner submits petitions which contain at least 15 percent more than the required number of signatures, he may require that the supervisor of elections use the random sampling verification method in certifying the petition.

(3) A name on a petition, which name is not in substantially the same form as a name on the voter registration books, shall be counted as a valid signature if, after comparing the signature on the petition with the signature of the alleged signer as shown on the registration books, the supervisor determines that the person signing the petition and the person who registered to vote are one and the same. In any situation in which this code requires the form of the petition to be prescribed by the Department of State, no signature shall be counted toward the number of signatures required unless it is on a petition form prescribed by the Department of State.

(4) The supervisor shall be paid the sum of 10 cents for each signature checked or the actual cost of checking such signature, whichever is less, by the candidate, minor party, or person authorized by such minor party submitting the petition or, in the case of a petition to have an issue placed on the ballot, by the person or organization submitting the petition. However, if a candidate cannot pay such charges without imposing an undue burden on his personal resources or upon the resources otherwise available to him, he shall, upon written certification of such inability given under oath to the supervisor, be entitled to have the signatures verified at no charge. If such candidate has filed the oath prescribed by s. 99.095(1), he shall not be required to file a second oath in order to have the signatures verified at no charge. However, an oath in lieu of payment of the charges shall not be allowed to verify the signatures on a petition to have a minor party's slate of candidates placed on the ballot or to have an issue placed on the ballot. In the event a candidate is entitled to have the signatures verified at no charge, the board of county commissioners of each county in which the signatures are verified at no charge shall submit the total number of such signatures checked in the county to the Comptroller no later than December 1 of the general election year, and the Comptroller shall cause such board of county commissioners to be reimbursed from the General Revenue Fund in an amount equal to 10 cents for each name checked or

the actual cost of checking such signatures, whichever is less.

(5) The candidate; an announced opponent; a representative of a designated political committee; or a person, party, or other organization submitting the petition which does not wish to accept the results of a verification pursuant to subsection (1)(b) may require a complete check of the names and signatures pursuant to subsection (1)(a). If any such candidate; announced opponent; representative of a designated political committee; or party, person, or organization submitting the petition requires such a complete check and the result is not changed as to the success or lack of success of the petitioner in obtaining the requisite number of valid signatures, then such candidate, unless he has filed the oath stating that he is unable to pay such charges; announced opponent; representative of a designated political committee; or party, person, or organization submitting the petition shall pay to the board of county commissioners of each affected county for the complete check an amount calculated at the rate of 10 cents for each additional signature checked or the actual cost of checking such additional signatures, whichever is less. Such petitions shall be retained by the supervisor for a period of 1 year following the election for which such petitions are circulated.

History.—s. 2, ch. 76-233; s. 10, ch. 77-175.

99.103 Department of State to remit part of filing fees and party assessments of candidates to state executive committee.—

(1) If more than three-fourths of the full authorized membership of the state executive committee of any party was elected at the last previous election for such members and if such party shall be declared by the Department of State to have recorded on the registration books of the counties, as of the first Tuesday after the first Monday in January prior to the first primary in general election years, 5 percent of the total registration of such counties when added together, such committee shall receive, for the purpose of meeting its expenses, all filing fees collected by the Department of State from its candidates less an amount equal to 15 percent of the filing fees, which amount the Department of State shall deposit in the General Revenue Fund of the state.

(2) Not later than 30 days prior to the first primary in even-numbered years, the Department of State shall remit all filing fees, less the amount deposited in general revenue pursuant to subsection (1), or party assessments that may have been collected by it to the respective state executive committees of the parties complying with subsection (1). Party assessments collected by the Department of State shall be remitted to the appropriate state executive committee, irrespective of other requirements of this section, provided such committee is duly organized under the provisions of chapter 103.

History.—s. 1, ch. 29935, 1955; s. 24, ch. 57-1; s. 1, ch. 57-62; s. 4, ch. 57-166; s. 1, ch. 69-295; ss. 10, 35, ch. 69-106; s. 11, ch. 77-175.

99.121 Department of State to certify nominations to supervisors of elections.—The Department of State shall certify to the supervisor of elections of each county affected by a candidacy for office the names of persons nominated to such office. The

names of such persons shall be printed by the supervisor of elections upon the ballot in their proper place as provided by law.

(1)(a) If any vacancy occurs in any office which is required to be filled pursuant to s. 1(f), Art. IV of the State Constitution and the remainder of the term of such office is 28 months or longer, then at the next general election a person shall be elected to fill the unexpired portion of such term, commencing on the first Tuesday after the first Monday following such general election.

(b) If such a vacancy occurs prior to the first day set by law for qualifying for election to office at such

general election, any person seeking nomination or election to the unexpired portion of the term shall qualify within the time prescribed by law for qualifying for other offices to be filled by election at such general election.

(c) If such a vacancy occurs prior to the first primary but on or after the first day set by law for qualifying, the Secretary of State shall set dates for qualifying for the unexpired portion of the term of such office. Any person seeking nomination or election to the unexpired portion of the term shall qualify within the time set by the Secretary of State. If time does not permit party nominations to be made in conjunction with the first and second primary elections, the Governor may call a special primary election, and, if necessary, a second special primary election, to select party nominees for the unexpired portion of such term.

(2) Whenever there is a vacancy for which a special election is required pursuant to s. 100.101(1)-(4) and a special election is called by the Governor to fill the vacancy in such office, nominees of political parties other than minor political parties shall be chosen under the primary laws of Florida in a special primary election which shall be called by the Governor who, after consultation with the Secretary of State, may fix the date of a primary election and, if necessary, a second primary election to select nominees of political parties other than minor political parties to become candidates in the special election. The dates fixed by the Governor shall be specific days certain and shall not be established by the happening of a condition or stated in the alternative. If a vacancy occurs in the office of state senator and no session of the Legislature is scheduled to be held prior to the next general election, the Governor may fix the dates for any special primary and for the special election to coincide with the dates of the first and second primary and general election. If a vacancy in office occurs in any district in the Florida Senate or House of Representatives or in any Congressional District, and no session of the Legislature, or session of Congress if the vacancy is in a Congressional District, is scheduled to be held during the unexpired portion of the term, the Governor is not required to call a special election to fill such vacancy.

(a) The dates for candidates to qualify in such special election or special primary election shall be fixed by the Department of State and candidates shall qualify not later than noon of the last day so fixed.

(b) The filing of campaign expense statements by candidates in such special elections or special primaries shall be not later than such dates as shall be fixed by the Department of State, and in fixing such dates the Department of State shall take into consideration and be governed by the practical time limitations.

The party assessment shall be paid to the appropriate executive committee of the political party to which the candidate belongs.

(d) Each county canvassing board shall make as speedy a return of the result of such special elections

and primaries as time will permit, and the Elections Canvassing Commission likewise shall make as speedy a canvass and declaration of the nominees as time will permit.

(3)(a) In the event that death, resignation, withdrawal, removal or any other cause or event should cause a party to have a vacancy in nomination which leaves no candidate for an office from such party, the Governor shall, after conferring with the Secretary of State, call a special primary election and, if necessary, a second special primary election to select for such office a nominee of such political party. The dates on which candidates may qualify for such special primary election shall be fixed by the Department of State, and the candidates shall qualify no later than noon of the last day so fixed. The filing of campaign expense statements by candidates in special primaries shall not be later than such dates as shall be fixed by the Department of State. In fixing such dates the Department of State shall take into consideration and be governed by the practical time limitations. The qualifying fees and party assessment of such candidates as may qualify shall be the same as collected for the same office at the last previous primary for that office. Each county canvassing board shall make as speedy a return of the results of such primaries as time will permit, and the Elections Canvassing Commission shall likewise make as speedy a canvass and declaration of the nominees as time will permit.

(b) If the vacancy in nomination occurs later than September 15, or if the vacancy in nomination occurs with respect to a candidate of a minor political party which has obtained a position on the ballot, no special primary election shall be held and the Department of State shall notify the chairman of the appropriate state, district, or county political party executive committee of such party, and the chairman shall as soon as possible call a meeting of his executive committee to designate a nominee to fill the vacancy. The nominee shall be named as soon as possible in order that he may have his name printed or otherwise placed on the ballot of the ensuing general election, but in no event shall the supervisor of elections be required to place a name on a ballot submitted less than 5 days prior to the election. For purposes of this paragraph, "district political party executive committee" means the members of the state executive committee of a political party from those counties comprising the area involving a district office.

(c) When, under the circumstances set forth in the preceding paragraph, vacancies in nomination are required to be filled by committee nominations, such vacancies shall be filled by party rule. In any instance in which a nominee is selected by a committee to fill a vacancy in nomination, such nominee shall pay the same filing fee and take the same oath as he would have taken had he regularly qualified for election to said office.

(4) In the event of unforeseeable circumstances not contemplated in these general election laws concerning the calling and holding of special primary elections and special elections resulting from court order or other unpredictable circumstances, the Department of State shall have the authority by emer-

gency rule to provide for the conduct of orderly elections.

The Department of State shall prepare a notice stating what offices and vacancies are to be filled in the special election, the date set for each special primary election and the special election, the dates fixed for qualifying for office, and the dates fixed for filing campaign expense statements. The department shall deliver a copy of such notice to the supervisor of elections of each county in which the special election is to be held. The supervisor shall have the notice published two times in a newspaper of general circulation in the county at least 10 days prior to the first day set for qualifying for office. 100.291 Record results of election prima facie evidence.—Whenever any bond referendum is called and held, and the minutes have been recorded as provided in s. 100.271 and also a separate finding as to the total number of votes cast in the referendum, both in favor and against the approval of bonds, then a duly certified copy of the finding shall be admissible as prima facie evidence in all state courts of the truth, including the regularity, of the call, conduct, and holding of the referendum at the time and place specified.

Note.—Former s. 103.17.

100.301 Refunding bonds excluded.—Sections 100.201-100.351 shall not apply to refunding bonds, and wherever the word "bond" or "bonds" is used in these sections it shall be construed to exclude refunding bonds; but if the statute, ordinance, or resolution under which refunding bonds are authorized or are to be issued requires a referendum to determine whether such refunding bonds shall be issued, the referendum may be held as provided by ss. 100.201-100.351.

100.311 Local law governs bond election held by municipalities.—No section of this code controlling or regulating bond referenda shall be deemed to repeal or modify any provision contained in any local law relating to bond referenda held by any municipality, but ss. 100.201-100.351 shall be deemed additional and supplementary to any such local law.

100.321 Test suit.—Any taxpayer of the county, district, or municipality wherein bonds are declared to have been authorized, shall have the right to test the legality of the referendum and of the declaration of the result thereof, by an action in the circuit court of the county in which the referendum was held. The action shall be brought against the county commissioners in the case of a county or district referendum, or against the governing authority of the municipality in the case of a municipal referendum. In case any such referendum or the declaration of results thereof shall be adjudged to be illegal and void in any such suit, the judgment shall have the effect of nullifying the referendum. No suit shall be brought to test the validity of any bond referendum unless the suit shall be instituted within 60 days after the declaration of the results of the referendum. In the event proceedings shall be filed in any court to validate the bonds, which have been voted for, then any such taxpayer shall be bound to inter-

vene in such validation suit and contest the validity of the holding of the referendum or the declaration of the results thereof, in which event the exclusive jurisdiction to determine the legality of such referendum or the declaration of the results thereof shall be vested in the court hearing and determining said validation proceedings. If said bonds in the validation proceedings shall be held valid on final hearing or an intervention by the taxpayer shall be interposed and held not to have been sustained, then the judgment in said validation proceedings shall be final and conclusive as to the legality and validity of the referendum and of the declaration of the results thereof, and no separate suit to test the same shall be thereafter permissible.

100.361 Municipal recall.—

(1) **RECALL PETITION.**—Any member of the governing body of a municipality or charter county, hereinafter referred to in this section as municipality, may be removed from office by the electors of the municipality by the following procedure:

(a) A petition shall be prepared naming the person sought to be recalled and containing a "statement of grounds for recall" in not more than 200 words.

1. In a municipality of less than 500 electors, the petition shall be signed by at least 50 electors or by 10 percent of the total number of registered electors of the municipality as of the preceding municipal election, whichever is greater.

2. In a municipality of 500 or more but less than 2,000 registered electors, the petition shall be signed by at least 100 electors or by 10 percent of the total number of registered electors of the municipality as of the preceding municipal election, whichever is greater.

3. In a municipality of 2,000 or more but less than 5,000 registered electors, the petition shall be signed by at least 250 electors or by 10 percent of the total number of registered electors of the municipality as of the preceding municipal election, whichever is greater.

4. In a municipality of 5,000 or more but less than 10,000 registered electors, the petition shall be signed by at least 500 electors or by 10 percent of the total number of registered electors of the municipality as of the preceding municipal election, whichever is greater.

5. In a municipality of 10,000 or more but less than 25,000 registered electors, the petition shall be signed by at least 1,000 electors or by 5 percent of the total number of registered electors of the municipality as of the preceding municipal election, whichever is greater.

6. In a municipality of 25,000 or more registered electors, the petition shall be signed by at least 1,000 electors or by 3 percent of the total number of registered electors of the municipality as of the preceding municipal election, whichever is greater. A specific person shall be designated therein as chairman of the 'committee to act for the 'committee. Only qualified electors of the municipality are eligible to sign the petition. Signatures and affidavits of circulators shall be executed as provided in paragraph (c). All signatures shall be obtained within a period of 30 days, and the petition shall be filed within 30 days after the date the first signature is obtained on the petition.

(b) The grounds for removal of elected municipal officials shall, for the purposes of this act, be limited to the following:

1. Malfeasance;
2. Misfeasance;

3. Neglect of duty;
4. Drunkenness;
5. Incompetence;
6. Permanent inability to perform official duties;
- and
7. Conviction of a felony involving moral turpitude.

(c) Each elector of the municipality signing a petition shall sign his name in ink or indelible pencil as registered in the office of the supervisor of elections and shall state his place of residence and voting precinct. Each counterpart of the petition shall contain appropriate lines for signature by electors and a form of affidavit, to be executed by the circulator thereof, verifying the fact that the circulator saw each person sign the counterpart of the petition, that each signature appearing thereon is the genuine signature of the person it purports to be, and that the petition was signed in the presence of the circulator on the date indicated.

(d) The petition shall be filed with the city auditor or clerk, or his equivalent, by the person designated as chairman of the 'committee, and, when the petition is filed, the city auditor or clerk, or his equivalent, shall submit such petition to the county supervisor of elections who shall, within a period of not more than 30 days, determine whether the petition contains the required valid signatures. The supervisor shall be paid by the persons or 'committee seeking verification the sum of 10 cents for each name checked.

(e) If it is determined that the petition does not contain the required signatures, the city auditor or clerk, or his equivalent, shall so certify to the governing body and file the petition without taking further action, and the matter shall be at an end. No additional names may be added to the petition, and the petition shall not be used in any other proceeding.

(f) If it is determined that the petition has the required signatures, then the city auditor or clerk, or his equivalent, shall at once serve upon the person sought to be recalled a certified copy of the petition. Within 5 days after service, the person sought to be recalled may file with the city auditor or clerk, or his equivalent, a defensive statement of not more than 200 words. The city auditor or clerk, or his equivalent, shall, within 5 days, prepare a sufficient number of typewritten, printed, or mimeographed counterparts of the recall petition and "statement of grounds for recall" and defensive statements thereto, as well as the names and affidavits upon the original petition, and deliver them to the person who has been designated as chairman of the 'committee and take his receipt therefor. The prepared counterpart shall be entitled "Recall Petition and Defense" and shall contain lines and spaces for signatures of registered electors, place of residence, election precinct number, and date of signing, together with affidavits to be executed by the circulators which conform to the provisions of paragraph (c). The city auditor or clerk, or his equivalent, shall deliver forms sufficient to carry the signatures of 30 percent of the registered electors.

(g) Upon receipt of the counterparts, the 'committee may circulate them to obtain the signatures of 15 percent of the electors. Any elector who signs

a recall petition shall have the right to demand in writing that his name be stricken from the petition. A written demand signed by the elector shall be filed with the city auditor or clerk, or his equivalent, and upon receipt of the demand the city auditor or clerk, or his equivalent, shall strike the name of the elector from the petition and place his initials to the side of the signature stricken. However, no signature may be stricken after the city auditor or clerk, or his equivalent, has certified the total of electors to the governing body.

(h) Within 60 days after delivery of the counterparts to the chairman, the chairman shall file with the city auditor or clerk, or his equivalent, the counterparts that bear signatures of electors. The city auditor or clerk, or his equivalent, shall assemble all signed counterparts, check to see that each counterpart is properly verified by the affidavit of the circulator, and submit such petitions to the county supervisor of elections who shall ascertain the number of different signatures upon the counterparts, purge the names withdrawn, certify within 30 days whether 15 percent of the qualified electors of the municipality have signed the petitions, and report his findings to the governing body. The supervisor shall be paid by the persons or committee seeking verification the sum of 10 cents for each name checked.

(i) If the petitions do not contain the required signatures, the city auditor or clerk, or his equivalent, shall report such fact to the governing body and file the petitions and the proceedings shall be terminated, and the petitions shall not again be used. If the signatures do amount to 15 percent of the qualified electors, he shall serve notice of that fact upon the person sought to be recalled and deliver to the governing body a certificate as to the percentage of qualified voters who signed.

(2) **RECALL ELECTION.**—If the person designated in the petition files with the city auditor or clerk, or his equivalent, within 5 days after the last-mentioned notice, his written resignation, the city auditor or clerk, or his equivalent, shall at once notify the governing body of that fact, and the resignation shall be irrevocable. The governing body shall then proceed to fill the vacancy according to the provisions of the appropriate law. In the absence of a resignation, the chief judge of the judicial circuit in which the municipality is located shall fix a day for holding a recall election for the removal of those not resigning. Any such election shall be held not less than 30 days or more than 60 days after the expiration of the 5-day period last-mentioned and at the same time as any other general or special election held within the period; but if no such election is to be held within that period, the judge shall call a special recall election to be held within the period aforesaid.

(3) **BALLOTS.**—The ballots at the recall election shall conform to the following: With respect to each person whose removal is sought, the question shall be submitted: "Shall be removed from the office of by recall?" Immediately following each question there shall be printed on the ballots the two propositions in the order here set forth:

"For the recall of"
 "Against the recall of"

Immediately to the right of each of the propositions shall be placed a square on which the electors, by making a crossmark (X), may vote either of the propositions. Voting machines may be used.

(4) **FILLING OF VACANCIES.**—If in any election a majority of the votes cast on the question of removal of any member of the governing body of a municipality is affirmative, the member whose removal is sought shall be deemed removed from office upon the announcement of the official canvass of that election, and the vacancy caused by the recall shall be filled by the governing body according to the provisions of the appropriate law. If, however, an election is held for the recall of more than one member, candidates to succeed them for the unexpired terms shall be voted upon at the same election, and shall be nominated in the same manner as provided by the appropriate law for the nomination of candidates at general elections.

(5) **COUNTING THE VOTE.**—Candidates shall not be nominated to succeed any particular member. If only one member is removed, the candidate receiving the highest number of votes shall be declared elected to fill the vacancy. If more than one member is removed, candidates equal in number to the number of members removed shall be declared elected to fill the vacancies; and, among the successful candidates, those receiving the greatest number of votes shall be declared elected for the longest terms. Cases of ties, and all other matters not herein specially provided for, shall be determined by the rules governing elections generally.

(6) **EFFECT OF RESIGNATIONS.**—No proceedings for the recall of all of the members of the governing body at the same election shall be defeated in whole or in part by the resignation of any or all of them, but, upon the resignation of any of them, the governing body shall have power to fill the vacancy or vacancies until successors are elected, and the proceedings for the recall and election of successors shall continue and have the same effect as though there had been no resignation.

(7) **WHEN PETITION MAY BE FILED.**—Except as otherwise provided, no petition to recall any member of the governing body of a municipality shall be filed until he has served one-fourth of his term of office. No person removed by a recall, or resigning after a petition has been filed against him, shall be eligible to be appointed to the governing body within a period of 2 years after the date of such recall or resignation. The city auditor or clerk, or his equivalent, shall preserve in his office all papers comprising or connected with a petition for recall for a period of 2 years after they were filed. This method of removing members of the governing body of a municipality is in addition to such other methods now or hereafter provided by the general laws of this state.

(8) **OFFENSES RELATING TO PETITIONS.**—No person shall impersonate another, purposely write his name or residence falsely in the signing of any petition for recall or forge any name thereto, or sign any paper with knowledge that he is not a qualified elector of the municipality. No expenditures for campaigning for or against an officer being recalled shall be made until the date on which the recall election is to be held is publicly announced. The

¹committee and the officer being recalled shall be subject to chapter 106. No person shall employ or pay another to accept employment or payment for circulating a recall petition. Any person violating any of the provisions of this section shall be deemed guilty of a misdemeanor of the second degree and shall, upon conviction, be punished as provided by law.

(9) **INTENT.**—It is the intent of the Legislature that the recall procedures provided in this act shall be uniform statewide. Therefore, all municipal charter and special law provisions which are contrary to the provisions of this act are hereby repealed to the extent of this conflict.

(10) **PROVISIONS APPLICABLE.**—The provisions of this act shall apply to cities and charter counties which have adopted recall provisions.

History.—ss. 1, 2, ch. 74-130; s. 1, ch. 77-174; s. 12, ch. 77-175; s. 1, ch. 77-279.

Note.—Prior to the amendment of this section by ch. 77-175, the electors who had signed the original petition for recall were designated a "committee" for the purpose of making the charges contained in the statement of grounds for recall. The deletion of this definition was apparently unintended.

100.371 Initiatives; procedure for placement on ballot.—

(1) Constitutional amendments proposed by initiative shall be placed on the ballot for the general election occurring in excess of 90 days from the certification of ballot position by the Secretary of State.

(2) Such certification shall be issued when the Secretary of State has received verification certificates from the supervisors of elections indicating that the requisite number and distribution of signatures of electors have been submitted to and verified by the supervisors.

(3) The sponsor of an initiative amendment shall, prior to obtaining any signatures, register as a political committee pursuant to s. 106.03 and submit the text of the proposed amendment to the Secretary of

State, with the form on which the signatures shall be affixed, and shall obtain the approval of the Secretary of State of such form. The Secretary of State shall promulgate rules pursuant to s. 120.54 prescribing the style and requirements of such form.

(4) The sponsor shall submit signed forms to the appropriate supervisor of elections for verification as to the number of registered electors whose signatures appear thereon. The supervisor shall promptly verify the signatures upon payment of the fee required by s. 99.097. Upon completion of verification, the supervisor shall execute a certificate indicating the total number of signatures checked, the number verified as being of registered electors, and the distribution by congressional district. This certificate shall be immediately transmitted to the Secretary of State. The supervisor shall retain the signature forms for at least 1 year.

(5) The Secretary of State shall determine from the verification certificates received from supervisors of elections the total number of verified signatures and distribution of such signatures by congressional districts. Upon a determination that the requisite number and distribution of signatures have been obtained, the secretary shall issue a certificate of ballot position for that proposed amendment and shall assign a designating number pursuant to s. 101.161. A petition shall be deemed to be filed with the Secretary of State upon the date of the receipt by the secretary of a certificate or certificates from supervisors of elections indicating the petition has been signed by the constitutionally required number of electors.

(6) The Department of State shall have the authority to promulgate rules in accordance with s. 120.54 to carry out the provisions of this section.

101.011 Voting by paper ballot.—

(1) In counties where paper ballots are used, each elector shall be given a ballot by the inspector. Before delivering the ballot to the elector, one of the inspectors shall write his initials or name on the stub attached to the ballot; then the elector shall, without leaving the polling place, retire alone to a booth or compartment provided, and place an "X" mark after the name of the candidate of his choice for each office to be filled, and likewise mark an "X" after the answer he desires in case of a constitutional amendment or other question submitted to a vote.

(2) No paper ballot shall be voided or declared invalid in any election within the state by reason of the fact that same is marked other than with an "X," so long as there is a clear indication thereon to the election officials that the person marking such ballot has made a definite choice, and provided further, that the mark placed on said ballot with respect to any candidate by any such voter shall be located in the blank space on the ballot opposite such candidate's name.

(3) After preparing his paper ballot, the elector shall fold the ballot so as to conceal the face of the ballot and show the stub attached with the name or initials of the inspector and hand it to the receiving inspector, who shall detach the stub and return the ballot to the elector to deposit in the ballot box in the presence of the inspectors. The detached stubs shall be numbered consecutively and filed by the inspectors.

(4) If the elector marks more names than there are persons to be elected to an office, or if it is impossible to determine the elector's choice, his ballot shall not be counted for the office; but this shall not vitiate the ballot as to those names which are properly marked, and nothing in this code shall be construed to prevent any elector, at any general election, from voting for any qualified candidate.

(5) Any elector who shall, by mistake, spoil a ballot so he cannot vote the same may return it to the inspectors, who shall immediately detach the stub, destroy the ballot without examination, and give the elector another ballot. In no case shall an elector be furnished with more than three ballots or carry a ballot outside the polling room. The clerk shall keep a record of all ballots destroyed.

Note.—Former s. 99.28.

101.021 Elector to vote the primary ballot of the political party in which he is registered.—In a primary election a qualified elector is entitled to vote the official primary election ballot of the political party designated in his registration, and no other. It is unlawful for any elector to vote in a primary for any candidate running for nomination from a party other than that in which such elector is registered.

History.—s. 41, ch. 6469, 1913; RGS 345; CGL 402; s. 5, ch. 26870, 1951; s. 1, ch. 28156, 1953; s. 13, ch. 77-175.

Note.—Former s. 102.40.

101.031 Instructions for electors.—

(1) The Department of State, or in case of municipal elections the governing body of the municipality, shall print, in large type on cards, instructions for the electors to use in voting. It shall provide not less than two cards for each voting precinct and furnish such cards to each supervisor upon requisition. Each supervisor of elections shall send a sufficient number of these cards to the precincts prior to an election. The election inspectors shall display the cards in the polling places as information for electors. The cards shall contain information about how to vote and such other information as the Department of State may deem necessary.

(2) In case any elector, after entering the voting booth, shall ask for further instructions concerning the manner of voting, two election officers who are not both members of the same political party, if present, or, if not, two election officers who are members of the same political party, shall give such instructions to such elector, but no officer or person assisting an elector shall in any manner request, suggest, or seek to persuade or induce any elector to vote for or against any particular ticket, candidate, amendment, question, or proposition. After giving the elector instructions and before the elector has voted, the officers or persons assisting the elector shall retire, and such elector shall vote in secret.

(1) In any county in which voting machines are not used, there shall be printed as many official ballots as shall be equal to 110 percent of the number of registered electors. The printing and delivery of ballots and cards of instruction shall, in a municipal election, be paid for by the municipality, and in all other elections by the county.

(2) In any county in which voting machines are used, two sets of official ballots shall be provided for each polling place for each precinct, of which one set shall be inserted or placed in or upon the machine and the other retained in the custody of the supervisor, unless it shall become necessary during the election to make use of same upon or in said machine.

101.22 Voting procedure, paper ballots.—Before any paper ballot is delivered to an elector at the polls on election day, one of the inspectors shall affix his initials on the line provided on each of the two ballot stubs and the elector shall sign his name on the line on the top stub, or, if he is unable to write, he shall sign his mark. The inspector shall compare the signature on the ballot stub with the signature on the elector's registration and, if necessary, require other identification. If the inspector is reasonably sure that the person is entitled to vote, he shall detach and retain the upper stub, and the elector shall go to the booth and mark his ballot and, after he has marked his ballot, he shall fold it so as to leave the stub remaining attached visible so that it can be detached without unfolding. The inspector shall compare it with the stub he retained and, if it is the ballot he delivered to the elector, he shall detach and retain the remaining stub, and the elector shall then deposit the folded ballot in the ballot box. But, if the marked ballot returned proves to be a different one from the one delivered to him, the inspector shall search the elector, and, if the original ballot is found on his person, the inspector shall take possession of the ballot and discharge the elector from the polling place without permitting him to vote. An inspector of elections, where paper ballots are used, is clothed with such police power as is necessary to carry out the provisions of this section.

(1) When any person has been admitted to vote, his name shall be checked by the clerk or one of the inspectors at the place indicated upon the registration books or voter history form provided by the su-

pervisor. One of the inspectors shall, at the same time, keep a poll list containing names of electors who have voted or a list of registered electors, on which those electors who have voted are indicated. Such lists shall be available for inspection during regular voting hours by poll watchers designated and appointed pursuant to s. 101.131, except that the election inspector may regulate access to the lists so as to ensure that such inspection does not unreasonably interfere with the orderly operation of the polling place.

(2) The inspectors shall prevent any person from voting a second time when they have reason to believe that the person has voted. They shall refuse to allow any person to vote who is not a qualified elector or who has become disqualified to vote in the precinct, and may prevent any elector from consuming more than 5 minutes in voting.

Before each election, the supervisor shall place in the ballot box as many ballots as are required in s. 101.21. After securely sealing the ballot box, the supervisor shall send the ballot box to the clerk or inspector of election of the precinct in which it is to be used. The clerk or inspector shall be placed under oath or affirmation to perform his duties faithfully and without favor or prejudice to any political party.

(2) In addition to the names printed on the ballot as provided in subsection (1), the supervisor of elections of each county shall have printed on the general election ballot to be used in the county the names of the judicial officers, as defined in chapter 105, who are entitled to have their names printed on the ballot, and minor party and independent candidates who have obtained a position on the general election ballot in compliance with the requirements of this code.

(1) Any candidate for nomination who has qualified as prescribed by law is entitled to have his name printed on the official primary election ballot. However, when there is only one candidate of any political party qualified for an office, the name of the candidate shall not be printed on the primary election ballot, and such candidate shall be declared nominated for the office.

(2) Any candidate for party executive committee member who has qualified as prescribed by law is entitled to have his name printed on the official presidential preference primary ballot. 101.253 When names not to be printed on ballot.—

(1) No candidate's name, which candidate is required to qualify with a supervisor of elections for any primary or general election, shall be printed on the ballot if such candidate has notified the supervisor of elections in writing, under oath, on or before the 39th day before the election, that he will not accept the nomination or office for which he filed qualification papers. The supervisor of elections may, in his discretion with the approval of the Department of State, allow such a candidate to withdraw after the 39th day before an election, upon receipt of written notice, sworn to under oath, that he will not accept the nomination or office for which he qualified.

(2) No candidate's name, which candidate is required to qualify with the Department of State for any primary or general election, shall be printed on the ballot if such candidate has notified the Department of State in writing, under oath, on or before the 39th day before the election that he will not accept the nomination or office for which he filed qualification papers. The Department of State may in its discretion allow such a candidate to withdraw after the 39th day before an election upon receipt of a written notice, sworn to under oath, that he will not accept the nomination or office for which he qualified.

(3) In no case shall the supervisor be required to print on the ballot a name which is submitted less than 5 days prior to the election. In the event the ballots are printed 5 days or more prior to the election, the name of any candidate whose death, resignation, removal, or withdrawal created a vacancy in office or nomination shall be stricken from the ballot with a rubber stamp or appropriate printing device, and the name of the new nominee shall be inserted on the ballot in a like manner.

101.254 When nominated names to appear in groups or districts.—

When an office requires the nomination of more than one candidate, as many groups or districts shall be numerically designated as there are vacancies to be filled by nomination. Each candidate shall indicate the group or district in which he desires his name to appear on the ballot.

History.—s. 52, ch. 6469, 1913; s. 8, ch. 6874, 1915; RGS 356; CGL 413; s. 3, ch. 26870, 1951; s. 6, ch. 65-378; s. 16, ch. 77-175.

Note.—Former s. 102.49; s. 99.051.

101.27 Voting machine ballots.—

(1) All ballots for voting machines shall be printed on strips of white cardboard, paper, or other material of such size as will fill the ballot frames of the machine, in plain black type as large as the space will permit, so as to show the name of the candidate, statement of the proposed constitutional amendment, or other question or proposition submitted to the electorate at any election.

(2) The captions on the ballots for voting machines shall be placed so as to indicate to the elector what push knob, key, lever, or other device is used or operated in order to cast his vote for or against a candidate, proposed constitutional amendment, or other question or proposition submitted to the electorate at any election.

(3) The order in which the voting machine ballot is arranged shall as nearly as practicable conform to the requirements of the form of the paper ballot for that election. The names of the unopposed candidates shall not appear on the general election ballot. Each unopposed candidate shall be deemed to have voted for himself.

(4) If the official ballot is longer than the voting machine can accommodate, paper ballots may be used in conjunction with a voting machine, in which case the order of the offices on the voting machine ballot shall be the same as prescribed in ss. 101.141(4) and 101.151(3). Where the machine ballot is filled in this order, there shall be a continuation of the ballot in the same order on paper ballots, except that no state or federal opposed officer shall be placed upon a paper ballot. In any primary election, if the official ballot is longer than the voting machine can accommodate, paper ballots may be used in conjunction with a voting machine, in which case the order of the offices on the voting machine ballot shall be the same as prescribed in s. 101.141(4), except that no portion of a category of candidates as established in s. 101.141(4) shall be divided between the voting machine ballot and the paper ballot. In the event a category of candidates must be removed from the voting machine ballot because of the foregoing provision, the supervisor of elections in such county may complete the balance of the voting machine ballot with some whole portion of another category of candidates out of its proper sequence, except that no state or federal office shall be placed upon a paper ballot.

(5) In all primary elections, supervisors of elections may print voting machine ballots in shaded colors to group and identify the number of candidates in any or all races. Colors shall be light or pastel with candidates' names overprinted in plain black type. In no case shall any particular color or

pattern of colors be used to identify any political party in the general election.

(6) Should the above directions for the complete preparation of the ballot be insufficient, the Department of State shall determine and prescribe any additional matter or form in which the ballot may be printed, and, prior to the final printing of the ballot, the supervisor of elections shall submit such ballot to the Department of State for its review and approval to insure that such ballot complies with the form required by law. No ballot shall be used in any election which has not first been approved by the Department of State.

 - (h) Correctly register or record, and accurately count, all votes cast for any and all persons and for or against any and all questions.
 - (i) Be provided with a "protective counter" or "protective device" whereby any operation of the machine before or after the election will be detected.
 - (j) Be provided with a counter which shall show at all times during any election how many persons have voted.
 - (k) Be provided with one device per machine for each party for voting for all presidential electors of that party by one operation, and in that connection there shall be provided on the ballot the words "Electors for President and Vice President" followed by the name of the party and thereafter by the names of the candidates thereof for the offices of President and Vice President, and a registering device which shall register the votes cast for such electors thus voted for collectively, as contemplated by s. 103.011.
- (2) Each voting machine shall be furnished with an electric light, or a proper substitute for one, which shall give sufficient light to enable electors

If it is impracticable to supply each election district with voting machines at any election, as many may be supplied as it is practicable to procure, and these may be used in the districts as the officers adopting the machine may direct. The board of county commissioners or the municipal authorities, on the adoption and rental or purchase of voting machines, shall provide for the payment for such machines.

is outweighed by the detrimental effects of a delay in the acquisition of such equipment; or

(b) If a majority of the governing body finds that there is but a single source from which suitable equipment may be obtained.

If such conditions are found to exist, the chairman of the governing body shall certify to the Division of Elections the situation and conditions requiring an exception to the competitive bidding requirements of this section.

(c) The availability of used equipment from another county in the state;

(d) The cost of obtaining and operating the proposed new equipment; and

(e) Such other factors as may be relevant to the need for such equipment.

(3) Any governing body contemplating the purchase or sale of voting equipment shall notify the Division of Elections of such considerations. The division shall attempt to coordinate the sale of excess or outmoded equipment by one county with purchases of necessary equipment by other counties.

(4) The division shall inform the governing bodies of the various counties of the state of the availability of new or used voting equipment and of sources available for obtaining such equipment.

(1) The board of county commissioners or the governing body of a municipality may, if it so elects, submit to the electors of a county or municipality at a general or special election the question of whether it shall adopt voting machines; however, no special election shall be called for the sole purpose of determining this question.

(2) If a majority of the electors approve of same, the board of county commissioners of the county or governing body of the municipality shall adopt for use at elections any kind of voting machine that meets the requirements set forth in s. 101.28, and the machines shall be used at any and all elections held in the county or municipality or any part thereof for voting, registering, and counting votes cast at any election; except that the board of county commissioners or governing body of the municipality may purchase, install, and use not to exceed five voting machines for experimenting with same in districts or precincts without submission of the question to the electors of the county or municipality. Each representative shall have written authorization from the candidate, group, or party that he represents and shall not interfere or assume any of the deputy custodian's duties. Any such representative may check the voting machines to make sure they are in proper working order. At the completion of this inspection, the machines shall be sealed, and any such authorized representative may remain present and record the

voting machine numbers, the protective counter numbers, and the seal numbers. The representative shall certify the number of machines and that the counters are set at zero and the numbers registered on the protective counters and on the seals. Upon completion of sealing the voting machines, the keys shall be delivered to the board of officials having charge of the election, together with a written report stating that such machines are properly prepared for the election. The machines shall be transferred to the polling place, and the local authorities shall provide protection against molestation or damage to such machines. The lantern or light fixtures shall be in good order before opening the polls.

101.36 Voting machines or electronic or electromechanical voting; when used.—In counties that have adopted voting machines or electronic or electromechanical voting, the machines or voting devices shall be so arranged as to require individual voting for all offices. The order in which the ballot is arranged shall as nearly as practicable conform to the requirements of the form of the paper ballot. The voting machines or devices shall be used by the counties in all general, primary, and special elections. In counties above 260,000 population, according to the latest federal census, which have adopted the use of voting machines or electronic or electromechanical voting, it shall be mandatory for all municipalities in such counties to use such voting machines or devices in all elections, but in all counties of lesser population it shall be optional with each municipality as to whether it shall use ballots or voting machines or devices in its elections. Authority is hereby granted to the board of county commissioners of any county that has adopted voting machines or electronic or electromechanical voting to permit municipalities within the county to use county-owned voting machines or devices and to permit public agencies, private organizations, and others to use such machines or devices on a rental basis, upon such terms and conditions as the board may determine.

101.37 Location of voting machines.—At all elections where voting machines are used, the arrangement of the polling room shall be as follows: The exterior of the voting machine and every part of the polling room shall be in plain view of the election officers; the voting machine shall be placed at least 1 foot from every wall or partition of the polling room and at least 4 feet from any table where any of the election officers may be engaged or seated. The voting machine shall be so placed that the ballots on the face of the machine can be plainly seen by the election officers and the party watchers when not in use by electors. The election officers shall not themselves be, or permit any other person to be in any position or near any position that will permit one to see or ascertain how an elector votes, or how he has voted. The election officer attending the machine

shall inspect the face of the machine after each elector has cast his vote, to see that the ballots on the face of the machine are in proper places and that the machine has not been injured. During elections the door or other covering of the counter compartment of the machine shall not be unlocked or open, or the counters exposed except for good and sufficient reasons, a statement of which shall be made and signed by the election officers and shall be sent with the returns.

Note.—Former s. 100.19.

101.38 Disposition of voting machine keys immediately following an election.—The keys of the machine shall be enclosed in an envelope supplied by the custodian on which shall be written the number of the machine and the district where it has been used, which envelope shall be securely sealed and endorsed by the election officers and returned to the officer from whom the keys were received. The number on the seal and the number registered on the protective counter shall be written on the envelope containing the keys. All keys for voting machines shall be kept securely locked by officials having them in charge. It shall be unlawful for any unauthorized person to have in his possession any key of any voting machine, and all election officers or persons entrusted with the keys for election purposes, education, or display purposes, or in the preparation of the machines, shall not retain them longer than necessary to use them for such purposes. All machines shall be stored in a suitable place as soon as possible after the election.

Note.—Former s. 100.27.

101.39 Voting machines, sealing curtains.—Curtains on all voting machines shall be securely sealed or fastened before being used in any election so that the clearance lever can not be operated without opening or closing curtains. And no voting machine, while in use, shall be concealed in any voting place, so as to hide or obscure the machine from public view.

Note.—Former s. 100.44.

101.40 Voting machine out of order.—In case any voting machine used in any precinct shall, during the time the polls are open, become inoperable, the election board shall substitute an operable machine, if possible, and, at the close of the polls, the records of votes shown on the counters of both machines shall be added together in ascertaining the results of the election. If no other machine can be prepared for use at the election, and the inoperable machine cannot be repaired in time for use, unofficial ballots made as nearly as possible like the official ballots may be used, received by election officers, and placed in a receptacle, in such case to be provided by said officers, and counted with votes registered on the voting machines, and the result shall be de-

clared the same as though no machine had become inoperable. The ballots thus voted shall be preserved and returned with a certificate or statement setting forth how and why same were voted.

Note.—Former s. 100.16.

101.43 Substitute ballot.—When voting machines are used and the required official ballots for a precinct are not delivered in time to be used on election day, or after delivery, are lost, destroyed or stolen, the clerk or other officials whose duty it is to provide ballots for use at such election, in lieu of the official ballots, shall have substitute ballots prepared, conforming as nearly as possible to the official ballots, and the board of election shall substitute these ballots to be used in the same manner as the official ballots would have been used at the election.

101.45 Election board opening polls.—

(1) The election board of each precinct shall attend the polling place by 6 a.m. of the day of the election and shall arrange the furniture, stationery, and voting machines. The keys to the machines shall be delivered to the election officers by 6 a.m. of the day of the election in a sealed envelope on which shall be written or printed the number and location of the machine, the number of the seal, and the number registered on the protective counter or device, as reported by the custodian. The said envelope shall not be opened until at least one member of the board from each of two political parties is present and shall have examined the envelope to see that same has not been opened. Before opening the envelope, the election officers present shall examine the number on the seal on the machine, also the number registered on the protective counter, and see if they are the same as the number written on the envelope. If they are not the same, the custodian or an authorized person must be present when the machine is opened to reexamine such machine and certify that it is properly arranged. If the numbers are found to agree with those on the envelope, the election officer shall proceed to open the doors concealing the counters and each officer shall carefully examine every counter and see that it registers zero, and same is subject to the inspection of official watchers. The machine shall remain locked against voting until the polls are opened, and only electors shall operate same.

(2) If any counter is found not to register at zero, the board of election shall immediately notify the custodian, who shall adjust such counters at zero, but if it is impracticable for the custodian to arrive in time to adjust such counters, the election officers shall immediately make a written statement of the designating letter and number of such counter, together with the number registered thereon, and shall sign and post same upon the wall of the polling room, and it shall remain throughout election day. In filling out the statement of canvass, they shall subtract such number from the total then registered thereon.

(3) If the machine is equipped with a device or devices which produce a printed record of the regis-

ter shown on the candidate and amendment counters, the board of elections of each precinct shall take the necessary steps to secure such printed record from each machine. In the event any counter is found not to register at zero, and if, upon notification, it is impracticable for the custodian to arrive in time to adjust such counter, the board of elections shall post the printed record from such machine in a conspicuous place in such precinct. In filling out the statement of canvass, they shall subtract such number from the total then registered thereon.

Note.—Former s. 100.17.

101.46 Instruction to electors before election.

—The authorities in charge of elections, where voting machines are used, shall designate suitable and adequate times and places for giving instructions to electors who apply, and the machines shall contain a sample ballot showing the title of offices to be filled, and, so far as practicable, the names of candidates to be voted on at the next election. No voting machine which is to be assigned for use in an election shall be used for instruction after having been prepared and sealed for the election. During the public exhibition of any voting machine for any instruction, the counting mechanism shall be concealed, but the doors may be temporarily opened when authorized by the supervisor of elections.

Note.—Former s. 100.12.

101.47 Requirements before elector enters voting machine booth.—

(1) Whenever voting machines are used, each elector desiring to vote shall identify himself to the clerk or an inspector of the election as a duly qualified elector at such election by signing his signature, in ink or indelible pencil, to an identification blank or slip which is in substantially the form provided by this code.

(2) The clerk or inspector shall compare the signature with the signature of the elector upon the registration books, and, if satisfied that the signature is the same, he then shall initial the slip in the place provided and the initials shall constitute an oath or affirmation of the fact stated by the clerk or inspector above his initials.

(3) The supervisor shall supply sufficient containers for each precinct, each container to be securely sealed. Each container shall have a slot large enough to receive the identification slips. Before the polls open, the clerk, in the presence of all inspectors and the public, shall open the container and ascertain that it is empty and, while empty, shall securely seal same, leaving a slot open without breaking or removing the seal; and the clerk or inspectors shall sign their names upon the seal. Printed forms of seals shall be furnished with each container, containing a statement over the place for the signature that the container was opened, emptied, and sealed while empty before the polls were opened; the signing of the certificate shall constitute the clerk's or inspector's certificate to the facts.

(4) No person shall be admitted to a voting machine unless he presents to the clerk or inspector an

identification slip as provided in subsections (1) and (2).

(5) Before the elector enters a voting machine he shall deliver his identification slip duly signed to the clerk or inspector operating the machine. The clerk or inspector shall also initial the slip, and his initials shall constitute an oath or affirmation as to the printed facts set forth above his initials; then the clerk or inspector shall deposit the slip through the slot in the locked or sealed container.

(6) The identification slip, when signed by any person as an elector and initialed by the clerk or inspector comparing his signature and by the clerk or inspector admitting him to the voting machine and depositing slip in the container, shall be prima facie evidence that the person whose name appears thereon as an elector was admitted to the voting machine and that he voted.

(7) The clerk and inspectors shall return all unused signature identification blanks to the supervisor immediately on the closing of the polls and shall seal the slot of the container with a seal signed by all the election officials in that precinct, and the clerk shall deliver same to the supervisor. The supervisor shall destroy all unused signature identification slips as soon as practicable.

(8) The identification slip shall be in substantially the following form:

No.

SIGNATURE IDENTIFICATION SLIP ELECTION

I affix my signature hereto in the place and at the time of voting for the purpose of identifying myself as a duly registered and qualified voter in this election.

.....(Signature of voter).....

I hereby certify that the foregoing signature was signed in my presence during voting hours at this voting precinct and by me compared with that on the registration books and approved for voting in precinct No.

.....(Initials of clerk or inspector).....

I hereby certify that I admitted the person who signed this identification slip to the voting machine; that said voter was personally known to me, or told me that he signed it; and that the number of the voting machine is

.....(Initials of official operating machine).....

(9) The supervisor of elections shall prepare and deliver to each precinct the same number of signature identification slips as there are qualified electors for such precinct. In being prepared, the slips shall either be numbered consecutively beginning with number (1) and continued to such number as there are qualified electors for the county or be uniquely numbered for each elector. In preparing the identification slips, the appropriate information to designate the date, name of county, and kind of election (general, special, or primary) shall be print-

ed in at the appropriate blank spaces appearing in the form. The supervisor shall preserve for 1 year a record in his office showing the number of signature identification slips which he delivered to each precinct, designating on such record the precinct number and address and numbers of slips so delivered.

(10) Any certificate signed by any clerk or inspector of any election certifying to the result of the election in or for any precinct is admissible in evidence in the trial of any cause, either civil or criminal, in any court in the state and, when admitted, shall constitute prima facie evidence that it was signed by the persons whose names are signed thereto and conclusive proof that any person who signed the certificate as clerk or inspector of election was duly appointed and qualified to act throughout the election and in the capacity indicated upon said certificate, unless the contrary is disclosed thereby.

(11) The identification slips and all other election materials required to be delivered to each precinct shall be delivered by enclosing and locking same in the voting machine or a sealed container, along with an itemized list with a receipt in the form: "I hereby certify that I have checked the items listed hereon and acknowledge receipt thereof," which receipt shall be signed by the clerk of the precinct and deposited in the container provided for identification slips.

(12) It shall be unlawful for any person, other than the printer while printing and delivering the slips to the supervisor of elections, the supervisor and his agents in placing the slips in the voting machine or a sealed container for delivery to the voting precincts, the clerks and inspectors, and qualified electors while acting inside of polling places during the election, to have in his possession any signature identification slip or other slip containing the same or substantially the same wording as the signature identification slip; and it shall be unlawful for any person or official to deliver any official slip or other slip containing the same or substantially the same wording as the signature identification slip to any person other than as provided in this section.

(13) All signature identification slips where voting machines are used shall be preserved by the clerk and inspectors of election, but, in those instances where an affidavit has been made in addition to the identification slip, such affidavits and slips bearing the signature of the same persons shall be placed together in a separate envelope and kept separate from the remaining slips. All such slips and affidavits preserved shall be returned to the supervisor whose duty it is to preserve them for at least 1 year.

101.49 Procedure of election officers where signatures differ.—

(1) Whenever any clerk or inspector, upon a just comparison of the signature, shall doubt that the handwriting affixed to a signature identification slip of any elector who presents himself at the polls to vote is the same as the signature of the elector affixed in the registration book, the clerk or inspector shall deliver to the person an affidavit which shall be

in substantially the following form:

STATE OF FLORIDA,
COUNTY OF

(2) The person shall fill out, in his own handwriting or with assistance from a member of the election board, the form and make an affidavit to the facts stated in the filled-in form; such affidavit shall then be sworn to and subscribed before one of the inspectors or clerks of the election who is authorized to administer the oath. Whenever the affidavit is made and filed with the clerk or inspector, the person shall then be admitted to the voting machine to cast his vote, but if the person fails or refuses to make out or file such affidavit, then he shall not be permitted to vote.

Note.—Former s. 100.35.

101.51 Electors to occupy booth alone; time allowed.—

(1) When the elector presents himself to vote, the election official shall ascertain whether his name is upon the register of electors, and, if his name appears and no challenge interposes, or, if interposed, be not sustained, one of the election officials stationed at the entrance shall announce the name of the elector and permit him to enter the booth or compartment to cast his vote, allowing only one elector at a time to pass through to vote. No elector, while casting his ballot, shall occupy a booth or compartment longer than 5 minutes or be allowed to occupy a booth or compartment already occupied or to speak with anyone, except as provided by s. 101.051, while in the polling place.

(2) If an elector requires longer than 5 minutes, then upon a sufficient reason he may be granted a longer period of time by the election officials in charge. After casting his vote, he shall at once leave the polling room by the exit opening and shall not be permitted to reenter on any pretext whatever. After the elector has voted, or declined or failed to vote within 5 minutes, he shall immediately withdraw from the polling place. If he refuses to leave after the lapse of 5 minutes, he shall be removed by the election officials.

Note.—Former ss. 99.27, 99.28, 100.20.

101.54 Tabulation of vote and proclamation of results, where voting machine used.—

(1) As soon as the polls are closed, the inspectors of election shall immediately lock and seal the voting machines against voting. The inspectors then shall sign a certificate stating: that the machines have been locked against voting and sealed; the number of electors as shown on the public counters; the number on the seal; the number registered on the protective counter, if one is provided; and that the voting machines are closed and locked. The inspectors then shall open the counting compartments in the presence of the watchers and all other persons who may be lawfully within the polling place, giving full view of all the counter numbers. The clerk of the board of elections shall then read and announce in distinct tones the designating number and letter on each counter for each candidate's name and the results as shown by the counter numbers. He shall also read and announce the vote on each constitutional amendment, proposition, or other question. The results shall be announced four times by the following procedure. While the clerk is announcing the results, one inspector shall stand by his side and check the clerk's announcements. The vote as registered shall be entered on the certificate of returns by two inspectors of different political affiliation, whenever practicable, but not including the clerk, in the same order on the space which has the same designating number and letter, after which the figures shall be verified by being called off from the counters of the machine by the inspector standing near the clerk. While the inspector is announcing the results, the clerk shall stand by his side and check the inspector's announcement. After the results are announced by the clerk and the inspector, they shall exchange positions with the two inspectors who are tabulating the results. The same procedure as used by the clerk and inspector shall again be followed by the two inspectors in announcing the results. The tabulation shall then be filled out, which shall show the total number of votes cast for each candidate, as shown on his counter, and the number of votes for persons not nominated or elected. The counter compartment of the voting machine shall remain open until the official returns and all other reports have been fully completed and verified by the board of elections. Any candidate or duly accredited watcher who may desire to be present shall be admitted to the polling place from the closing of the polls until count and tabulation are complete. The proclamation of the result of the votes cast shall be deliberately announced in a distinct voice by the clerk who shall read the name of each candidate, with the designating number and letter of his counter and the vote registered on such counter and also the vote cast for and against each question submitted. During each proclamation, ample opportunity shall be given to any person lawfully present to compare the results so announced with the counter dials of the machine, and any necessary corrections shall immediately be made by the board, after which the doors of the voting machine shall be closed and locked. Before adjourning, the board shall, with the seal provided therefor, so seal the operating lever of the machines

that the voting and counting mechanism will be prevented from operating. The same procedure shall be followed for each machine in the precinct, and a final proclamation made of the total vote received by each candidate. As each vote is read and announced, it shall be recorded on two statements by two other members of the board and, when completed, compared with the numbers on the counters of the machine. If found correct, the result shall be announced by the clerk, and the tabulation of votes, after being duly certified and sworn to, shall be filed as provided for filing election returns.

(2) The inspector filing the returns shall deliver to the supervisor the keys of the voting machine, enclosed in a sealed envelope having endorsed thereon a certificate of the inspectors stating the number of the machine or machines, the precinct where it has been used, the number on the seal, and the number on the protective counter, if any.

(3) If the machine is provided with a device or devices which produces a printed record of the votes cast on the candidate and amendment counters, the inspectors of elections shall take the necessary steps to secure such printed record from each machine. Such printed record shall be deemed the official statement or certificate of returns for that machine and shall be properly endorsed, delivered and filed as previously required. If the precinct has more than one machine equipped with a device or devices which produce a printed record of the votes cast on the candidate and amendment counters, the inspectors of elections shall secure such printed record from each machine and shall make a final proclamation of the total votes on the certificate of returns as provided under s. 101.55.

Note.—Former s. 100.23.

101.545 Retention and destruction of certain election materials.—All ballots, forms, and other election materials shall be retained in the custody of the supervisor of elections in accordance with the schedule approved by the Division of Archives and History of the Department of State. All unused ballots, forms, and other election materials may, with the approval of the Department of State, be destroyed by the supervisor after the election for which such ballots, forms, or other election materials were to be used.

History.—s. 20, ch. 77-175.

101.55 Certificate of results.—In precincts where voting machines are used, certificates of results shall be printed to conform with the type of machines used, on a form approved by the Department of State. The designating number and letter on the counter for each candidate shall be printed next to the candidate's name on the certificate of the result. The form of such certificate shall also provide for the entry of the total number of votes cast for each candidate and upon each question. Three of such certificates shall be made in each precinct, of which one shall be sent to the supervisor of the county, another sent to the chairman of the county can-

vassing board, and another publicly posted at the polling place in which the precinct is situated.

Note.—Former s. 100.24.

101.56 Locking machine.—The election officers shall, as soon as the count is completed and ascertained, lock the counter compartment of the machine, and it shall so remain for a period not less than 10 days, unless another election is held within 3 weeks, in which event the machine shall remain locked for 5 days, except in either event it may be opened by the canvassing board or by order of a court of competent jurisdiction.

101.5601 Short title.—Sections 101.5601 through 101.5615 shall be known as the "Electronic Voting Systems Act."

History.—s. 1, ch. 73-156.

101.5602 Purpose.—The purpose of this act is to authorize the use of electronic and electromechanical voting systems in which the voter records his vote in such a manner that votes may be counted by data processing machines at one or more counting places.

History.—s. 2, ch. 73-156; s. 21, ch. 77-175.

101.5603 Definitions.—As used in this act:

(2) "Ballot" means the card, tape, or other vehicle upon which the elector's choices are recorded.

(3) "Ballot information" means the material containing the names of offices and candidates and the questions to be voted on.

(4) "Marking device" means either an approved apparatus used for the piercing of ballots by the voter or any approved device for marking a ballot with ink or other substance which will enable the ballot to be tabulated by means of automatic tabulating equipment.

History.—s. 3, ch. 73-156; s. 21, ch. 77-175.

Thereafter the electronic or electromechanical voting system may be used for voting at all elections for public and party offices and on all measures and for receiving, registering, and counting the votes thereof in such election precincts as the governing body directs. Any such board may contract for the tabulation of votes at a location within

101.5605 Examination and approval of equipment.—

(1) The Department of State shall publicly examine all makes of electronic or electromechanical voting systems submitted to it and determine whether the systems comply with the requirements of s. 101.5606.

(2) Any person owning or interested in an electronic or electromechanical voting system may submit it to the Department of State for examination. The vote counting segment shall be certified after a satisfactory evaluation testing has been performed according to electronic industry standards. This testing shall include, but not be limited to, the basic source program and its security; the ballot reader; the rote processor, especially in its logic and memory components; the digital printer; the fail-safe operations; the counting center environmental requirements; and the equipment reliability estimate. For the purpose of assisting in examining the system, the Department of State may employ not more than three individuals who are expert in one or more fields of data processing, mechanical engineering, and public administration and shall require from them a written report of their examination. The person submitting a system for approval or the board of county commissioners of any county seeking approval of a given system shall reimburse the Department of State in an amount equal to the actual costs incurred by the department in examining the system. Such reimbursement shall be made whether or not the system is approved by the Department of State. Neither the Secretary of State nor any examiner shall have any pecuniary interest in any voting equipment. The Department of State shall approve or disapprove any voting system submitted to it within 180 days after the date of its initial submission.

(3) Within 30 days after completing the examination and upon approval of any electronic or electromechanical voting system, the Department of State shall make and maintain a report on the system, together with a written or printed description and drawings and photographs clearly identifying the system and the operation thereof. As soon as practicable after such filing, the Department of State shall send a notice of certification and, upon request, a copy of the report to the governing bodies of the respective counties of the state. Any voting system that does not receive the approval of the Department of State shall not be adopted for or used at any election. After a voting system has been approved by the department, any change or improvement in the system is required to be approved by the Department of State prior to the adoption of such change or improvement by any county. However, the Department of State shall not reexamine or reapprove the system in its entirety.

(4) No governing body shall purchase or cause to be purchased any certified voting system or equipment without prior approval of the Department of State. The department, within 30 days of receipt of notice of intention to make such a purchase, shall

reexamine the voting system or equipment to be purchased to insure that any changes made in the equipment or system since the most recent certification of the equipment or system also comply with the requirements of this act. If any of the changes do not comply with the requirements of this act, the department shall suspend all sales of the equipment or system in the state until the equipment or system complies with the requirements of this act.

History.—s. 5, ch. 73-156; s. 21, ch. 77-175.

101.5606 Requirements for approval of systems.—No electronic or electromechanical voting system shall be approved by the Department of State unless it is so constructed that:

- (1) It permits and requires voting in secrecy.
- (2) It permits each elector to vote at any election for all persons and offices for whom and for which he is lawfully entitled to vote, and no others; to vote for as many persons for an office as he is entitled to vote for; and to vote for or against any question upon which he is entitled to vote.
- (3) The automatic tabulating equipment may be set to reject all votes for any office or measure when the number of votes therefor exceeds the number which the voter is entitled to cast or when the voter is not entitled to cast a vote for the office or measure.
- (4) It is capable of correctly counting votes.
- (5) When used in primary elections, the automatic tabulating equipment will count only votes for the candidates of one party, reject all votes for an office when the number of votes therefor exceeds the number which the voter is entitled to cast, and reject all votes of a voter cast for candidates of more than one party.
- (6) At presidential elections it permits each elector, by one operation, to vote for all presidential electors of a party or independent candidates for President and Vice President.
- (7) It provides a method for write-in voting.
- (8) It is capable of accumulating a count of the specific number of ballots tallied for a precinct, accumulating total votes by candidate for each office, and accumulating total votes for and against each question and issue of the ballots tallied for a precinct.
- (9) It is capable of tallying votes from ballots of different political parties from the same precinct, in the case of a primary election.
- (10) It is capable of automatically producing precinct totals in printed, marked, or punched form, or a combination thereof.

History.—s. 6, ch. 73-156; s. 21, ch. 77-175.

101.5607 Department of State to prescribe rules and regulations.—The Department of State shall prescribe rules and regulations to achieve and maintain the maximum degree of correctness, impartiality, and efficiency of the procedures of voting, and of counting, tabulating, and recording votes, by the electronic or electromechanical voting systems and methods provided by this act.

History.—s. 7, ch. 73-156; s. 21, ch. 77-175.

101.5608 Paper balloting procedures to apply.—So far as practicable, the procedures for voting paper ballots as prescribed in this code shall apply to procedures followed pursuant to this act. The follow-

ing procedures shall apply, however, and any procedure prescribed for paper ballots which is made impractical because of any of the following requirements may be modified with approval of the Department of State to facilitate adherence to the following requirements:

- (1) After preparing his ballot, the elector shall place his ballot in the secrecy envelope so as to cover the ballot but leave the attached stub exposed.
- (2) The ballot shall have two stubs. Stub number one shall have the ballot serial number on it. Stub number two shall have the official title of the election and the name of the county and state on it. On ballots to be used in the precincts, the ballot serial number shall also be on stub number two. On absentee ballots, the ballot serial number may be on stub number two, but shall be on stub number one.
- (3) Ballots to be used in the precincts shall be assembled in pads so that stub number one will remain on the ballot pad and stub number two will go with the ballot. On absentee ballots, stub number one shall be retained by the supervisor, and stub number two may be retained by the supervisor or sent with the ballot.
- (4) The elector shall sign the signature slip, poll list, or ballot stub on which the ballot serial number may be recorded.
- (5) Absentee ballots shall be placed in the secrecy envelope before being placed in the mailing envelope on which the Voter's Certificate is printed.

History.—s. 8, ch. 73-156; s. 21, ch. 77-175.

101.5609 Ballot requirements.—

- (1) The ballot information, whether placed on the ballot or on the marking device, shall, as far as practicable, be in the order of arrangement provided for paper ballots. Ballots for all questions or propositions to be voted on shall be provided in the same manner and shall be arranged on or in the marking device in the places provided for such purposes.
- (2) When an electronic voting system utilizes ballot information for candidates and propositions to be voted upon, such ballot information may be provided with a series of pages distinguished by different colors. More than one public measure or proposition may be placed on the same page or series of pages.
- (3) In primary elections, a separate ballot information booklet, marking device, and voting booth shall be used for each political party holding a primary, with the ballot information booklet arranged to include pages listing the candidates of the party and public measures and other propositions to be voted upon on the day of the primary election. One ballot may be used for recording the voter's vote on all such races, proposals, public measures, or propositions, and such ballot shall, if possible, be arranged so as to record the voter's vote in a separate column or columns for races, ballot proposals, public measures, or propositions.
- (4) If the ballot information booklet includes pages containing candidates for office and pages containing public measures or propositions to be voted on, the election official in charge of the election shall divide the pages by protruding tabs identifying the division of the pages which relate to candidates, constitutional amendments, bond referenda, or other propositions.

(5) Voting squares may be placed in front of or in back of the names of candidates and statements of questions and shall be of such size as is compatible with the type of system used. Ballots and ballot information shall be printed in a size and style of type as plain and clear as the ballot spaces will reasonably permit. Tear-off stubs shall be of a size suitable for the ballots used and for the requirements of the marking device. The ballots may contain special printed marks and holes as required for proper positioning and reading of the ballots by the automatic tabulating equipment. When ballots are bound into pads, they may be bound at the top or bottom or at either side. In the case of the paper ballots, all offices and questions may be printed on the same sheet of paper.

(6) Absentee ballots may consist of ballot cards, envelopes, or paper ballots voted in person in the office of the election official in charge of the election or voted by mail. When a ballot card is used for voting by mail, it shall be accompanied by a marking device; voter instructions; an envelope which will maintain the secrecy of a marked ballot; a mailing envelope; a specimen ballot showing the proper positions to vote on the ballot card for each party, candidate, proposal, public measure, or proposition; and any other item needed by the elector to cast his vote. If a punching device is required, the ballot card shall be mounted on a suitable material to receive the punched-out chip.

(7) Any voter who spoils his ballot or makes an error may return the ballot to the election officials and secure another, except that in no case shall a voter be furnished more than three ballots. A spoiled ballot shall be preserved, without examination, in an envelope provided for that purpose. The stub shall be removed from the ballot and placed in an envelope separate from the ballot.

History.—s. 9, ch. 73-156; s. 21, ch. 77-175; s. 38, ch. 79-400.

101.5610 Inspection of ballot by election board.—The election board of each precinct shall cause the marking devices to be put in order, set, adjusted, and made ready for voting when delivered to the polling places. Before the opening of the polls, the election board shall compare the ballots used in the marking devices with the sample ballots furnished and see that the names, numbers, and letters thereon agree and shall certify thereto on forms provided by the supervisor of elections.

History.—s. 10, ch. 73-156.

101.5611 Instructions to electors.—

(1) For the instruction of voters on election day, the supervisor of elections shall provide at each polling place one instruction model illustrating the manner of voting with the system. Each such instruction model shall show the arrangement of party rows, office columns, and questions to be voted on. Such model shall be located at a place which voters must pass to reach the official voting booth.

(2) Before entering the voting booth each voter shall be offered instruction in voting by use of the instruction model, and the voter shall be given ample opportunity to operate the model by himself. In

instructing voters, no precinct official may show partiality to any political party or candidate.

History.—s. 11, ch. 73-156; s. 21, ch. 77-175.

101.5612 Testing of tabulating equipment.—

(1) On any day not more than 10 days prior to the election day, the supervisor of elections shall have the automatic tabulating equipment tested to ascertain that the equipment will correctly count the votes cast for all offices and on all measures. Public notice of the time and place of the test shall be given at least 48 hours prior thereto by publication once in one or more newspapers of general circulation in the county or, if there is no newspaper of general circulation in the county, by posting such notice in at least four conspicuous places in the county. The canvassing board shall convene, and each member of the canvassing board shall certify to the accuracy of the test. For the test, the canvassing board may designate one member to represent it. The test shall be open to representatives of the political parties, the press, and the public.

(2) The test shall be conducted by processing a preaudited group of ballots so punched or marked as to record a predetermined number of valid votes for each candidate and on each measure and shall include for each office one or more ballots which have votes in excess of the number allowed by law in order to test the ability of the automatic tabulating equipment to reject such votes. If any error is detected, the cause therefor shall be ascertained and corrected and an errorless count shall be made before the automatic tabulating equipment is approved. The test shall be repeated immediately before the start of the official count of the ballots in the same manner as set forth above. After the completion of the count, the test shall be repeated. The programs and ballots used shall be sealed and retained under the custody of the county canvassing board.

History.—s. 12, ch. 73-156; s. 21, ch. 77-175; s. 39, ch. 79-400.

101.5613 Examination of equipment during voting.—A member of the election board shall occasionally examine the face of the voting machine and the ballot information to determine that the machine and the ballot information have not been damaged or tampered with.

History.—s. 13, ch. 73-156; s. 21, ch. 77-175.

101.5614 Canvass of returns.—

(1) In precincts in which an electronic or electromechanical voting system is used, as soon as the polls are closed, the election board shall secure the marking devices against further voting. They shall thereafter open the ballot box and count the number of voted ballots, unused ballots, and spoiled ballots to ascertain whether such number corresponds with the number of ballots issued by the supervisor. If there is a difference, this fact shall be reported in writing to the county canvassing board with the reasons therefor if known. The total number of voted ballots shall be entered on the forms provided.

(2)(a) If the ballots are to be tallied at a central location, the election board shall place all ballots that have been cast in the container provided for the purpose, which shall be sealed and delivered forthwith to the central counting location or other design-

nated location by two inspectors who shall not, whenever possible, be of the same political party, together with the unused, void, and defective ballots. The election board shall certify that the ballots were placed in such container and the container was sealed in its presence and under its supervision, and it shall further certify to the number of ballots of each type placed in the container.

(b) If ballots are to be counted at the precincts, such ballots shall be counted pursuant to rules adopted by the Department of State, which rules shall provide safeguards which conform as nearly as practicable to the safeguards provided in the procedures prescribed in paragraph (a) for the counting of votes at a central location.

(3) All proceedings at the central counting location or other designated location shall be under the direction of the county canvassing board, and shall be open to the public, but no persons except those employed and authorized for the purpose shall touch any ballot or ballot container, any item of automatic tabulating equipment, or any return prior to its release.

(4) If any ballot card of the type for which the offices and measures are not printed directly on the card is damaged or defective so that it cannot properly be counted by the automatic tabulating equipment, a true duplicate copy shall be made of the damaged ballot card in the presence of witnesses and substituted for the damaged ballot. Likewise, a duplicate ballot card shall be made of a defective ballot which shall not include the invalid votes. All duplicate ballot cards shall be clearly labeled "duplicate," bear a serial number which shall be recorded on the damaged or defective ballot card, and be counted in lieu of the damaged or defective ballot. If any ballot card of the type for which offices and measures are printed directly on the card is damaged or defective so that it cannot properly be counted by the automatic tabulating equipment, a true duplicate copy may be made of the damaged ballot card in the presence of witnesses and in the manner set forth above, or the valid votes on the damaged ballot card may be manually counted at the counting center by the canvassing board, whichever procedure is best suited to the system used. If any paper ballot is damaged or defective so that it cannot be counted properly by the automatic tabulating equipment, the ballot shall be counted manually at the counting center by the canvassing board. The totals for all such ballots or ballot cards counted manually shall be added to the totals for the several precincts or election districts. No vote shall be declared invalid or void if there is a clear indication of the intent of the voter as determined by the canvassing board. After duplicating a ballot, the defective ballot shall be placed in an envelope provided for that purpose, and the duplicate ballot shall be tallied with the other ballots for that precinct.

(5) Absentee ballots may be counted by automatic tabulating equipment if they have been punched or marked in a manner which will enable them to be properly counted by such equipment.

(6) The return printed by the automatic tabulating equipment, to which has been added the return of absentee and manually counted votes, shall constitute the official return of the election. Upon com-

pletion of the count, the returns shall be open to the public. A copy of the returns may be posted at the central counting place or at the office of the supervisor of elections in lieu of the posting of returns at individual precincts.

History.—s. 14, ch. 73-156; s. 1, ch. 77-174; s. 21, ch. 77-175.

101.5615 Recounts and election contests.—

Except as herein provided, recounts and election contests shall be conducted as otherwise provided for in this code. The automatic tabulating equipment shall be tested prior to the recount or election contest, as provided in s. 101.5612, and then the official ballots or ballot cards shall be recounted on the automatic tabulating equipment. Each duplicate ballot shall be compared with the original ballot to insure the correctness of the duplicate.

History.—s. 15, ch. 73-156; s. 21, ch. 77-175.

101.58 Supervising and observing registration and election processes.—The Department of State may, at any time it deems fit; upon the petition of 5 percent of the registered electors; or upon the petition of any candidate, county executive committee chairman, state committeeman or committeewoman, or state executive committee chairman, appoint one or more deputies whose duties shall be to observe and examine the registration and election processes and the condition, custody, and operation of voting machines in any county or municipality. The deputy shall have access to all registration books and records as well as any other records or procedures relating to the voting process. The deputy shall supervise preparation of the election machines and procedures for election, and it shall be unlawful for any person to obstruct the deputy in the performance of his duty. He shall file with the Department of State a certificate that he personally examined the voting machines and with such certificate file a report of his findings and observations of the registration and election processes in the county or municipality, and a copy of the certificate and report shall also be filed with the Clerk of the Circuit Court of said county. The compensation of such deputies shall be fixed by the Department of State; and costs incurred under this section shall be paid from the annual operating appropriation made to the Department of State.

Note.—Former s. 100.31.

101.62 Request for absentee ballots.—

(1) An absent elector may request from the supervisor of elections or his deputy an absentee ballot during the 1-year period preceding an election. The supervisor may accept a request for an absentee ballot for an elector from any person designated by such elector. Such request may be made in person, by mail, or by telephone. One request shall be deemed sufficient to receive an absentee ballot for each election which is held within such 1-year period, provided the elector or his designee indicates at the time the request is made the elections for which the elector desires to receive an absentee ballot.

(2) If a request for an absentee ballot is received, after the Friday before the election, by the supervi-

sor of elections from an absent elector overseas, the supervisor shall send a notice to the elector acknowledging receipt of his request and notifying the elector that the ballot will not be forwarded due to insufficient time for return of the ballot by the required deadline.

(3) For each request for an absentee ballot received, the supervisor shall record the date the request was made, the date the absentee ballot was delivered or mailed, the date the ballot was received by the supervisor, and such other information he may deem necessary.

(4) As soon as the absentee ballots are printed, the supervisor of elections shall deliver or mail an absentee ballot to each elector for whom a request for such ballot has been made. Any elector, however, may designate in writing a person to pick up the ballot for him. Upon presentation, of such written authorization by such designee in person, the supervisor may give the ballot to such designee for delivery to the elector. The supervisor shall initial the stub attached to the absentee ballot and enter the name of the elector in the place indicated for the elector to sign. The supervisor shall then detach the ballot from the stub and mail or deliver the ballot. Before mailing or delivering the ballot, the supervisor shall fill in the number of the precinct in which the voter is registered in the space provided for this purpose on the envelope. If an elector appears in person to cast an absentee ballot, the elector shall sign the stub, and the supervisor shall then detach the ballot from the stub and deliver the ballot to the elector.

(5) No campaign literature shall be mailed or delivered with any absentee ballot.

Note.—Former s. 101.02.

101.635 Distribution of blocks of printed ballots.—In any county in which the supervisor of elections maintains deputies in a municipality other than the county seat and such municipality has a population in excess of 90,000, blocks of numbered ballots shall be made available as required and as the supervisor may direct, in order to comply with the provisions of s. 98.181. All ballots made available in any such municipality shall be fully accounted for to the supervisor.

History.—s. 22, ch. 77-175.

101.64 Delivery of absentee ballots; envelopes; form.—

(1) The supervisor shall enclose with each absentee ballot two envelopes, a plain white envelope into which the absent elector shall enclose and seal his marked ballot and a second envelope, into which the absent elector shall then place the sealed white envelope, which shall be addressed to the supervisor and also bear on the back side of this "mailing envelope" a certificate which shall be substantially in the following form:

101.67 Safekeeping of mailed ballots; deadline for receiving absentee ballots; certain absentee ballots not to be counted.—

History.—s. 2, ch. 11824, 1927; CGL 436; s. 1, ch. 25385, 1949; s. 5, ch. 26870, 1951; s. 24, ch. 29934, 1955; s. 24, ch. 57-1; s. 35, ch. 65-380; s. 5, ch. 71-149; s. 23, ch. 77-175.

Note.—Former s. 101.07.

101.68 Canvassing of absent elector's ballot.—

(1) The supervisor of the county where the absent elector resides shall receive the voted ballot, at which time the supervisor may compare the information on the Voter's Certificate on the back of the envelope with the information in the registration

books to determine whether the elector is duly registered in the precinct and may record on the elector's registration certificate that the elector has voted. The supervisor shall safely keep the ballot unopened in his office until the county canvassing board canvasses the vote according to law. The canvassing board shall begin the canvassing of absentee ballots not later than noon on the day following the election. The canvassing board shall compare the ballots presented to it by the supervisor for canvass with the record required by s. 101.62(3), so as to compare the number of ballots in its possession with the number of requests for ballots received to be counted according to the supervisor's file or list, to insure all the absentee ballots to be counted by the canvassing board are accounted for. The canvassing board shall, if the supervisor has not already done so, compare the information on the back of the envelope with the registration book to see that the elector is duly registered in the precinct and has not voted on election day and to determine the legality of the absent elector's ballot. If it is determined by the canvassing board that any vote is illegal, then some member of the board shall, without opening the envelope, mark across the face of the envelope, "rejected as illegal." The envelope and the ballot contained therein shall be preserved in the manner that official ballots voted are preserved.

(2) If any elector or candidate present believes that any absentee ballot is illegal due to any defect apparent on the Voter's Certificate, he may, at any time before the ballot is removed from the envelope, file with the canvassing board a protest against the canvass of such ballot, specifying the precinct, the ballot, and the reason he believes such ballot to be illegal. No challenge based upon any defect in the Voter's Certificate shall be accepted after the ballot has been removed from the mailing envelope.

(3) The county canvassing board shall then record the ballot upon the poll book of the proper precinct in the same manner as clerks of elections record votes, unless the ballot has been previously recorded by the supervisor of elections. The mailing envelopes for the entire county shall be opened and the plain white sealed envelopes shall be mixed up so as to make it impossible to determine which plain envelope came out of which signed mailing envelope; however, in any county in which an electronic or electromechanical voting system is used, the ballots may be sorted by ballot styles and the mailing envelopes may be opened and the plain white envelopes mixed up for each ballot style separately. The votes on absentee ballots shall be included in the total vote of the county.

(4) The supervisor or the chairman of the canvassing board shall, after the board convenes, have custody of the absent electors' ballots until a final proclamation is made as to the total vote received by each candidate.

101.69 Voting in person; return of absent elector's ballot.—The provisions of this code shall not be construed to prohibit any absent elector returning to his home county from voting in his precinct at any election notwithstanding that he has

requested an absentee ballot and the same has been mailed to him, provided the elector returns the ballot whether voted or not, if he received same, to the election board in his precinct. The returned ballot shall be marked "canceled" by the board and placed with other canceled ballots.

(2) If the applicant's registration is in order, an absentee ballot shall be mailed as provided in s. 101.694.

(3) If the applicant's registration is not in order and the supervisor finds that the applicant has never registered in the county, that the registration books are open and, that the applicant is entitled to register absentee in accordance with the provisions of s. 97.063(1), then the supervisor shall send to the applicant the "application for absentee registration" form as provided in s. 97.063(4), which shall permit the applicant's registration in accordance with s. 97.063 when it is properly filled out and returned to the supervisor during the period in which the registration books are open.

(4) If the applicant's registration is not in order and the supervisor finds that the applicant has previously been registered and his registration has lapsed because of his failure to reregister or because of his failure to return a notice mailed to his address of record by the supervisor in compliance with the provisions of the permanent single registration law, then the supervisor shall reinstate such elector.

(5) No absentee ballot mailed in accordance with subsection (3) shall be counted if the applicant does not complete his registration.

101.694 Mailing of ballots upon receipt of federal postcard application.—

(1) Upon receipt of a federal postcard application for an absentee ballot executed by a person whose registration is in order, the supervisor of elections shall mail to the applicant a ballot, if the ballots are available for mailing.

(2) Upon receipt of a federal postcard application for an absentee ballot executed by a person whose registration is not in order, the supervisor of elections shall follow the procedure set forth in subsection (3) or subsection (4) of s. 101.692, where applicable.

(3) There shall be printed across the face of each envelope in which a ballot is sent to a federal postcard applicant, or is returned by such applicant to the supervisor, two parallel horizontal red bars, each one-quarter inch wide, extending from one side of the envelope to the other side, with an intervening space of one-quarter inch, the top bar to be one and one-quarter inches from the top of the envelope, and with the words "Official Election Balloting Material—via Air Mail," or similar language, between the bars. There shall be printed in the upper right corner of

each such envelope, in a box, the words "Free of U. S. Postage, including Air Mail." All printing on the face of each envelope shall be in red, and there shall be printed in red in the upper left corner of each ballot envelope an appropriate inscription or blanks for return address of sender. Otherwise the envelopes shall be the same as those used in sending ballots to, or receiving them from, other absentee voters.

(4) Cognizance shall be taken of the fact that absentee ballots and other materials such as instructions and envelopes are to be carried via air mail, and, to the maximum extent possible, such ballots and materials shall be reduced in size and weight of paper. The same ballot shall be used, however, as is used by other absentee voters.

Only one elector shall be allowed to enter any voting booth at a time; no one except inspectors shall be allowed to speak to him while casting his vote; and no inspector shall speak to or interfere with the elector concerning his voting, except to perform his duties as such inspector. Notwithstanding any other provision of this chapter, this section shall be applicable where the computer method of voting is in use, and adequate provision shall be made for the privacy of the elector while casting his vote.

(2) Notwithstanding the provisions of subsection (1) and of s. 98.031, whenever the supervisor of elections of any county shall determine that the accommodations for holding any election at a polling place designated for any precinct in the county are inadequate for the expeditious and efficient housing and handling of voting and voting paraphernalia, including voting machines where used, said supervisor may provide, not less than 60 days prior to the holding of such election, that the voting place for such precinct shall be moved for the purpose of such election to another site which shall be accessible to the public on election day in said precinct or, if such is not available, to another site which shall be accessible to the public on election day in a contiguous precinct. If such action of the supervisor shall result in the voting place for two or more precincts being located for the purposes of an election in one building, the voting places for the several precincts involved shall be established and maintained separate from each other in said building. When any supervisor moves any polling place pursuant to this subsection, he shall, not more than 30 days or less than 20 days prior to the holding of any such election, give notice of the change of the polling place for the precinct involved, with clear description of the voting place to which changed, not less than two times in a newspaper of general circulation in said county and may notify the voters by mail or use such other advertising media as necessary to properly publicize said change.

(3) In cases of emergency and when time does not permit compliance with subsection (2), the supervi-

(4) Each polling place shall be conspicuously identified by a sign, on or near the premises of the polling place, designating the polling place by precinct number. Such sign shall be large enough to be clearly visible to occupants of passing vehicular traffic on roadways contiguous to the polling place, with letters no smaller than 3 inches high, and shall be displayed at all times while the polls are open on any election day.

(d) At the polling place, no barrier shall impede the path of the physically handicapped to the voting booth.

(2) Polling places which are of a temporary nature are exempt from compliance with s. 255.21.

(3) Each supervisor of elections shall only select as polling places, sites which meet the standards of accessibility prescribed in subsection (1), except that the supervisor may select a site not meeting the standards if:

(a) No acceptable and accessible site exists within the precinct or other designated voting area; and

(b) It is anticipated that the site will be brought into compliance with such standards in the foreseeable future, or the site will be temporarily made to comply with the standards for the time during which the polls are open.

(4) Any supervisor of elections who selects as a polling place a site which does not meet the standards prescribed in subsection (1) shall report such selection to the board of county commissioners. The report shall expressly state that the supervisor has determined that such polling place can be made accessible to, and usable by, elderly persons and by physically handicapped persons in the foreseeable future by affirmative governmental action.

(5) Each board of county commissioners which receives a report from a supervisor pursuant to subsection (4) shall take affirmative action to bring the selected polling place into compliance with the standards prescribed in subsection (1).

(6) Each district school board and each municipality shall cooperate with the board of county commissioners in its respective county in implementing the provisions of this section.

In such room or covered enclosure booths or compartments shall be provided, one booth or compartment for each 125, or fraction of 125 over 70, qualified electors registered for that election. Each booth or compartment shall be furnished with a shelf or table for the convenience of electors in preparing their ballots and shall be so arranged that it will be impossible for one elector in one compartment to see an elector in another in the act of marking his ballot. They shall at the same time name, clearly define, and describe in writing the polling place which they have established in each new or altered election precinct or in any precinct in which they may have changed the polling place. Such changes shall be recorded in the registry of deeds in the clerk of the circuit court's office for such county. Upon the recording of the changes, the county commissioners shall publish the change two times in a newspaper of general circulation in the county or, if there is no newspaper of general circulation in the county, they shall post a plainly written or printed copy at the courthouse in a conspicuous place and also at three places in each changed or altered district.

(2) Whenever it is impracticable to hold a municipal election due to an emergency resulting from a flood or hurricane, or due to the immediate probability or imminence of such flood or hurricane, the Gov-

102.012 Inspectors and clerks to conduct elections.—

(1) The supervisor of elections of each county, at least 20 days prior to the holding of any election, shall appoint two election boards for each precinct in the county; however, the supervisor of elections may, in any election, appoint one election board if he has reason to believe that only one is necessary. Each election board shall be composed of three inspectors and a clerk. The clerk shall be in charge of, and responsible for, seeing that the election board carries out its duties and responsibilities. Each inspector and each clerk shall take and subscribe to an oath or affirmation, which shall be written or printed, to the effect that he will perform the duties of inspector or clerk of election, respectively, according to law and will endeavor to prevent all fraud, deceit, or abuse in conducting the election. The oath may be taken before an officer authorized to administer oaths or before any of the persons who are to act as inspectors, one of them to swear the others, and one of the others sworn thus, in turn, to administer the oath to him who has not been sworn. The oaths shall be returned with the poll list and the returns of the election to the supervisor. In all questions that may arise before the members of an election board, the decision of a majority of them shall decide the question. The supervisor of elections of each county shall be responsible for the attendance and diligent per-

formance of his duties by each clerk and inspector.

(2) Each member of the election board shall be able to read and write the English language and shall be a registered qualified elector of the precinct in which he is appointed, and, in the event no such elector can be found to serve in any precinct, an elector may be appointed from any other precinct within the county. No election board shall be composed solely of members of one political party; however, in any primary in which only one party has candidates appearing on the ballot all clerks and inspectors may be of that party. Any person whose name appears as an opposed candidate for any office shall not be eligible to serve on an election board.

(3) The supervisor shall furnish inspectors of election for each precinct with the registration books divided alphabetically as will best facilitate the holding of an election. The supervisor shall also furnish to the inspectors of election at the polling place at each precinct in his county a sufficient number of forms and blanks for use on election day.

(4) An election board shall conduct the voting, beginning and closing at the time set forth in s. 100.011. If more than one board has been appointed, the second board shall, upon the closing of the polls, come on duty and count the votes cast. In such case, the first board shall turn over to the second board all closed ballot boxes, registration books, and other records of the election at the time the boards change. The second board shall continue counting until the count is complete or until 7 a.m. the next morning, and, if the count is not completed at that time, the first board that conducted the election shall again report for duty and complete the count. The second board shall turn over to the first board all ballots counted, all ballots not counted, and all registration books and other records and shall advise the first board as to what has transpired in tabulating the results of the election.

(5) In precincts in which there are more than 1,000 registered electors, the supervisor of elections shall appoint additional election boards necessary for the election.

(6) In precincts in which there are less than 300 registered electors, it is not necessary to appoint two election boards, but one such board shall suffice.

(7) For any precinct using voting machines, there shall be one election board appointed, plus an additional inspector for each machine in excess of one; however, the supervisor of elections may appoint a greater number of additional inspectors than required by this subsection.

(8) The supervisor of elections shall conduct training classes for inspectors, clerks, and deputy sheriffs prior to each first primary, general, or special election for the purpose of instructing such persons in their duties and responsibilities as election officials. A certificate shall be issued by the supervisor of elections to each person completing such training. No person shall serve as an inspector, clerk, or deputy sheriff for an election unless such person has been issued a certificate, except a person who is ap-

pointed to fill a vacancy on election day who has attended previous training classes conducted within 2 years of the election. If no person with prior training is available to fill such vacancy, the supervisor of elections may fill such vacancy in accordance with the provisions of subsection (9) from among persons who have not received the training and certification required by this section.

(9) In the case of absence or refusal to act of any inspector or clerk at any precinct on the day of an election, the supervisor shall appoint a replacement who meets the qualifications prescribed in subsection (2). The inspector or clerk so appointed shall be a member of the same political party as the clerk or inspector whom he replaces.

(2) Inspectors and clerks of election and deputy sheriffs serving at the precincts may receive compensation and traveling expenses as provided in s. 112.061, for attending the poll worker classes required by s. 102.012(8).

(1) At the close of the election at each precinct, the election board that conducted the election shall turn the ballot box, registration books, and other records over to the relieving board, when more than one board is conducting the election, which relieving board shall proceed to open the ballot box in the presence of the public desiring to witness the canvass and count the ballots without adjournment or interruption until the count is completed, except for the necessary interruption provided for in s. 102.012. The ballots shall first be counted, and, if the number of ballots exceeds the number of persons who voted, as may appear by the poll list kept by the clerk and by the stubs detached by the inspectors, the ballots shall be placed back into the box, and one of the inspectors shall publicly draw out and destroy unopened as many ballots as are equal to such excess. If two or more ballots are found folded together to present the appearance of a single ballot, they shall

be laid aside until the count is completed, and, if, upon comparison of the count and the appearance of such ballots, a majority of the inspectors are of the opinion that the ballots were voted by one person, such ballots shall be destroyed.

(2) In counting the ballots, the election board shall use either the tally call system of counting or a system whereby the ballots are opened and placed in piles according to the candidate voted for and then the number of ballots in each pile is counted. The ballots shall then be reshuffled and the process repeated until the total votes cast for each candidate for each office has been determined; and no other system of counting shall be used.

Upon completion of all counts in all races, triplicate certificates of the results shall be drawn up by the inspectors and clerk at each precinct upon a form provided by the supervisor of elections which shall contain the name of each person voted for, for each office, and the number of votes cast for each person for such office; and, if any question is submitted, the certificate shall also contain the number of votes cast for and against the question. The certificate shall be signed by the inspectors and clerk, and one of the certificates shall be delivered without delay by one of the inspectors, securely sealed, to the supervisor for immediate publication; the duplicate copy of the certificate shall be delivered to the county court judge; and the remaining copy shall be enclosed in the ballot box together with the oaths of inspectors and clerks. 102.141 County canvassing board; duties.—

(1) The county canvassing board shall be composed of the supervisor of elections; a county court judge, who shall act as chairman; and the chairman of the board of county commissioners. In the event any member of the county canvassing board is unable to serve, is a candidate who has opposition in the election being canvassed, or is an active participant in the campaign or candidacy of any candidate who has opposition in the election being canvassed, such member shall be replaced as follows:

(a) If no county court judge is able to serve or if all are disqualified, the chief judge of the judicial circuit in which the county is located shall appoint as a substitute member a qualified elector of the county who is not a candidate with opposition in the election being canvassed and who is not an active participant in the campaign or candidacy of any candidate with opposition in the election being canvassed. In such event, the members of the county canvassing board shall meet and elect a chairman.

(b) If the supervisor of elections is unable to serve or is disqualified, the chairman of the board of county commissioners shall appoint as a substitute member a member of the board of county commissioners who is not a candidate with opposition in the election being canvassed and who is not an active participant in the campaign or candidacy of any candidate with opposition in the election being canvassed. The supervisor, however, shall act in an advisory capacity to the canvassing board.

(c) If the chairman of the board of county commissioners is unable to serve or is disqualified, the board of county commissioners shall appoint as a substitute member one of its members who is not a candidate with opposition in the election being canvassed and who is not an active participant in the campaign or candidacy of any candidate with opposition in the election being canvassed.

(d) If a substitute member cannot be appointed as provided elsewhere in this subsection, the chief judge of the judicial circuit in which the county is located shall appoint as a substitute member a qualified elector of the county who is not a candidate with opposition in the election being canvassed and who is not an active participant in the campaign or candidacy of any candidate with opposition in the election being canvassed.

(2) At the close of the polls, or as soon thereafter as practicable, but not later than noon on the day following any primary, general, special, or other election, the county canvassing board shall meet in the courthouse at a time and place to be designated by the chairman. It shall then proceed to publicly canvass the absentee electors' ballots as provided for

in s. 101.68. As soon as the absentee electors' ballots are canvassed the board shall proceed to publicly canvass the vote given each candidate, nominee, constitutional amendment, or other measure submitted to the electorate of the county, as shown by the returns then on file in the office of the supervisor of elections and the office of the county court judge.

(3) The canvass, except the canvass of absentee electors' returns, shall be made from the returns and certificates of the inspectors as signed and filed by them with the county court judge and supervisor, respectively, and the county canvassing board shall not change the number of votes cast for a candidate, nominee, constitutional amendment, or other measure submitted to the electorate of the county, respectively, in any polling place, as shown by the returns. All returns shall be made to the board on or before noon of the day following any primary, general, special, or other election. If the returns from any precinct are missing, if there are any omissions on the returns from any precinct, or if there is an obvious error on any such returns, the canvassing board shall order a recount of the returns from such precinct. Before canvassing such returns the canvassing board shall examine the counters on the machines or the tabulation of the ballots cast in such precinct and determine whether the returns correctly reflect the votes cast. If there is a discrepancy between the returns and the counters of the machines or the tabulation of the ballots cast, the counters of such machines or the tabulation of the ballots cast shall be presumed correct and such votes shall be canvassed accordingly.

(4) If the returns for any office reflect that a candidate was defeated or eliminated by one-half of a percent or less of the votes cast for such office, that a candidate for retention to a judicial office was retained or not retained by one-half of a percent or less of the votes cast on the question of retention, or that a measure appearing on the ballot was approved or rejected by one-half of a percent or less of the votes cast on such measure, the board responsible for certifying the results of the vote on such race or measure shall order a recount of the votes cast with respect to such office or measure. A recount need not be ordered with respect to the returns for any office, however, if the candidate or candidates defeated or eliminated from contention for such office by one-half of a percent or less of the votes cast for such office request in writing that a recount not be made. Each canvassing board responsible for conducting a recount shall examine the counters on the machines or the tabulation of the ballots cast in each precinct in which the office or issue appeared on the ballot and determine whether the returns correctly reflect the votes cast. If there is a discrepancy between the returns and the counters of the machines or the tabulation of the ballots cast, the counters of such machines or the tabulation of the ballots cast shall be presumed correct and such votes shall be canvassed accordingly.

(5) The canvassing board may employ such clerical help to assist with the work of the board as it deems necessary, with at least one member of the board present at all times, until canvass of the returns is completed. The clerical help shall be paid

from the same fund as inspectors and other necessary election officials.

One of such certificates which relates to offices for which the candidates or nominees have been voted for in more than one county shall be immediately transmitted to the Department of State, another to the clerk of the circuit court, and the third copy filed in the supervisor's office. If there is a discrepancy between the returns and the counters of the machines or the tabulation of the paper ballots cast, the counters of such machines or the precinct tabulation of the paper ballots cast shall be presumed correct, and such votes shall be canvassed accordingly. The rights of all parties in interest to appeal to the court for protection against error are not annulled.

(2) Any candidate for nomination or election, or any elector qualified to vote in the election related to such candidacy, shall have the right to protest the returns of the election or the practices attendant thereto as being fraudulent by presenting to any circuit judge of the circuit wherein such fraud is alleged to have occurred a sworn, written protest. If it is alleged that fraudulent returns or practices exist in more than one county, venue for such protest shall be in any such county wherein such fraud is alleged to have occurred.

(a) The protest shall be presented to a circuit judge prior to the time the canvassing board ad-

Any candidate or elector presenting such a protest to a circuit judge shall be entitled to an immediate hearing thereon or to any appropriate relief.

103.101 Presidential preference primary.—

(1) Each political party other than a minor political party shall, on the second Tuesday in March in each year the number of which is a multiple of four, elect one person to be the candidate for nomination of such party for President of the United States. Each elector of such party may vote his preference for one person to be the candidate for nomination of such party for President.

(2)(a) The name of any candidate for a political party nomination for President of the United States shall be printed on the ballots upon the direction of a Presidential Candidate Selection Committee composed of the Secretary of State, who shall be a non-voting chairman, the Speaker of the House of Representatives, the President of the Senate, the minority leader of each house of the Legislature, and the chairman of each political party required to have a presidential preference primary under this section. Each year a presidential preference primary is held, the Secretary of State shall prepare and publish a list of names of presidential candidates who are generally advocated or recognized in news media throughout the United States or in the state. The

Secretary of State shall submit such list of names of presidential candidates to the selection committee on the first Tuesday after the first Monday in January each year a presidential preference primary election is held. Each person designated by the Secretary of State as a presidential candidate shall appear on the presidential preference primary ballot unless all committee members of the same political party as the candidate agree to delete such candidate's name from the ballot. The selection committee shall meet in Tallahassee on the first Tuesday after the first Monday in January each year a presidential preference primary is held. The selection committee shall publicly announce and submit the names of presidential candidates who shall appear on the presidential primary ballot to the Department of State no later than 5 p.m. on the following day. Within 5 days from receipt of such list, the Department of State shall notify each presidential candidate designated by the committee. Such notification shall be in writing by registered mail with return receipt requested.

(b) Any presidential candidate whose name is not selected by the Secretary of State or whose name is deleted by the selection committee may request in writing to the chairman of the selection committee, prior to the third Tuesday after the first Monday in January each year a presidential preference primary election is held, that his name be placed on the ballot. On the third Tuesday after the first Monday in January the Secretary of State shall convene the committee to consider such requests. If any member of the selection committee of the same political party as the candidate requests that such candidate's name be placed on the ballot, the committee shall direct the Department of State to place the candidate's name on the ballot. Within 5 days after such meeting, the Department of State shall notify the presidential candidate that his name will appear on the ballot.

(3) A candidate's name shall be printed on the presidential preference primary ballot unless he submits to the Department of State, prior to the third Tuesday after the first Monday in January, an affidavit stating that he is not now, and does not presently intend to become, a candidate for President at the upcoming nominating convention. If a candidate withdraws pursuant to this subsection, the Department of State shall notify the state executive committee that the candidate's name will not be placed on the ballot. The Department of State shall, no later than the fourth Tuesday after the first Monday in January, certify to each supervisor of elections the name of each candidate for political party nomination to be printed on the ballot.

(4) The names of candidates for political party nominations for President of the United States shall be printed on official ballots for the presidential preference primary election and shall be marked, counted, canvassed, returned, and proclaimed in the same manner and under the same conditions, so far as the same are applicable, as in other state elections.

(5) The state executive committee of each party, by rule adopted at least 90 days prior to the presidential preference primary election, shall determine the

number, and establish procedures to be followed in the selection, of delegates and delegate alternates from among each candidate's supporters. However, no more than 25 percent of the total number of delegates may be elected by the state executive committee. A copy of any rule adopted by the executive committee shall be filed with the Department of State within 7 days after its adoption and shall become a public record.

(6) Any person selected as a delegate or delegate alternate to the national convention shall file a qualification oath with the Department of State, pledging support at the convention to the candidate of his party for the office of President of the United States that he was selected to support. The oath shall state that the delegate or delegate alternate affirms to support such candidate until the candidate is either nominated by such convention or receives less than 35 percent of the votes for nomination by such convention during any balloting, or until the candidate releases the delegates from such pledge and any other oath as prescribed by the Department of State. No delegate shall be required to vote for such candidate after two convention nominating ballots have been taken.

(7) Any delegate to a national convention whose presidential candidate withdraws after being entitled to delegate votes pursuant to this section shall be an unpledged delegate to the national convention.

(8) Delegates shall be allocated among the candidates by one of the following two methods:

(a) The presidential candidate receiving the highest number of votes in any congressional district shall receive all delegate votes from such congressional district. The presidential candidate receiving the highest number of statewide votes shall receive all statewide delegate votes and all votes of delegates chosen by the state executive committee of the candidate's party.

(b) When provided by party rule, delegates at the congressional district level and at the statewide level shall be allocated among the several candidates on the basis of the proportion that the number of votes each candidate receives bears to the total number of votes cast for the candidates of the same party at the congressional district or statewide level. Such party rule shall provide that delegates need not be allocated to any candidate receiving less than 15 percent of the votes cast for candidates of his political party at the congressional district or statewide level. Such party rule shall also provide that the entire number of delegates for a given congressional district and the entire number of statewide delegates be allocated among only those candidates receiving over 15 percent of the vote. In the event that delegates are to be chosen pursuant to the provisions of this paragraph, the Secretary of State shall cause the words "No Preference" to appear on the presidential preference primary ballot after the names of the candidates of any political party electing to utilize the provisions of this paragraph. An elector may cast his vote for such designation in the same manner that he casts a vote for a candidate of that party. In the event that the number of votes cast for such designation at the district or statewide level is at least 15 percent of the total votes cast for the ballot of such party at that

level, delegates shall be allocated in the manner prescribed above. Delegates so allocated shall be considered uncommitted delegates and shall be chosen in the manner prescribed by party rule for delegates allocated to candidates. When delegates are to be allocated according to the provisions of this paragraph, the number of delegates that each candidate is to receive shall be rounded to the nearest whole number.

(9) The Department of State shall place the candidates' names on the ballot in alphabetical order. The ballot as prescribed in this section shall be used.

(10) The form of the presidential preference primary ballot shall be in substantially the following form:

106.011 Definitions.—As used in this chapter, the following terms shall have the following meanings unless the context clearly indicates otherwise:

(1) "Political committee" means a combination of two or more individuals, or a person other than an

individual, the primary or incidental purpose of which is to support or oppose any candidate, issue, or political party, and which accepts contributions or makes expenditures during a calendar year in an aggregate amount in excess of \$100, or the sponsor of a proposed constitutional amendment by initiative who intends to seek the signatures of registered electors. Organizations which are certified by the Department of State as committees of continuous existence pursuant to s. 106.04 and the state and county executive committees of political parties regulated by chapter 103 shall not be considered political committees for the purposes of this chapter. Corporations regulated by chapter 607 or chapter 617 are not political committees if their political activities are limited to contributions to candidates or political committees or expenditures in support or opposition of an issue from corporate funds and if no contributions are received by such corporations.

(2) "Committee of continuous existence" means any group, organization, association, or other such entity which is certified pursuant to the provisions of s. 106.04.

(3) "Contribution" means:

(a) A gift, subscription, conveyance, deposit, loan, payment, or distribution of money or anything of value, including contributions in kind having an attributable monetary value in any form, made for the purpose of influencing the results of an election.

(b) A transfer of funds between political committees, between committees of continuous existence, or between a political committee and a committee of continuous existence.

(c) The payment by any person other than a candidate or political committee of compensation for the personal services of another person which are rendered to a candidate or political committee without charge to the candidate or committee for such services.

(d) The transfer of funds by a campaign treasurer or deputy campaign treasurer between a primary depository and a campaign savings account or certificate of deposit, and the term includes any interest earned on such account or certificate.

Notwithstanding the foregoing meanings of "contribution," the word shall not be construed to include services provided without compensation by individuals volunteering a portion or all of their time on behalf of a candidate or political committee.

(4) "Expenditure" means a purchase, payment, distribution, loan, advance, transfer of funds by a campaign treasurer or deputy campaign treasurer between a primary depository and a campaign savings account or certificate of deposit, or gift of money or anything of value made for the purpose of influencing the results of an election. However, "expenditure" does not include a purchase, payment, distribution, loan, advance, or gift of money or anything of value made for the purpose of influencing the results of an election when made by an organization, in existence prior to the time during which a candi-

date qualifies or an issue is placed on the ballot for that election, for the purpose of printing or distributing such organization's newsletter, containing a statement by such organization in support of or opposition to a candidate or issue, which newsletter is distributed only to members of such organization.

(5) "Independent expenditure" means an expenditure by a person for the purpose of advocating the election or defeat of a candidate or the approval or rejection of an issue, which expenditure is not controlled by, coordinated with, or made upon consultation with, any candidate, political committee, or agent of such candidate or committee.

(6) "Election" means any primary election, special primary election, general election, special election, or municipal election held in this state for the purpose of nominating or electing candidates to public office, choosing delegates to the national nominating conventions of political parties, or submitting an issue to the electors for their approval or rejection.

(7) "Issue" means any proposition which is required by the state constitution, by law or resolution of the legislature, or by the charter, ordinance, or resolution of any political subdivision of this state to be submitted to the electors for their approval or rejection at an election, or any proposition for which a petition is circulated in order to have such proposition placed on the ballot at any election.

(8) "Person" means an individual or a corporation, association, firm, partnership, joint venture, joint stock company, club, organization, estate, trust, business trust, syndicate, or other combination of individuals having collective capacity.

(9) "Campaign treasurer" means an individual appointed by a candidate or political committee as provided in this chapter.

(10) "Public office" means any state, county, municipal, or school or other district office or position which is filled by vote of the electors.

(11) "Testimonial" means any breakfast, dinner, luncheon, rally, party, reception, or other affair held to raise funds for any purpose.

(12) "Division" means the Division of Elections of the Department of State.

(13) "Communications media" means broadcasting stations, newspapers, magazines, outdoor advertising facilities, printers, direct mailing companies, advertising agencies, and telephone companies; but with respect to telephones, an expenditure shall be deemed to be an expenditure for the use of communications media only if made for the costs of telephones, paid telephonists, or automatic telephone equipment to be used by a candidate or a political committee to communicate with potential voters but excluding any costs of telephones incurred by a volunteer for use of telephones by such volunteer.

History.—s. 1, ch. 73-128; s. 1, ch. 74-200; s. 1, ch. 77-174; s. 39, ch. 77-175; s. 2, ch. 79-157; ss. 6, 17, ch. 79-365; s. 1, ch. 79-378.

106.021 Campaign treasurers; deputies; primary and secondary depositories.—

(1)(a) Each candidate for nomination or election to office and each political committee shall appoint a campaign treasurer. Each person who seeks to qualify for nomination or election to, or retention in, office shall appoint a campaign treasurer and designate a primary campaign depository prior to qualifying for office.

Any person who seeks to qualify for election or nomination to any office by means of the petitioning process shall appoint a treasurer and designate a primary depository on or before the date he obtains the petitions. Each candidate shall at the same time he designates his campaign depository and appoints his treasurer also designate the office for which he is a candidate. Nothing in this subsection shall prohibit a candidate, at a later date, from changing the designation of the office for which he is a candidate and using the campaign funds for that candidacy. No person shall accept any contribution or make any expenditure with a view to bringing about his nomination, election, or retention in public office, or authorize another to accept such contributions or make such expenditure on his behalf, unless such person has appointed a campaign treasurer and designated a primary campaign depository. A candidate for an office voted upon on a statewide basis may appoint not more than 15 deputy campaign treasurers, and any other candidate or political committee may appoint not more than three deputy campaign treasurers. The names and addresses of the campaign treasurer and deputy campaign treasurers so appointed shall be filed with the officer before whom such candidate is required to qualify or with whom such political committee is required to file reports pursuant to s. 106.07.

(b) Except as provided in paragraph (d), each candidate and each political committee shall also designate one primary campaign depository for the purpose of depositing all contributions received, and disbursing all expenditures made, by the candidate or political committee. The candidate or political committee may also designate one secondary depository in each county in which an election is held in which the candidate or committee participates. Secondary depositories shall be for the sole purpose of depositing contributions and forwarding the deposits to the primary campaign depository. Any bank authorized to transact business in this state may be designated as a campaign depository. The candidate or political committee shall file the name and address of each primary and secondary depository so designated at the same time that, and with the same officer with whom, the candidate or committee files the name of his or its campaign treasurer pursuant to paragraph (a). In addition, the campaign treasurer or a deputy campaign treasurer may deposit any funds which are in the primary campaign depository and which are not then currently needed for the disbursement of expenditures into a savings account in any bank or savings and loan association authorized to transact business in this state. The savings account shall be designated "campaign savings account of (name of candidate or committee)." In lieu thereof, the campaign treasurer or deputy campaign treasurer may purchase a certificate of deposit with such unneeded funds in such bank or savings and loan association. The campaign savings account or certificate of deposit shall be separate from any personal or other savings account or certificate of deposit. Any withdrawal of the principal or earned interest or any part thereof shall only be made from the campaign savings account or certificate of deposit for the pur-

pose of transferring funds to the primary account and shall be reported as a contribution.

(c) Any campaign treasurer or deputy treasurer appointed pursuant to this section shall be a registered voter in this state and shall, before such appointment may become effective, have accepted appointment to such position in writing and filed such acceptance with the officer before whom the candidate is required to qualify or with the officer with whom the political committee is required to file reports. An individual may be appointed and serve as campaign treasurer of a candidate and a political committee or two or more candidates and political committees. A candidate may appoint himself as his own campaign treasurer.

(d) Any political committee which deposits all contributions received in a national depository from which the political committee receives funds to contribute to state and local candidates shall not be required to designate a campaign depository in the state.

(2) A candidate or political committee may remove his or its campaign treasurer or any deputy treasurer. In case of the death, resignation, or removal of a campaign treasurer before compliance with all obligations of a campaign treasurer under this chapter, the candidate or political committee shall appoint a successor and certify the name and address of the successor in the manner provided in the case of an original appointment. No resignation shall be effective until it has been submitted to the candidate or committee in writing and a copy thereof has been filed with the officer before whom the candidate is required to qualify or the officer with whom the political committee is required to file reports. No treasurer or deputy treasurer shall be deemed removed by a candidate or political committee until written notice of such removal has been given to such treasurer or deputy treasurer and has been filed with the officer before whom such candidate is required to qualify or with the officer with whom such committee is required to file reports.

(3) Except for independent expenditures, no contribution or expenditure, including contributions or expenditures of a candidate himself or of his family, shall be directly or indirectly made or received in furtherance of the candidacy of any person for nomination or election to political office in the state or on behalf of any political committee except through the duly appointed campaign treasurer of the candidate or political committee. However, expenditures may be made directly by any political committee or political party regulated by chapter 103 for obtaining time, space, or services in or by any communications media for the purpose of jointly endorsing six or more candidates, and any such expenditure shall not be considered a contribution or expenditure to or on behalf of any such candidates for the purposes of this chapter.

(4) A deputy campaign treasurer may exercise any of the powers and duties of a campaign treasurer as set forth in this chapter when specifically authorized to do so by the campaign treasurer and the candidate, in the case of a candidate, or the campaign

treasurer and chairman of the political committee, in the case of a political committee.

106.025 Testimonials.—

(1)(a) No testimonial may be held for purposes of raising funds to be used in a campaign for public office or nomination or election thereto, unless the person for whom such funds are to be so used is a candidate for public office and written notice of intent to hold such testimonial is filed pursuant to this subsection.

(b) Notice of intent to hold such a testimonial shall be filed by the candidate or person in charge of such testimonial with the officer with whom reports are required to be filed by the candidate for whom the funds are to be used pursuant to s. 106.07. Such notice shall state the date and place the testimonial is to be held, the name and address of the person or persons in charge of such testimonial, and the name and address of the candidate for whose campaign the funds are to be used. No moneys may be raised and no expenditures made in furtherance of such a testimonial until the notice of intent has been filed.

(c) All money and contributions ¹[made] with respect to such a testimonial shall be made only through the campaign treasurer of the candidate for whom the funds are to be used, shall be deemed to be campaign contributions, and ²[shall be] accounted for, and subject to the same restrictions, as other campaign contributions. Any amount paid for the purchase of tickets for testimonials held pursuant to this subsection shall be a contribution subject to the limits of s. 106.08 and shall be included in calculating the maximum contributions permitted by s. 106.08. All expenditures made with respect to such a testimonial shall be made only by a check drawn on the campaign depository of the candidate for whom the funds are to be used and shall be deemed to be campaign expenditures ³[to be] accounted for, and subject to the same restrictions, as other campaign expenditures.

(d) Any tickets or advertising for such a testimonial shall contain the following statement: "The purchase of a ticket for, or a contribution to, the testimonial is a contribution to the campaign of (name of the candidate for whose benefit the testimonial is held)." Such tickets or advertising shall also comply with other provisions of this chapter relating to political advertising.

(e) Any person or candidate who holds a testimonial, or consents to a testimonial being held, in violation of the provisions of this subsection is guilty of a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(2)(a) Except for testimonials held pursuant to subsection (1), no testimonial shall be held in honor or on behalf of any person holding public office unless a notice of intent to hold such testimonial has first been filed pursuant to this subsection by the person in charge of such testimonial and unless a separate testimonial account has been set up in a depository and a treasurer appointed. No money or donation may be accepted, nor any payment made, with respect to such testimonial until the notice of intent has been filed and a separate testimonial ac-

count has been established and a treasurer appointed.

(b) Such notice, in the case of a state or multi-county district officer, shall be filed with the Division of Elections, and, in the case of any other public officer, shall be filed with the supervisor of elections of the county in which such officer resides. Such notice shall state the date and place the testimonial is to be held, the name and address of the person or persons in charge of the testimonial, the name and address of the officer in whose honor or in whose behalf the testimonial is to be held, the purpose for which the testimonial is to be held, and the purpose for which the funds raised are to be used.

(c) All money and donations received, and all payments made, with respect to such testimonial shall be ²[received and] made only through the treasurer duly appointed pursuant to this subsection. The appointed treasurer shall keep detailed accounts of all deposits and all payments made with respect to such account in the same manner, and subject to the same restrictions, as required for a campaign account by a campaign treasurer and shall file regular reports on the first and third Mondays of each month with the officer with whom the notice of intent is filed until the funds on deposit are disposed of and the account closed. Each report shall contain the following information:

1. The full name, residence or business address, mailing address if different from the residence or business address, and occupation, and principal place of business, if any, of each person, political committee, or committee of continuous existence who, within the reporting period, purchases one or more tickets, or gives any money or donation, with respect to such testimonial, together with the amount and date thereof. However, the occupation and principal place of business need not be listed if the purchase price of the ticket or tickets, or the money or donation, does not exceed \$100.

2. The full name, residence or business address, mailing address if different from the residence or business address, ³[and] occupation, and principal place of business, if any, of each person, political committee, or committee of continuous existence to whom any payment is made within the reporting period, together with the date and amount thereof and the purpose therefor.

(d) No person may purchase more than \$1,000 worth of tickets to such a testimonial or give money or make any donation in excess of \$1,000 with respect to such a testimonial or purchase any ticket for, or give any money or make any donation to, such a testimonial in the name of another. Any person who violates the provisions of this paragraph is guilty of a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(e) The proceeds of the testimonial held pursuant to this subsection remaining after the payment of the expenses therefor shall be disposed of as provided in this paragraph. All proceeds after payment of the expenses for such testimonial shall be donated to a charity stated in the notice of intent; returned prorata to each person who purchased a ticket, gave money, or made a donation; or given, in the case of a state officer, to the state to be deposited in the

General Revenue Fund or, in the case of an officer of a political subdivision, to the political subdivision to be deposited in the general fund thereof. Such disposition of funds shall be made by the person in charge of such testimonial within 90 days from the date the testimonial is held, and a report shall be filed with the officer with whom the notice of intent is filed, which report shall be in the form and manner and contain the information prescribed in s. 106.141(6).

(f) Any person or officer who holds a testimonial, or who consents to a testimonial being held, in violation of the provisions of this subsection is guilty of a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(g) Any person who is required by the provisions of this subsection to dispose of funds in a testimonial account ³[and] fails to dispose of the funds in the manner provided in this subsection is guilty of a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(3) This section shall not apply to any testimonial held on behalf of a political party by the state or county executive committee of such party, provided that the proceeds of such testimonial are reported pursuant to s. 106.29.

106.03 Registration of political committees.—

(1) Each political committee which anticipates receiving contributions or making expenditures during a calendar year in an aggregate amount exceeding \$100, or is seeking the signatures of registered electors in support of an initiative, shall file a statement of organization with the officer with whom such committee files original reports pursuant to s. 106.07 within 10 days after its organization or, if later, within 10 days after the date on which it has information which causes the committee to anticipate that it will receive contributions or make expenditures in excess of \$100. However, committees required by the Federal Campaign Communications Act of 1971 (Pub. L. No. 92-225) to file statements of organization with federal officials may file a duplicate copy of such statement in lieu of the statement required by this section. If a political committee is organized within 10 days of any election, it shall immediately file the statement of organization required by this section.

(2) The statement of organization shall include:

- (a) The name and address of the committee;
- (b) The names, addresses, and relationships of affiliated or connected organizations;
- (c) The area, scope, or jurisdiction of the committee;
- (d) The name, address, and position of the custodian of books and accounts;

- (f) The name, address, office sought, and party affiliation of:

1. Each candidate whom the committee is supporting;

2. Any other individual, if any, whom the committee is supporting for nomination for election, or election, to any public office whatever;

(h) If the committee is supporting the entire ticket of any party, a statement to that effect and the name of the party;

(i) A statement of whether the committee is a continuing one;

(k) A listing of all banks, safety-deposit boxes, or other depositories used for committee funds; and

(l) A statement of the reports required to be filed by the committee with federal officials, if any, and the names, addresses, and positions of such officials.

(3) Any change in information previously submitted in a statement of organization shall be reported to the officer with whom such committee is required to file reports pursuant to s. 106.07, within 10 days following the change.

(4) Any committee which, after having filed one or more statements of organization, disbands or determines it will no longer receive contributions or make expenditures during the calendar year in an aggregate amount exceeding \$100 shall so notify the officer with whom such committee is required to file reports pursuant to s. 106.07.

History.—s. 3, ch. 73-128; s. 3, ch. 74-200; s. 1, ch. 77-174; s. 41, ch. 77-175; s. 18, ch. 79-365.

106.04 Committees of continuous existence.—

(1) In order to qualify as a committee of continuous existence for the purposes of this chapter, a group, organization, association, or other such entity which is involved in making contributions to candidates shall meet the following criteria:

(a) It shall be organized and operated in accordance with a written charter or set of bylaws which contains procedures for the election of officers and directors and which clearly defines membership in the organization; and

(b) At least 25 percent of the income of such organization must be derived from dues or assessments payable on a regular basis by its membership pursuant to provisions contained in the charter or bylaws.

(2) Any group, organization, association, or other entity may seek certification from the Department of State as a committee of continuous existence by filing an application with the Division of Elections on a form provided by the division. Such application shall provide the information required of political committees by s. 106.03(2). Each application shall be accompanied by the name and street address of the principal officer of the applying entity as of the date of the application; a copy of the charter or bylaws of the organization; a copy of the dues or assessment schedule of the organization, or formula by which dues or assessments are levied; and a complete financial statement or annual audit summarizing all income received, and all expenses incurred, by the organization during the 12 months preceding the date of application. A membership list shall be made available for inspection if deemed necessary by the division.

(3) If the Division of Elections finds that an applying organization meets the criteria for a committee of continuous existence as provided by subsection (1), it shall certify such findings and notify the applying organization of such certification. If it finds that an applying organization does not meet the criteria for certification, it shall notify the organization of such findings and shall state the reasons why such criteria are not met.

(4) Each committee of continuous existence shall file an annual report with the Division of Elections during the month of January of each year. Such annual reports shall contain the same information and shall be accompanied by the same materials as original applications filed pursuant to subsection (2). In addition to such annual report, each committee shall file regular reports with the Division of Elections at the same times that reports are required of candidates by s. 106.07(1). A duplicate copy of each report shall be filed with the supervisor of elections in the county in which the committee maintains its books and records. Reports shall be on forms provided by the division and shall contain the following information:

(a) The full name, residence or business address, mailing address if different from the residence or business address, and occupation of each person who has made one or more contributions to the committee during the reporting period, together with the amounts and dates of such contributions. However, if the contribution is less than \$100, the occupation of the contributor need not be listed, and only the name and mailing address is necessary. However, for any contributions which represent the payment of dues by members in a fixed amount pursuant to the schedule on file with the Division of Elections, only the aggregate amount of such contributions need be listed, together with the number of members paying such dues and the amount of the membership dues.

(b) The name and address of each political committee or committee of continuous existence from which the reporting committee received, or to which it made, any transfer of funds, together with the amounts and dates of all transfers.

(c) Any other receipt of funds not listed pursuant to paragraphs (a) or (b), including the sources and amounts of all such funds.

(d) The name, address, and office sought by each candidate to whom the committee has made a contribution during the reporting period, together with the amount and date of each contribution. The treasurer of each committee shall certify as to the correctness of each report and shall bear the responsibility for its accuracy and veracity. Any treasurer who willfully certifies to the correctness of a report while knowing that such report is incorrect, false, or incomplete is guilty of a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(5) No committee of continuous existence shall contribute to any candidate or political committee an amount in excess of the limits contained in s. 106.08(1) or participate in any other activity which is prohibited by this chapter. If any violation occurs, it shall be punishable as provided in this chapter for the given offense. No funds of a committee of contin-

uous existence shall be expended on behalf of a candidate, except by means of a contribution made through the duly appointed campaign treasurer of a candidate. No such committee shall make expenditures in support of, or in opposition to, an issue unless such committee first registers as a political committee pursuant to this chapter and undertakes all the practices and procedures required thereof.

(6) All accounts and records of a committee of continuous existence may be inspected under reasonable circumstances by any authorized representative of the Division of Elections or the Florida Elections Commission. The right of inspection may be enforced by appropriate writ issued by any court of competent jurisdiction.

(7) If a committee of continuous existence ceases to meet the criteria prescribed by subsection (1), the Division of Elections shall revoke its certification until such time as the criteria are again met.

Duly authorized representatives of the division are empowered to administer all oaths and affirmations in the manner prescribed by law to witnesses who shall appear before them concerning any relevant matter. On the filing of such complaint, the court shall take jurisdiction of the witness and the subject mat-

ter of said complaint and shall direct the witness to respond to all lawful questions and to produce all documentary evidence in his possession which is lawfully demanded. The failure of any witness to comply with such order of the court shall constitute a direct and criminal contempt of court, and the court shall punish said witness accordingly. However, the refusal by a witness to answer inquiries or turn over evidence on the basis that such testimony or material will tend to incriminate such witness shall not be deemed refusal to comply with the provisions of this chapter.

(2) The Division of Elections shall provide advisory opinions when requested by any supervisor of elections, candidate, local officer having election-related duties, political party, political committee, committee of continuous existence, or other person or organization engaged in political activity, relating to any provisions or possible violations of Florida election laws with respect to actions such as supervisor, candidate, local officer having election-related duties, political party, committee, person, or organization has taken or proposes to take. A copy shall be sent to said person or organization upon request. Any such person or organization, acting in good faith upon such an advisory opinion, shall not be subject to any criminal penalty provided for in this chapter. (1) There is created within the Department of State a Florida Elections Commission, hereinafter referred to as the commission. It shall be composed of seven members, including a chairman, all of whom shall be appointed by the Governor with the approval of three members of the cabinet and subject to confirmation by the Senate. Members of the commission appointed by the Governor shall serve for 4-year terms, except that, of the original appointees, three members shall be appointed for terms of 2 years each and their successors shall be appointed for full 4-year terms. The chairman of the commission shall be designated by the Governor. Vacancies on the commission shall be filled for the unexpired terms in the manner of the original appointment to the vacated position. Members of the commission may be reappointed to succeed themselves. Members of the commission shall be paid travel and per diem as provided in s. 112.061 while in performance of their duties and in traveling to, from, and upon same. Of the seven members of the commission, no more than four members shall be from the same political party at any one time.

106.25 Reports of alleged violations to Department of State; disposition of findings.—

(1) Jurisdiction to investigate and determine violations of this chapter is vested in the Division of Elections and the Florida Elections Commission; however, nothing in this section shall limit the jurisdiction of any other officers or agencies of government empowered by law to investigate, act upon, or dispose of alleged violations of this code.

(2) The Division of Elections shall investigate and report to the Florida Elections Commission all violations of this chapter. Any person having information of any violation of this chapter shall file a sworn complaint with the Division of Elections. Such sworn complaint shall state whether a complaint of the same violation has been made to any state attorney.

(3) For the purposes of Florida Elections Commission jurisdiction, a violation shall mean the willful performance of an act prohibited by this chapter or the willful failure to perform an act required by this chapter.

(4) The division shall, by written report filed with the commission, find an apparent violation or no apparent violation of this chapter, whereupon the commission shall make a preliminary determination to consider the matter or to refer the matter to the State Attorney for the judicial circuit in which the alleged violation occurred.

(a) It shall be the duty of a state attorney receiving a complaint referred by the commission to investigate same promptly and thoroughly; to undertake such criminal or civil actions as are justified by law; and to report to the commission the results of such investigation, the action taken, and the disposition thereof.

(b) The failure or refusal of a state attorney to prosecute or to initiate action upon a complaint or a referral by the commission shall not bar further action by the commission under this chapter.

(5) All sworn complaints filed pursuant to this chapter with the Division of Elections or the Florida Elections Commission, all division investigations and investigative reports or other papers of the division or commission with respect to violations of this chapter, and all proceedings of the commission with respect to violations of this chapter shall be confidential, shall be exempt from the provisions of s. 119.07(1) and chapter 286, and shall be exempt from publication in the Florida Administrative Weekly of any notice or agenda with respect to any proceeding

relating to such violations. Upon entry of an order by the commission disposing of a case before it, the entire proceedings and records relating to such case shall become a public record, except that if an order disposing of a case is entered within 30 days prior to the date of the election with respect to which the alleged violation occurred, such order and the proceedings and records relating to such case shall not become public until noon of the day following such election. When two or more persons are being investigated by the commission with respect to an alleged violation of this chapter, the commission shall not publicly enter an order disposing of the findings of the case until the disposition of the entire case has been determined. However, once the confidentiality of any case has been breached, the person or persons under investigation shall have the right to waive the confidentiality of the case, thereby opening up the proceedings and records to the public. Any person who discloses any information or matter made confidential by the provisions of this subsection is guilty of a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(6) Any person who files a complaint pursuant to this section while knowing that the allegations contained in such complaint are false or without merit shall be guilty of a misdemeanor of the first degree and punished as provided in s. 775.082 or s. 775.083.

History.—s. 25, ch. 73-128; s. 11, ch. 74-200; s. 60, ch. 77-175; s. 3, ch. 78-403.

106.26 Powers of commission; rights and responsibilities of parties; findings by commission.—

(1) The commission shall, pursuant to rules adopted and published in accordance with chapter 120, consider all matters reported to it by the Division of Elections or otherwise coming to its attention. In order to carry out its duties, the commission may, whenever required, issue subpoenas and other necessary process to compel the attendance of witnesses before it. The chairman thereof shall issue said process on behalf of the commission. The chairman or any other member of the commission may administer all oaths and affirmations in the manner prescribed by law to witnesses who shall appear before the commission for the purpose of testifying in any matter about which the commission may desire evidence. The commission, whenever required, may also compel by subpoena the production of any books, letters, or other documentary evidence it may desire to examine in reference to any matter before it. The sheriffs in the several counties shall make such service and execute all process or orders when required by the commission. Sheriffs shall be paid for these services by the commission as provided for in s. 30.231. Any person who is served with a subpoena to attend a hearing of the commission also shall be served with a general statement informing him of the subject matter of the commission's investigation or inquiry and a notice that he may be accompanied at the hearing by counsel of his own choosing.

(2) Should any witness fail to respond to the lawful subpoena of the commission or, having responded, fail to answer all lawful inquiries or to turn over evidence that has been subpoenaed, the commission may file a complaint before any circuit court of the state setting up such failure on the part of the wit-

ness. On the filing of such complaint, the court shall take jurisdiction of the witness and the subject matter of said complaint and direct the witness to respond to all lawful questions and to produce all documentary evidence in his possession which is lawfully demanded. The failure of any witness to comply with such order of the court shall constitute a direct and criminal contempt of court, and the court shall punish said witness accordingly.

(3) All witnesses summoned before the commission, other than on the request of the subject of a hearing, shall receive reimbursement for travel expenses and per diem at the rates provided in s. 112.061. However, the fact that such reimbursement is not tendered at the time the subpoena is served shall not excuse the witness from appearing as directed therein.

(4) Upon request of any person having business before the commission, and with the approval of a majority of the commission, the chairman or, in his absence, the vice chairman shall instruct all witnesses to leave the hearing room and retire to a designated place. The witness will be instructed by the chairman or, in his absence, the vice chairman not to discuss his testimony or the testimony of any other person with anyone until the hearing has been adjourned and the witness discharged by the chairman. The witness shall be further instructed that should any person discuss or attempt to discuss the matter under investigation with him after receiving such instructions he shall bring such matter to the attention of the commission. No member of the commission or representative thereof may discuss any matter or matters pertinent to the subject matter under investigation with witnesses to be called before the commission from the time that these instructions are given until the hearing has been adjourned and the witness discharged by the chairman.

(5) The commission, when interrogating witnesses as provided herein, shall cause a record to be made of all proceedings in which testimony or other evidence is demanded or adduced. This record shall include rulings of the chair, questions of the commission and its counsel, testimony or responses of witnesses, sworn written statements submitted to the commission, and all other pertinent matters. A witness at a hearing, upon his advance request and at his own expense, shall be furnished a certified transcript of all testimony taken at the hearing.

(6) Before or during a hearing, any person noticed to appear before the commission, or his counsel, may file with the commission, for incorporation into the record of the hearing, sworn written statements relevant to the purpose, subject matter, and scope of the commission's investigation or inquiry. Any such person shall, however, prior to filing such statement, consent to answer questions from the commission regarding the contents of the statement.

(7) Any person whose name is mentioned or who is otherwise identified during a hearing being conducted by the commission and who, in the opinion of the commission, may be adversely affected thereby may, upon his request or upon the request of any member of the commission, appear personally before the commission and testify on his own behalf or, with the commission's consent, file a sworn written state-

ment of facts or other documentary evidence for incorporation into the record of the hearing. Any such person shall, however, prior to filing such statement, consent to answer questions from the commission regarding the contents of the statement.

(8) Upon the consent of a majority of its members, the commission may permit any other person to appear and testify at a hearing or submit a sworn written statement of facts or other documentary evidence for incorporation into the record thereof. No request to appear, appearance, or submission shall limit in any way the commission's power of subpoena. Any such person shall, however, prior to filing such statement, consent to answer questions from the commission regarding the contents of the statement.

(9) Any person who appears before the commission pursuant to this section shall have all the rights, privileges, and responsibilities of a witness appearing before a court of competent jurisdiction.

(10) If the commission fails in any material respect to comply with the requirements of this section, any person subject to subpoena or subpoena duces tecum who is injured by such failure shall be relieved of any requirement to attend the hearing for which the subpoena was issued or, if present, to testify or produce evidence therein; and such failure shall be a complete defense in any proceeding against such person for contempt or other punishment.

(11) Whoever willfully affirms or swears falsely in regard to any material matter or thing before the commission shall be guilty of a felony in the third degree and punished as provided by s. 775.082, s. 775.083, or s. 775.084.

(12) At the conclusion of its hearings concerning an alleged violation, the commission shall immediately begin deliberations on the evidence presented at such hearings and shall proceed to determine by affirmative vote of four of the members present whether a violation of this chapter has occurred. Such determination shall promptly be made public. The order shall contain a finding of violation or no violation, together with brief findings of pertinent facts, and the assessment of such civil penalties as are permitted by this chapter or no such assessment and shall bear the signature or facsimile signature of the chairman or vice chairman.

106.265 Civil penalties.—

(1) The commission is authorized upon finding of violation of this chapter to impose civil penalties in the form of fines not to exceed \$1,000 per count. In determining the amount of such civil penalties, the commission shall consider, among other mitigating and aggravating circumstances:

- (a) The gravity of the act or omission;
- (b) Any previous history of similar acts or omissions;
- (c) The appropriateness of such penalty to the financial resources of the person, political committee, or committee of continuous existence; and
- (d) Whether the person, political committee, or committee of continuous existence has shown good

faith in attempting to comply with the provisions of this chapter.

(2) If any person, political committee, or committee of continuous existence fails or refuses to pay to the commission any civil penalties assessed pursuant to the provisions of this section, the commission may bring an action in any circuit court of this state to enforce such penalty.

(3) Any civil penalty collected pursuant to the provisions of this section shall be deposited into the General Revenue Fund.

History.—s. 61, ch. 77-175.

106.27 Determinations by commission; legal disposition.—

(1) Criminal proceedings for violations of this chapter may be brought in the appropriate court of competent jurisdiction. Any such action brought under this chapter shall be advanced on the docket of the court in which filed and put ahead of all other actions.

(2) Civil actions may be brought for relief, including permanent or temporary injunctions, restraining orders, or any other appropriate order for the imposition of civil penalties provided by this chapter. Such civil actions shall be brought in the appropriate court of competent jurisdiction, and the venue shall be in the county in which the alleged violation occurred or in which the alleged violator or violators are found, reside, or transact business. Upon a proper showing that such person or political committee has engaged, or is about to engage, in prohibited acts or practices, a permanent or temporary injunction, restraining order, or other order shall be granted without bond by such court, and the civil fines provided by this chapter may be imposed.

(3) Civil actions may be brought to enjoin temporarily the issuance of certificates of election to successful candidates who are alleged to have violated the provisions of this chapter. Such injunctions shall issue upon a showing of probable cause that such violation has occurred. Such actions shall be brought in the circuit court for the circuit in which is located the officer before whom the candidate qualified for office.

Each state and county executive committee shall file such reports quarterly, except that, during the period from the last day for candidate qualifying until the general election, each state executive committee shall file reports on the Monday of each week, and each county executive committee shall file reports on the first Monday of each month. (c) Participation by individuals in the program shall be available to all state officers, full-time state employees, and part-time state employees, and such participation in the program or any plan thereof shall be voluntary. Participation in the program shall also be available to retired state officers and employees who elect at the time of retirement to continue coverage under the program, but they may elect to continue all or only part of the coverage they had at the time of retirement. A surviving spouse may elect to continue coverage only under the state group health insurance program.

(d) A person eligible to participate in the state group health insurance plan may be authorized by rules adopted by the Department of Administration, in lieu of participating in the state group health insurance plan, to exercise an option to elect membership in a health maintenance organization which is qualified in accordance with criteria established by said rules. The offer of optional membership in a health maintenance organization permitted by this paragraph may be limited or conditioned by rule as may be necessary to meet the requirements of federal law.

(e) The benefits of the insurance authorized by this section shall not be in lieu of any benefits payable under chapter 440, the Workers' Compensation Law. The insurance authorized by this law shall not be deemed to constitute insurance to secure workers' compensation benefits as required by chapter 440.

(4) PAYMENT OF PREMIUMS; CONTRIBUTION BY STATE.—

(a) Legislative authorization through the appropriations act shall be required for payment by a state agency of any part of the premium cost of participation in any group insurance plan.

(b) If a state officer or full-time state employee selects membership in a health maintenance organization as authorized by subsection (3)(d), the officer or employee shall be entitled to a state contribution toward individual and dependent membership as provided by the Legislature through the appropriations act. Any additional cost of such membership shall be borne by the officer or employee.

(c) During each policy or budget year, no state agency shall contribute a greater percentage of the premium cost for its officers or employees for any type of coverage under the state group insurance program than any other agency, nor shall any greater percentage contribution of premium cost be made for employees in one state collective bargaining unit than for those in any other state collective bargaining unit.

(d) The state contribution for a part-time permanent state employee who elects to participate in the

program shall be on a pro rata basis so that the percentage of the cost contributed for the part-time permanent employee shall bear that relation to the percentage of cost contributed for a similar full-time employee that the part-time employee's normal work day bears to a full-time employee's normal work day.

(e) No state contribution for the cost of any part of the premium shall be made for retirees or surviving spouses for any type of coverage under the state group insurance program.

(f) Pursuant to the request of each state officer, full-time or part-time state employee, or retiree participating in the state group insurance program, and upon certification of the employing agency approved by the Secretary of Administration, the Comptroller shall deduct from the salary or retirement warrant payable to each participant the amount so certified and shall handle such deductions in accordance with rules established by the Secretary of Administration.

(5) DEPARTMENT OF ADMINISTRATION; POWERS AND DUTIES.—The Secretary of Administration shall be responsible for the administration of the state group insurance program. The Department of Administration shall initiate and supervise the program as established by this section. To implement this program, the department shall, subject to legislative approval:

(a) Determine the benefits to be provided and the contributions to be required for the state group insurance program. Any physician's fee schedule used in the health and accident plan shall not be available for inspection or copying by medical providers or other persons not involved in the administration of the program. However, in the determination of the design of the program, the department shall consider existing and complementary benefits provided by the Florida Retirement System and the Social Security System.

(b) Prepare, in cooperation with the Department of Insurance, the specifications necessary to implement the program.

(c) Contract on a competitive proposal basis with an insurance carrier or carriers, or professional administrator, determined by the Department of Insurance to be fully qualified, financially sound, and capable of meeting all servicing requirements. Alternatively, the Department of Administration may self-insure any plan or plans contained in the state group insurance program subject to approval based on actuarial soundness by the Department of Insurance. The department may contract with an insurance company or professional administrator qualified and approved by the Department of Insurance to administer such plan. Before entering into any contract, the Department of Administration shall advertise for competitive proposals, and such contract shall be let upon the consideration of the benefits provided in relationship to the cost of such benefits.

(d) Promulgate such rules as may be necessary to perform its responsibilities.

(6) DEPOSIT OF PREMIUMS AND REFUNDS.—Premium dollars collected and not required to pay the costs of the program, prior to being paid to the carrier insurance company, shall be invested, and

the earnings from such investment shall be deposited in a trust fund to be designated in the State Treasury and utilized for increased benefits or reduced premiums for the participants or may be used to pay for the administration of the state group insurance program. Any refunds paid the state by the insurance carrier from premium dollar reserves held by the carrier and earned on such refunds shall be deposited in the trust fund and used for such purposes.

(7) **CONTINUATION OF AGENCY INSURANCE PLANS.**—Nothing contained in this section shall require the discontinuation of any insurance plan provided by any state agency; however, no state or agency funds shall be contributed toward the cost of any part of the premium of such agency plans. Such agency plans shall not be deemed to be included in the state group insurance program. However, the department shall identify and analyze the various plans and benefits currently in existence in state government and prepare a report to be submitted to the 1980 Legislature.

110.124 Retirement or transfer of employees aged 65 or older.—

(1) An employee of the state who is within the Career Service System established by part II, or who is protected by any other merit system plan or system providing for tenure, may not be retired by the agency or department in which he is employed solely because of attainment of age 65. Such employee may be retired if the agency or department specifies charges or other cause for such retirement. The attainment of age 65 or older shall not be considered as such specified cause for retirement. If an employee continues in employment beyond age 65, the agency or department shall not be required to justify such continuation in employment.

(2) Whenever any employee who has attained age 65 is retired by an agency or department, he may apply for relief from the action to the Career Service Commission. The employee shall continue in employment pending the outcome of the application. If the employee continues in employment following the decision of the commission, no further action shall be taken by the agency or department to retire the employee for a period of 1 year following the date of the decision of the commission unless approved by the commission upon a showing by the agency or department that the employee's capability has changed to a sufficient extent that he is no longer able to perform any job within such agency or department.

(3) Any employee who has attained age 65 may be transferred to some job requiring less responsibility and less arduous duties by the agency or department in which he is employed when determination is made that such employee is not able to satisfactorily carry out the full duties of his position. A transfer to a different position may be accompanied by an appropriate reduction in pay. Such transfer shall be subject to appeal by the employee.

(4) If mutually agreed to by the employee and the agency or department, an employee who has attained age 65 may be reduced to a part-time position for the purpose of phasing the employee out of employment into retirement. Such an arrangement

may also be required by the Career Service Commission as part of its decision in any appeal arising out of this section. A reduction to a part-time position may be accompanied by an appropriate reduction in pay.

(5) In the event of transfer to another position or reduction to a part-time position, the agency or department concerned shall furnish, in writing, to the affected employee the reasons for the transfer or reduction, together with the name and classification of the employee concerned.

History.—s. 21, ch. 79-190.

Note.—Words "Career Service" substituted for "Personnel" by the editors to conform to Senate Amendments 41 and 42 to Amendment 1 to CS for HB's 1604 and 1649, which deleted provisions relating to creation of a "Personnel" commission and, in effect, retained the "Career Service" designation. See Senate Journal 1979, pp. 850, 853, 870, and 871 and s. 22, ch. 79-190.

110.125 Administrative costs.—The administrative expenses and costs of operating the personnel program established by this chapter shall be paid by the various agencies of the state government, and each such agency shall include in its budget estimates its pro rata share of such cost as determined by the Department of Administration. To establish an equitable division of the costs, the amount to be paid by each agency shall be determined in such proportion as the service rendered to each agency bears to the total service rendered under the provisions of this chapter. Should any state agency become more than 90 days delinquent in payment of this obligation, the department shall certify to the Comptroller the amount due and the Comptroller shall transfer the amount due to the department from any debtor agency funds available.

History.—s. 20, ch. 79-190.

110.126 Oaths, testimony, records.—The department shall have power to administer oaths, subpoena witnesses, and compel the production of books and papers pertinent to any investigation of personnel practices or hearing authorized by this chapter. Any person who shall fail to appear in response to a subpoena or to answer any question or produce any books or papers pertinent to any such investigation or hearing or who shall knowingly give false testimony therein shall be guilty of a misdemeanor of the first degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

History.—s. 20, ch. 79-190.

(2) The provisions of s. 112.011 to the contrary notwithstanding, any person who is convicted of a misdemeanor under this chapter shall be, for a period of 5 years, ineligible for appointment to or employment in a position in the state service and, if an employee of the state, shall forfeit his or her position.

(3) Imposition of the penalties provided in this section shall not be in lieu of any action which may

be taken or penalties which may be imposed pursuant to part III of chapter 112.

History.—s. 20, ch. 79-190.

110.129 Services to political subdivisions.—

(1) Upon request, the department may enter into formal agreements with any municipality or political subdivision of the state to furnish technical assistance to improve the system or methods of personnel administration of such municipality or political subdivision. The department shall provide such assistance within the limitations of available staff, funds, and other resources. All municipalities and political subdivisions of the state are authorized to enter into such agreements.

(2) Technical assistance may include, but shall not be limited to, technical advice, written reports, and other information or materials and may cover such subjects as management and personnel systems, central administrative and support services, employee training, and employee productivity.

(3) Technical assistance rendered to municipalities or political subdivisions pursuant to this section may be on a nonreimbursable basis or may be partly or wholly reimbursable based upon the extent, nature, and duration of the requested assistance; the extent of resources required; and the degree to which the assistance would be of use to other municipalities or political subdivisions of the state.

(b) Such law enforcement officer is found to be not liable or not guilty.

History.—s. 1, ch. 76-191.

111.07 Defense of civil actions against public officers, employees, or agents.—Any agency of the state, or any county, municipality, or political subdivision of the state is authorized to provide an attorney to defend any civil actions brought against any of its officers, employees, or agents for acts or omissions arising out of and in the scope of their employment or function, unless, in the case of a tort action, such officer, employee, or agent acted in bad faith, with malicious purpose, or in a manner exhibiting wanton and willful disregard of human rights, safety, or property. Defense of such civil actions shall include, but not be limited to, any civil rights lawsuit seeking relief personally against such officers, employees, or agents for acts or omissions under color of state law, custom, or usage, wherein it is alleged

that such officer, employee, or agent has deprived another person of his rights secured under the federal constitution or laws. Legal representation of an officer, employee, or agent of a state agency may be provided by the Department of Legal Affairs. If any agency of the state or any county, municipality, or political subdivision of the state is authorized pursuant to this section to provide an attorney to defend a civil action brought against its officers, employees, or agents and fails to provide such attorney, then said agency, county, municipality, or political subdivision shall reimburse any such defendant who prevails in the action for court costs and reasonable attorney's fees.

History.—s. 1, ch. 72-36; s. 1, ch. 79-139.

111.071 Payment of judgments or settlements against officers, employees, or agents of any county, municipality, political subdivision, or certain agencies of the state.—

(1) Any county, municipality, political subdivision, or agency of the state which has been excluded from participation in the Insurance Risk Management Trust Fund is authorized to expend available funds to pay:

(a) Any final personal judgment, including damages, costs, and attorney's fees, against any officer, employee, or agent held to be personally liable in a civil or civil rights lawsuit described in s. 111.07. If the civil action arises under s. 768.28 as a tort claim, the limitations and provisions of s. 768.28 governing payment shall apply. If the action is a civil rights action arising under 42 U.S.C. s. 1983, or similar federal statutes, payments for the full amount of the judgment may be made unless the officer, employee, or agent has been determined in the final judgment to have caused the harm intentionally.

(b) Any compromise or settlement of any claim or litigation as described in paragraph (a), subject to the limitations set forth in that paragraph.

(c) Any reimbursement required under s. 111.07 for court costs and reasonable attorney's fees when the county, municipality, political subdivision, or agency of the state has failed to provide an attorney and the defendant prevails.

(2) For purposes of this section, a "final judgment" means a judgment upon completion of any appellate proceedings.

(3) This section is not intended to be a waiver of sovereign immunity or a waiver of any other defense or immunity to such lawsuits.

History.—s. 2, ch. 79-139.

111.072 Provision of insurance in anticipation of judgments or settlements against officers, employees, or agents of any county, municipality, or political subdivision.—Any county, municipality, or political subdivision is authorized to be self-insured, to enter into risk management programs, or to purchase liability insurance for whatever coverage it may choose or to have any combination thereof in anticipation of any judgment or settlement which its officers, employees, or agents may be liable to pay pursuant to a civil or civil rights lawsuit described in s. 111.07.

profession, or business for which the license, permit, or certificate is sought.

(2)(a) This section shall not be applicable to any law enforcement agency. However, nothing herein shall be construed to preclude a law enforcement agency, in its discretion, from adopting the policy set forth herein.

(b) This section shall not be applicable to the employment practices of any fire department relating to the hiring of firemen. An applicant for employment with any fire department with a prior felony conviction shall be excluded from employment for a period of 4 years after expiration of sentence or final release by the Parole and Probation Commission unless the applicant prior to the expiration of the 4-year period, has received a full pardon or has had his civil rights restored.

(3) Any complaints concerning the violation of this section shall be adjudicated in accordance with the procedures set forth in chapter 120 for administrative and judicial review.

History.—ss. 1-3, ch. 71-115; s. 1, ch. 73-109, cf.—s. 940.05 Restoration of civil rights.

112.021 Florida residence unnecessary.—Except as expressly provided by law, there shall be no Florida residence requirement for any person as a condition precedent to employment by any county.

History.—s. 3, ch. 69-20; s. 23, ch. 71-355; s. 25, ch. 79-190.

112.042 No discrimination in county and municipal employment.—

(1) It shall be against the public policy of this state for the governing body of any county or municipal agency, board, commission, department, or office, solely because of the race, color, sex, religious creed, or national origin of any individual, to refuse to hire or employ, to bar, or to discharge from employment such individuals or to otherwise discriminate against such individuals with respect to compensation, hire, tenure, terms, conditions, or privileges of employment, if the individual is the most competent and able to perform the services required.

(2)(a) Any person, firm, corporation, association, or other group or body, jointly or severally, who may be aggrieved by any decision, regulation, restriction, or resolution adopted by the governing body of any county or municipal agency, board, commission, or department which is an unlawful employment practice under this section may apply to such agency, board, commission, or department at any time for a modification or rescission thereof. If such modification or rescission should be refused, any such person, firm, corporation, association or other group or body may, within 30 days after such refusal, but not thereafter, institute original proceedings for relief in the circuit court of the county.

(b) There shall be no right to apply to the court for relief on account of any order, requirement, decision, determination, or action of any county or municipal officer pursuant to this section unless there shall first have been an appeal therefrom to the governing agency, board, commission, or department to which such officer is responsible.

(3) Nothing in this section shall be construed to prohibit alternative relief through local civil service systems and boards provided for in s. 14, Art. III of the State Constitution.

History.—s. 1, ch. 69-334.

112.043 Age discrimination.—It shall be the public policy of the state that no officer or board, whether state or county, shall discriminate in the employment of any person solely on the basis of age. Persons who apply for employment with the state or any county of the state shall be selected on the basis of training, experience, mental and physical abilities, and other selection criteria established for the position. Unless age restrictions have been specifically established through published specifications for a position, available to the public, the employing authority shall give equal consideration to all applicants, regardless of age.

History.—s. 1, ch. 69-141.

112.044 Public employers, employment agencies, labor organizations; discrimination based on age prohibited; exceptions; remedy.—

(1) **LEGISLATIVE INTENT; PURPOSE.**—The Legislature finds and declares that in the face of rising productivity and affluence, older workers find themselves disadvantaged, both in their efforts to retain employment and in their efforts to regain employment when displaced from jobs. The setting of arbitrary age limits, irrespective of capability for job performance, has become a common practice, and certain otherwise desirable practices may work to the disadvantage of older persons. In comparison to the incidence of unemployment among younger workers, the incidence of unemployment, especially long-term unemployment with resultant deterioration of skill, morale, and employer acceptability, is high among older workers, whose numbers are great and growing and whose employment problems are grave. In industries affecting commerce, the existence of arbitrary discrimination in employment because of age burdens commerce and the free flow of goods. It is the purpose of this act to promote employment of older persons based on ability rather than age and to prohibit arbitrary age discrimination in employment.

(2) **DEFINITIONS.**—For the purpose of this act:

(a) "Employer" means the state or any county, municipality, or special district or any subdivision or agency thereof. This definition shall not apply to any law enforcement agency or firefighting agency in this state.

(b) "Employment agency" means any person, including any agent thereof, regularly undertaking, with or without compensation, to procure employees for an employer, including state and local employment services receiving federal assistance.

(c) "Employee" means an individual employed by any employer.

(d) "Department" means the Department of Labor and Employment Security.

(3) **PROHIBITED ACTIVITIES; EXCEPTIONS.**—

(a) Except as provided in paragraph (f), it is unlawful for an employer to:

1. Fail or refuse to hire, discharge or mandatori-

ly retire, or otherwise discriminate against any individual with respect to the compensation, terms, conditions, or privileges of employment because of age.

2. Limit, segregate, or classify employees in any way which would deprive, or tend to deprive, any individual of employment opportunities, or otherwise adversely affect his status as an employee, because of age.

3. Reduce the wage rate of any employee or otherwise alter the terms or conditions of employment in order to comply with this act, unless such a reduction is with the employee's express or implied consent.

(b) Except as provided in paragraph (f), it is unlawful for an employment agency to fail or refuse to refer for employment, or otherwise to discriminate against, any individual because of age or to classify or refer for employment any individual on the basis of age.

(c) Except as provided in paragraph (f), it is unlawful for a labor organization to:

1. Exclude or expel from its membership, or otherwise discriminate against, any individual because of age.

2. Limit, segregate, or classify its membership, or fail or refuse to refer for employment any individual, in any way which would limit, deprive, or tend to deprive the individual of employment opportunities or which would otherwise adversely affect his status as an employee or as an applicant for employment solely because of age.

3. Cause or attempt to cause an employer to discriminate against an individual in violation of this section.

(d) It is unlawful:

1. For an employer to discriminate against any employee or applicant for employment;

2. For an employment agency to discriminate against any individual; or

3. For a labor organization to discriminate against any member or applicant for membership,

because such employee, applicant for employment, individual, member, or applicant for membership has opposed any practice made unlawful by this section or because the employee, applicant for employment, individual, member, or applicant for membership has made a charge, testified, assisted, or participated in any manner in an investigation, a proceeding, or litigation under this act.

(e) Except as provided in paragraph (f), it is unlawful for an employer, labor organization, or employment agency to print or publish, or cause to be printed or published, any notice or advertisement relating to:

1. Employment by such employer;

2. Membership in such labor organization or any classification or referral for employment by such labor organization; or

3. Any classification or referral for employment by such employment agency,

which notice or advertisement indicates any preference, limitation, specification, or discrimination based on age.

(f) It is not unlawful for an employer, employ-

ment agency, or labor organization to:

1. Take any action otherwise prohibited under paragraphs (a), (b), (c), or (e), based on a bona fide occupational qualification reasonably necessary to the normal operation of the particular business.

2. Observe the terms of a bona fide seniority system or any bona fide employee benefit plan, such as a retirement, pension, or insurance plan, which is not a subterfuge to evade the purposes of this act.

3. Discharge or otherwise discipline an individual for good cause.

(4) **APPEAL; CIVIL SUIT AUTHORIZED.**—Any employee of the state who is within the Career Service System established by chapter 110 and who is aggrieved by a violation of this act may appeal to the Career Service Commission under the conditions and following the procedures prescribed in chapter 110. Any person other than an employee who is within the Career Service System established by chapter 110 who is aggrieved by a violation of this act may bring a civil action in any court of competent jurisdiction for such legal or equitable relief as will effectuate the purposes of this act.

(5) **NOTICE TO BE POSTED.**—Each employer, employment agency, and labor organization shall post and keep posted in conspicuous places upon its premises a notice to be prepared or approved by the department setting forth such information as the department deems appropriate to effectuate the purposes of this act.

History.—ss. 6-8, 10, 11, ch. 76-208; s. 1, ch. 77-174; s. 7, ch. 79-7; s. 31, ch. 79-190.

¹**Note.**—Words "Career Service" substituted for "Personnel" by the editors to conform to Senate Amendments 41 and 42 to Amendment 1 to C.S. for H.B.'s 1604 and 1649, which deleted provisions relating to creation of a "Personnel" commission and, in effect, retained the "Career Service" designation. See Senate Journal 1979, pp. 850, 853, 870, and 871 and s. 22, ch. 79-190.

112.05 Retirement; cost-of-living adjustment.

(1)(a) Whenever any state official or state employee has attained the age of 70 years or more and has served the state as either an official or employee, or both, for as much as 20 consecutive years or more or for an aggregate time of 30 years or more, or whenever any state official or employee, irrespective of age, has served the state as either an official or employee, or both, for 30 consecutive years or more, or for as much as an aggregate of 35 years or more, such official or employee may retire from his office as such official or employee with the right to be paid, and shall be paid monthly on his own requisition during the remainder of his natural life one-half the amount of the average monthly salary received during the last 10 years of such service; and sufficient money to meet the requirements of this section is hereby appropriated out of any moneys in the State Treasury not otherwise appropriated. Provided, that military service in the Armed Forces of the United States shall be computed as a part of the time specified hereinabove as entitling a state official or employee to the benefits of this section. This section shall apply only to persons retired or persons who are on a state payroll June 30, 1953 and remain continuously on a state payroll until eligible to retire. This section shall not affect any state official or employee who has already retired under any retirement act, except that no cabinet officer qualifying shall receive less than \$4,500 per year.

(b)1. Any state official or state employee who, as of January 1, 1976, has served the state as either an official or employee, or both, for 29 consecutive years, irrespective of age, and who has a terminal or critical illness, which illness is certified by two physicians licensed in this state as terminal or critical, shall be eligible for early retirement. The benefits accruing to any such person under this section shall be reduced by five-twelfths of 1 percent for each complete month by which such retirement precedes the 30 years of service required under paragraph (a).

2. Any state official or employee eligible to retire pursuant to the provisions of this paragraph may retire from his office as such official or employee with the right to be paid, and shall be paid monthly on his own requisition during the remainder of his natural life, one-half the amount of the average monthly salary received during the last 10 years of his service, less the actuarial reduction provided for in subparagraph 1.

(2)(a) On July 1, 1974, and each July 1 thereafter, an initial cost-of-living adjustment shall be made to the monthly benefit payable to certain retirees who are retired under the provisions of this section and who are 65 years old or older on July 1 of the adjustment year. The cost-of-living adjustment provided in this subsection shall also be applicable to all persons who are retired, or who may hereafter retire, under this section, on the first July 1 following their 65th birthday and each July 1 thereafter.

(b) The initial cost-of-living adjustment authorized by this subsection shall be made by using the formula provided in, and pursuant to, the provisions of s. 121.101 for initial adjustments, except that the standard benefit for any retiree under this section shall be 48 percent of his average final compensation, regardless of his years of service.

(c) On each July 1 following the initial adjustment of a retiree's benefit, his monthly benefit shall be adjusted to an amount equal to the sum of the monthly benefit being received on June 30 immediately preceding the adjustment date, plus a percentage of this benefit, such percentage to be equal to the percentage change in the average cost-of-living index as of the date of adjustment from the average cost-of-living index for the next preceding adjustment date. However, the percentage change used to make the cost-of-living adjustment shall not exceed 3 percent for any annual adjustment date.

(d) Any retiree whose benefit has been adjusted pursuant to s. 112.362 shall not be entitled to the cost-of-living adjustment provided in this subsection until he has received the adjusted benefit provided by s. 112.362 for 1 full year.

112.0501 Ratification of certain dual retirements.—

(1) Any state employee who was permitted by the Comptroller, as administrator of the retirement provisions of s. 112.05 and chapter 122, to retire under the provisions of both such statutes prior to April 23, 1969, when the Attorney General ruled that such

dual retirements are prohibited by s. 122.10(3), as recodified by the Legislature in 1965, shall receive and enjoy the retirement benefits awarded to him upon his retirement, the provisions of s. 122.10(3) to the contrary notwithstanding.

(2) The exceptions granted to state retirees coming under the provisions of subsection (1) shall not apply to any state employee retiring subsequent to November 1, 1970, and the administrator of the Florida Retirement System is hereby directed to establish such rules and procedures as may be necessary to prohibit such dual retirements for members of the Florida Retirement System or any retirement system consolidated therein pursuant to s. 121.011(2).

History.—s. 1, ch. 72-202.

112.0515 Retirement or pension rights unaffected by consolidation or merger of governmental agencies.—It is hereby declared to be the policy of this state that in any consolidation or merger of governments or the transfer of functions between units of governments either at the state or local level or between state and local units, the rights of all public employees in any retirement or pension fund shall be fully protected. No consolidation or merger of governments or governmental services, either state or local, accomplished in this state shall diminish or impair the rights of any public employee in any retirement or pension fund or plan which existed at the date of such consolidation or merger and in which the employee was participating, nor shall such consolidation or merger result in any impairment or reduction in benefits or other pension rights accruing to such employee.

History.—s. 1, ch. 72-210.

112.061 Per diem and traveling expenses of public officers, employees, and authorized persons.—

(1) **LEGISLATIVE INTENT.**—There are inequities, conflicts, inconsistencies and lapses in the numerous laws regulating or attempting to regulate traveling expenses of public officers, employees, and authorized persons in the state. It is the intent of the Legislature:

(a) To remedy same and to establish uniform maximum rates, and limitations, with certain justifiable exceptions, applicable to all public officers, employees, and authorized persons whose traveling expenses are paid by a public agency.

(b) To preserve the standardization and uniformity established by this law:

1. The provisions of this section shall prevail over any conflicting provisions in a general law, present or future, to the extent of the conflict; but if any such general law contains a specific exemption from this section, including a specific reference to this section, such general law shall prevail, but only to the extent of the exemption.

2. The provisions of any special or local law, present or future, shall prevail over any conflicting provisions in this section, but only to the extent of the conflict.

(2) **DEFINITIONS.**—For the purposes of this section the following words shall have the meaning indicated:

(a) Agency or public agency—Any office, depart-

ment, agency, division, subdivision, political subdivision, board, bureau, commission, authority, district, public body, body politic, county, city, town, village, municipality or any other separate unit of government created pursuant to law.

(d) Employee or public employee—An individual, whether commissioned or not, other than an officer or authorized person as defined herein, who is filling a regular or full-time authorized position and is responsible to an agency head.

2. A person who is called upon by an agency to contribute time and services as consultant or advisor.

3. A person who is a candidate for an executive or professional position.

(f) Traveler—A public officer, public employee, or authorized person, when performing authorized travel.

(g) Travel expense, traveling expenses, necessary expenses while traveling, actual expenses while traveling, or words of similar nature—The usual ordinary and incidental expenditures necessarily incurred by a traveler.

(h) Common carrier—Train, bus, commercial airline operating scheduled flights, or rental cars of an established rental car firm.

(i) Travel day—A period of 24 hours consisting of 4 quarters of 6 hours each.

(j) Travel period—A period of time between the time of departure and time of return.

(k) Class A travel—Continuous travel of 24 hours or more away from official headquarters.

(l) Class B travel—Continuous travel of less than 24 hours which involves overnight absence from official headquarters.

(m) Class C travel—Travel for short or day trips where the traveler is not away from his official headquarters overnight.

(3) **AUTHORITY TO INCUR TRAVELING EXPENSES.—**

(a) All travel must be authorized and approved by the head of the agency, or his designated representative, from whose funds the traveler is paid. The head of the agency shall not authorize or approve such a request unless it is accompanied by a signed statement by the traveler's supervisor stating that such travel is on the official business of the state and also stating the purpose of such travel.

(b) Traveling expenses of travelers shall be limit-

ed to those expenses necessarily incurred by them in the performance of a public purpose authorized by law to be performed by the agency and must be within the limitations prescribed by this section.

(c) Travel by public officers or employees serving temporarily in behalf of another agency or partly in behalf of more than one agency at the same time, or authorized persons who are called upon to contribute time and services as consultants or advisors, may be authorized by the agency head. Complete explanation and justification must be shown on the travel expense voucher or attached thereto.

(d) Traveling expenses of public employees for the sole purpose of taking merit system or other job placement examinations, written or oral, shall not be allowed under any circumstances, except that upon prior written approval of the agency head, candidates for executive or professional positions may be allowed traveling expenses pursuant to this section.

(e) No later than February 1 of each year, each department, and each state agency not within a department, shall submit to the Appropriations and Governmental Operations Committees of the Senate and House of Representatives, and to such other legislative committees as the President of the Senate and Speaker of the House may designate, a report of all conventions, conferences, and meetings attended at public expense outside the state by officers and employees of such department or agency during the preceding 12 months. The report shall show:

1. The name and location of each such convention, conference, or meeting.

2. The names and positions of officers and employees who attended.

3. The purpose of the convention, conference, or meeting.

4. The total amount of public funds expended for attendance of such officers and employees.

(4) **OFFICIAL HEADQUARTERS.—**The official headquarters of an officer or employee assigned to an office shall be the city or town in which the office is located; except that:

(a) The official headquarters of a person located in the field shall be the city or town nearest to the area where the majority of his work is performed, or such other city, town or area as may be designated by the agency head; provided that in all cases such designation must be in the best interests of the agency and not for the convenience of the person.

(b) When any state employee is stationed in any city or town for a period of over 30 continuous workdays, such city or town shall be deemed to be his official headquarters, and he shall not be allowed per diem or subsistence, as provided in this section, after the said period of 30 continuous workdays has elapsed, unless this period of time is extended by the express approval of the agency head. A report indicating all payment of per diem or subsistence after the said period of 30 continuous workdays has elapsed approved by the agency head shall be required as a part of the report provided in paragraph (3)(e).

(c) A traveler may leave his assigned post to return home overnight, over a weekend, or during a holiday, but any time lost from his regular duties

shall be taken as annual leave and authorized in the usual manner. He shall not be reimbursed for traveling expenses in excess of the established rate for per diem allowable had he remained at his assigned post. However, when a traveler has been temporarily assigned away from his official headquarters for an approved period extending beyond 30 days, he shall be entitled to reimbursement for traveling expenses at the established rate of one round trip for each 30-day period actually taken to his home in addition to pay and allowances otherwise provided.

(5) **COMPUTATION OF TRAVEL TIME FOR REIMBURSEMENT.**—For purposes of reimbursement and methods of calculating fractional days of travel, the following principles are prescribed:

(a) The travel day for Class A travel shall be a calendar day (midnight to midnight). The travel day for Class B travel shall begin at the same time as the travel period. For Class A and Class B travel, the traveler shall be reimbursed one-fourth of the authorized rate of per diem for each quarter, or fraction thereof, of the travel day included within his travel period. Class A and Class B travel shall include any assignment on official business outside of regular office hours and away from regular places of employment when it is considered reasonable and necessary to stay overnight and for which travel expenses are approved.

(b) A traveler shall not be reimbursed on a per diem basis for Class C travel, but shall receive subsistence as provided in this section, which allowance for meals shall be based on the following schedule:

1. Breakfast—When travel begins before 6 a.m. and extends beyond 8 a.m.
2. Lunch—When travel begins before 12 noon and extends beyond 2 p.m.
3. Dinner—When travel begins before 6 p.m. and extends beyond 8 p.m., or when travel occurs during nighttime hours due to special assignment.

No allowance shall be made for meals when travel is confined to the city or town of the official headquarters or immediate vicinity; except assignments of official business outside of the traveler's regular place of employment if travel expenses are approved.

(6) **RATES OF PER DIEM AND SUBSISTENCE ALLOWANCE.**—For purposes of reimbursement rates and methods of calculation, per diem and subsistence allowances are divided into the following groups, and maximum rates to be determined by the agency head:

(a) All travelers may be allowed for subsistence when traveling to a convention or conference or when traveling outside the state in order to conduct bona fide state business, which convention, conference, or business serves a direct and lawful public purpose with relation to the public agency served by the person attending such meeting or conducting such business, either of the following:

1. Up to \$40 per diem; or
2. Up to the amounts permitted in paragraph (d) of this subsection for meals, plus actual expenses for lodging at a single occupancy rate to be substantiated by paid bills therefor.

(b) The Governor, members of the cabinet, mem-

bers of the Legislature, members of the Public Service Commission, Justices of the Supreme Court, and judges of the district courts of appeal, circuit courts, and county courts may receive \$40 per diem while traveling on official business.

(c) All other travelers may be allowed:

1. Up to \$40 per diem;
2. When lodging or meals are provided at a state institution, the traveler shall be reimbursed only for the actual expenses of lodging or meals, not to exceed the maximum provided for in this subsection.

(d) *Meals only.*—All travelers may be allowed, for subsistence while on Class C travel on official business, up to the following amounts:

1. Breakfast..... \$2.50
2. Lunch..... 3.50
3. Dinner 6.00

(7) **TRANSPORTATION.**—

(a) All travel must be by a usually traveled route. In case a person travels by an indirect route for his own convenience any extra costs shall be borne by the traveler and reimbursement for expenses shall be based only on such charges as would have been incurred by a usually traveled route. The agency head shall designate the most economical method of travel for each trip, keeping in mind the following conditions:

1. The nature of the business.
2. The most efficient and economical means of travel (considering time of the traveler, cost of transportation and per diem or subsistence required).
3. The number of persons making the trip, and the amount of equipment or material to be transported.

(b) The Department of Banking and Finance may provide any form it deems necessary to cover travel requests for traveling on official business and when paid by the state. All outstanding transportation request books shall be canceled on or before January 1, 1964, and unused portions of such books returned to the department.

(c) Transportation by common carrier when traveling on official business and paid for personally by the traveler, shall be substantiated by a receipt therefor. Federal tax shall not be reimbursable to the traveler unless the state and other public agencies are also required by federal law to pay such tax. In the event transportation other than the most economical class as approved by the agency head is provided by a common carrier on a flight check or credit card, the charges in excess of the most economical class shall be refunded by the traveler to the agency charged with the transportation provided in this manner.

(d)1. The use of privately owned vehicles for official travel in lieu of public-owned vehicles or common carrier may be authorized by the agency head if a public-owned vehicle is not available. Whenever travel is by privately owned vehicle, the traveler shall be entitled to a mileage allowance at a fixed rate of 17 cents per mile in 1979-1980 and a mileage allowance at a fixed rate of 19 cents per mile in 1980-1981, provided the Internal Revenue Service authorizes 19 cents per mile in 1980-1981 without actual operating expense justification. If the Internal Revenue Service does not authorize 19 cents per

mile for 1980-1981 without actual operating expense justification, the Department of Administration shall seek a waiver for state employees. In the event the waiver request is unsuccessful, the Department of Administration shall pay the maximum allowable by the Internal Revenue Service without actual operating expense justification but in no case shall this be less than 17 cents per mile. The agency head shall authorize payment of the mileage allowance or the common carrier fare for such travel, whichever is appropriate. Reimbursement for expenditures related to the operation, maintenance, and ownership of a vehicle shall not be allowed when privately owned vehicles are used on public business and reimbursement is made pursuant to this paragraph, except as provided in subsection (8).

2. All mileage shall be shown from point of origin to point of destination and, when possible, shall be computed on the basis of the current map of the Department of Transportation. Vicinity mileage necessary for the conduct of official business is allowable but must be shown as a separate item on the expense voucher.

(e) Transportation by chartered vehicles when traveling on official business may be authorized by the agency head when necessary or where it is to the advantage of the agency, provided the cost of such transportation does not exceed the cost of transportation by privately owned vehicle pursuant to paragraph (d) of this subsection.

(f) The agency head may grant monthly allowances in fixed amounts for use of privately owned automobiles on official business in lieu of the mileage rate provided in paragraph (d) of this subsection. Allowances granted pursuant to this paragraph shall be reasonable, taking into account the customary use of the automobile, the roads customarily traveled, and whether any of the expenses incident to the operation, maintenance, and ownership of the automobile are paid from funds of the agency or other public funds. Such allowance may be changed at any time, and shall be made on the basis of a signed statement of the traveler, filed before the allowance is granted or changed, and at least annually thereafter. The statement shall show the places and distances for an average typical month's travel on official business, and the amount that would be allowed under the approved rate per mile for the travel shown in the statement, if payment had been made pursuant to paragraph (d) of this subsection.

(g) No contracts may be entered into between a public officer or employee, or any other person, and a public agency, in which a depreciation allowance is used in computing the amount due by the agency to the individual for the use of a privately owned vehicle on official business; provided, any such existing contract shall not be impaired.

(h) No traveler shall be allowed either mileage or transportation expense when he is gratuitously transported by another person or when he is transported by another traveler who is entitled to mileage or transportation expense. However, a traveler on a private aircraft shall be reimbursed the actual amount charged and paid for his fare for such transportation up to the cost of a commercial airline ticket for the same flight, even though the owner or pilot

of such aircraft is also entitled to transportation expense for the same flight under this subsection.

(8) OTHER EXPENSES.—The following incidental traveling expenses of the traveler may be reimbursed:

- (a) Taxi fare.
- (b) Ferry fares; and bridge, road and tunnel tolls.
- (c) Storage or parking fees.
- (d) Communication expense.

(e) Convention registration fee while attending a convention or conference which will serve a direct public purpose with relation to the public agency served by the person attending such meetings. However, any meals or lodging included in the registration fee will be deducted in accordance with the allowances provided in subsection (6).

(9) RULES AND REGULATIONS.—

(a) The Department of Banking and Finance shall promulgate such rules and regulations, including, but not limited to, the general criteria to be used by a state agency to predetermine justification for attendance by state officers and employees and authorized persons at conventions and conferences, and prescribe such forms as may be necessary to effectuate the purposes of this section.

(b) Each state agency shall promulgate such additional specific rules and regulations and specific criteria to be used by it to predetermine justification for attendance by state officers and employees and authorized persons at conventions and conferences, not in conflict with the rules and regulations of the Department of Banking and Finance or with the general criteria to be used by a state agency to predetermine justification for attendance by state officers and employees and authorized persons at conventions, as may be necessary to effectuate the purposes of this section.

(10) FRAUDULENT CLAIMS.—Claims submitted pursuant to this section shall not be required to be sworn to before a notary public or other officer authorized to administer oaths but any claim authorized or required to be made under any provision of this section shall contain a statement that the expenses were actually incurred by the traveler as necessary traveling expenses in the performance of his official duties and shall be verified by a written declaration that it is true and correct as to every material matter; and any person who willfully makes and subscribes any such claim which he does not believe to be true and correct as to every material matter, or who willfully aids or assists in, or procures, counsels, or advises the preparation or presentation under the provisions of this section of a claim which is fraudulent or is false as to any material matter, whether or not such falsity or fraud is with the knowledge or consent of the person authorized or required to present such claim, shall be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. Whoever shall receive an allowance or reimbursement by means of a false claim shall be civilly liable in the amount of the overpayment for the reimbursement of the public fund from which the claim was paid.

(11) TRAVEL AUTHORIZATION AND VOUCHER FORMS.—

(a) *Authorization forms.*—The Department of

Banking and Finance shall furnish a uniform travel authorization request form which shall be used by all state officers and employees and authorized persons when requesting approval for the performance of travel to a convention or conference. The form shall include, but not be limited to, provision for the name of each traveler, purpose of travel, period of travel, estimated cost to the state, and a statement of benefits accruing to the state by virtue of such travel. A copy of the program or agenda of the convention or conference, itemizing registration fees and any meals or lodging included in the registration fee, shall be attached to, and filed with, the copy of the travel authorization request form on file with the agency. The form shall be signed by the traveler and by the traveler's supervisor stating that the travel is to be incurred in connection with official business of the state. The head of the agency or his designated representative shall not authorize or approve such request in the absence of the appropriate signatures. A copy of the travel authorization form shall be attached to, and become a part of, the support of the agency's copy of the travel voucher.

(b) *Voucher forms.*—The Department of Banking and Finance shall furnish a uniform travel voucher form which shall be used by all state officers and employees and authorized persons when submitting traveling expense statements for approval and payment. No traveling expense statement shall be approved for payment by the comptroller unless made on the form prescribed and furnished by the department. The travel voucher form shall provide for, among other things, the purpose of the official travel and a certification or affirmation, to be signed by the traveler, indicating the truth and correctness of the claim in every material matter, that the travel expenses were actually incurred by the traveler as necessary in the performance of official duties, that per diem claimed has been appropriately reduced for any meals or lodging included in the convention or conference registration fees claimed by the traveler, and that the voucher conforms in every respect with the requirements of this section. The original copy of the executed uniform travel authorization request form shall be attached to the uniform travel voucher on file with the respective agency.

(12) **ADVANCEMENTS.**—Notwithstanding any of the foregoing restrictions and limitations, an agency head may make, or authorize the making of, advances to cover anticipated costs of travel to travelers. Such advancements may include the costs of subsistence and travel of any person transported in the care or custody of the traveler in the performance of his duties.

(13) **DIRECT PAYMENT OF EXPENSES BY AGENCY.**—Whenever an agency requires an employee to incur either Class A or Class B travel on emergency notice to the employee, such employee may request the agency to pay his expenses for meals and lodging directly to the vendor, and the agency may pay the vendor the actual expenses for his meals and lodging during the travel period, limited to an amount not to exceed that authorized for per

diem for such period. The provisions of this subsection shall not be deemed to apply to any legislator or to any employee of either house of the Legislature or of the Joint Legislative Management Committee.

(2) For the purposes of this section, the term "employee" means any person, whether appointed, elected, or under contract, providing services for the state; any state agency or county or other political subdivision of the state; or any municipality for which compensation or statutory fees are paid.

(3) In accordance with a plan of deferred compensation which has been approved as herein provided, the state or any state agency, county, municipality, or other political subdivision may, by contract or a collective bargaining agreement, agree with any employee to defer all or any portion of that employee's otherwise payable compensation and, pursuant to the terms of such approved plan and in such proportions as may be designated or directed under said plan, place such deferred compensation in savings accounts or use the same to purchase fixed or variable life insurance or annuity contracts, securities, evidence of indebtedness, or such other investment products as may have been approved for the purposes of carrying out the objectives of such plan. Such insurance, annuity, savings, or investment products shall be underwritten and offered in compliance with the applicable federal and state laws and regulations by persons who are duly authorized by applicable state and federal authorities.

(4)(a) The State Treasurer, with the approval of the State Board of Administration, shall establish such plan or plans of deferred compensation for state employees, including all such investment vehicles or products incident thereto, as may be available through, or offered by, qualified companies or persons, and may approve one or more such plans for implementation by and on behalf of the state and its agencies and employees.

(b) If the State Treasurer deems it advisable, he shall have the power, with the approval of the State Board of Administration, to create a trust or other special funds for the segregation of funds or assets resulting from compensation deferred at the request of employees of the state or its agencies and for the administration of such program.

(5) Any county, municipality, or other political subdivision of the state may by ordinance adopt and establish for itself and its employees a deferred compensation program. The ordinance shall designate an appropriate official of the county, municipality, or political subdivision to approve and administer a deferred compensation plan or otherwise provide for such approval and administration. The ordinance shall also designate a public official or body to make the determinations provided for in paragraph (6)(b).

(6)(a) No deferred compensation plan of the state shall become effective until approved by the State Board of Administration and the State Treasurer is satisfied by opinion from such federal agency or agencies as may be deemed necessary that the compensation deferred thereunder and/or the investment products purchased pursuant to the plan will not be included in the employee's taxable income under federal or state law until it is actually received by such employee under the terms of the plan, and that such compensation will nonetheless be deemed compensation at the time of deferral for the purposes of Social Security coverage, for the purposes of the state retirement system, and for any other retirement, pension, or benefit program established by law.

(b) No deferred compensation plan of a county, municipality, or other political subdivision shall become effective until the appropriate official or body designated by ordinance is satisfied by opinion from such federal agency or agencies as may be deemed necessary that the compensation deferred thereunder and/or the investment products purchased pursuant to the plan will not be included in the employee's taxable income under federal or state law until it is actually received by such employee under the terms of the plan, and that such compensation will nonetheless be deemed compensation at the time of deferral for the purposes of Social Security coverage, for the purposes of the retirement system of the appropriate county, municipality, or political subdivision, and for any other retirement, pension, or benefit program established by law.

(7) The deferred compensation programs authorized by this section, and any plan approved and adopted as herein provided, shall exist and serve in addition to any other retirement, pension, or benefit systems established by the state or its agencies, counties, municipalities, or other political subdivisions and shall not supersede, make inoperative, or reduce any benefits provided by the Florida Retirement System or by another retirement, pension, or benefit program established by law.

(8) There is hereby created an advisory council composed of five members, all of whom shall be employees of the state.

(a) One member shall be appointed by the Speaker of the House of Representatives and the President of the Senate jointly and shall be an employee of the legislative branch.

112.24 Intergovernmental transfer and interchange of public employees.—To encourage economical and effective utilization of public employees in this state, the temporary assignment of employees among agencies of government, both state and local, and including school districts and public institutions of higher education is authorized under terms and conditions set forth in this section. State agencies, municipalities, and political subdivisions are authorized to enter into employee interchange agreements with the Federal Government, with another state, with another municipality or political subdivision including a school district, or with a public institution of higher education. State agencies are also authorized to enter into employee interchange agreements with private institutions of higher education and other nonprofit organizations under the terms and conditions provided in this section.

(1) Details of an employee interchange program

shall be the subject of an agreement between a sending party and a receiving party. State agencies shall report such agreements to the department.

(2) The period of an individual's assignment or detail under an employee interchange program shall not exceed 2 years.

(3) Salary, leave, travel and transportation, and reimbursements for an employee of a sending party that is participating in an interchange program shall be handled as follows:

(a) An employee of a sending party who is participating in an interchange agreement may be considered as on detail to regular work assignments of the sending party or in a leave status from the sending party.

1. If on detail, an employee shall receive the same salary and benefits as if he were not on detail and he shall remain the employee of the sending party for all purposes, except that supervision during the period of detail may be governed by the interchange agreement.

2. If on leave, an employee shall have the same rights, benefits, and obligations as other employees in a leave status, subject to exceptions provided in rules for state employees issued by the department or the rules or other decisions of the governing body of the municipality or political subdivision.

(b) The assignment of an employee of a state agency either on detail or on leave of absence may be made without reimbursement by the receiving party for the travel and transportation expenses to or from the place of the assignment or for the pay and benefits, or a part thereof, of the employee during the assignment.

(c) If the rate of pay for an employee of an agency of the state on temporary assignment or on leave of absence is less than the rate of pay he would have received had he continued in his regular position, such employee is entitled to receive supplemental pay from the sending party in an amount equal to such difference.

(d) Any employee who participates in an exchange under the terms of this section who suffers disability or death as a result of personal injury arising out of and in the course of an exchange, or sustained in performance of duties in connection therewith, shall be treated, for the purposes of the sending party's employee compensation program, as an employee who sustained injury in the performance of duty, but shall not receive benefits under such program for any period for which he is entitled to, and elects to receive, similar benefits under the receiving party's employee compensation program.

(e) A sending party in this state may, in accordance with the travel regulations of such party, pay the travel expenses of an employee who is assigned to a receiving party on either detail or leave basis, but shall not pay the travel expenses of such an employee incurred in connection with his work assignments at the receiving party. If the assignment or detail will exceed 8 months, travel expenses may include expenses to transport immediate family, household goods, and personal effects to and from the location of the receiving party. If the period of assignment is 3 months or less, the sending party

may pay a per diem allowance to the employee on assignment or detail.

(4)(a) When any agency, municipality, or political subdivision of this state acts as a receiving party, an employee of the sending party who is assigned under authority of this section may be given appointments by the receiving party covering the periods of such assignments, with compensation to be paid from the receiving party's funds, or without compensation, or be considered to be on detail to the receiving party.

(b) Appointments of persons so assigned may be made without regard to the laws or regulations governing the selection of employees of the receiving party.

(c) During the period of an assignment, the employee who is detailed to the receiving party shall not by virtue of such detail be considered an employee of the receiving party, except as provided in paragraph (d), nor shall he be paid a wage or salary by the receiving party. The supervision of an employee during the period of the detail may be governed by agreement between the sending party and the receiving party. A detail of an employee to a state agency may be made with or without reimbursement to the sending party by the receiving party for the pay and benefits, or a part thereof, of the employee during the period of the detail.

(d) If the sending party of an employee assigned to an agency, municipality, or political subdivision of this state fails to continue making the employer's contribution to the retirement, life insurance, and health benefit plans for that employee, the receiving party of this state may make the employer's contribution covering the period of the assignment or any part thereof.

(e) Any employee of a sending party assigned in this state who suffers disability or death as a result of personal injury arising out of and in the course of such assignment, or sustained in the performance of duties in connection therewith, shall be treated for the purpose of the receiving party's employee compensation program, as an employee who has sustained injury in the performance of duty, but shall not receive benefits under such program for any period for which he elects to receive similar benefits as an employee under the sending party's employee compensation program.

(f) A receiving party in this state may, in accordance with the travel regulations of such party, pay travel expenses of persons assigned thereto during the period of such assignments on the same basis as if they were regular employees of the receiving party.

(5) An agency may enter into agreements with private institutions of higher education in this state as the sending or receiving party as specified in subsections (3) and (4).

- 112.326 Additional requirements by political subdivisions not prohibited.

112.311 Legislative intent and declaration of policy.—

(1) It is essential to the proper conduct and operation of government that public officials be independent and impartial and that public office not be used for private gain other than the remuneration provided by law. The public interest, therefore, requires that the law protect against any conflict of interest and establish standards for the conduct of elected officials and government employees in situations where conflicts may exist.

(2) It is also essential that government attract those citizens best qualified to serve. Thus, the law against conflict of interest must be so designed as not to impede unreasonably or unnecessarily the recruitment and retention by government of those best qualified to serve. Public officials should not be denied the opportunity, available to all other citizens, to acquire and retain private economic interests except when conflicts with the responsibility of such officials to the public cannot be avoided.

(3) It is likewise essential that the people be free to seek redress of their grievances and express their opinions to all government officials on current issues and past or pending legislative and executive actions at every level of government. In order to preserve and maintain the integrity of the governmental process, it is necessary that the identity, expenditures, and activities of those persons who regularly engage in efforts to persuade public officials to take specific actions, either by direct communication with such officials or by solicitation of others to engage in such efforts, be regularly disclosed to the people.

(4) It is the intent of this act to implement these objectives of protecting the integrity of government and of facilitating the recruitment and retention of qualified personnel by prescribing restrictions

against conflicts of interest without creating unnecessary barriers to public service.

(5) It is hereby declared to be the policy of the state that no officer or employee of a state agency or of a county, city, or other political subdivision of the state, and no member of the Legislature or legislative employee, shall have any interest, financial or otherwise, direct or indirect; engage in any business transaction or professional activity; or incur any obligation of any nature which is in substantial conflict with the proper discharge of his duties in the public interest. To implement this policy and strengthen the faith and confidence of the people of the state in their government, there is enacted a code of ethics setting forth standards of conduct required of state, county, and city officers and employees, and of officers and employees of other political subdivisions of the state, in the performance of their official duties. It is the intent of the Legislature that this code shall serve not only as a guide for the official conduct of public servants in this state, but also as a basis for discipline of those who violate the provisions of this part.

(6) It is declared to be the policy of the state that public officers and employees, state and local, are agents of the people and hold their positions for the benefit of the public. They are bound to uphold the Constitution of the United States and the State Constitution and to perform efficiently and faithfully their duties under the laws of the federal, state, and local governments. Such officers and employees are bound to observe, in their official acts, the highest standards of ethics consistent with this code and the advisory opinions rendered with respect hereto regardless of personal considerations, recognizing that promoting the public interest and maintaining the respect of the people in their government must be of foremost concern.

In instances in which appointment to the advisory board is made by an individual, waiver may be effected, after public hearing, by a determination by the appointing person and full disclosure of the transaction or relationship by the appointee. In addition, no person shall be held in violation of subsection (3) or subsection (7) if:

(4) Each state officer, local officer, and specified employee shall file a quarterly report of the names of clients represented for a fee or commission, except

for appearances in ministerial matters, before agencies at his level of government. For the purposes of this part, agencies of government shall be classified as state level agencies or agencies below state level. The report shall be filed only when a reportable representation is made during the calendar quarter and shall be filed no later than 15 days after the last day of the quarter. Representation before any agency shall be deemed to include representation by such officer or specified employee or by any partner or associate of the professional firm of which he is a member and of which he has actual knowledge. For the purposes of this subsection, "representation before any agency" shall not include appearances before any court or commissioners or deputy commissioners of industrial claims or representations on behalf of one's agency in his official capacity. Such term shall not include the preparation and filing of forms and applications merely for the purpose of obtaining or transferring a license based on a quota or a franchise of such agency or a license or operation permit to engage in a profession, business, or occupation, so long as the issuance or granting of such license, permit, or transfer does not require substantial discretion, a variance, a special consideration, or a certificate of public convenience and necessity.

(2)(a) Any public officer or employee may request a hearing before the Commission on Ethics to present oral or written testimony in response to allegations made against such person that he or she violated the code of ethics established in this part, provided a majority of the commission members present and voting consider that the allegations are of such gravity as to affect the general welfare of the state and the ability of the subject public officer or employee effectively to discharge the duties of the office. If the allegations made against the subject public officer or employee are made under oath, then he or she shall also be required to testify under oath.

An advisory opinion shall be rendered by the commission, and all of said opinions shall be numbered, dated, and published without naming the person making the request, unless such person consents to the use of his name.

(b) Said opinion, until amended or revoked, shall be binding on the conduct of the officer, employee, or candidate who sought the opinion or with reference to whom the opinion was sought, unless material facts were omitted or misstated in the request for the advisory opinion.

(4) The commission has the power to subpoena, audit, and investigate. The commission may subpoena witnesses and compel their attendance and testimony, administer oaths and affirmations, take evidence, and require by subpoena the production of any books, papers, records, or other items relevant to the performance of the commission's duties or exercise of its powers. In the case of a refusal to obey a subpoena issued to any person, the commission may make application to any circuit court of this state which shall have jurisdiction to order the witness to appear before the commission and to produce evidence, if so ordered, or to give testimony touching on the matter in question. Failure to obey the order may be punished by the court as contempt. Witnesses shall be paid mileage and witnesses fees as authorized for witnesses in civil cases.

112.324 Procedures on complaints of violations.—

(1) Upon a written complaint executed on a form prescribed by the commission and signed under oath or affirmation by any person, the commission shall investigate any alleged violation of this part in accordance with procedures set forth herein. Within 5 days after receipt of a complaint by the commission, a copy shall be transmitted to the alleged violator. All proceedings, the complaint, and other records relating to the preliminary investigation as provided herein, including a dismissal of the complaint, shall be confidential either until the alleged violator requests in writing that such investigation and records be made public records or the preliminary investigation is completed, notwithstanding any provision of chapters 119, 120 or 286. In no event shall a complaint under this part against a candidate in any general, special, or primary election be filed or any intention of filing such a complaint be disclosed on the day of any such election or within the 5 days immediately preceding the date of the election.

(2) A preliminary investigation shall first be undertaken by the commission to determine if the facts alleged in the complaint constitute probable cause to believe that a violation has occurred. If, upon completion of the preliminary investigation, the commission finds no probable cause to believe that this part has been violated, the commission shall dismiss the complaint, and the complaint, unless prohibited by subsection (3), shall become a matter of public record, together with a written statement of the findings of the preliminary investigation and a summary of the facts which the commission shall send to the complainant and the alleged violator. If the commission finds from the preliminary investigation probable cause to believe that this part has been violated, it shall so notify the complainant and the alleged violator in writing. Such notification and all documents made or received in the disposition of the complaint shall then become public records. Upon request submitted to the commission in writing, any person who the commission finds probable cause to believe has violated any provision of this part shall be entitled to a public hearing. Such person shall be deemed to have waived the right to public hearing if the request is not received within 14 days following the mailing of the probable cause notification required by this subsection. However, the commission may on its own motion require a public hearing and may conduct such further investigation as it deems necessary.

(3) If, upon completion of its preliminary investigation of a complaint against an impeachable officer or member of the Legislature, the commission finds insufficient evidence to establish probable cause to

believe a violation of this part has occurred, it shall dismiss the complaint. All evidence and material shall be kept in strict confidentiality by the commission after a complaint is dismissed. The information may be disclosed only upon written request by an appropriate legislative committee. Upon finding sufficient evidence to establish probable cause to believe a violation by such officer has occurred, the commission shall forward the complaint by certified mail to the President of the Senate or the Speaker of the House, whichever is applicable, who shall refer the complaint to the appropriate committee for investigation and action which shall be governed by the rules of its respective house. The complaint and all records relating to the preliminary investigation shall become public records upon referral by the Speaker or President to the appropriate committee. It shall be the duty of the committee to report its final action upon the complaint to the commission within 90 days of the date of transmittal to the respective house. If, for any reason, the committee to which the complaint is referred feels that it cannot or should not investigate the complaint, it may return the complaint to the commission which shall conduct a full investigation and report its findings to the committee for appropriate action. Upon request of the committee, the commission shall submit a recommendation as to what penalty, if any, should be imposed.

(4) If, in cases pertaining to complaints other than complaints against impeachable officers or members of the Legislature, upon completion of a full and final investigation by the commission, the commission finds that there has been a violation of this part, it shall be the duty of the commission to report its findings and recommend appropriate action to the proper disciplinary official or body as follows, and such official or body shall have the power to invoke the penalty provisions of this part:

(b) The head of the agency, in any case concerning a state officer or employee not covered in paragraph (a).

(c) The governing body or appointing official of an officer or employee of a county, city, or other political subdivision of the state not otherwise covered in paragraph (a).

(f) The county commission, in any case concerning a candidate for county office only when the commission recommends removal of said candidate from the ballot for a violation of s. 112.3145.

(5) In addition to reporting its findings to the proper disciplinary body or official, the commission shall report these findings to the State Attorney or any other appropriate official or agency having au-

thority to initiate prosecution when violation of criminal law is indicated.

(6) Notwithstanding the foregoing procedures of this section, a sworn complaint against any member or employee of the Commission on Ethics for violation of this part shall be filed with the President of the Senate and the Speaker of the House of Representatives. Each presiding officer shall appoint three members of their respective bodies to a special joint committee who shall investigate the complaint. The members shall elect a chairman from among their number. If the special joint committee finds insufficient evidence to establish probable cause to believe a violation of this part has occurred, it shall dismiss the complaint. If, upon completion of its preliminary investigation, the committee finds sufficient evidence to establish probable cause to believe a violation has occurred, the chairman thereof shall transmit such findings to the Governor who shall convene a meeting of the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Chief Justice of the Supreme Court to take such final action on the complaint as they shall deem appropriate, consistent with the penalty provisions of this part. Upon request of a majority of the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Chief Justice of the Supreme Court, the special joint committee shall submit a recommendation as to what penalty, if any, should be imposed.

In any case in which the Governor, upon the recommendation of the commission, has the power to suspend an officer or employee, the court may enter a supersedeas order staying the power of the Governor to suspend pending the disposition of the appellate proceeding. However, this section shall not be construed to limit the Governor's power to suspend a municipal official indicted for crime.

recomputed and receive a monthly retirement allowance equal to \$8 multiplied by the total number of years of creditable service. Effective July 1, 1979, this minimum monthly benefit shall be equal to \$9.50 multiplied by the total number of years of creditable service, and thereafter said minimum monthly benefit shall be recomputed as provided in paragraph (5)(a). No present retirement benefits shall be reduced under this computation.

(b) A member of any state-supported retirement system who has already retired under a retirement plan or system which does not require its members to participate in social security pursuant to a modification of the federal-state social security agreement as authorized by the provisions of chapter 650, who is over 65 years of age, and who has more than 15 years of creditable service, upon application to the administrator, may have his present monthly retirement benefits recomputed and receive a monthly retirement allowance equal to \$8 multiplied by the first 15 years of creditable service and \$10 multiplied by every additional year of creditable service thereafter. No present retirement benefits shall be reduced under this computation. The minimum monthly benefit provided by this paragraph shall not apply to any member or the beneficiary of any member who retires after June 30, 1978.

This adjustment shall be made in accordance with s. 112.362(2). No retirement benefits shall be reduced under this computation. All suspensions heard by the Senate, a select committee, master, or examiner in accordance with rules of the Senate shall be prosecuted by the Governor, his legal staff, or an attorney designated by the Governor. Should the Senate, or the select committee appointed by the Senate to hear the evidence and to make recommendations, desire private counsel, either the Senate or the select committee shall be entitled to employ its own counsel for this purpose. Nothing herein shall prevent the Senate or its select committee from making its own investigation and presenting such evidence as its investigation may reveal. The Governor may request the advice of the Department of Legal Affairs relative to the suspension order prior to its issuance by the Governor. Following the issuance of the suspension order, either the Senate or the select committee may request the Department of Legal Affairs to provide counsel for

the Senate to advise on questions of law or otherwise advise with the Senate or the select committee, but the Department of Legal Affairs shall not be required to prosecute before the Senate or the committee and shall, pursuant to the terms of this section, act as the legal advisor only.

History.—s. 4, ch. 69-277; s. 33, ch. 77-104.

112.44 Failure to prove charges; attorney's fees.—In the event any officer suspended by the Governor shall not be removed by the Senate, he shall be reinstated, and the Senate may provide that the county, district, or state, as the case may be, shall pay reasonable attorney's fees and costs of the reinstated officer upon his exoneration. Part V of chapter 112 shall constitute sufficient authority for the payment of such attorney's fees and costs as the officer may reasonably have incurred in his own defense.

History.—s. 5, ch. 69-277.

112.45 Senate's report; results of prosecution.—

(1) The Secretary of the Senate shall, as soon as reasonably possible following the action of the Senate, file with the Department of State a report of the action of the Senate, including an order signed by the President and the Secretary specifying the action taken by the Senate. The action of the Senate shall become effective immediately upon the filing of the order with the Department of State, and the Department of State shall forthwith deliver copies of such order to the Governor, the officer involved, and the governing body of the county, district, or state, as the case may be. Any such order or any certified copy thereof, under the signature of the Secretary of State, may be recorded in the public records of any county in this state.

(2) The date of delivery of the order to the Department of State shall be the effective date of the removal or reinstatement, as the case may be, and, should the official be reinstated, he shall be entitled to reimbursement for such pay and emoluments of office from the date of his suspension to that date, as though he had never been suspended, and the order of the Senate, or a certified copy thereof, shall constitute the authority of the county, district, or state, to make such payment for reimbursement.

History.—s. 6, ch. 69-277; ss. 10, 35, ch. 69-106.

112.46 Period during which suspension will lie.—Any officer subject to suspension by the Governor pursuant to the State Constitution shall be subject to such suspension from the date provided by law for such officer to take office whether or not the Governor has executed and delivered the commission of office to the said officer. It is the intent of this part to provide that the formal execution of a commission by the Governor and a delivery thereof to the officer is a ministerial duty not necessary either to the performance of the duties of that officer or to the susceptibility to suspension of that officer. However, nothing in this part shall prohibit or preclude any officer claiming title to any office from seeking a judicial determination of his right to such office,

regardless of the issuance or nonissuance of a commission to such office.

History.—s. 7, ch. 69-277.

112.47 Hearing before Senate select committee; notice.—The Senate shall afford each suspended official a hearing before a select committee, master, or examiner, and shall notify such suspended official of the time and place of the hearing sufficiently in advance thereof to afford such official an opportunity fully and adequately to prepare such defenses as the official may be advised are necessary and proper, and all such defenses may be presented by the official or by his attorney. In the furtherance of this provision the Senate shall adopt sufficient procedural rules to afford due process both to the Governor in the presentation of his evidence and to the suspended official, but in the absence of such adoption, this section shall afford a full and complete hearing, public in nature, as required by the State Constitution. However, nothing in this part shall prevent either the select committee or the Senate from conducting portions of the hearing in executive session if the Senate rules so provide.

History.—s. 8, ch. 69-277.

112.48 Suspension when Senate not in session.—The Governor may suspend any officer at any time, whether or not the Senate is in session. However, the Senate need not hear or determine the question of the suspension of the officer during any regular session.

History.—s. 9, ch. 69-277.

112.49 Persons exercising powers and duties of county officers subject to suspension by Governor.—In the administration of any city-county merger or city-county charter, or any such form of government which provides for the merging of the powers, duties and functions of any municipal and county governments, any officer, official or employee of such merged government who exercises the powers and duties of a county officer, whether he shall be elected or appointed, shall be deemed to be a county officer and therefore subject to the power of the Governor under the State Constitution to suspend officers. If the charter or other authority under which any city-county merger is accomplished shall provide means for the suspension or removal of such officers, then the power to suspend shall be concurrent in the city-county government and in the Governor.

History.—s. 2, ch. 71-333.

112.50 Governor to retain power to suspend public officers.—Whenever any state, county, or municipal officer is made subject to suspension or removal by the terms of any statute or municipal charter, the power of the Governor to suspend officers shall not be affected by such statutory or charter provisions, and the power to suspend shall reside concurrently in the Governor and in the statutory or charter authority.

History.—s. 3, ch. 71-333.

112.51 Municipal officers; suspension; removal from office.—

(1) When any grand jury shall present or return a true bill against any elected or appointed municipal official as a result of actions of such official arising directly or indirectly out of or pertaining to his official conduct or duties, the Governor shall have the power to suspend such municipal official from office. Suspension of such official by the Governor shall create a temporary vacancy in such office during suspension.

(2) Any temporary vacancy in office created by suspension of an official under the provisions of this section shall be filled by a temporary appointment to such office for the period of such suspension. Such temporary appointment shall be made in the same manner and by the same authority by which permanent vacancies for such office are filled as provided by law. If no provision for filling permanent vacancies in such office is provided by law, such temporary appointment shall be made by the Governor.

(3) No municipal official who has been suspended from office under this section may perform any official act, duty or function during his suspension, receive any pay or allowances during his suspension, or be entitled to any of the emoluments or privileges of his office during suspension.

(4) If the municipal official is adjudged guilty of any of the charges contained in the indictment for reason of which he was suspended under the provisions of this section, the Governor shall remove such municipal official from office.

(5) If the municipal official is acquitted or cleared of the charges contained in the indictment for reason of which he was suspended under the provision of this section, then the Governor shall forthwith revoke the suspension and restore such municipal official to office, and he shall be entitled to and be paid full back pay and such other emoluments or allowances to which he would have been entitled for the full period of time of his suspension. If during his suspension the term of office of such municipal official expired and a successor was either appointed or elected, then such back pay, emoluments, or allowances shall only be paid for the duration of the term of office during which the municipal official was suspended under the provisions of this section, and he shall not be reinstated.

(b) The interrogation shall take place either at the office of the command of the investigating officer or at the office of the local precinct or police unit in which the incident allegedly occurred, as designated by the investigating officer or agency.

(c) The law enforcement officer under investigation shall be informed of the rank, name, and command of the officer in charge of the investigation, the interrogating officer, and all persons present during the interrogation. (4) **NOTICE OF DISCIPLINARY ACTION.**—No dismissal, demotion, transfer, reassignment, or other personnel action which might result in loss of pay or benefits or which might otherwise be considered a punitive measure shall be taken against any law enforcement officer unless such law enforcement officer is notified of the action and the reason or reasons therefor prior to the effective date of such action.

(5) **RETALIATION FOR EXERCISING RIGHTS.**—No law enforcement officer shall be discharged; disciplined; demoted; denied promotion, transfer, or reassignment; or otherwise discriminated against in regard to his employment, or be threatened with any such treatment, by reason of his exercise of the rights granted by this part.

112.62 Application.—The provisions of this part are applicable to any and all units, agencies, branches, departments, boards, and institutions of state, county, special district, and municipal governments which participate in, operate, or administer a retirement system or plan for public employees, funded in whole or in part by public funds. The provisions of this part supplement and, to the extent there are conflicts, prevail over the provisions of existing laws and local ordinances relating to such retirement systems or plans.

History.—s. 1, ch. 78-170.

112.625 Definitions.—As used in this act:

- (1) "Retirement system or plan" means any employee pension benefit plan supported in whole or in part by public funds, provided such plan is not:

(4) "Benefit increase" means a change or amendment in the plan design or benefit structure which results in increased benefits for plan members or beneficiaries.

112.63 Actuarial reports and statements of actuarial impact; review.—

(1) Each retirement system or plan subject to the provisions of this act shall have regularly scheduled actuarial reports prepared and certified by an enrolled actuary. The actuarial report shall consist of, but shall not be limited to, the following:

(a) Adequacy of employer and employee contribution rates in meeting levels of employee benefits provided in the system and changes, if any, needed in such rates to achieve or preserve a level of funding deemed adequate to enable payment through the indefinite future of the benefit amounts prescribed by the system, which shall include a valuation of present assets, based on statement value, and prospective assets and liabilities of the system and the extent of unfunded accrued liabilities, if any.

(b) A plan to amortize any unfunded liability pursuant to s. 112.64 and a description of actions taken to reduce the unfunded liability.

(c) A description and explanation of actuarial assumptions.

(d) A schedule illustrating the amortization of unfunded liabilities, if any.

(e) A comparative review illustrating the actual salary increases granted and the rate of investment return realized over the 3-year period preceding the actuarial report with the assumptions used in both the preceding and current actuarial reports.

(f) A statement by the enrolled actuary that the report is complete and accurate and that in his opinion the techniques and assumptions used are reasonable and meet the requirements and intent of this act.

(2) The frequency of actuarial reports shall be at

least every 3 years commencing from the last actuarial report of the plan or system or October 1, 1980, if no actuarial report has been issued within the 3-year period prior to October 1, 1979. The results of each actuarial report shall be filed with the plan administrator within 60 days of certification. Thereafter, the results of each actuarial report shall be made available for inspection upon request. Additionally, each retirement system or plan covered by this act which is not administered directly by the Department of Administration through the Division of Retirement shall furnish a copy of each actuarial report to the Division of Retirement within 60 days of receipt from the actuary.

(3) No unit of local government shall agree to a proposed change in retirement benefits unless the administrator of the system, prior to adoption of the change by the governing body, and prior to the last public hearing thereon, has issued a statement of the actuarial impact of the proposed change upon the local retirement system, consistent with the actuarial review, and has furnished a copy of such statement to the division. Such statement shall also indicate whether the proposed changes are in compliance with s. 14, Art. X of the State Constitution and with s. 112.64.

(4) Upon receipt, pursuant to subsection (2), of an actuarial report, or upon receipt, pursuant to subsection (3), of a statement of actuarial impact, the division shall review and comment on the actuarial valuations and statements. If the division finds that the actuarial valuation is not complete, accurate, or based on reasonable assumptions, or if the division does not receive the actuarial report or statement of actuarial impact, the division shall notify the local government and request appropriate adjustment. If, after a reasonable period of time, a satisfactory adjustment is not made, the affected local government or the division may petition for a hearing under the provisions of s. 120.57. If the hearing officer recommends in favor of the division, the division shall perform an actuarial review or prepare the statement of actuarial impact. The cost to the division of performing such actuarial review or preparing such statement shall be charged to the governmental entity of which the employees are covered by the retirement system or plan. If payment of such costs is not received by the division within 60 days after receipt by the governmental entity of the request for payment, the division shall certify to the Comptroller the amount due, and the Comptroller shall pay such amount to the division from any funds payable to the governmental entity of which the employees are covered by the retirement system or plan. If the hearing officer recommends in favor of the local retirement system and the division performs an actuarial review, the cost to the division of performing the actuarial review shall be paid by the division.

(5) Payments made to the fund as required by this chapter shall be based on the normal and past service costs contained in the state-accepted version of the most recent actuarial valuation.

(6) Beginning July 1, 1980, each retirement system or plan of a unit of local government shall maintain, in accurate and accessible form, the following information:

(a) For each active and inactive member of the system, a number or other means of identification; date of birth; sex; date of employment; period of credited service, split, if required, between prior service and current service; and occupational classification.

112.64 Administration of funds; amortization of unfunded liability.—

(1) Employee contributions shall be deposited in the retirement system or plan on at least a monthly basis. Employer contributions shall be deposited on at least a quarterly basis; provided that any revenues received from any source by an employer which are specifically collected for the purpose of allocation for deposit into a retirement system or plan shall be so deposited within 30 days of receipt by the employer. All employers and employees participating in the Florida Retirement System and other existing retirement systems which are administered by the Division of Retirement shall continue to make contributions on at least a monthly basis.

(2) From and after October 1, 1980, for those plans in existence on October 1, 1980, the total contributions to the retirement system or plan shall be sufficient to meet the normal cost of the retirement system or plan and to amortize the unfunded liability, if any, within 40 years; however, nothing contained in this subsection shall permit any retirement system or plan to amortize its unfunded liabilities over a period longer than that which remains under its current amortization schedule.

(3) For a retirement system or plan which comes into existence after October 1, 1980, the unfunded liability, if any, shall be amortized within 40 years of the first plan year.

(4) The net increase, if any, in unfunded liability under the plan arising from significant plan amendments adopted shall be amortized within 30 plan years.

(5) If the amortization schedule for unfunded liability is to be based on a contribution derived in whole or in part from a percentage of the payroll of the system or plan membership, the assumption as to payroll growth shall not exceed the average payroll growth for the 3 years prior to the development of the amortization schedule unless a transfer, merger, or consolidation of government functions or services occurs, in which case the assumptions for payroll growth may be adjusted and may be based on the membership of the retirement plan or system subsequent to such transfer, merger, or consolidation.

(6) Nothing contained in this section shall result in the allocation of chapter 175 or chapter 185 premium tax funds to any other retirement system or

plan or for any other use than the exclusive purpose of providing retirement benefits for firefighters or police officers.

History.—s. 1, ch. 78-170; s. 16, ch. 79-183.

112.65 Limitation of benefits.—

(1) The normal retirement benefit or pension payable to a retiree who becomes a member of any retirement system or plan and who has not previously participated in such plan, on or after January 1, 1980, shall be limited in the following manner:

(a) If such member does not receive social security benefits, his pension benefit shall not exceed 100 percent of his average final compensation.

(b) If such member receives social security benefits, the sum of the member's pension benefit and the primary social security benefit the member receives shall not exceed 100 percent of the member's average final compensation.

(c) Nothing contained in this section shall apply to supplemental retirement benefits or to pension increases attributable to cost-of-living increases or adjustments.

(d) As used in this section, the term "social security benefits" shall not apply to social security benefits earned exclusively through nongovernmental employment or by a surviving beneficiary.

(e) As used in this section, the term "average final compensation" means the average of the member's earnings, excluding payments for accumulated leave, compensatory time, and overtime, over a period of time which the governmental entity has established by statute, charter, or ordinance.

(2) No member of a retirement system or plan covered by this part who is not now a member of such plan shall be allowed to receive a retirement benefit or pension which is in part or in whole based upon any service with respect to which the member is already receiving, or will receive in the future, a retirement benefit or pension from another retirement system or plan; provided that this restriction does not apply to social security coverage or benefits.

History.—s. 1, ch. 78-170; s. 17, ch. 79-183.

112.656 Fiduciary duties; certain officials included as fiduciaries.—

(1) A fiduciary shall discharge his duties with respect to a plan solely in the interest of the participants and beneficiaries for the exclusive purpose of providing benefits to participants and their beneficiaries and defraying reasonable expenses of administering the plan.

(2) Each retirement system or plan shall have one or more named fiduciaries with authority to control and manage the administration and operation of the retirement system or plan. However, the plan administrator, and any officer, trustee, and custodian, and any counsel, accountant, and actuary of the retirement system or plan who is employed on a full-time basis, shall be included as fiduciaries of such system or plan.

(3) A retirement system or plan may purchase insurance for its named fiduciary to cover liability or

losses incurred by reason of act or omission of the fiduciary.

History.—s. 18, ch. 79-183.

112.658 Auditor General to determine compliance of the Florida Retirement System.—

(1) The Auditor General shall determine, through the examination of actuarial reviews, financial statements, and the practices and procedures of the Division of Retirement, the compliance of the Florida Retirement System with the provisions of this act.

(2) The Auditor General is authorized to employ, as necessary, an independent consulting actuary to assist in the determination of compliance.

(3) The Auditor General shall employ the same actuarial standards to monitor the Division of Retirement as the Division of Retirement uses to monitor local governments.

History.—s. 18, ch. 79-183.

112.66 General provisions.—The following general provisions relating to the operation and administration of any retirement system or plan covered by this part shall be applicable:

(1) The provisions of each retirement system or plan shall be contained in a written plan description which shall include a report of pertinent financial and actuarial information on the solvency and actuarial soundness of the plan. Such plan description shall be furnished to a member of the system or plan upon initial employment or participation in such plan and, thereafter, on an annual basis.

(2) Each retirement system or plan shall provide for a plan administrator.

(3) Any provision in a legal agreement, contract, or instrument which purports to relieve a fiduciary of a retirement system or plan from responsibility or liability is void as being against public policy.

(4) A civil action may be brought by a member or beneficiary of a retirement system or plan to recover benefits due to him under the terms of his retirement system or plan, to enforce his rights, or to clarify his rights to future benefits under the terms of the retirement system or plan.

(5) The governmental entity responsible for the administration and operation of a retirement system or plan may sue or be sued as an entity.

(6) There shall be timely adequate written notice given to any member or beneficiary whose claim for benefits under the terms of his retirement system or plan has been denied, setting forth the specific reasons for such denial. Unless otherwise provided by law, the terms of the retirement system or plan shall provide for a full and fair review in those cases when a member or beneficiary has had his claim to benefits denied.

(7) The assets and liabilities of a retirement system or plan shall remain under the ultimate control of the governmental unit responsible for the retirement system or plan, unless an irrevocable trust has been or is established for the purpose of managing and controlling the retirement system or plan, in

which case the board of trustees shall have ultimate control over the assets and liabilities of the retirement system or plan. Nothing herein shall absolve the governmental unit from being ultimately responsible for the payment of its contribution to a retirement system or plan nor remove from the governmental unit the ultimate authority to adjust benefits consistent with the Florida Statutes and the retirement system or plan; however, nothing contained herein shall be construed to permit the creation of such irrevocable trust except by special act of the Legislature.

(8) The instrument or instruments, ordinance, or statute under which a retirement system or plan operates shall provide that all assets of such retirement system or plan shall be held in trust by the board of trustees or, when an irrevocable trust does not exist, by the governmental entity.

(9) No plan shall discriminate in its benefit formula based on color, national origin, sex, or marital status. Nothing herein shall preclude a plan from actuarially adjusting benefits or offering options based on sex, age, early retirement, or disability.

History.—s. 1, ch. 78-170; s. 20, ch. 79-183.

112.665 Duties of Division of Retirement.—

(1) The Division of Retirement of the Department of Administration shall:

(a) Gather, catalog, and maintain complete, computerized data information on all public employee retirement systems or plans in the state, based upon a review of audits, reports, and other data pertaining to the systems or plans;

(b) Receive and comment upon all actuarial reviews of retirement systems or plans maintained by units of local government;

(c) Cooperate with local retirement systems or plans on matters of mutual concern and provide technical assistance to units of local government in the assessment and revision of retirement systems or plans;

(d) Issue an annual report to the Legislature and to the Governor detailing its activities, findings, and recommendations concerning all governmental retirement systems, which report shall be made public and may include legislation proposed to carry out such recommendations; and

(e) Adopt reasonable rules to administer the provisions of this part.

(2) The division may subpoena actuarial witnesses, review books and records, hold hearings, and take testimony. A witness shall have the right to be accompanied by counsel.

112.67 Special acts prohibited.—Pursuant to s. 11(a)(21), Art. III of the State Constitution, the Legislature hereby prohibits special laws or general laws of local application in conflict with the requirements of this part.

History.—s. 2, ch. 78-170.

Note.—Ch. 78-170 was passed by the requisite three-fifths vote in each house. See s. 11(a)(21), Art. III, State Constitution.

All of the personal property and chattels personal above-mentioned shall be subject to forfeiture under the provisions of this act.

(2) When the clerk of the county court delivers the property mentioned in subsection (1) to the clerk of the circuit court, there shall also be delivered with said property a report or return setting forth the following information: Style and number of the case; the name and address of each defendant; the offense charged; the verdict or judgment rendered and entered; an itemized list of all property listed, used, offered, or received in evidence at the trial of said case, with the appraised value thereof (said appraisal may be made by the clerk or judge or under his direction); the names of the owners of the property and all lienholders, with their respective addresses; and, if any of the property is a motor vehicle subject to registration, then the names and addresses of the owner and lienholder, if any, as evidenced by a cer-

116.25 Proceedings for forfeiture, notice of holding and order to show cause.—

(1) The report or return heretofore mentioned that is filed with or made by the clerk of the circuit court shall be taken and considered as the state's petition or libel in rem for the forfeiture of the property therein described, of which the circuit court of the county wherein the case was tried shall have jurisdiction, without regard to value. The report or return shall be sufficient as a petition or libel, notwithstanding the fact that it may contain no formal prayer or demand for forfeiture, it being the intention of the legislature that forfeiture may be decreed without a formal prayer or demand therefor. The return may be amended at any time before final judgment, provided a copy of said amendment shall be furnished to any person, firm or corporation that has filed a claim to the property prior to the filing of the amendment. In event an amendment is filed to the report or return, then the court may allow time for the claimant or any person, firm or corporation who may have filed a claim prior to said amendment to reply to the amended report or return.

History.—s. 4, ch. 61-380; s. 2, ch. 73-299; s. 36, ch. 77-104.

116.26 Delivery of property to claimant.—

Any person, firm or corporation filing a claim in the cause, which claim shall state fully his right, title, claim or interest, in and to the held property, may, at any time after said claim is filed with the clerk of court, obtain possession of the held property by filing a petition therefor with the clerk of the circuit court and posting with him, to be approved by said clerk, a surety bond, payable to the governor of the state in twice the amount of the value of said property as fixed in the return to or by the clerk of the circuit court, with a corporate surety duly authorized to transact business in this state as surety, conditioned upon his paying to said clerk the value of the property together with all costs of the proceedings, if judgment of forfeiture be entered. Upon posting of such bond with the clerk and the release of the property to the applicant the cause shall proceed to final judgment in the same manner as it would have had no such bond been filed, except that any execution to be issued in the cause pursuant to judgment may run against and be enforced against the person posting said bond and his surety.

History.—s. 5, ch. 61-380.

116.27 Proceedings when no claim is filed.—

When no claim is filed in the cause within the time required, the clerk shall enter a default against all persons, firms and corporations, claiming or having any interest in and to the property held by the clerk and the cause may then proceed in the same manner as a common law action after default, and final judgment shall be entered therein ex parte, except as may be herein otherwise provided.

History.—s. 6, ch. 61-380.

116.28 Proceedings when claim is filed.—

When one or more claims are filed in the cause, the cause shall be tried upon the issues made thereby, with the petition for forfeiture, with any affirmative defenses being deemed denied without further pleadings. Judgment by default shall be entered against all other persons, firms and corporations owning, claiming or having an interest in and to the property held, after which the cause shall proceed as in other common law cases; except claimant shall prove to the satisfaction of the court, that he did not know or have any reason to believe, at the time his right, title, interest, or lien arose, that the property was being used for or in connection with the violation of any of the statutes and laws of this state; and further that at said time there was no reasonable reason to believe that the said property might be used for such purpose. Where the owner of the property has been convicted of a violation of the statutes and laws of

this state and said property had been offered or received in evidence at the trial for said violation, then such conviction and the offering or receiving of said property in evidence at such trial shall be prima facie evidence that the claimant had reason to believe that the property might be used for or in connection with a violation of a criminal statute and law of this state, and it shall be incumbent upon such claimant to satisfy the court that he was without knowledge of such violation. Trial of all such causes shall be without a jury, except in such cases as a trial by jury may be guaranteed by the state constitution and in such cases trial by jury shall be deemed waived unless demanded in the claim when filed.

History.—s. 7, ch. 61-380.

116.29 Judgment of forfeiture.—

(1) On final hearing the report or return of the clerk of the circuit court or the clerk of any other court heretofore mentioned, or the judge of any court not having a clerk as heretofore referred to, shall be taken as prima facie evidence that the property therein described, and delivered to the clerk of the circuit court was, or had been used in, or in connection with the violation of some law of the state, and shall be sufficient predicate for a judgment of forfeiture in absence of other proofs and evidence. The burden shall be upon the claimant to show that the property was not so used or if so used that the claimant had no knowledge of such violation and no reason to believe that the property so held was, would be or had been used for the violation of a statute or law of the state.

(2) Where such property is encumbered by a lien or retain title agreement under circumstances wherein the lien holder had no knowledge that the property was, had been or would be used in violation of the statutes and laws, and no reasonable reason to believe that it might be so used, then the court may declare a forfeiture of all other rights, titles and interests; subject however, to the lien of such innocent lien holder, or may direct the payment of such lien from the proceeds of any sale of the said property. The proceedings and the judgment of forfeiture shall be in rem and shall be primarily against the property itself.

(3) Upon the entry of a judgment of forfeiture the court shall determine the disposition to be made of the property, which may include the destruction, sale, and allocation thereof to some governmental agency, function or use, or otherwise as the court may determine. Sales of such property may be at a public or private sale, as the court may determine and direct, to the highest and best bidder therefor for cash, after public notice as the court may direct, which notice shall be not less than 10 nor more than 30 days after the date of such forfeiture order. Notice of such sale shall be published once only at least 7 days prior to the sale.

(4) Where the property has been delivered to a claimant upon the posting of a bond the court shall determine the value of the property, or portion thereof subject to forfeiture, and shall enter judgment against the principal and surety of the bond in such amount for which execution shall issue in the usual manner. Upon the application of any claimant the court may fix the value of the forfeitable interest

in the held property and permit the claimant to redeem the property upon the payment of a sum equal to said value and costs, which sum shall be disposed of as would the proceeds of a sale of property under a judgment of forfeiture.

History.—s. 8, ch. 61-380.

116.30 Disposition of proceeds of forfeiture.

—All sums received from a sale or other disposition of the held property shall be paid into the fine and forfeiture fund and shall become a part thereof.

History.—s. 9, ch. 61-380.

116.31 Fees for services; expenses.—

(1) The fee of any clerk of court for preparing the report or return taken and considered as the state's petition or libel in rem shall be \$5. The fee of the clerk of the circuit court in connection with services of said clerk in the forfeiture proceedings contemplated by this chapter shall be \$10. The fees of all other officers shall be those provided by law for like services in other cases and matters. The fees provided by this section shall be paid from the general fund or the fine and forfeiture fund of the county.

(2) The reasonable cost of posting the citation or of publication as required by this chapter and the cost for the safekeeping of property in the custody of the clerk of the court shall be paid from the general fund or the fine and forfeiture fund of the county.

History.—s. 10, ch. 61-380.

116.32 State attorney to represent state.—

Upon the filing of the return or report with or by the clerk of the circuit court, the clerk of the circuit court shall furnish the state attorney with a copy thereof and a copy of the citation and the state attorney shall represent the state in the forfeiture proceedings. The Department of Legal Affairs shall represent the state in all appeals from judgments of forfeiture to the supreme court. The state may appeal any judgment denying forfeiture in whole or in part or that may be otherwise adverse to the state.

History.—s. 11, ch. 61-380; ss. 11, 35, ch. 69-106.

116.33 Exercise of police power.—It is deemed by the legislature of the state, that this act is necessary for the more efficient and speedy method of forfeiture of property that is held by the clerks of the circuit court of Florida, and a lawful exercise of the police power of the state for the protection of the public welfare of the people of the state. All the provisions of this act shall be liberally construed for the accomplishment of the purposes herein mentioned. This act is to be considered as cumulative and not an exclusive method of forfeiture.

History.—s. 12, ch. 61-380.

119.08 Photographing public records.—

(1) In all cases where the public or any person interested has a right to inspect or take extracts or make copies from any public record, instruments or documents, any person shall hereafter have the

right of access to said records, documents or instruments for the purpose of making photographs of the same while in the possession, custody and control of the lawful custodian thereof, or his authorized deputy.

(2) Such work shall be done under the supervision of the lawful custodian of the said records, who shall have the right to adopt and enforce reasonable rules governing the said work. Said work shall, where possible, be done in the room where the said records, documents or instruments are by law kept, but if the same in the judgment of the lawful custodian of the said records, documents or instruments be impossible or impracticable, then the said work shall be done in such other room or place as nearly adjacent to the room where the said records, documents and instruments are kept as determined by the lawful custodian thereof.

(3) Where the providing of another room or place is necessary, the expense of providing the same shall be paid by the person desiring to photograph the said records, instruments or documents. While the said work hereinbefore mentioned is in progress, the lawful custodian of said records may charge the person desiring to make the said photographs for the services of a deputy of the lawful custodian of said records, documents or instruments to supervise the same, or for the services of the said lawful custodian of the same in so doing at a rate of compensation to be agreed upon by the person desiring to make the said photographs and the custodian of the said records, documents or instruments, or in case the same fail to agree as to the said charge, then by the lawful custodian thereof.

119.09 Assistance of the Division of Archives, History and Records Management of the Department of State.—The Division of Archives, History and Records Management of the Department of State shall have the right to examine into the condition of public records and shall give advice and assistance to public officials in the solution of their problems of preserving, creating, filing and making available the public records in their custody. When requested by the division, public officials shall assist the division in the preparation of an inclusive inventory of public records in their custody to which shall be attached a schedule, approved by the head of the governmental unit or agency having custody of the records and the division, establishing a time period for the retention or disposal of each series of records. Upon the completion of the inventory and schedule, the division shall (subject to the availability of necessary space, staff and other facilities for such purposes) make available space in its records center for the filing of semicurrent records so scheduled and in its archives for noncurrent records of permanent value and shall render such other assistance as needed, including the microfilming of records so scheduled.

within its numbering system, the federal employer's identification number of each corporation, partnership, or other business entity registered or licensed by it. Any state agency may maintain a dual numbering system in which the federal employer's identification number or the state agency's own number is the primary identification number; however, the records of such state agency shall be designed in such a way that the record of any business entity is subject to direct location by the federal employer's identification number. The Department of State shall keep a registry of federal employer's identification numbers of all business entities, registered with the Division of Corporations, which registry of numbers may be used by all state agencies.

History.—s. 10, ch. 67-125; s. 74, ch. 71-136.

119.11 Accelerated hearing; immediate compliance.—

(1) Whenever an action is filed to enforce the provisions of this chapter, the court shall set an immediate hearing, giving the case priority over other

pending cases.

(2) Whenever a court orders an agency to open its records for inspection in accordance with this chapter, the agency shall comply with such order within 48 hours, unless otherwise provided by the court issuing such order, or unless the appellate court issues a stay order within such 48-hour period. The filing of a notice of appeal shall not operate as an automatic stay.

(3) A stay order shall not be issued unless the court determines that there is substantial probability that opening the records for inspection will result in significant damage.

History.—s. 5, ch. 75-225.

119.12 Attorney's fees.—

(1) Whenever an action has been filed against an agency to enforce the provisions of this chapter and the court determines that such agency unreasonably refused to permit public records to be inspected, the court shall assess a reasonable attorney's fee against such agency.

(2) Whenever an agency appeals a court order requiring it to permit inspection of records pursuant to this chapter and such order is affirmed, the court shall assess a reasonable attorney's fee for the appeal against such agency.

History.—s. 1, ch. 74-310; s. 3, ch. 77-468; s. 1, ch. 78-162.

120.51 Short title.—This chapter may be known and cited as the "Administrative Procedure Act."

History.—s. 1, ch. 74-310.

120.52 Definitions.—As used in this act:

- (1) "Agency" means:

(a) The Governor in the exercise of all executive powers other than those derived from the Constitution.

(b) Each other state officer and each state department, departmental unit described in s. 20.04, commission, regional planning agency, board, district, and authority, including, but not limited to, those described in chapters 160, 163, 298, 373, 380, and 582, except any legal entity or agency created in whole or in part pursuant to chapter 361, part II.

(c) Each other unit of government in the state, including counties and municipalities, to the extent

they are expressly made subject to this act by general or special law or existing judicial decisions.

Neither the Industrial Relations Commission nor the deputy commissioners shall, in the adjudication of workers' compensation claims, be considered an agency or part of an agency for the purposes of this act.

(2) "Agency action" means the whole or part of a rule or order, or the equivalent, or the denial of a petition to adopt a rule or issue an order. The term also includes any denial of a request made under s. 120.54(5).

(3) "Agency head" means the person or collegial body in a department or other governmental unit statutorily responsible for final agency action.

(4) "Committee" means the Administrative Procedures Committee.

(5) "Division" means the Division of Administrative Hearings of the Department of Administration.

(6) "Educational unit" means a local school district, a community college district, the Florida School for the Deaf and Blind, or a unit of the State University System other than the Board of Regents.

(7) "License" means a franchise, permit, certification, registration, charter, or similar form of authorization required by law, but it does not include a license required primarily for revenue purposes when issuance of the license is merely a ministerial act.

(8) "Licensing" means the agency process respecting the issuance, denial, renewal, revocation, suspension, annulment, withdrawal, or amendment of a license or imposition of terms for the exercise of a license.

(9) "Order" means a final agency decision which does not have the effect of a rule and which is not excepted from the definition of a rule, whether affirmative, negative, injunctive, or declaratory in form. An agency decision shall be final when reduced to writing and filed with the person designated by the agency as clerk. The clerk shall indicate the date of filing on the order.

(10) "Party" means:

(a) Specifically named persons whose substantial interests are being determined in the proceeding.

(b) Any other person who, as a matter of constitutional right, provision of statute, or provision of agency regulation, is entitled to participate in whole or in part in the proceeding, or whose substantial interests will be affected by proposed agency action, and who makes an appearance as a party.

(c) Any other person, including an agency staff member, allowed by the agency to intervene or participate in the proceeding as a party. An agency may by rule authorize limited forms of participation in agency proceedings for persons who are not eligible to become parties.

(d) Any county representative, agency, department, or unit funded and authorized by state statute or county ordinance to represent the interests of the consumers of a county, when the proceeding involves

the substantial interests of a significant number of residents of the county and the board of county commissioners has, by resolution, authorized the representative, agency, department, or unit to represent the class of interested persons. The authorizing resolution shall apply to a specific proceeding and to appeals and ancillary proceedings thereto, and it shall not be required to state the names of the persons whose interests are to be represented.

Prisoners as defined in s. 944.02(5) shall not be considered parties for the purposes of obtaining proceedings under s. 120.54(16) or s. 120.57, nor shall parolees be considered parties for these purposes when the proceedings relate to the revocation of parole.

(11) "Person" means any person described in s. 1.01, any unit of government in or outside the state, and any agency described in subsection (1).

(12) "Proposed order" means the advance text, under s. 120.58(1)(e), of the order which a collegial agency head plans to enter as its final order. When a hearing officer assigned by the division conducts a hearing, the recommended order is the proposed order.

(13) "Recommended order" means the official recommendation of a hearing officer assigned by the division to an agency or of any other duly authorized presiding officer, other than an agency head or member thereof, for the final disposition of a proceeding under s. 120.57.

(14) "Rule" means each agency statement of general applicability that implements, interprets, or prescribes law or policy or describes the organization, procedure, or practice requirements of an agency and includes any form which imposes any requirement or solicits any information not specifically required by statute or by an existing rule. The term also includes the amendment or repeal of a rule. The term does not include:

(a) Internal management memoranda which do not affect either the private interests of any person or any plan or procedure important to the public and which have no application outside the agency issuing the memorandum.

(b) Legal memoranda or opinions issued to an agency by the Attorney General or agency legal opinions prior to their use in connection with an agency action.

(c) The preparation or modification of:

1. Agency budgets.
2. Contractual provisions reached as a result of collective bargaining.
3. Agricultural marketing orders under chapter 573 or chapter 601.

(e) Any tests, test scoring criteria, practices, or procedures relating to student assessment which are developed or administered by the Department of

Education pursuant to s. 229.57, s. 232.245, s. 232.246, or s. 232.247.

History.—s. 1, ch. 74-310; s. 1, ch. 75-191; s. 1, ch. 76-131; s. 1, ch. 77-174; s. 12, ch. 77-290; s. 2, ch. 77-453; s. 1, ch. 78-28; s. 1, ch. 78-425; s. 1, ch. 79-20; s. 55, ch. 79-40; s. 1, ch. 79-299.

120.53 Adoption of rules of procedure and public inspection.—

(1) In addition to other requirements imposed by law, each agency shall:

(a) Adopt as a rule a description of its organization, stating the general course and method of its operations and the methods whereby the public may obtain information or make submissions or requests.

(b) Adopt rules of practice setting forth the nature and requirements of all formal and informal procedures, including a list of all forms and instructions used by the agency in its dealings with the public. The list of forms and instructions shall include the title of each form or instruction and a statement of the manner in which the form or instruction may be obtained without cost.

(c) Adopt rules of procedure appropriate for the presentation of arguments concerning issues of law or policy, and for the presentation of evidence on any pertinent fact that may be in dispute.

(d) Adopt rules for the scheduling of meetings, hearings, and workshops, one of which shall be that an agenda shall be prepared by the agency in time to insure that a copy of the agenda may be received at least 7 days before the event by any person in the state who requests a copy and who pays the reasonable cost of the copy. The agenda shall contain the items to be considered, in the order of presentation. After the agenda has been made available, change shall be only for good cause, as determined by the person designated to preside, and stated in the record. Notification of such change shall be at the earliest practicable time. The agenda for a special meeting of a district school board under authority of s. 230.16 shall be prepared upon the calling of the meeting, but not less than 48 hours prior to such meeting. In addition, each agency shall give notice of meetings, hearings, and workshops in the same manner as that prescribed for rulemaking in subsection 120.54(1), except that the notice requirement shall not apply to emergency meetings. The notice shall include a statement of the general subject matter to be considered and shall be given not less than 7 days before the event.

(2) Each agency shall make available for public inspection and copying, at no more than cost:

(a) All rules formulated, adopted, or used by the agency in the discharge of its functions.

(b) All agency orders.

(c) A current subject-matter index, identifying for the public any rule or order issued or adopted after January 1, 1975.

All rules adopted pursuant to this act shall be indexed within 90 days. The Department of State shall by rule establish uniform indexing procedures.

(3) No agency rule or order is valid for any purpose until it has been made available for public inspection as herein required unless the person or party against whom enforcement is sought has actual knowledge of it.

(4) An agency may comply with paragraphs (2)(b) and (c) by designating by rule an official reporter which publishes and indexes by subject matter each agency order rendered after a proceeding which affects substantial interests has been held.

History.—s. 1, ch. 74-310; s. 2, ch. 75-191; s. 2, ch. 76-131; s. 2, ch. 79-299.

120.54 Rulemaking; adoption procedures.—

(1) Prior to the adoption, amendment, or repeal of any rule not described in subsection (9), an agency shall give notice of its intended action, setting forth a short and plain explanation of the purpose and effect of the proposed rule, a summary of the proposed rule, the specific legal authority under which its adoption is authorized, and a summary of the estimate of the economic impact of the proposed rule on all persons affected by it. The notice shall contain the location where the text of the proposed rule or economic impact statement can be obtained if such text is not included in the notice.

(a) Except as otherwise provided in this paragraph, the notice shall be mailed to the committee, to all persons named in the proposed rule, and to all persons who have made requests of the agency for advance notice of its proceedings at least 14 days prior to such mailing. The agency shall also give such notice as is prescribed by rule to those particular classes of persons to whom the intended action is directed. Notice of intent by an educational unit to adopt, amend, or repeal any rule not described in subsection (9) shall be made:

1. By publication in a newspaper of general circulation in the affected area;

2. By mail to all persons who have made requests of the educational unit for advance notice of its proceedings and to organizations representing persons affected by the proposed rule; and

3. By posting in appropriate places so that those particular classes of persons to whom the intended action is directed may be duly notified.

Such publication, mailing, and posting of notice shall occur at least 14 days prior to the intended action.

(b) The notice shall be published in the Florida Administrative Weekly not less than 21 days prior to the intended action, except that notice of actions proposed by educational units or units of government with jurisdiction in only one county or a part thereof need not be published in the Florida Administrative Weekly or transmitted to the committee. The proposed rule shall be available for inspection and copying by the public at the time of the publication of notice.

(2)(a) Each agency, prior to the adoption, amendment, or repeal of any rule, shall provide information on its proposed action by preparing a detailed economic impact statement. The economic impact statement shall include:

1. An estimate of the cost to the agency of the implementation of the proposed action, including the estimated amount of paperwork;

2. An estimate of the cost or the economic benefit to all persons directly affected by the proposed action;

3. An estimate of the impact of the proposed ac-

tion on competition and the open market for employment, if applicable; and

4. A detailed statement of the data and method used in making each of the above estimates.

(b) If an economic impact statement is required before an agency takes action on an application or petition by any person, the statement shall be prepared within a reasonable time after the application is made or the petition is filed.

(c) Failure to provide an adequate statement of economic impact is grounds for holding the rule invalid; however, beginning October 1, 1978, no rule shall be declared invalid for want of an adequate statement of economic impact unless the issue is raised in an administrative or judicial proceeding within 1 year of the effective date of the rule to which the statement applies.

(3) If the intended action concerns any rule other than one relating exclusively to organization, procedure, or practice, the agency shall, on the request of any affected person received within 14 days after the date of publication of the notice, give affected persons an opportunity to present evidence and argument on all issues under consideration appropriate to inform it of their contentions. Prisoners, as defined in s. 944.02(5), may be limited by the Department of Corrections to an opportunity to submit written statements concerning intended action on any department rule. The agency may schedule a public hearing on the rule and, if requested by any affected person, shall schedule a public hearing on the rule. Any material pertinent to the issues under consideration submitted to the agency within 14 days after the date of publication of the notice shall be considered by the agency and made a part of the record of the rulemaking proceeding.

(4)(a) Any substantially affected person may seek an administrative determination of the invalidity of any proposed rule on the ground that the proposed rule is an invalid exercise of delegated legislative authority.

(b) The request seeking a determination under this subsection shall be in writing and must be filed with the division within 14 days after the date of publication of the notice. It must state with particularity facts sufficient to show that the person challenging the proposed rule would be substantially affected by it and facts sufficient to show the invalidity of the proposed rule.

(c) Immediately upon receipt of the petition, the division shall forward copies of the petition to the agency whose rule is challenged, the Department of State, and the committee. Within 10 days after receiving the petition, the division director, if he determines that the petition complies with the above requirements, shall assign a hearing officer who shall conduct a hearing within 30 days thereafter, unless the petition is withdrawn. Within 30 days after conclusion of the hearing, the hearing officer shall render his decision and state the reasons therefor in writing. The division shall forthwith transmit copies of the hearing officer's decision to the Department of State and to the committee. The hearing officer may declare the proposed rule wholly or partly invalid. The proposed rule or provision of a proposed rule declared invalid shall be withdrawn from the com-

mittee by the adopting agency and shall not be adopted. No rule shall be filed for adoption until 21 days after the notice required by subsection (1) or until the hearing officer has rendered his decision, as the case may be. However, the agency may proceed with all other steps in the rulemaking process. In the event part of a proposed rule is declared invalid, the adopting agency may, in its sole discretion, withdraw the proposed rule in its entirety. The agency whose proposed rule has been declared invalid in whole or part shall give notice of the decision in the first available issue of the Florida Administrative Weekly.

(d) Hearings held under this provision shall be conducted in the same manner as provided in s. 120.57 except that the hearing officer's order shall be final agency action. The agency proposing the rule and the person requesting the hearing shall be adversary parties. Other substantially affected persons may join the proceeding as parties or intervenors on appropriate terms which will not substantially delay the proceedings. Failure to proceed under this subsection shall not constitute failure to exhaust administrative remedies.

(5) Any person regulated by an agency or having a substantial interest in an agency rule may petition an agency to adopt, amend, or repeal a rule or to provide the minimum public information required by s. 120.53. The petition shall specify the proposed rule and action requested. Not later than 30 calendar days after the date of filing a petition, the agency shall initiate rulemaking proceedings under this act, otherwise comply with the requested action, or deny the petition with a written statement of its reasons for the denial.

(6) In rulemaking proceedings, the agency may recognize any material which may be judicially noticed, and it may provide that materials so recognized shall be incorporated into the record of the proceeding. Before the record of any proceeding is completed, all parties shall be provided a list of such materials and given a reasonable opportunity to examine them and offer written comments thereon or written rebuttal thereto.

(7) Each rule adopted shall be accompanied by a reference to the specific rulemaking authority pursuant to which the rule was adopted and a reference to the section or subsection of the Florida Statutes or the Laws of Florida being implemented, interpreted, or made specific.

(8) Each rule adopted shall contain only one subject and shall be preceded by a concise statement of the purpose of the rule and reference to the rules repealed or amended, which statement need not be printed in the Florida Administrative Code. No rule shall be amended by reference only. Amendments shall set out the amended rule in full in the same manner as required by the constitution for laws.

(9)(a) If an agency finds that an immediate danger to the public health, safety, or welfare requires emergency action, the agency may adopt any rule necessitated by the immediate danger by any procedure which is fair under the circumstances and necessary to protect the public interest, provided that:

1. The procedure provides at least the procedural protection given by other statutes, the Florida Con-

stitution, or the United States Constitution.

2. The agency takes only that action necessary to protect the public interest under the emergency procedure.

3. The agency publishes in writing at the time of, or prior to, its action the specific facts and reasons for finding an immediate danger to the public health, safety, or welfare and its reasons for concluding that the procedure used is fair under the circumstances. In any event, notice of emergency rules, other than those of educational units or units of government with jurisdiction in only one county or a part thereof, shall be published in the first available issue of the Florida Administrative Weekly. The agency's findings of immediate danger, necessity, and procedural fairness shall be judicially reviewable.

(b) Rules pertaining to the public health, safety, or welfare shall include, but not be limited to, those rules pertaining to perishable agricultural commodities.

(c) An emergency rule adopted under this subsection may not be effective for a period longer than 90 days and shall not be renewable. However, the agency may take identical action by normal rulemaking procedures.

(d) Subject to applicable constitutional and statutory provisions, an emergency rule becomes effective immediately on filing, or at a date less than 20 days thereafter if specified in the rule, if the adopting agency finds that such effective date is necessary because of immediate danger to the public health, safety, or welfare.

(10) The Administration Commission shall promulgate one or more sets of model rules of procedure which shall be reviewed by the committee and filed with the Department of State. On filing with the department, the appropriate model rules shall be the rules of procedure for each agency subject to this act to the extent that each agency does not adopt a specific rule of procedure covering the subject matter contained in the model rules applicable to that agency. An agency may seek modification of the model rules of procedure to the extent necessary to conform to any requirement imposed as a condition precedent to receipt of federal funds or permit persons in this state to receive tax benefits under federal law or as required for the most efficient operation of the agency as determined by the Administration Commission. The reasons for the modification shall be published in the Florida Administrative Weekly. Agency rules adopted to comply with ss. 120.53 and 120.565 must be in substantial compliance with the model rules.

(11)(a) The adopting agency shall file with the committee, at least 21 days prior to the proposed adoption date, a copy of each rule it proposes to adopt, a detailed written statement of the facts and circumstances justifying the proposed rule, a copy of the estimate of economic impact required by subsection (1), a statement of the extent to which the proposed rule establishes standards more restrictive than federal standards or a statement that the proposed rule is no more restrictive than federal standards or that a federal rule on the same subject does not exist, and the notice required by subsection (1). After the final public hearing on the proposed rule,

or after the time for requesting a hearing has expired, the adopting agency shall file any changes in the proposed rule and the reasons therefor with the committee or advise the committee that there are no changes. In addition, when any change is made in a proposed rule other than a technical change, the adopting agency shall provide a detailed statement of such change by certified mail or actual delivery to any person who requests it in writing at the public hearing. The agency shall file the change with the committee, and provide the statement of change to persons requesting it, at least 7 days prior to filing the rule for adoption. Educational units, other than units of the State University System, and local units of government with jurisdiction in only one county or part thereof shall not be required to make filings with the committee. This paragraph shall not apply to emergency rules adopted pursuant to subsection (9). However, agencies, other than those listed herein, adopting emergency rules shall file a copy of each emergency rule with the committee.

(b) If the adopting agency is required to publish its rules in the Florida Administrative Code, it shall file with the Department of State three certified copies of the rule it proposes to adopt, a summary of the rule, a summary of any hearings held on the rule, and a detailed written statement of the facts and circumstances justifying the rule. Agencies not required to publish their rules in the Florida Administrative Code shall file one certified copy of the proposed rule, and the other material required above, in the office of the agency head, and such rules shall be open to the public pursuant to s. 120.53(2). Filings shall be made not less than 21 days or more than 90 days after the notice required by subsection (1), if no public hearing is held. If a public hearing is held, the adopting agency shall file within 21 days after receipt of all material authorized to be submitted at the hearing or after receipt of the transcript, if one is made, whichever is later. If a public hearing is held and no material is authorized to be submitted and no transcript is made, filings shall be made not less than 21 days or more than 90 days after the notice required in subsection (1). At the time a rule is filed, the agency shall certify that the time limitations prescribed by this subsection have been complied with and that there is no administrative determination pending on the rule. The department shall reject any rule not filed within the prescribed time limits or upon which an administrative determination is pending.

(12)(a) The proposed rule shall be adopted on being filed with the Department of State and become effective 20 days after being filed, on a later date specified in the rule, or on a date required by statute. Rules not required to be filed with the Department of State shall become effective when adopted by the agency head or on a later date specified by rule or statute.

(b) After the notice required in subsection (1) and prior to adoption, the agency may withdraw the rule in whole or in part, or may make such changes in the rule as are supported by the record of public hearings held on the rule, technical changes which do not affect the substance of the rule, changes in response to written material relating to the rule received by

the agency within 14 days after the notice and made a part of the record of the proceeding, or changes in response to a proposed objection by the committee. After adoption and before the effective date, a rule may be modified or withdrawn only in response to an objection by the committee or may be modified to extend the effective date by not more than 60 days when the committee has notified the agency that an objection to the rule is being considered. The agency shall give notice of its decision to withdraw or modify a rule in the first available issue of the publication in which the original notice of rulemaking was published and shall notify the Department of State if the rule is required to be filed with the Department of State. After a rule has become effective, it may be repealed or amended only through regular rulemaking procedures.

(13) If the committee disapproves a proposed rule and the agency does not modify the rule, the committee shall file with the Department of State a notice of the disapproval detailing with particularity its objection to the rule. The Department of State shall publish this notice in the Florida Administrative Weekly and shall publish, as a history note to the rule when it is published in the Florida Administrative Code, a reference to the committee's disapproval and to the issue of the Weekly in which the full text thereof appears.

(14) No agency has inherent rulemaking authority; nor has any agency authority to establish penalties for violation of a rule unless the Legislature, when establishing a penalty, specifically provides that the penalty applies to rules. However, an agency may adopt rules necessary to the proper implementation of a statute prior to the effective date of the statute, but the rules may not be enforced until the statute upon which they are based is effective.

(15) The rulemaking provisions of this chapter shall not apply to compensation appeals referees.

(16) Rulemaking proceedings shall be governed solely by the provisions of this section unless a person timely asserts that his substantial interests will be affected in the proceeding and affirmatively demonstrates to the agency that the proceeding does not provide adequate opportunity to protect those interests. If the agency determines that the rulemaking proceeding is not adequate to protect his interests, it shall suspend the rulemaking proceeding and convene a separate proceeding under the provisions of s. 120.57. Similarly situated persons may be requested to join and participate in the separate proceeding. Upon conclusion of the separate proceeding, the rulemaking proceeding shall be resumed.

120.545 Committee review of agency rules.—

(1) As a legislative check on legislatively created authority, the committee shall examine each proposed rule, except for those proposed rules exempted by paragraph 120.54(11)(a), and its accompanying material, and may examine any existing rule, for the purpose of determining whether the rule is within the statutory authority upon which it is based, whether the rule is in proper form, and whether the notice given prior to its adoption was sufficient to

give adequate notice of the purpose and effect of the rule. If the committee objects to a proposed or existing rule, it shall, within 5 days of the objection, certify the fact to the agency whose rule has been examined and include with the certification a statement detailing its objections with particularity.

(2) Within 30 days of receipt of the objection, if the agency is headed by an individual, or within 45 days of receipt of the objection, if the agency is headed by a collegial body, the agency shall:

(a) If the rule is a proposed rule:

1. Modify the rule to meet the committee's objection;

2. Withdraw the rule in its entirety; or

3. Refuse to modify or withdraw the rule.

(b) If the rule is an existing rule:

1. Notify the committee that it has elected to amend the rule to meet the committee's objection and initiate the amendment procedure;

2. Notify the committee that it has elected to repeal the rule and initiate the repeal procedure; or

3. Notify the committee that it refuses to amend or repeal the rule.

(3) If the agency elects to modify a proposed rule to meet the committee's objection, it shall make only such modifications as are necessary to meet the objection and shall resubmit the rule to the committee. The agency shall give notice of its election to modify a proposed rule to meet the committee's objection in the first available issue of the Florida Administrative Weekly, but shall not be required to conduct a public hearing. If the agency elects to amend an existing rule to meet the committee's objection, it shall notify the committee in writing and shall initiate the amendment procedure by giving notice in the next available issue of the Florida Administrative Weekly. The committee shall give priority to rules so modified or amended when setting its agenda.

(4) If the agency elects to withdraw a proposed rule as a result of a committee objection, it shall notify the committee, in writing, of its election and shall give notice of the withdrawal in the next available issue of the Florida Administrative Weekly. The rule shall be withdrawn without a public hearing, effective upon publication of the notice in the Florida Administrative Weekly. If the agency elects to repeal an existing rule as a result of a committee objection, it shall notify the committee, in writing, of its election and shall initiate rulemaking procedures for that purpose by giving notice in the next available issue of the Florida Administrative Weekly.

(5) If an agency elects to amend or repeal an existing rule as a result of a committee objection, it shall complete the process within 90 days after giving notice in the Florida Administrative Weekly.

(6) Failure of the agency to respond to a committee objection to a proposed rule within the time prescribed in subsection (2) shall constitute withdrawal of the rule in its entirety. In this event, the committee shall notify the Department of State that the agency, by its failure to respond to a committee objection, has elected to withdraw the proposed rule. Upon receipt of the committee's notice, the Department of State shall publish a notice to that effect in the next available issue of the Florida Administrative Weekly. Upon publication of the notice, the pro-

posed rule shall be stricken from the files of the Department of State and the files of the agency.

(7) Failure of the agency to respond to a committee objection to an existing rule within the time prescribed in subsection (2) shall constitute a refusal to repeal the rule.

(8) If the committee objects to a proposed or existing rule and the agency refuses to modify, amend, withdraw, or repeal the rule, the committee shall file with the Department of State a notice of the objection, detailing with particularity its objection to the rule. The Department of State shall publish this notice in the Florida Administrative Weekly and shall publish, as a history note to the rule in the Florida Administrative Code, a reference to the committee's objection and to the issue of the Weekly in which the full text thereof appears.

History.—s. 4, ch. 76-131; s. 1, ch. 77-174.

120.55 Publication.—

(1) The Department of State shall:

(a) Conduct a systematic and continuing study of the rules of this state for the purpose of reducing their number and bulk and removing redundancies and unnecessary repetitions and make such changes in style and form as are required by paragraph (d).

(b) Publish in a permanent compilation entitled "Florida Administrative Code" all rules adopted by each agency, citing the specific rulemaking authority pursuant to which each rule was adopted, all history notes as authorized in s. 120.545(8), and complete indexes to all rules contained in the code. Supplementation shall be made as often as practicable, but at least monthly. Rules general in form but applicable to only one school district, community college district, or county, or a part thereof, or to the Florida School for the Deaf and the Blind and university rules relating to internal personnel or business and finance shall not be published in the Florida Administrative Code. Exclusion from publication in the Florida Administrative Code shall not affect their validity or effectiveness. The department shall publish, at the beginning of the section of the code dealing with an agency that files copies of its rules with the department, a summary or listing of all rules of said agency excluded from publication in the code and a statement as to where said rules may be inspected or examined. The department shall also publish, at the beginning of the section of the code dealing with an agency, any exemptions granted that agency pursuant to s. 120.63, including the termination date of the exemption and a statement whether the exemption can be renewed pursuant to s. 120.63(2)(b).

(c) Publish a weekly publication entitled the "Florida Administrative Weekly," which shall contain:

1. A summary of, and an index to, all rules filed during the preceding week.

2. All hearing notices required by subsection 120.54(1), showing the time, place, and date of the hearings and the summaries of all rules proposed for consideration.

3. All notices of meetings, hearings, and workshops conducted in accordance with the provisions of paragraph 120.53(1)(d), including a statement of the

manner in which a copy of the agenda may be obtained.

4. A notice of each request for authorization to amend or repeal an existing model rule or for the adoption of new model rules.

5. A notice of each request for exemption from any provision of this chapter.

6. Notice of petitions for declaratory statements or administrative determinations.

7. A summary of each objection to any rule filed by the Administrative Procedures Committee during the preceding week.

8. Any other material required or authorized by law or deemed useful by the department.

(d) Prescribe by rule the style and form required for rules submitted for filing and establish the form for their certification.

(e) Correct grammatical, typographical, and like errors not affecting the construction or meaning of the rules and insert history notes.

(f) Remove from the code any rules the authority for which has been repealed.

(g) Before making any change in any rules as provided in paragraph (a), (e), or paragraph (f), obtain the advice and consent of the affected agency.

(h) Make copies of the Florida Administrative Code available for sale at no more than cost and copies of the Florida Administrative Weekly available on an annual subscription basis for not more than \$25 per year.

(i) Charge each agency using the Florida Administrative Weekly a space rate computed to cover all costs related to the Florida Administrative Weekly.

(2) Each agency shall print or distribute copies of its rules, citing the specific rulemaking authority pursuant to which each rule was adopted, at its own expense or purchase copies for distribution from the Department of State.

(3)(a) The Department of State shall furnish the Florida Administrative Code and the Florida Administrative Weekly, without charge and upon request, as follows:

1. One set to each federal and state court having jurisdiction over the residents of the state; each Florida senator, congressman, and state legislator; the Legislative Library; each state university library; the State Library; and each standing committee of the Senate and House of Representatives.

2. Two sets to each state department.

3. Three sets to the library of the Supreme Court of Florida, the library of each state district court of appeal, the division, the library of the Attorney General, each law school library in Florida, the Secretary of the Senate, and the Clerk of the House.

4. Ten sets to the committee.

(b) The Department of State shall furnish one copy of the Florida Administrative Weekly, at no cost, to the depository libraries of the Florida State Library, each clerk of the circuit court, and each state department, for posting for public inspection.

(4)(a) There is hereby created in the State Treasury a revolving fund to be known as the Department of State's "Publication Revolving Trust Fund."

(b) All fees and moneys collected by the Department of State under this chapter shall be deposited in the revolving trust fund for the purpose of paying

for the publication and distribution of the Florida Administrative Code and the Florida Administrative Weekly and for associated costs incurred by the department in carrying out this chapter.

(c) The unencumbered balance in the revolving trust fund at the beginning of each fiscal year shall not exceed \$100,000, and any excess shall be transferred to the General Revenue Fund.

(d) It is the intent of the Legislature that the Florida Administrative Weekly be supported entirely from funds collected for subscriptions to and advertisements in the Florida Administrative Weekly. To that end, the Department of State is authorized to add a surcharge of 10 percent to any charge relating to the Florida Administrative Weekly until such time as the Publication Revolving Trust Fund has transferred to the General Revenue Fund an amount equal to all funds appropriated to the trust fund.

120.56 Administrative determination of rule by hearing officer.—

(1) Any person substantially affected by a rule may seek an administrative determination of the invalidity of the rule on the ground that the rule is an invalid exercise of delegated legislative authority.

(2) The petition seeking an administrative determination under this section shall be in writing and shall state with particularity facts sufficient to show the person seeking relief is substantially affected by the rule and facts sufficient to show the invalidity of the rule. The petition shall be filed with the division which shall, immediately upon filing, forward copies of the petition to the agency whose rule is challenged, the Department of State, and the committee. Within 10 days after receiving the petition, the division director shall, if he determines that the petition complies with the above requirements, assign a hearing officer who shall conduct a hearing within 30 days thereafter, unless the petition is withdrawn.

(3) Within 30 days after the hearing, the hearing officer shall render his decision and state the reasons therefor in writing. The division shall forthwith transmit copies of the hearing officer's decision to the Department of State and to the committee. The hearing officer may declare all or part of a rule invalid. The rule or part thereof declared invalid shall become void when the time for filing an appeal expires or at a later date specified in the decision. The agency whose rule has been declared invalid in whole or part shall give notice of the decision in the Florida Administrative Weekly in the first available issue after the rule has become void.

(4) Challenges to the validity of an emergency rule shall be subject to the following time schedules. Within 7 days after receiving the petition, the division director shall, if he determines that the petition complies with subsection (2), assign a hearing officer who shall conduct a hearing within 14 days thereafter, unless the petition is withdrawn. Within 14 days after the hearing, the hearing officer shall render his decision and otherwise comply with the provisions of subsection (3) not inconsistent herewith.

(5) Hearings held under this provision shall be

conducted in the same manner as provided in s. 120.57 except that the hearing officer's order shall be final agency action. The petitioner and the agency whose rule is attacked shall be adversary parties. Other substantially affected persons may join the proceedings as parties or intervenors on appropriate terms which shall not unduly delay the proceedings. Failure to proceed under this section shall not constitute failure to exhaust administrative remedies.

120.565 Declaratory statement by agencies.

—Each agency shall provide by rule the procedure for the filing and prompt disposition of petitions for declaratory statements. A declaratory statement shall set out the agency's opinion as to the applicability of a specified statutory provision or of any rule or order of the agency as it applies to the petitioner in his particular set of circumstances only. The agency shall give notice of each petition and its disposition in the Florida Administrative Weekly, except that educational units shall give notice in the same manner as provided for rules in s. 120.54(1)(a), and transmit copies of each petition and its disposition to the committee. Agency disposition of petitions shall be final agency action.

History.—s. 6, ch. 75-191; s. 7, ch. 76-131; s. 5, ch. 78-425; s. 5, ch. 79-299.

120.57 Decisions which affect substantial interests.—The provisions of this section shall apply in all proceedings in which the substantial interests of a party are determined by an agency. Unless waived by all parties, subsection (1) shall apply whenever the proceeding involves a disputed issue of material fact. Unless otherwise agreed, subsection (2) shall apply in all other cases.

(1) FORMAL PROCEEDINGS.—

(a) A hearing officer assigned by the division shall conduct all hearings under this subsection, except for:

1. Hearings before agency heads or a member thereof other than an agency head or a member of an agency head within the Department of Professional and Occupational Regulation;
2. Hearings before the Unemployment Appeals Commission in unemployment compensation appeals, unemployment compensation appeals referees, special deputies pursuant to s. 443.15, and the Public Service Commission or its examiners;
3. Hearings regarding drivers' licensing pursuant to chapter 322;
4. Hearings conducted within the Department of Health and Rehabilitative Services in the execution of those social and economic programs administered by the former Division of Family Services of said department prior to the reorganization effected by chapter 75-48, Laws of Florida;
5. Hearings in which the division is a party, in which case an attorney assigned by the Administration Commission shall be the hearing officer;
6. Hearings which involve student disciplinary suspensions or expulsions and which are conducted by educational units;
7. Hearings of the Public Employees Relations Commission in which a determination is made of the

appropriateness of the bargaining unit, as provided in s. 447.307; and

8. Hearings held by the Department of Agriculture and Consumer Services pursuant to chapter 601.

(b) In cases to which this subsection is applicable, the following procedures shall apply:

1. Requests for hearings shall be granted or denied within 15 days of receipt.

2. All parties shall be afforded an opportunity for a hearing after reasonable notice of not less than 14 days; however, the 14-day notice requirement may be waived with the consent of all parties. In preliminary hearings for the revocation of parole, no less than 7 days' notice shall be given. In parole revocation hearings pursuant to ss. 949.10 and 949.11, reasonable notice of not less than 5 days shall be given. In hearings involving student disciplinary suspensions or expulsions conducted by educational units, the 14-day notice requirement may be waived by the agency head or the hearing officer without the consent of the parties. The notice shall include:

a. A statement of the time, place, and nature of the hearing;

b. A statement of the legal authority and jurisdiction under which the hearing is to be held.

c. A reference to the particular sections of the statutes and rules involved.

d. A short and plain statement of the matters asserted by the agency and by all parties of record at the time notice is given. If the agency or any party is unable to state the matters in sufficient detail at the time initial notice is given, the notice may be limited to a statement of the issues involved, and thereafter, upon timely written application, a more definite and detailed statement shall be furnished not less than 3 days prior to the date set for the hearing.

3. Except for proceedings conducted as prescribed in s. 120.54(4) or s. 120.56, all petitions or requests for hearings under this section shall be filed with the agency. If the agency elects to request a hearing officer from the division, it shall notify the division within 10 days of receipt of the petition or request, requesting the assignment of a hearing officer and, with the concurrence of the division, set the time, date, and place of the hearing. On request of any agency, the division shall assign hearing officers with due regard to the expertise required for the particular matter. Any party may request the disqualification of any hearing officer by filing an affidavit with the division prior to the taking of evidence at a hearing, stating the grounds with particularity.

4. All parties shall have an opportunity to respond, to present evidence and argument on all issues involved, to conduct cross-examination and submit rebuttal evidence, to submit proposed findings of facts and orders, to file exceptions to any order or hearing officer's recommended order, and to be represented by counsel. When appropriate, the general public may be given an opportunity to present oral or written communications. If the agency proposes to consider such material, then all parties shall be given an opportunity to cross-examine or challenge or rebut it.

5. The record in cases governed by this subsection

tion shall consist only of:

- a. All notices, pleadings, motions, and intermediate rulings;
- b. Evidence received or considered;
- c. A statement of matters officially recognized;
- d. Questions and proffers of proof and objections and rulings thereon;
- e. Proposed findings and exceptions;
- f. Any decision, opinion, proposed or recommended order, or report by the officer presiding at the hearing;
- g. All staff memoranda or data submitted to the hearing officer during the hearing or prior to its disposition, after notice of the submission to all parties, except communications by advisory staff as permitted under s. 120.66(1), if such communications are public records;

h. All matters placed on the record after an ex parte communication pursuant to s. 120.66(2); and
i. The official transcript.

6. The agency shall accurately and completely preserve all testimony in the proceeding, and, on the request of any party, it shall make a full or partial transcript available at no more than actual cost.

7. Findings of fact shall be based exclusively on the evidence of record and on matters officially recognized.

8. Except as provided in subparagraph 12., the hearing officer shall complete and submit to the agency and all parties a recommended order consisting of his findings of fact, conclusions of law, interpretation of administrative rules, recommended penalty, if applicable, and any other information required by law or agency rule to be contained in the final order. The agency shall allow each party at least 10 days in which to submit written exceptions to the recommended order.

9. The agency may adopt the recommended order as the agency's final order. The agency in its final order may reject or modify the conclusions of law and interpretation of administrative rules in the recommended order, but may not reject or modify the findings of fact unless the agency first determines from a review of the complete record, and states with particularity in the order, that the findings of fact were not based upon competent substantial evidence or that the proceedings on which the findings were based did not comply with essential requirements of law. The agency may accept or reduce the recommended penalty in a recommended order, but may not increase it without a review of the complete record. In the event a court reverses an agency's order, the court in its discretion may award attorney's fees and costs to the aggrieved prevailing party.

10. If the hearing officer assigned to a hearing becomes unavailable, the division shall assign another hearing officer who shall use any existing record and receive any additional evidence or argument, if any, which the new hearing officer finds necessary.

11. A hearing officer who is a member of an agency head may participate in the formulation of the agency's final order, provided he has completed all his duties as hearing officer.

12. In applications for a license or mergers pursuant to title XXXVII or title XXXVIII which are

referred by the agency to the division for hearing pursuant to this section, the hearing officer shall complete and submit to the agency and to all parties a written report consisting of findings of fact and rulings on evidentiary matters. The agency shall allow each party at least 10 days in which to submit written exceptions to the report.

(2) **INFORMAL PROCEEDINGS.**—In cases to which subsection (1) does not apply:

(a) The agency shall, in accordance with its rules of procedure:

1. Give reasonable notice to affected persons or parties of the agency's action, whether proposed or already taken, or of its decision to refuse action, together with a summary of the factual, legal, and policy grounds therefor.

2. Give affected persons or parties or their counsel an opportunity, at a convenient time and place, to present to the agency or hearing officer written or oral evidence in opposition to the agency's action or refusal to act, or a written statement challenging the grounds upon which the agency has chosen to justify its action or inaction.

3. If the objections of the persons or parties are overruled, provide a written explanation within 7 days.

(b) The record shall only consist of:
1. The notice and summary of grounds;
2. Evidence received or considered;
3. All written statements submitted by persons and parties;

4. Any decision overruling objections;
5. All matters placed on the record after an ex parte communication pursuant to subsection 120.66(2); and

6. The official transcript.

(3) Unless precluded by law, informal disposition may be made of any proceeding by stipulation, agreed settlement, or consent order.

(4) This section shall not apply to agency investigations preliminary to agency action.

History.—s. 1, ch. 74-310; s. 7, ch. 75-191; s. 8, ch. 76-131; s. 1, ch. 77-174; s. 5, ch. 77-453; ss. 6, 11, ch. 78-95; s. 6, ch. 78-425; s. 8, ch. 79-7.

120.58 Agency action; evidence, record and subpoenas.—

(1) In agency proceedings for a rule or order:

(a) Irrelevant, immaterial, or unduly repetitious evidence shall be excluded, but all other evidence of a type commonly relied upon by reasonably prudent persons in the conduct of their affairs shall be admissible, whether or not such evidence would be admissible in a trial in the courts of Florida. Any part of the evidence may be received in written form, and all testimony of parties and witnesses shall be made under oath. Hearsay evidence may be used for the purpose of supplementing or explaining other evidence, but it shall not be sufficient in itself to support a finding unless it would be admissible over objection in civil actions. This paragraph applies only to proceedings under s. 120.57.

(b) An agency or its duly empowered presiding officer or a hearing officer has the power to swear witnesses and take their testimony under oath, to issue subpoenas upon the written request of any party or upon its own motion, and to effect discovery on the written request of any party by any means avail-

able to the courts and in the manner provided in the Florida Rules of Civil Procedure. However, no agency or its duly empowered presiding officer or any hearing officer has the authority to issue any subpoena or order directing discovery to any member or employee of the Legislature when the subpoena or order commands the production of documents or materials or compels testimony relating to the legislative duties of the member or employee. Any subpoena or order directing discovery directed to a member or an employee of the Legislature shall show on its face that the testimony sought does not relate to legislative duties.

(c) Any public employee subpoenaed to appear at an agency proceeding shall be entitled to per diem and travel expenses at the same rate as that provided for state employees under s. 112.061 if travel away from such public employee's headquarters is required. All other witnesses appearing pursuant to a subpoena shall be paid such fees and mileage for their attendance as is provided in civil actions in circuit courts of this state. In the case of a public employee, such expenses shall be processed and paid in the manner provided for agency employee travel expense reimbursement, and in the case of a witness who is not a public employee, payment of such fees and expenses shall accompany the subpoena.

(d) Documentary evidence may be received in the form of a copy or excerpt if the original is not readily available. Upon request, parties shall be given an opportunity to compare the copy with the original.

(e) If a majority of those who are to render the final order have not heard the case or read the record, a decision adverse to a party other than the agency itself shall not be made until a proposed order is served upon the parties and they are given an opportunity to file exceptions and present briefs and oral arguments to those who are to render the decision. The proposed order shall contain necessary findings of fact and conclusions of law and a reference to the source of each. The proposed order shall be prepared by the individual who conducted the hearing, if available, or by one who has read the record. The parties by written stipulation may waive compliance with this paragraph. The provisions of this paragraph shall not apply in the granting of parole or preliminary hearings for the revocation of parole.

(f) A party shall be permitted to conduct cross-examination when testimony is taken or documents are made a part of the record.

(2) Any person subject to a subpoena or order directing discovery may, before compliance and on timely petition, request the agency having jurisdiction of the dispute to invalidate the subpoena or order on the ground that it was not lawfully issued, is unreasonably broad in scope, or requires the production of irrelevant material, but the decision of the agency on any such request shall not be proposed agency action governed by s. 120.57.

(3) An agency may seek enforcement of a subpoena or order directing discovery issued under the authority of this act by filing a petition for enforcement, pursuant to s. 120.69, in the circuit court of the judicial circuit wherein the person failing to comply with the subpoena or order resides. A failure to com-

ply with an order of the court shall result in a finding of contempt of court. However, no person shall be in contempt while the subpoena or order is being challenged under subsection (2). In the absence of agency action on the default within 30 days, the party requesting the subpoena or order may bring proceedings in an appropriate court for enforcement of the subpoena or order, and a failure to comply with an order of the court shall result in a finding of contempt of court.

History.—s. 1, ch. 74-310; s. 8, ch. 75-191; s. 9, ch. 76-131; s. 7, ch. 78-425.

120.59 Orders.—

(1) The final order in a proceeding which affects substantial interests shall be in writing or stated in the record and include findings of fact and conclusions of law separately stated, and it shall be rendered within 90 days:

(a) After the hearing is concluded, if conducted by the agency,

(b) After a recommended order is submitted to the agency and mailed to all parties, if the hearing is conducted by a hearing officer, or

(c) After the agency has received the written and oral material it has authorized to be submitted, if there has been no hearing.

The 90-day period may be waived or extended with the consent of all parties.

(2) Findings of fact, if set forth in a manner which is no more than mere tracking of the statutory language, shall be accompanied by a concise and explicit statement of the underlying facts of record which support the findings. If, in accordance with agency rules, a party submitted proposed findings of fact or filed any written application or other request in connection with the proceeding, the order shall include a ruling upon each proposed finding and a brief statement of the grounds for denying the application or request.

(3) If an agency head finds that an immediate danger to the public health, safety, or welfare requires an immediate final order, it shall recite with particularity the facts underlying such finding in the final order, which shall be appealable or enjoinable from the date rendered.

(4) Parties shall be notified either personally or by mail of any order, and, unless waived, a copy of the final order shall be delivered or mailed to each party or to his attorney of record.

History.—s. 1, ch. 74-310; s.1, ch. 77-174.

120.60 Licensing.—

(1) Unless otherwise provided by statute enacted subsequent to the effective date of this act, licensing is subject to the provisions of s. 120.57.

(2) When an application for a license is made as required by law, the agency shall conduct the proceedings required with reasonable dispatch and with due regard to the rights and privileges of all affected parties or aggrieved persons. Within 30 days after receipt of an application for a license, the agency shall examine the application, notify the applicant of any apparent errors or omissions, and request any additional information the agency is permitted by law to require. Failure to correct an error or omission or to supply additional information shall not be

grounds for denial of the license unless the agency timely notified the applicant within this 30-day period. The agency shall notify the applicant if the activity for which he seeks a license is exempt from the licensing requirement and return any tendered application fee within 30 days after receipt of the original application or within 10 days after receipt of the timely requested additional information or correction of errors or omissions. Every application for license shall be approved or denied within 90 days after receipt of the original application or receipt of the timely requested additional information or correction of errors or omissions unless a shorter period of time for agency action is provided by law. The 90-day or shorter time period shall be tolled by the initiation of a proceeding under s. 120.57 and shall resume 10 days after the recommended order is submitted to the agency and the parties. Any application for a license not approved or denied within the 90-day or shorter time period, within 15 days after conclusion of a public hearing held on the application, or within 45 days after the recommended order is submitted to the agency and the parties, whichever is latest, shall be deemed approved and, subject to the satisfactory completion of an examination, if required as a prerequisite to licensure, the license shall be issued. The Public Service Commission, when issuing a license, and any other agency, if specifically exempted by law, shall be exempt from the time limitations within this subsection. Each agency, upon issuing or denying a license, shall state with particularity the grounds or basis for the issuance or denial of same, except where issuance is a ministerial act. On denial of a license application on which there has been no hearing, the denying agency shall inform the applicant of any right to a hearing pursuant to s. 120.57.

(3) The provisions of subsection (2) notwithstanding, every application for a certificate of authority as required by s. 624.401 shall be approved or denied within 180 days after receipt of the original application. Any application for such a certificate of authority not approved or denied within the 180-day period, or within 30 days after conclusion of a public hearing held on the application, shall be deemed approved, subject to the satisfactory completion of conditions required by statute as a prerequisite to license.

(4) In proceedings for the issuance, denial, renewal, or amendment of a license or approval of a merger pursuant to title XXXVII or title XXXVIII:

(a)1. The Department of Banking and Finance shall have published in the Florida Administrative Weekly notice of the application within 21 days of receipt.

2. Within 21 days of publication of notice, any person may request a hearing, which upon request shall be conducted pursuant to s. 120.57 except that the Department of Banking and Finance shall by rule provide for participation by the general public; however, failure to request a hearing within 21 days of publication of notice shall constitute waiver of any right to a hearing.

(b) Should a hearing be requested pursuant to subparagraph 2. of paragraph (a), the applicant or licensee shall publish at his own cost a notice of the

hearing in a newspaper of general circulation in the area affected by the application. The Department of Banking and Finance may by rule specify the format and size of such notice.

(c) Notwithstanding subsection (2), every application for license for a new bank, new trust company, new credit union, or new savings and loan association, and every application for acquisition of majority control of a bank, trust company, or savings and loan association involving a foreign national, shall be approved or denied within 180 days after receipt of the original application or receipt of the timely requested additional information or correction of errors or omissions. Any application for such a license or for acquisition of such control not approved or denied within the 180-day period or within 30 days after conclusion of a public hearing on the application, whichever is the latest, shall be deemed approved subject to the satisfactory completion of conditions required by statute as a prerequisite to license and approval of insurance of accounts for a new bank, a new savings and loan association, or a new credit union by the appropriate insurer.

(5) When a licensee has made timely and sufficient application for the renewal of a license which does not automatically expire by statute, the existing license shall not expire until the application has been finally acted upon by the agency or, in case the application is denied or the terms of the license limited, until the last day for seeking review of the agency order or a later date fixed by order of the reviewing court.

(6) No revocation, suspension, annulment, or withdrawal of any license is lawful unless, prior to the institution of agency proceedings, the agency has given reasonable notice by certified mail or actual service to the licensee of facts or conduct which warrant the intended action and the licensee has been given an opportunity to show that he has complied with all lawful requirements for the retention of the license. If the agency is unable to obtain service by certified mail or by actual service, constructive service may be made in the same manner as is provided in chapter 49.

(7) If the agency finds that immediate serious danger to the public health, safety, or welfare requires emergency suspension, restriction, or limitation of a license, it shall show compliance in its order with the requirements imposed by s. 120.54(9) on agencies making emergency rules. Summary suspension, restriction, or limitation may be ordered, but a formal suspension or revocation proceeding under this section shall also be promptly instituted and acted upon.

(8) If the Administration Commission grants an exemption from any provision of this section as provided in s. 120.63, the exemption shall be for a single application only and shall not be renewable.

(9) This section shall not apply to certification of employee organizations pursuant to s. 447.307.

120.61 Official recognition.—When official recognition is requested, the parties shall be notified

and given an opportunity to examine and contest the material.

History.—s. 1, ch. 74-310.

120.62 Agency investigations.—

(1) No process, requirement of a report, inspection, or other investigative act or demand shall be issued, made, or enforced in any manner or for any purpose except as authorized by law. Every person who responds to a request or demand by any agency or representative thereof for written data or an oral statement shall be entitled to a transcript of his oral statement at no more than cost.

(2) Any person compelled to appear, or who appears voluntarily, before any hearing officer or agency in an investigation or in any agency proceeding has the right, at his own expense, to be accompanied, represented, and advised by counsel or by other qualified representatives.

History.—s. 1, ch. 74-310.

120.63 Exemption from act; Division of Pari-mutuel Wagering.—

(1) Upon application of any agency, the Administration Commission may exempt any process or proceeding governed by this act from one or more requirements of this act:

(a) When the agency head has certified that the requirement would conflict with any provision of federal law or rules with which the agency must comply;

(b) In order to permit persons in the state to receive tax benefits or federal funds under any federal law; or

(c) When the commission has found that conformity with the requirements of the part or parts of this act for which exemption is sought would be so inconvenient or impractical as to defeat the purpose of the agency proceeding involved or the purpose of this act and would not be in the public interest in light of the nature of the intended action and the enabling act or other laws affecting the agency.

(2) The commission may not exempt an agency from any requirement of this act pursuant to this section until it establishes alternative procedures to achieve the agency's purpose which shall be consistent, insofar as possible, with the intent and purpose of the act.

¹(a) Prior to the granting of any exemption authorized by this section, the commission shall hold a public hearing after notice given as provided in subsection 120.54(1). Upon the conclusion of the hearing, the commission, through the Executive Office of the Governor, shall issue an order specifically granting or denying the exemption and specifying any processes or proceedings exempted and the extent of the exemption; transmit to the committee and to the Department of State a copy of the petition, a certified copy of the order granting or denying the petition, and a copy of any alternative procedures prescribed; and give notice of the petition and the commission's response in the Florida Administrative Weekly.

(b) An exemption and any alternative procedure prescribed shall terminate 90 days following adjournment sine die of the then-current or next regular legislative session after issuance of the exemp-

tion order, or upon the effective date of any subsequent legislation incorporating the exemption or any partial exemption related thereto, whichever is earlier. The exemption granted by the commission shall be renewable upon the same or similar facts not more than once. Such renewal shall terminate as would an original exemption.

¹**Note.**—Senate Amendment 21 to C.S. for H.B.'s 1604 and 1649 purported to amend this paragraph in its entirety, but actually republished only a portion thereof. The entire paragraph is set out here in the belief that the legislative intent was not to repeal the omitted portion, which begins after the word "specifying." See 1979 Senate Journal, pp. 859, 860.

120.633 Division of Pari-mutuel Wagering; partial exemption from hearing and notice requirements.—The Division of Pari-mutuel Wagering is exempted from the hearing and notice requirements of s. 120.57(1)(a) and (b), but only for stewards, judges, and boards of judges when the hearing is to be held for the purpose of the imposition of fines or suspensions as provided by rules of the Division of Pari-mutuel Wagering, but not for revocations, and only upon violations (1) through (6) below. The Division of Pari-mutuel Wagering shall adopt rules establishing alternative procedures, including a hearing upon reasonable notice, for the following violations:

(1) Horse riding, harness riding, greyhound interference, and jai alai game actions in violation of chapters 550 and 551.

(2) Application and usage of drugs and medication to horses, greyhounds, and jai alai players in violation of chapters 550 and 551.

(3) Maintaining or possessing any device which could be used for the injection or other infusion of a prohibited drug to horses, greyhounds, and jai alai players in violation of chapters 550 and 551.

(4) Suspensions under reciprocity agreements between the Division of Pari-mutuel Wagering and regulatory agencies of other states.

(5) Assault or other crimes of violence on premises licensed for pari-mutuel wagering.

(6) Prearranging the outcome of any race or game.

120.65 Hearing officers.—

(1) There is hereby created the Division of Administrative Hearings within the Department of Administration, to be headed by a director who shall be appointed by the Administration Commission and confirmed by the Senate. The division shall be exempt from the provisions of chapter 216. The Department of Administration shall provide administrative support and service to the division. The division shall not be subject to control, supervision, or direction by the Department of Administration.

(2) The division shall employ full-time hearing officers to conduct hearings required by this chapter or other law. No person may be employed by the division as a full-time hearing officer unless he has been a member of The Florida Bar in good standing for the preceding 5 years.

(3) If the division cannot furnish a division hearing officer promptly in response to an agency request, the director shall designate in writing a quali-

fied full-time employee of an agency other than the requesting agency to conduct the hearing. The director shall have the discretion to designate a hearing officer who is a qualified full-time employee of an agency other than the requesting agency which is located in that part of the state where the parties and witnesses reside.

(4) The director shall have the discretion to designate qualified laypersons to conduct hearings. If a layperson is so designated, the director shall assign a hearing officer to assist in the conduct of the hearing and to rule upon proffers of proof, questions of evidence, disposition of procedural requests, and similar matters.

(5) By rule, the division may establish:

(a) Further qualifications for hearing officers and shall establish procedures by which candidates will be considered for employment or contract.

(b) The manner in which public notice will be given of vacancies in the staff of hearing officers.

(c) Procedures for the assignment of hearing officers.

(6) The division is authorized to provide hearing officers on a contract basis to any governmental entity to conduct any hearing not covered by this section.

(7) The division shall have the authority to adopt reasonable rules to carry out the provisions of this act.

120.66 Ex parte communications.—

(1) In any proceeding under s. 120.57, no ex parte communication relative to the merits, threat, or offer of reward shall be made to the agency head, after the agency head has received a recommended order, or to the hearing officer by:

(a) An agency head or member of the agency or any other public employee or official engaged in prosecution or advocacy in connection with the matter under consideration or a factually related matter.

(b) A party to the proceeding or any person who, directly or indirectly, would have a substantial interest in the proposed agency action, or his authorized representative or counsel.

Nothing in this subsection shall apply to advisory staff members who do not testify on behalf of the agency in the proceeding or to any rulemaking proceedings under s. 120.54.

(2) A hearing officer who is involved in the decisional process and who receives an ex parte communication in violation of subsection (1) shall place on the record of the pending matter all written communications received, all written responses to such communications, and a memorandum stating the substance of all oral communications received and all oral responses made, and shall also advise all parties that such matters have been placed on the record. Any party desiring to rebut the ex parte communication shall be allowed to do so, if such party requests the opportunity for rebuttal within 10 days after notice of such communication. The hearing officer may, if he deems it necessary to eliminate the effect of an ex parte communication received by him, withdraw from the proceeding, in which case the

division shall assign a successor.

(3) Any person who makes an ex parte communication prohibited by subsection (1), and any hearing officer who fails to place in the record any such communication, is in violation of this act and may be assessed a civil penalty not to exceed \$500 or be subjected to such other disciplinary action as his superiors may determine.

History.—s. 1, ch. 74-310; s. 10, ch. 75-191; s. 12, ch. 76-131; s. 1, ch. 77-174; s. 10, ch. 78-425.

120.68 Judicial review.—

(1) A party who is adversely affected by final agency action is entitled to judicial review. For purposes of this section, a district school board, whose decision is reviewed under the provisions of s. 231.36 and whose final action is modified by a superior administrative decision, shall be a party entitled to judicial review of the final action. A preliminary, procedural, or intermediate agency action or ruling is immediately reviewable if review of the final agency decision would not provide an adequate remedy.

(2) Except in matters for which judicial review by the supreme court is provided by law, all proceedings for review shall be instituted by filing a petition in the district court of appeal in the appellate district where the agency maintains its headquarters or where a party resides. Review proceedings shall be conducted in accordance with the Florida Appellate Rules.

(3) The filing of the petition does not itself stay enforcement of the agency decision, but if the agency decision has the effect of suspending or revoking a license, supersedeas shall be granted as a matter of right upon such conditions as are reasonable, unless the court, upon petition of the agency, determines that a supersedeas would constitute a probable danger to the health, safety, or welfare of the state. The agency may also grant a stay upon appropriate terms, but, whether or not the action has the effect of suspending or revoking a license, a petition to the agency for a stay shall not be a prerequisite to a petition to the court for supersedeas. In any event, the order shall specify the conditions, if any, upon which the stay or supersedeas is granted.

(4) Judicial review of any agency action shall be confined to the record transmitted and any additions made thereto in accordance with subsection (6).

(5) The record for judicial review shall consist of the following:

(a) The agency's written document expressing the order, the statement of reasons therefor, if issued, and the record under s. 120.57, if review of proceedings under that section is sought.

(b) The agency's written document expressing the action, the statement of reasons therefor, if issued, and the materials considered by the agency under s. 120.54, if review is sought of proceedings under that section.

(c) The agency's written document expressing the action, and other written documents identified by the agency as having been considered by it before its action and used as a basis for its action, if review is sought of proceedings under s. 120.56 or s. 120.565 or if there has been no proceeding under s. 120.54 or s. 120.57.

(6) When there has been no hearing prior to

agency action and the reviewing court finds that the validity of the action depends upon disputed facts, the court shall order the agency to conduct a prompt, factfinding proceeding under this act after having a reasonable opportunity to reconsider its determination on the record of the proceedings.

(7) The reviewing court shall deal separately with disputed issues of agency procedure, interpretations of law, determinations of fact, or policy within the agency's exercise of delegated discretion.

(8) The court shall remand the case for further agency action if it finds that either the fairness of the proceedings or the correctness of the action may have been impaired by a material error in procedure or a failure to follow prescribed procedure. Failure of any agency to comply with s. 120.53 shall be presumed to be a material error in procedure.

(9) If the court finds that the agency has erroneously interpreted a provision of law and that a correct interpretation compels a particular action, it shall:

(a) Set aside or modify the agency action, or

(b) Remand the case to the agency for further action under a correct interpretation of the provision of law.

(10) If the agency's action depends on any fact found by the agency in a proceeding meeting the requirements of s. 120.57 of the act, the court shall not substitute its judgment for that of the agency as to the weight of the evidence on any disputed finding of fact. The court shall, however, set aside agency action or remand the case to the agency if it finds that the agency's action depends on any finding of fact that is not supported by competent substantial evidence in the record.

(11) If the agency's action depends on facts determined pursuant to subsection (6), the court shall set aside, modify, or order agency action if the facts compel a particular action as a matter of law, or it may remand the case to the agency for further examination and action within the agency's responsibility.

(12) The court shall remand the case to the agency if it finds the agency's exercise of discretion to be:

(a) Outside the range of discretion delegated to the agency by law;

(b) Inconsistent with an agency rule, an officially stated agency policy, or a prior agency practice, if deviation therefrom is not explained by the agency; or

(c) Otherwise in violation of a constitutional or statutory provision;

but the court shall not substitute its judgment for that of the agency on an issue of discretion.

(13)(a) The reviewing court's decision may be mandatory, prohibitory, or declaratory in form, and it shall provide whatever relief is appropriate irrespective of the original form of the petition. The court may:

1. Order agency action required by law, order agency exercise of discretion when required by law, set aside agency action, remand the case for further agency proceedings, or decide the rights, privileges, obligations, requirements, or procedures at issue between the parties, and

2. Order such ancillary relief as the court finds

necessary to redress the effects of official action wrongfully taken or withheld.

(b) If the court sets aside agency action or remands the case to the agency for further proceedings, it may make such interlocutory order as the court finds necessary to preserve the interests of any party and the public pending further proceedings or agency action.

(14) Unless the court finds a ground for setting aside, modifying, remanding, or ordering agency action or ancillary relief under a specified provision of this section, it shall affirm the agency's action.

History.—s. 1, ch. 74-310; s. 13, ch. 76-131; s. 38, ch. 77-104; s. 1, ch. 77-174; s. 11, ch. 78-425.

120.69 Enforcement of agency action.—

(1) Except as otherwise provided by statute:

(a) Any agency may seek enforcement of an action by filing a petition for enforcement, as provided in this section, in the circuit court where the subject matter of the enforcement is located.

(b) A petition for enforcement of any agency action may be filed by any substantially interested person who is a resident of the state. However, no such action may be commenced:

1. Prior to 60 days after the petitioner has given notice of the violation of the agency action to the head of the agency concerned, the attorney general, and any alleged violator of the agency action.

2. If an agency has filed, and is diligently prosecuting, a petition for enforcement.

(c) A petition for enforcement filed by a nongovernmental person shall be in the name of the State of Florida on the relation of the petitioner, and the doctrines of res judicata and collateral estoppel shall apply.

(d) In an action brought under paragraph (b), the agency whose action is sought to be enforced, if not a party, may intervene as a matter of right.

(2) A petition for enforcement may request declaratory relief; temporary or permanent equitable relief; any fine, forfeiture, penalty, or other remedy provided by statute; any combination of the foregoing; or, in the absence of any other specific statutory authority, a fine not to exceed \$1,000.

(3) After the court has rendered judgment on a petition for enforcement, no other petition shall be filed or adjudicated against the same agency action, on the basis of the same transaction or occurrence, unless expressly authorized on remand. The doctrines of res judicata and collateral estoppel shall apply, and the court shall make such orders as are necessary to avoid multiplicity of actions.

(4) In all enforcement proceedings:

(a) If enforcement depends on any facts other than those appearing in the record, the court may ascertain such facts under procedures set forth in subsection 120.68(6).

(b) If one or more petitions for enforcement and a petition for review involving the same agency action are pending at the same time, the court considering the review petition may order all such actions transferred to and consolidated in one court. Each party shall be under an affirmative duty to notify the court when it becomes aware of multiple proceedings.

(c) Should any party willfully fail to comply with

an order of the court, the court shall punish him in accordance with the law applicable to contempt committed by a person in the trial of any other action.

(5) In any enforcement proceeding the respondent may assert as a defense the invalidity of any relevant statute, the inapplicability of the administrative determination to respondent, compliance by the respondent, the inappropriateness of the remedy sought by the agency, or any combination of the foregoing. In addition, if the petition for enforcement is filed during the time within which the respondent could petition for judicial review of the agency action, the respondent may assert the invalidity of the agency action.

(6) Notwithstanding any other provision of this section, upon receipt of evidence that an alleged violation of an agency's action presents an imminent and substantial threat to the public health, safety, or welfare, the agency may bring suit for immediate temporary relief in an appropriate circuit court, and the granting of such temporary relief shall not have res judicata or collateral estoppel effect as to further relief sought under a petition for enforcement relating to the same violation.

(7) In any final order on a petition for enforcement the court may award to the prevailing party all or part of the costs of litigation and reasonable attorney's fees and expert witness fees, whenever the court determines that such an award is appropriate.

History.—s. 1, ch. 74-310.

120.70 Annual report.—Not later than February 1 of each year, the division shall issue a written report to the Administrative Procedures Committee and the Administration Commission, including at least the following information:

(1) A summary of the extent and effect of agencies' utilization of hearing officers, court reporters, and other personnel in proceedings under this act.

(2) Recommendations for change or improvement in the Administrative Procedure Act or any agency's practice or policy with respect thereto.

History.—s. 1, ch. 74-310.

120.71 Disqualification of agency personnel.—

(1) Notwithstanding the provisions of s. 112.3143, any individual serving alone or with others as an agency head shall be disqualified from serving in an agency proceeding for bias, prejudice, interest, or other causes for which a judge may be recused. If the disqualified individual holds his position by appointment, the appointing power may appoint a substitute to serve in the matter from which the individual is disqualified. If the individual is an elected official, the Governor may appoint a substitute to serve in the matter from which the individual is disqualified.

(2) Any agency action taken by a duly appointed substitute for a disqualified individual shall be as conclusive and effective as if agency action had been taken by the agency as it was constituted prior to any substitution.

History.—s. 1, ch. 74-310; s. 12, ch. 78-425.

120.72 Legislative intent; prior proceedings and rules; exception.—

(1)(a) The intent of the Legislature in enacting this complete revision of chapter 120 is to make uniform the rulemaking and adjudicative procedures used by the administrative agencies of this state. To that end, it is the express intent of the Legislature that chapter 120 shall supersede all other provisions in the Florida Statutes, 1977, relating to rulemaking, agency orders, administrative adjudication, licensing procedure, or judicial review or enforcement of administrative action for agencies as defined herein to the extent such provisions conflict with chapter 120, unless expressly provided otherwise by law subsequent to January 1, 1975, except for marketing orders adopted pursuant to chapters 573 and 601.

(b) Unless expressly provided otherwise, a reference in any section of the Florida Statutes to chapter 120 or to any section or sections or portion of a section of chapter 120 shall hereby include, and shall be understood as including, all subsequent amendments to chapter 120 or to the referenced section or sections or portions of a section.

(2) All administrative adjudicative proceedings conducted pursuant to any provision of the Florida Statutes which were begun prior to January 1, 1975, shall be continued to a conclusion, including judicial review, under the provisions of the Florida Statutes, 1973, except that administrative adjudicatory proceedings which have not progressed to the stage of a hearing may, with the consent of all parties and the agency conducting the proceeding, be conducted in accordance with the provisions of this act as nearly as is feasible.

(3) Notwithstanding any provision of this chapter, all public utilities and companies regulated by the Public Service Commission shall be entitled to proceed under the interim rate provisions of chapter 364 or the procedures for interim rates contained in chapter 74-195, Laws of Florida, or as otherwise provided by law.

(4)(a) All prior rules not adopted following a public hearing as provided by statute shall be void and unenforceable after October 1, 1975, and shall be stricken from the files of the Department of State and from the files of the adopting agency.

(b) Any rule in effect on, or filed with the Department of State prior to, January 1, 1975, except one adopted following a public hearing as provided by statute, shall be forthwith reviewed by the agency concerned on the written request of a person substantially affected by the rule involved and this provision. The agency concerned shall initiate the rulemaking procedures provided by this act within 90 days after receiving such written request. If the agency concerned fails to initiate the rulemaking procedures within 90 days, the operation of the rule shall be suspended. This provision shall control s. 120.54(5).

(c) All existing rules shall be indexed by January 1, 1975.

History.—s. 3, ch. 74-310; s. 1, ch. 76-207; s. 1, ch. 77-174; s. 57, ch. 78-95; s.

13, ch. 78-425.

120.721 Effect of chapter 75-22, Laws of Florida, on rules.—Any rule or regulation of a public agency involved in or affected by the reorganization of the executive agencies as set forth in chapter 75-22, Laws of Florida, which was valid when adopted under the authority granted by the Legislature to adopt such rule, to the extent it is not inconsistent with chapter 75-22, Laws of Florida, shall remain in effect until it expires by its terms or is specifically repealed or revised as provided by law.

History.—s. 23, ch. 75-22.

120.722 Legislative intent of chapter 78-95, Laws of Florida.—

(1) The primary purpose of chapter 78-95, Laws of Florida, is to repeal or amend various provisions of the Florida Statutes containing procedural language superseded or made redundant by chapter 120 (the Administrative Procedure Act). Chapter 78-95 is designed to place the provisions affected into conformity with chapter 120, except where expressly noted to the contrary.

(2) Any section or subunit of a section repealed by an act of any session shall remain repealed despite any amendment in chapter 78-95. Any act of

the 1978 legislative session, other than one resulting from a reviser's bill, that amends any provision affected by chapter 78-95 shall supersede chapter 78-95 to the extent that such amendment conflicts with chapter 78-95.

(3) Deletions of references to chapter 120 in chapter 78-95 do not imply that chapter 120 is not applicable; except where expressly noted otherwise, references to chapter 120 are deleted as unnecessary and repetitious.

(4) Failure of chapter 78-95 to amend or repeal any provision in the Florida Statutes does not imply that that provision is not in conflict with, superseded by, or unnecessary in light of chapter 120.

History.—s. 1, ch. 78-95.

120.73 Circuit court proceedings; declaratory judgments.—Nothing in this chapter shall be construed to repeal any provision of the Florida Statutes which grants the right to a proceeding in the circuit court in lieu of an administrative hearing or to divest the circuit courts of jurisdiction to render declaratory judgments under the provisions of chapter 86.

121.011 Florida Retirement System.—

(1) **SHORT TITLE.**—This chapter shall be known and cited as the "Florida Retirement System Act."

(2) CONSOLIDATION OF EXISTING SYSTEMS AND LAWS.—

(a) Any officer or employee who is elected, appointed, or employed by the state or any subdivision thereof on or after December 1, 1970, shall not be eligible for membership, rights, or any privileges under chapters 122 (State and County Officers and Employees' Retirement System) and 238 (retirement system for school teachers) and those sections of chapter 321 pertaining to highway patrol pensions and pension trust fund.

(b) The chapters or retirement system laws named in paragraph (a) are hereby consolidated as separate instruments appended to the "Florida Retirement System Act" established by this chapter, and the administration of said chapters or retirement systems shall be consolidated with the administration of the Florida Retirement System established by this chapter.

(3) PRESERVATION OF RIGHTS.—

(a) The rights of members of the retirement systems established by chapters 122, 238, and 321 shall not be impaired, nor shall their benefits be reduced by virtue of any part of this chapter, except that if an eligible member of a retirement system established by chapters 122, 238, or 321, elects between April 15, 1971 and June 1, 1971, inclusive, to transfer to the Florida Retirement System, he shall be transferred to the Florida Retirement System on June 1, 1971 and shall be subject to the provisions of the Florida Retirement System established by this chapter and at retirement have his benefits calculated in accordance with the provisions of s. 121.091.

(b) The rights of members of any retirement system established by local or special act or municipal ordinance shall not be impaired, nor shall their benefits be reduced by virtue of any part of this chapter, except that if an eligible member of any such retirement system elects to transfer to the Florida Retirement System in a referendum held in accordance with this chapter by the governing body administering such local retirement system, he shall be transferred to the Florida Retirement System on the date that his unit is accepted for membership therein and shall be subject to the provisions of the Florida Retirement System established by this chapter and at retirement have his benefits calculated in accordance with the provisions of s. 121.091. However, the governing body shall vest the rights of employees of any existing local retirement system not electing to transfer to the Florida Retirement System. However, when any county, now or hereafter authorized by law to take over and perform the functions of a municipality, exercises such power and takes over functions heretofore performed by a municipality, and as a result thereof municipal employees become county

employees and are paid salaries from county funds, such employees who are members, and elect to continue to be members, of a municipal retirement system shall not be eligible to participate in the Florida Retirement System unless said municipality elects to bring its employees under the Florida Retirement System. Such employees whose pension or retirement rights are otherwise preserved, who by merger, transfer, or assignment of governmental units or functions become county employees, shall not lose their municipal pension or retirement rights or any reserves accrued to their benefit during their period of employment with a municipality, and the county is authorized to pay into such municipal retirement system during the period that such employees remain as county employees the sums of money previously paid by the municipality for the benefits of such employees and may make appropriate deductions from the employees' salaries to preserve their retirement benefits. However, such employees shall not have their pension contribution increased above the percentage previously being deducted by the municipality on behalf of such employees at the time they became county employees.

(c) Any member of the Supreme Court Justices, District Courts of Appeal Judges, and Circuit Judges' Retirement System, chapter 123, who terminates his service as a justice or judge and accepts employment covered under this chapter and elects to transfer to the Florida Retirement System rather than retain his vested rights under chapter 123 may transfer to the Florida Retirement System. All contributions of such member, including matching contributions, shall be transferred from the judicial retirement trust fund to the system trust fund, and his normal retirement benefit shall conform with s. 121.091 from November 30, 1970, or from date of transfer thereafter. Any justice or judge electing to transfer to the Florida Retirement System pursuant to the provisions of this paragraph may, at any time prior to retirement, pay for and receive credit for any service performed in any position covered by the existing systems as defined in this chapter for which he has not already received credit. The amount of such payments and the credit received for such service shall be the same as required for a member to obtain credit for prior service pursuant to s. 8(2), chapter 70-112, Laws of Florida, appearing as s. 121.081(2). Any justice or judge who elects to transfer to the Florida Retirement System as provided herein and who retires under the provisions of this chapter shall be eligible for judicial service pursuant to the applicable provisions of law if he has had no less than 5 years of judicial service at the time of his retirement.

(d) The rights of members of the retirement system established by this chapter shall not be impaired by virtue of the conversion of the Florida Retirement System to an employee noncontributory system. As of July 1, 1974, the rights of members of the retirement system established by this chapter are declared to be of a contractual nature, entered into between the member and the state, and such rights shall be legally enforceable as valid contract rights and shall not be abridged in any way.

(e) Any member of the Florida Retirement Sys-

tem or any member of an existing system under chapter 121 on July 1, 1975, who is not retired and who is, has been, or shall be, suspended and reinstated without compensation shall receive retirement service credit for the period of time from his date of suspension to his date of reinstatement, upon the member paying into the Retirement System Trust Fund the total cost of providing said retirement credit. The cost to the member shall be the total employer contributions plus the total employee contributions, if applicable, paid to the Retirement Trust Fund for the pay period immediately preceding the period of suspension, prorated for the said period of suspension, plus interest thereon at a rate of 4 percent per annum compounded annually until July 1, 1975, and 6.5 percent interest thereafter until paid. If permitted by federal law, the member may pay into the Social Security Trust Fund the total cost, if any, of providing social security coverage for the period of suspension if any social security payments have been made by the employer for the benefit of the member during such period. Should there be any conflict as to payment for social security coverage, the payment for retirement service credit shall be made and retirement service credit granted regardless of such conflict.

(f) The rights under an existing system of any former member of such system who has become a member of the Florida Retirement System, either by affirmative choice during any transfer period or by operation of the compulsory participation provisions of s. 121.051(1), are limited to those rights that existed and were exercised in such system at the time participation in the system ceased. The rights of such member after transfer shall be subject to the provisions of the Florida Retirement System established by this chapter, and at retirement the member shall have his benefit calculated in accordance with s. 121.091. The provisions of this paragraph are declaratory of the legislative intent upon the original enactment of this chapter and are hereby deemed to have been in effect from such date.

(17) "Creditable service" of any member means the sum of his past service, prior service, military service, workers' compensation credit, and future service allowed within the provisions of this chapter if all required contributions have been paid and all other requirements of this chapter have been met. However, in no case shall a member receive credit for more than a year's service during any 12-month period. Service as applied to a teacher or a nonacademic employee of a school board shall be based on contract years of employment or school term years of employment, as provided in chapters 122 and 238, rather than 12-month periods of employment.

(c) Service as described in paragraph (b) for which no contributions were made due to the fact that the employee made a written rejection of the Florida Retirement System. If such person withdraws his rejection he may purchase retirement credit for all his service during the period of rejection, provided such service would have otherwise been creditable under the Florida Retirement Sys-

tem. Any governmental entity may contribute up to 50 percent of the amount required to purchase any prior service under (b) and (c).

(20) "Military service" of any member means actual "wartime service" in the Armed Forces of the United States, as defined by the Veterans' Administration, or "wartime service" in the Allied Forces, not to exceed 4 years, if credit for such service has not been granted under any other federal or state system, and provided such service is not used in any other retirement system, as provided in s. 121.111.

For disability benefits, "average final compensation" means the average annual compensation of the total number of years of creditable service, not to exceed 5 if less than 10 years of creditable service have been completed. However, a member of the Legislature may use the average of the 5 years of highest compensation out of the last 10 years of creditable service prior to becoming a member of the Legislature. Each year used in the calculation of average final compensation shall commence on an annual calendar anniversary of the date of determination of such average final compensation. 2. Completes 25 continuous years of creditable service, regardless of age; or

3. Completes 25 years of creditable service, which may include a maximum of 4 years of military service credit, and attains age 52.

"Normal retirement age" is attained on the "normal retirement date."

(30) "Early retirement date" means the first day of the month following the date a member completes 10 years of creditable service and elects to receive retirement benefits in accordance with this chapter. Such benefits shall be based on average monthly compensation and creditable service as of the member's early retirement date, and the benefit so computed shall be reduced by five-twelfths of 1 percent for each complete month by which the early retirement date precedes his normal retirement date as provided in s. 121.091(3).

(31) "Actuarial equivalent" means a benefit of equal value when computed at regular interest upon the basis of the mortality tables adopted by the administrator.

(38) "Continuous service" means creditable service as a member, beginning with the first day of employment with an employer covered under a state-administered retirement system consolidated herein and continuing for as long as the member remains in an employer-employee relationship with an employer covered under this chapter. An absence of 1 calendar month or more from an employer's payroll shall be considered a break in continuous service, except for periods of absence during which an employer-employee relationship continues to exist and such period of absence is creditable under this chapter or under one of the existing systems consolidated herein. A withdrawal of contributions will constitute a break in service. Continuous service shall also include past service purchased under this chapter, provided such service is continuous within this definition and the rules established by the administrator. The administrator may establish administrative rules and procedures for applying this definition to creditable service authorized under this chapter.

121.046 Merger of the Judicial Retirement System into the Florida Retirement System Act.—

(1) Any person who is elected or appointed to office in this state as Supreme Court Justice, District Court of Appeal Judge, or Circuit Judge on or after July 1, 1972 shall not be eligible for membership, rights, or any privileges under chapter 123, the Judicial Retirement System, unless such justice or judge is already a member of said retirement system when elected or appointed to such office.

(2) Chapter 123, the Judicial Retirement System, is hereby merged as a separate instrument appended to chapter 121, the "Florida Retirement System Act," and the administration of said chapter 123, the Judicial Retirement System, shall be merged into the administration of the Florida Retirement System.

(3) The rights of members of the Judicial Retirement System established by chapter 123 shall not be impaired, nor shall their benefits be reduced, by virtue of any provision of this act or any provision of the Florida Retirement System Act, except that if a member of the Judicial Retirement System, otherwise eligible, elects, prior to June 30, 1973, to transfer to the Florida Retirement System, he shall be transferred to the Florida Retirement System and, from the date his transfer becomes effective, shall be subject to the provisions of the Florida Retirement System established by chapter 121, together with any relevant provisions of this act and shall have his benefits calculated accordingly.

(4) Any member of the Judicial Retirement System who elects to transfer to the Florida Retirement System, and every Supreme Court Justice, District Court of Appeal Judge, or Circuit Judge who is elected or appointed to judicial office on or after July 1, 1972 who is not already a member of the Judicial Retirement System when elected or appointed to such office, shall be subject to the provisions of chap-

121.051 Participation in the system.—

(1) COMPULSORY PARTICIPATION.—

(a) The provisions of this law shall be compulsory as to all officers and employees, except legislators who meet the requirements of s. 121.052(1)(c), who are employed on or after December 1, 1970, of an employer other than those referred to in paragraph (2)(b), and each officer or employee, as a condition of employment, shall become a member of the system as of his date of employment, except that a person who is retired from any state retirement system and is reemployed on or after December 1, 1970, shall not be permitted to renew his membership in any state retirement system except as provided in s. 121.091(4)(e), for a person who recovers from disability, and s. 121.091(9)(d), for a person who is elected to public office. Officers and employees of the University Athletic Association, Inc., a nonprofit association connected with the University of Florida, employed on and after July 1, 1979, shall not participate in any state-supported retirement system.

(b) After June 30, 1978, the compulsory participation provisions of paragraph (a) shall not be construed to require participation in the Florida Retirement System by a member of an existing system who is reemployed after terminating his employment, or who otherwise interrupts his employment under an existing system, provided he leaves his accumulated contributions on deposit under the existing system. Such member shall continue to have membership in the existing system upon reemployment or resumption of employment and shall not be permitted to

become a member of the Florida Retirement System, except by transferring to the Florida Retirement System as authorized by paragraph (2)(a) or s. 121.052(1) or by being reemployed after terminating his employment and receiving a refund of his accumulated contributions made to the existing system.

(2) OPTIONAL PARTICIPATION.—

(a)1. Any officer or employee who is a member of an existing system, except any officer or employee of any nonprofit professional association or corporation, may elect, if eligible, to become a member of this system at any time between April 15, 1971, and June 1, 1971, inclusive, by notifying his employer in writing of his desire to transfer membership from the existing system to this system. Any officer or employee who was a member of an existing system on December 1, 1970, and who did not elect to become a member of this system shall continue to be covered under the existing system subject to the provisions of s. 121.045. A person who has retired under any state retirement system shall not be eligible to transfer to the Florida Retirement System created by this chapter subsequent to such retirement. Any officer or employee who, prior to July 1, 1947, filed a written rejection of membership in a state retirement system and who continues employment without participating in the Florida Retirement System may withdraw his rejection in writing and, if otherwise eligible, participate in the Florida Retirement System and purchase prior service in accordance with this chapter. Any former member of an existing system who was permitted to transfer to the Florida Retirement System while employed by the University Athletic Association, Inc., a nonprofit association connected with the University of Florida, during this or subsequent transfer periods, contrary to the provisions of this paragraph, is hereby confirmed as a member of the Florida Retirement System, the provisions of this paragraph to the contrary notwithstanding.

2. Any member transferring from the existing system under chapter 238 shall retain his rights to survivor benefits under said chapter through November 30, 1975, or until fully insured for disability benefits under social security, whichever is the earliest date, and thereafter no such rights shall exist.

3. Any officer or employee who is a member of an existing system on April 15, 1972, and who was eligible to transfer to this system under the provisions of subparagraph 1., but who elected to remain in the existing system, may elect, if eligible under the Social Security Act, 42 U.S.C. s. 418(d)(6)(F), to become a member of this system at any time between April 15, 1972, and June 30, 1972, inclusive, by notifying his employer in writing of his desire to transfer membership from an existing system to this system. Such transfer shall be subject to the following conditions:

a. All persons electing to transfer to the Florida Retirement System under this subparagraph shall be transferred on July 1, 1972, and shall thereafter be subject to the provisions of the Florida Retirement System retroactively to November 30, 1970, and at retirement have their benefits calculated in accordance with the provisions of s. 121.091.

b. Social security coverage incidental to such

elective membership in the Florida Retirement System shall be effective November 30, 1970, and all amounts required from a member for retroactive social security coverage shall, at the time such election is made, be deducted from the individual account of the member, and the difference between the amount remaining in the individual account of such member and the total amount which such member would have contributed had he become a member of the Florida Retirement System on November 30, 1970, shall be paid into the system trust fund and added to his individual account prior to July 1, 1975, or by his date of retirement, if earlier. Interest at the rate of 8 percent per annum, compounded annually until paid, shall be charged on any balance remaining unpaid on said date.

c. There is appropriated out of the system trust fund into the Social Security Contribution Trust Fund the amount required by federal laws and regulations to be contributed with respect to social security coverage for the years after November 30, 1970, of the members of an existing system who transfer to the Florida Retirement System in accordance with this subparagraph and who qualify for retroactive social security coverage. The amount paid from this appropriation with respect to the employees of any employer shall be charged to the employing agency. There shall be credited against this charge the difference between the matching contributions actually made for the affected employees from November 30, 1970, to June 30, 1972, and the amount of matching contributions that would have been required under the Florida Retirement System.

d. The net amounts charged the employing agencies for employees transferring to the Florida Retirement System under this subparagraph shall be paid to the system trust fund prior to July 1, 1975. Interest at the rate of 8 percent per annum, compounded annually until paid, shall be charged on any balance remaining unpaid on said date.

e. The administrator shall request such modification of the state's agreement with the Social Security Administration, or any referendum required under the Social Security Act governing social security coverage, as may be required to implement the provisions of this law. Retroactive social security coverage for service with an employer prior to November 30, 1970, shall not be provided for any member who was not covered under the agreement as of November 30, 1970.

4. Any officer or employee who was a member of an existing system on December 1, 1970, and who is still a member of an existing system, except any officer or employee of any nonprofit professional association or corporation, may elect, if eligible, to become a member of this system at any time between September 1, 1974, and November 30, 1974, inclusive, by notifying his employer in writing of his desire to transfer membership from the existing system to this system. This decision to transfer or not to transfer shall become irrevocable on November 30, 1974. All members electing to transfer during the transfer period shall become members of the Florida Retirement System on January 1, 1975, and shall be subject to the provisions of the Florida Retirement System on and after that date. Any officer or em-

ployee who was a member of an existing system on December 1, 1970, and who does not elect to become a member of this system shall continue to be covered under the existing system, subject to the provisions of s. 121.045. Any member transferring from the Teachers' Retirement System of Florida under chapter 238 to the Florida Retirement System on January 1, 1975, shall retain his rights to survivor benefits under chapter 238 from January 1, 1975, through December 31, 1979, or until fully insured for disability benefits under the Social Security Act, whichever is the earliest date, and thereafter no such rights shall exist.

5.a. Any officer or employee who was a member of an existing system on December 1, 1970, and who is still a member of an existing system, except any officer or employee of any nonprofit professional association or corporation, may elect, if eligible, to become a member of this system at any time between September 1, 1978, and November 30, 1978, inclusive, by notifying his employer in writing of his desire to transfer membership from the existing system to this system. This decision to transfer or not to transfer shall become irrevocable on November 30, 1978. All members electing to transfer during the transfer period shall become members of the Florida Retirement System on January 1, 1979, and shall be subject to the provisions of the Florida Retirement System on and after that date. Any officer or employee who was a member of an existing system on December 1, 1970, and who does not elect to become a member of this system shall continue to be covered under the existing system, subject to the provisions of s. 121.045. Any member transferring from the Teachers' Retirement System under chapter 238 to the Florida Retirement System on January 1, 1979, shall retain his rights to survivor benefits under chapter 238 from January 1, 1979, through December 31, 1983, or until fully insured for disability benefits under the federal Social Security Act, whichever is the earliest date, and thereafter no such rights shall exist.

b. Any deficit, as determined by the state actuary, accruing to the Survivors' Benefit Trust Fund of the Teachers' Retirement System and resulting from the passage of chapter 78-308, Laws of Florida, shall become an obligation of the Florida Retirement Trust Fund.

(b)1. The governing body of any city or special district in the state may elect to participate in the system upon proper application to the administrator and may cover all or any of its units as approved by the Secretary of Health, Education and Welfare and the administrator.

2. Any city or special district that has an existing retirement system covering the employees in the units which are to be brought under the Florida Retirement System may participate only after holding a referendum in which all employees in the affected units have the right to participate. Only those employees electing coverage under the Florida Retirement System by affirmative vote in said referendum shall be eligible for coverage under this chapter, and those not participating or electing not to be covered by the Florida Retirement System shall remain in their present systems and shall not be eligible for

coverage under this chapter. After said referendum is held, all future employees shall be compulsory members of the Florida Retirement System.

3. The governing body of any city or special district complying with subparagraph 1. may elect to provide, or not provide, benefits based on past service of officers and employees as described in s. 121.081(1). However, if such employer elects to provide past service benefits, such benefits shall be provided for all officers and employees of its covered group.

4. Once this election is made and approved it may not be revoked, and all present officers and employees electing coverage under this chapter and all future officers and employees shall be compulsory members of the Florida Retirement System.

(3) **SOCIAL SECURITY COVERAGE.**—Social security coverage shall be provided for all officers and employees who become members under the provisions of subsection (1) or (2). Any modification of the present agreement with the Social Security Administration, or referendum required under the Social Security Act, for the purpose of providing social security coverage for any member shall be requested by the state agency in compliance with the applicable provisions of the Social Security Act governing such coverage. However, retroactive social security coverage for service prior to December 1, 1970, with the employer shall not be provided for any member who was not covered under the agreement as of November 30, 1970.

(4) **INFORMATION REQUIRED.**—The employer shall furnish the administrator with such information as he may request for the proper enrollment of officers and employees in the system.

(5) **RIGHTS LIMITED.**—

(a) Participation in the system shall not give any member the right to be retained in the employ of the employer or, upon dismissal, to have any right or interest in the fund other than herein provided.

(b) No member who has caused a shortage in a public account, when such shortage is certified by the auditor general or a certified public accountant, may retire or receive any benefits under this chapter so long as such shortage exists.

(6) **SEASONAL STATE EMPLOYMENT; BLIND VENDING FACILITY OPERATORS.**—

(a) Seasonal state employment shall be included under this chapter, and the time limit and procedure for claiming same as set forth in s. 122.07 shall continue under this chapter for those members transferring to this system and for all new members.

(b)1. All blind or partially sighted persons who are now employed or licensed by the Division of Blind Services as vending facility operators, or who may hereafter be so licensed or employed, are hereby declared to be state employees within the meaning of this chapter, and all vending facility operators licensed and employed after December 1, 1970, shall be compulsory members in compliance with this chapter.

2. Blindness shall not be deemed a retirement disability within the provisions of this chapter for such members as are contemplated by this paragraph.

(7) **JOINT REPRESENTATIVES; FEDERAL**

CIVIL SERVICE.—All state and county cooperative extension personnel holding appointments by the United States Department of Agriculture for extension work in agriculture and home economics in the state shall be joint representatives of the University of Florida and the United States Department of Agriculture unless otherwise expressly provided in the project agreement. Such personnel shall be deemed governed by the requirements of Federal Civil Service, as written in the agreement between the University of Florida and the United States Department of Agriculture. Such personnel so governed by the requirements of Federal Civil Service shall be prohibited from participating in any retirement or social security program or act administered by the state except those members covered under s. 238.13, as of November 30, 1970.

121.0515 Special risk membership; legislative intent; criteria; designation and removal of special risk classification.—

(1) **LEGISLATIVE INTENT.**—In creating the special risk class of membership within the Florida Retirement System, it is the intent and purpose of the Legislature to recognize that persons employed in certain categories of law enforcement, firefighting, and criminal detention positions are required as one of the essential functions of their positions to perform work that is physically demanding or arduous, or work that requires extraordinary agility and mental acuity, and that such persons, because of diminishing physical and mental faculties, may find that they are not able, without risk to the health and safety of themselves, the public, or their coworkers, to continue performing such duties and thus enjoy the full career and retirement benefits enjoyed by persons employed in other positions and that, if they find it necessary, due to the physical and mental limitations of their age, to retire at an earlier age and usually with less service, they will suffer an economic deprivation therefrom. Therefore, as a means of recognizing the peculiar and special problems of this class of employees, it is the intent and purpose of the Legislature to establish a class of retirement membership that awards more retirement credit per year of service than that awarded to other employees; however, nothing contained herein shall require ineligibility for special risk membership upon reaching age 55.

(2) **CRITERIA.**—A member, to be designated as a special risk member, must meet the following criteria:

(a) The member must be employed as a law enforcement officer and be certified in compliance with s. 943.14, or be on temporary waiver as provided by s. 943.14 until certified; however, sheriffs and elected police chiefs shall be excluded from meeting the certification requirements of this paragraph. In addition, the member's duties and responsibilities must include the pursuit, apprehension, and arrest of law violators or suspected law violators, or the member must be the supervisor or command officer of a member or members who have such responsibilities; provided, however, administrative support per-

sonnel, including, but not limited to, those whose primary duties and responsibilities are in accounting, purchasing, legal, and personnel, shall not be included;

(b) The member must be employed as a firefighter and be certified, or required to be certified, in compliance with s. 633.35 and be employed solely within the fire department of the employer or agency of state government. In addition, the member's duties and responsibilities must include on-the-scene fighting of fires or direct supervision of fire fighting units, or the member must be the supervisor or command officer of a member or members who have such responsibilities; provided, however, administrative support personnel, including, but not limited to, those whose primary duties and responsibilities are in accounting, purchasing, legal, and personnel, shall not be included; or

(c) The member must be employed as a correctional officer and be certified in compliance with s. 944.585. In addition, the member's primary duties and responsibilities must be the custody, and physical restraint when necessary, of prisoners or inmates within a prison, jail, or other criminal detention facility, or while on work detail outside the facility, or while being transported; provided, however, administrative support personnel, including, but not limited to, those whose primary duties and responsibilities are in accounting, purchasing, legal, and personnel, shall not be included; however, superintendents and assistant superintendents shall participate in the special risk class.

(3) **PROCEDURE FOR DESIGNATING.**—

(a) Any member of the Florida Retirement System employed by a county, city, or special district who feels that he meets the criteria set forth in this section for membership in the special risk class may request that his employer submit an application to the division requesting that the division designate him as a special risk member. If the employer agrees that the member meets the requirements for special risk membership, he shall submit an application to the division in behalf of the employee containing a certification that the member meets the criteria for special risk membership set forth in this section and such other supporting documentation as may be required by administrative rule. The division shall, within 90 days, either designate or refuse to designate the member as a special risk member. If the employer declines to submit the member's application to the division or if the division does not designate the member as a special risk member, the member or the employer may appeal to the State Retirement Commission, as provided in s. 121.23, for designation as a special risk member.

(b)1. Applying the criteria set forth in this section, the Department of Administration shall specify which current and newly created classes of positions under the uniform classification plan established pursuant to chapter 110 entitle the incumbents of positions in those classes to membership in the special risk class. Only employees employed in the classes so specified shall be special risk members.

2. When a class is not specified by the department as provided in subparagraph 1., the employing agency may petition the State Retirement Commis-

sion for approval in accordance with s. 121.23.

(4) **REMOVAL OF SPECIAL RISK MEMBERSHIP.**—Any member who is a special risk member on October 1, 1978, and who fails to meet the criteria for special risk membership established by this section shall have his special risk designation removed and thereafter shall be a regular member and shall earn only regular membership credit. The division shall have the authority to review the special risk designation of members to determine whether or not those members continue to meet the criteria for special risk membership.

History.—s. 2, ch. 78-308.

121.052 Membership class of certain elected state officers.—

(1)(a) There is hereby established a separate class of members within the Florida Retirement System, established by this chapter, to be known and cited as "Elected State Officers' Class."

(b) Participation in the Elected State Officers' Class shall be compulsory for any Governor, Lieutenant Governor, cabinet officer, supreme court justice, district court of appeal judge, circuit judge, state attorney, or public service commissioner assuming office, either by election or appointment, on or after July 1, 1972, or for any county court judge assuming office, either by election or appointment, on or after October 1, 1974, who is not already a member of any existing system, the Judicial Retirement System, or the regular or special risk classes of the Florida Retirement System when elected or appointed to such office. Effective July 1, 1979, no public service commissioner shall be eligible for membership in the Elected State Officers' Class, and on that date any public service commissioner who is a member of the Elected State Officers' Class shall be removed from that class, shall become a member of the regular class, and shall thereafter be subject to the benefits and provisions of the regular class. Any public service commissioner who is removed from the Elected State Officers' Class on July 1, 1979, shall retain any retirement credit earned in the Elected State Officers' Class as of that date.

(c)1. Any legislator elected to office after July 1, 1980, who is a participant, or is intending to participate, in any plan qualified under Subchapter D, Chapter 1, Subtitle A of the Internal Revenue Code of 1954, as amended and in effect on January 1, 1979, shall have the option of participating in the Elected State Officers' Class of the Florida Retirement System or not participating in the Florida Retirement System in any manner. Any legislator so elected shall have a period of 6 months, commencing with the date of election, to notify the administrator, in writing, of his desire to withdraw from the Elected State Officers' Class; unless and until such time as said legislator makes timely withdrawal herein, he shall be a participant in the Elected State Officers' Class.

2. Any legislator elected to office on or before July 1, 1980, who is a member of the Florida Retirement System shall remain in the system unless such legislator is a participant, or is intending to participate, in any plan qualified under Subchapter D, Chapter 1, Subtitle A of the Internal Revenue Code of 1954, as amended and in effect on January 1, 1979,

and unless, prior to January 1, 1981, such legislator indicates to the administrator his desire to withdraw from participation in any class of the Florida Retirement System.

3. Upon receipt of a request from a legislator to withdraw from participation or upon the election of the legislator to withdraw from the Florida Retirement System pursuant to subparagraph 1., the administrator shall refund all moneys contributed by the legislator to the system during his period of participation in the system, unless the legislator has a vested right under the Florida Retirement System, in which case the member shall not receive a refund of contributions.

(d) On and after July 1, 1972, participation in the Elected State Officers' Class shall be optional within the time provided herein for any Governor, Lieutenant Governor, cabinet officer, legislator, supreme court justice, district court of appeal judge, circuit judge, state attorney, or public service commissioner who is already a member of any existing system, the Judicial Retirement System, or the regular or special risk classes of the Florida Retirement System when elected or appointed to such office, except that, effective July 1, 1979, no public service commissioner shall be eligible for membership in The Elected State Officers' Class. Participation in the Elected State Officers' Class shall be optional within the time provided herein for any county court judge who assumed office prior to October 1, 1974. After July 1, 1980, participation in the Elected State Officers' Class shall be optional for legislators within the time provided in paragraph (c), provided such legislators meet the requirements in paragraph (c). Any such officer may, upon application to the administrator of the Florida Retirement System within 1 year from the date he first becomes eligible to be a member of the Elected State Officers' Class by virtue of the office he holds, except for legislators, who shall apply to the administrator within the time period provided in paragraph (c), transfer to and participate in the Elected State Officers' Class, subject to the following provisions:

1. He shall transfer and carry with him such retirement credit as he has accumulated in the retirement system or class within the Florida Retirement System from which he transfers; and

2. He may purchase additional retirement credit in the Elected State Officers' Class for all creditable service as an officer within the purview of this class, which service he has accumulated in the retirement system or class within the Florida Retirement System from which he transfers, upon the payment into the system trust fund of a sum equal to the difference between 8 percent of the gross salary he received for the period of his tenure in the office, or 8 percent of \$1,000 per month, whichever is greater, for which he seeks additional retirement credit and the actual amount of his retirement contributions for such period, based on such salary, plus interest thereon at the rate of 4 percent per annum compounded annually from the date of such service until July 1, 1975, and 6.5 percent per annum thereafter until date of payment. An amount equal to the member's contributions and interest payments shall be paid to the system trust fund from the General Reve-

nue Fund. A county court judge or any other member of the Elected State Officers' Class may purchase additional retirement credit for service prior to January 1, 1973, as a county judge, judge of a court of record, judge of a criminal or civil court of record, or judge of any metropolitan court established pursuant to s. 6, Art. VIII of the State Constitution, provided an amount equal to the member's contributions and interest payments shall be paid to the system trust fund by the county or by the individual. Service as a county court judge from January 1, 1973, to October 1, 1974, may be purchased as additional retirement credit in the Elected State Officers' Class by all members of this class having such service, in the same manner as other additional retirement credit is purchased in this class.

(e) Any officer who is eligible to be a member of the Elected State Officers' Class, but for whom the time period provided in paragraph (d) has expired without his having transferred to the Elected State Officers' Class, shall be permitted to elect, in writing, from October 1, 1978, through December 31, 1978, to transfer to, and become a member of, this class on January 1, 1979, and be subject to the benefits and provisions of the Elected State Officers' Class on and after that date. After December 31, 1978, no such election may be made.

(f) Any Governor, Lieutenant Governor, cabinet officer, supreme court justice, district court of appeal judge, circuit judge, county court judge, state attorney, public service commissioner, or public defender who is eligible to be a member of the Elected State Officers' Class, but for whom the time period provided in paragraph (d) has expired without his having transferred to the Elected State Officers' Class, shall be permitted to elect, in writing, from July 1, 1977, through September 30, 1977, to transfer under the provisions of paragraph (d) to the Elected State Officers' Class on October 1, 1977, and be subject to the benefits and provisions of such class on and after that date.

(2) Members of the Elected State Officers' Class shall be subject to social security coverage as provided by the Federal Social Security Act. The administrator shall make such modification to the agreement between the state and the Federal Social Security Administrator, made pursuant to the provisions of chapter 650, hold any referendum, or take any other action as may be required to provide social security coverage for said members.

(3)(a) The definitions set forth in s. 121.021 and all other provisions of chapter 121 shall apply to the Elected State Officers' Class, except when the definitions and provisions are in conflict with, or are superseded or modified by, the provisions of this section.

(b) A member of the Elected State Officers' Class shall have the same normal retirement date as defined in s. 121.021(29) for a regular member of the Florida Retirement System, except that only 8 years of creditable service in this class shall be needed to attain the normal retirement date specified in s. 121.021(29)(a). Any public service commissioner who is removed from the Elected State Officers' Class on July 1, 1979, after attaining at least 8 years of creditable service in that class shall be considered to have

reached normal retirement age upon attaining the age required in s. 121.021(29)(a).

(c) The average final compensation of a member of the Elected State Officers' Class shall be as defined in s. 121.021(24) or the average annual compensation of the 5 best of the last 8 years of service if the member has less than 10 years of creditable service at the time of retirement, termination, or death.

(4)(a) From and after October 1, 1978, and except as provided in paragraph (b), the employer paying the salary of a member of the Elected State Officers' Class shall withhold 8 percent of his gross salary, which shall constitute the contribution of said member with respect to retirement and other benefits payable to members of this class, and one-half of the entire contribution of the member required for social security coverage. The employer withholding such contributions shall set aside the funds necessary to pay the matching contributions required pursuant to s. 121.061 and shall contribute an amount equal to 10.57 percent of such member's gross compensation and one-half of the entire contribution with respect to the member's social security coverage.

(b) From and after October 1, 1978, the employer paying the salary of any member of the Elected State Officers' Class who is a Governor, Lieutenant Governor, cabinet officer, supreme court justice, district court of appeal judge, circuit judge, county court judge, state attorney, public service commissioner, or public defender shall contribute an amount equal to 16.78 percent of such member's gross compensation and shall withhold 4 percent of such member's gross compensation, the sum of which shall constitute the entire contribution with respect to such member. The employer shall, however, withhold one-half of the entire contribution of the member required for social security coverage. Effective July 1, 1979, any member of the Elected State Officers' Class who is a public service commissioner shall be removed from this class, shall become a regular member on that date, and shall be subject to the contribution provisions of s. 121.071 which pertain to regular members.

(c) From and after October 1, 1979, the employer paying the salary of any member of the Elected State Officers' Class who is a supreme court justice, district court of appeal judge, circuit judge, county court judge, or state attorney shall contribute an amount equal to 20.78 percent of such member's gross compensation, which shall constitute the entire contribution with respect to such member. The employer shall, however, withhold one-half of the entire contribution of the member required for social security coverage.

(d) Elected State Officers' Class members' contributions and matching contributions received from state employers shall be deposited by the administrator in the system trust fund and Social Security Trust Fund of the Florida Retirement System.

(5)(a) A member of the Elected State Officers' Class who is a supreme court justice, district court of appeal judge, circuit judge, or county court judge shall receive retirement credit of 3½ percent of average final compensation, and all other members shall receive retirement credit of 3 percent of average fi-

nal compensation, for each year of creditable service in such class.

(b) Upon attaining his normal retirement date, a member of the Elected State Officers' Class, upon application to the administrator, shall receive a monthly benefit which shall commence on the last day of the month of retirement and be payable on the last day of each month thereafter during his lifetime. The amount of such monthly benefit shall be the total percentage of retirement credit received by the member multiplied by his average monthly compensation, but in no event shall such benefit exceed the member's average final compensation. The total percentage of retirement credit received by a member shall be the sum of the retirement credit he earns as a member of the Elected State Officers' Class and in each category of employment together with any retirement credit he acquires for wartime military service.

(c) The benefit provisions of subsections (2), (3), (4), (5), (6), (7), (8), (9), and (11) of s. 121.091, as they relate respectively to benefits payable for dual normal retirement ages, early retirement, disability retirement, termination of employment, optional forms of retirement, death benefits, designations of beneficiaries, employment after retirement, and method of computing actuarial equivalent, shall also apply to members of the Elected State Officers' Class, except that only 8 years of creditable service in this class shall be needed to attain the benefits specified in subsections (3), (5), and (7) of such section. The provisions of all subsections referred to in this paragraph shall be construed in such manner to make them compatible with the provisions of this act.

(d) The provisions of ss. 121.101 and 121.111, respectively, relating to the cost-of-living adjustment of retirement benefits and retirement credit for wartime military service, shall apply to members of the Elected State Officers' Class. Creditable service for actual wartime service, as authorized by s. 121.111(2), not exceeding 4 years, shall be acquired and paid for as provided in said subsection. Upon payment by the member of 4 percent of gross salary plus accrued interest, retirement credit shall be granted at the rate of 1.6 percent for each year of creditable service acquired under said subsection.

(6)(a) Any member of the Elected State Officers' Class who ceases to fill an office covered by this class and who is employed in a position covered by the Florida Retirement System may receive credit in the Florida Retirement System for any retirement credit which he earns under this class, and such credit shall be granted at the rate of 3½ percent for service as a supreme court justice, district court of appeal judge, circuit judge, or county court judge, or at the rate of 3 percent credit if his service was in any other office, for each year of creditable service in such class.

(b) Any member of the Elected State Officers' Class who leaves office or otherwise terminates his membership in the retirement system for any reason other than death or retirement and who does not come under the provisions of paragraph (a) shall be subject to the termination benefit provisions of s. 121.091(5).

(7) The administrator shall make such rules and regulations as are necessary for the effective and efficient administration of the Elected State Officers' Class.

(8) There is hereby annually appropriated from the General Revenue Fund and the system trust fund sufficient amounts to make such payments as are provided by this section.

Note.—The deletion by chapter 79-377 of the words, "public defender," from paragraphs (1)(a) and (b), thereby eliminating the provisions for participation by public defenders in the Elected State Officers' Class under this section, may have been inadvertent, for the words, "public defender," were not also deleted from paragraph (4)(b), which continues to provide for contributions to be made by public defenders and their employers for such participation.

121.053 Optional participation in the Elected State Officers' Class for retired members of any existing system.—

(1) Any member who retires under any existing system as defined in s. 121.021(2), and who receives a benefit thereof, and who serves in an office covered by the Elected State Officers' Class for a period of at least 8 years, shall be entitled to receive an additional retirement benefit, any law to the contrary notwithstanding, under the Elected State Officers' Class of the Florida Retirement System, as follows:

(a) Such member shall notify the administrator of his intent to purchase 8 or more years of creditable service under the Elected State Officers' Class, s. 121.052, and shall pay 8 percent of all salary received in the period being claimed, plus 4 percent interest compounded annually from first year of service claimed until July 1, 1975, and 6.5 percent interest compounded annually thereafter, until full payment is made to the Florida Retirement Trust Fund; however, such member may purchase retirement credit under the Elected State Officers' Class only for such service as an Elected State Officer.

(b) The above amount shall be matched by the employer and paid into the Florida Retirement Trust Fund.

(2) Upon attaining his normal retirement date and payment of the amount specified in paragraphs (a) and (b), and upon application to the administrator of his intent to retire, the member shall receive a monthly benefit under this section, in addition to any benefits already being received, which shall commence on the last day of the month of retirement and be payable on the last day of the month thereafter during his lifetime. The amount of such monthly benefit shall be the total percentage of retirement credit purchased under this section multiplied by the member's average monthly compensation as an elected state officer, adjusted according to the option selected at retirement under s. 121.091(6).

History.—s. 4, ch. 77-469.

121.054 Retirees precluded from joining other systems.—Any member who retires under chapter 121 shall be prohibited from joining any other state or local government supported retirement system in Florida. No city, county, subdivision, or taxing district of the State of Florida can require as a

condition of employment that the employee join or participate in any pension or retirement plan or program if said employee is eligible for, or is receiving, benefits under chapter 121.

History.—s. 3, ch. 77-467.

121.061 Funding.—

(1) Commencing December 1, 1970, all employers withholding contributions required of members under this chapter for purposes of providing retirement benefits and social security benefits to or on behalf of such members shall budget, set aside, and pay over to the administrator, for deposit into the proper retirement and social security trust funds, matching payments for retirement and social security contributions as required by this chapter.

(2)(a) Should any employer other than a state employer fail to make the retirement and social security contributions, both member and employer contributions, required by this chapter, then, upon request by the administrator, the Department of Revenue or the Department of Banking and Finance, as the case may be, shall deduct the amount owed by the employer from any funds to be distributed by it to the county, city, special district, or consolidated form of government. The amounts so deducted shall be transferred to the administrator for further distribution to the trust funds in accordance with this chapter.

(b) Should any employer for whom the city or county tax collector collects taxes, fail to make the retirement and social security contributions required by this chapter, the tax collector, at the request of the administrator and upon receipt of a certificate from the administrator showing the amount owed by the employer, shall deduct the amount so certified from any taxes collected for the employer and remit the amount to the administrator for further distribution to the trust funds in accordance with this chapter.

(c) The governing body of each county, city, special district, or consolidated form of government participating under this chapter or the administrator, acting individually or jointly, is hereby authorized to file and maintain an action in the courts of the state to require any employer to remit any retirement or social security member contributions or employer matching payments due the retirement or social security trust funds under the provisions of this chapter.

(d) Should the income of any constitutional fee officer, in any year, be insufficient to make the matching payments required by this chapter, the board of county commissioners shall provide such fee officer sufficient funds to make these required payments when due.

(3) The appropriations provided each state agency, beginning with the 1970-1971 fiscal year and each fiscal year thereafter, shall include sufficient amounts to pay the matching contributions for social security and retirement as required by this chapter. No state agency, whether its funds are provided by state appropriations or otherwise, shall employ any person or maintain any person on its payroll unless it has allotted for such person sufficient funds to meet these required payments. Should a state agency fail to make such payments, the administrator

shall report same to the Governor and certify the amount due the system trust funds to the Executive Office of the Governor. If arrangements cannot be made for the state agency to pay said amount due, then the amount due is hereby appropriated and shall be paid from the General Revenue Fund of the state.

History.—s. 6, ch. 70-112; s. 1, ch. 70-439; s. 2, ch. 72-295; s. 88, ch. 79-190. cf.—s. 121.052 Membership class of certain elected state officers.

121.071 Contributions.—Contributions to the system shall be made as follows:

(1) Until January 1, 1975, regular members shall contribute each pay period at the rate of 4 percent of gross compensation and special risk members shall contribute each pay period at the rate of 8 percent of gross compensation. Effective January 1, 1975, regular members and special risk members shall make no contribution to the system.

(2) Until January 1, 1975, each employer shall contribute an amount equal to the total of its member contributions, made under subsection (1), each pay period. Effective January 1, 1975, and until October 1, 1978, each employer shall contribute 9 percent of gross compensation each pay period for each of its regular members, and 13 percent of gross compensation each pay period for each of its special risk members. Effective October 1, 1978, each employer shall contribute 9.10 percent of gross compensation each pay period for each of its regular members, and 13.95 percent of gross compensation each pay period for each of its special risk members.

(3)(a) Effective January 1, 1975, each employer shall accomplish the increased contribution required by subsection (2) by a procedure in which no employee's gross salary shall be reduced.

(b) Upon termination of employment for any reason other than retirement, a member shall be entitled to a full refund of the contributions he has made prior or subsequent to his participation in the non-contributory plan, subject to the restrictions otherwise provided in this chapter.

(4) Contributions for social security by each member and each employer, in the amount required for social security coverage as now or hereafter provided by the Federal Social Security Act, shall be in addition to contributions specified in subsections (2) and (3).

(5) Contributions made in accordance with subsections (2), (3), and (4) shall be paid by the employer into the system trust funds in accordance with rules promulgated by the administrator pursuant to chapter 120. Such contributions are due and payable no later than the 25th day of the month immediately following the month during which the payroll period ended. The division may by rule establish a different due date, which shall supersede the date specified herein; however, said date shall not be established earlier than the 20th day of the month immediately following the month during which the payroll period ended. Contributions received in the offices of the Division of Retirement of the Department of Administration after said date shall be considered delinquent, and, in the case of retirement contributions due under subsections (2) and (3), each employer shall be assessed a delinquent fee of 0.5 percent of the contributions due for each calendar month or

part thereof that said contributions are delinquent. Delinquent social security contributions shall be assessed a delinquent fee as authorized by s. 650.05(4).

121.081 Past service; prior service; contributions.—Conditions under which past service or prior service may be claimed and credited are:

(1)(a) Past service, as defined in s. 121.021(18), may be claimed as creditable service by officers or employees of a city or special district that become a covered group under this system. The governing body of a covered group in compliance with s. 121.051(2)(b) may elect to provide benefits with respect to past service earned prior to January 1, 1975, in accordance with this chapter, and the cost for said past service shall be established by applying the following formula: The member contribution for both regular and special risk members shall be 4 percent of the gross annual salary for each year of past service claimed, plus 4 percent employer matching contribution, plus 4 percent interest thereon compounded annually, figured on each year of past service, with interest compounded from date of annual salary earned until July 1, 1975, and 6.5 percent interest compounded annually thereafter until date of payment. Once the total cost for a member has been figured to date, then after July 1, 1975, 6.5 percent compounded interest shall be added each June 30 thereafter on any unpaid balance until the cost of said past service liability is paid in full. The following formula shall be used in calculating past service earned prior to January 1, 1975: (Annual gross salary multiplied by 8 percent) multiplied by the 4 or 6.5 percent compound interest table factor, as may be applicable. The resulting product equals cost to date for each particular year of past service.

(b) Past service earned after January 1, 1975, may be claimed by officers or employees of a city or special district that become a covered group under this system. The governing body of a covered group may elect to provide benefits with respect to past service earned after January 1, 1975, in accordance with this chapter, and the cost for said past service shall be established by applying the following formula: The employer shall contribute 9 percent of the employee's gross salary for each year of past service claimed, plus 6.5 percent interest thereon, compounded annually, figured on each year of past service, with interest compounded from date of annual salary earned until date of payment.

(c) Should the employer not elect to provide past service for the member, then the member may claim and pay same, based on paragraphs (a) and (b).

(d) Employment prior to January 1, 1968 in the Cuban Refugee Assistance Program administered by the Florida State Department of Public Welfare or the Florida State Board of Health shall be deemed to be included in "past service" as defined in s. 121.021(18), for the purposes of the Florida Retirement System, any other provisions of law notwithstanding and regardless of the fund from which such employment was paid. If credit for such service has not been granted under any other state or federal system, any member of the Florida Retirement Sys-

tem or any system consolidated therein shall be entitled to receive past service credit for his period of employment in the Cuban Refugee Assistance Program prior to January 1, 1968, in the manner provided in this subsection. However, in no event will eligibility for "past service" be established unless required contributions are paid into the Florida Retirement System for such period of "past service" and such contributions are not paid from general revenue funds of the state.

(e) Past service, as defined in s. 121.021(18), may be claimed as creditable service by a member of the Florida Retirement System who formerly was an officer or employee of a city or special district, notwithstanding the status or form of the retirement system, if any, of said city or special district and irrespective of whether officers or employees of said city or special district now or hereafter become a covered group under the Florida Retirement System. Such member may claim creditable service and be entitled to the benefits accruing to the regular class of members as provided for the past service claimed under this paragraph by paying into the retirement trust fund an amount equal to the total actuarial cost of providing the additional benefit resulting from such past service credit, discounted by the applicable actuarial factors to date of retirement.

(f) Whenever any employee of a governmental entity who is participating in a local retirement system of the governmental entity becomes eligible to participate in the Florida Retirement System by virtue of the consolidation or merger of governments or the transfer of functions between units of government, either at the state or local level or between state and local units of government, in which the resulting unit of government becomes or remains an employer as defined in this chapter, said employee shall elect either to continue to participate in the local retirement system or to become a member of the Florida Retirement System. Should any employee elect to continue to participate in the local retirement system, his employer shall make contributions to the local retirement system at the required rates, but in no event shall the rate of contributions made by the employer to the local retirement system exceed the combined rate of retirement contributions and social security contributions paid by the employer to the Florida Retirement System on behalf of an employee who is a regular member of the Florida Retirement System.

(g) When any person, either prior to this act or hereafter, becomes entitled to and does participate in one of the retirement systems consolidated within or created by this chapter through the consolidation or merger of governments or the transfer of functions between units of government, either at the state or local level or between state and local units, or through the assumption of functions or activities by a state or local unit from an employing entity which was not an employer under the system, and such person becomes a member of the Florida Retirement System, such person shall be entitled to receive "past service" credit as defined in s. 121.021(18) for the time such person performed services for, and was an employee of, said state or local unit or other employing entity prior to the transfer, merger, consoli-

dation, or assumption of functions and activities. Past service credit allowed by this paragraph shall also be available to those persons who became members of an existing system (as defined in s. 121.021(2)) prior to December 1, 1970, through the transfer, merger, consolidation, or assumption of functions and activities set forth in this paragraph and who subsequently become members of the Florida Retirement System. However, in no event will credit for the past service be granted until contributions are made in the manner provided in this subsection. Such contributions and accrued interest shall not be paid from any state funds.

(h) Any person who was enrolled on May 15, 1976, in a state retirement system administered under this chapter and who was, on that date, an officer or employee of a consolidated government which by virtue of its charter had elected status as a municipality for purposes of state retirement systems administered under this chapter and who had not withdrawn his contributions shall be deemed to have become a member of that system as of the date he began to participate therein, whether employed by the consolidated government or a preceding interim government on that date, and shall be entitled to retain his membership in that system so long as he continues to be an officer or employee of the consolidated government, regardless of the fact that the consolidated government and interim government were not "employers" as defined in s. 121.021(10). Any person who was enrolled before May 15, 1976, in a state retirement system administered under this chapter and who was, during the period of enrollment, an officer or employee of a consolidated government which by virtue of its charter had elected status as a municipality for purposes of state retirement systems administered under this chapter, who terminated employment with the consolidated government, and who had not withdrawn his contributions shall be deemed to have been a member of the retirement system in which he was enrolled during the period of such enrollment and employment by that consolidated government and during any period of enrollment and employment by any interim government which performed the functions of the consolidated government prior to its creation, regardless of the fact that the consolidated government and interim government were not "employers" as defined in s. 121.021(10). However, in no event shall credit be granted for service rendered in such employment prior to May 15, 1976, unless the contributions required for such credit were paid prior to May 15, 1976.

(i) Notwithstanding any of the provisions of this subsection, no past service credit may be purchased under this chapter for any service which is used to obtain a benefit from any local retirement system.

(j) An employee of a state agency who was a member of a state-administered retirement system and who was granted educational leave with pay pursuant to a written educational leave-with-pay policy may claim such period of educational leave as past service subject to the following conditions:

1. The educational leave must have occurred prior to December 31, 1971;
2. The member must have completed at least 10

years of creditable service excluding the period of the educational leave;

3. The employee must have returned to employment with a state agency employer who participated in the retirement system, which return was immediately upon termination of the educational leave, and must have remained on the employer's payroll for at least 30 calendar days following his return to employment;

4. The employee must be a member of the Florida Retirement System at the time he claims such service;

5. Not more than 24 months of creditable service may be claimed for such period of educational leave with pay;

6. The service shall not be claimed under any other state or federal retirement system; and

7. The member shall pay to the retirement trust fund for claiming such past service credit an amount equal to 8 percent of his gross annual salary immediately prior to the educational leave with pay for each year of past service claimed, plus 4 percent interest thereon compounded annually each June 30 from first year of service claimed until July 1, 1975, and 6.5 percent interest thereafter on the unpaid balance compounded annually each June 30 until paid.

(2) Prior service, as defined in s. 121.021(19), may be claimed as creditable service under the Florida Retirement System after a member has been reemployed for 12 continuous months. The member shall not be permitted to make any contributions for prior service until after the 12-month period. The required contributions for claiming the various types of prior service are:

(a) For prior service performed prior to the date the system becomes noncontributory for the member and for which the member had credit under one of the existing retirement systems and received a refund of contributions upon termination of employment, the member shall contribute 4 percent of all salary received during the period being claimed, plus 4 percent interest compounded annually from date of refund until July 1, 1975, and 6.5 percent interest compounded annually thereafter, until full payment is made to the Retirement Trust Fund.

(b) For prior service performed prior to the date the system becomes noncontributory for the member and for which the member had credit under the Florida Retirement System and received a refund of contributions upon termination of employment, the member shall contribute at the rate that was required of him during the period of service being claimed, on all salary received during such period, plus 4 percent interest compounded annually from date of refund until July 1, 1975, and 6.5 percent interest compounded annually thereafter, until the full payment is made to the Retirement Trust Fund.

(c) For service performed after the Florida Retirement System becomes noncontributory for the member, and for which the member had credit under the Florida Retirement System at date of termination of employment, the member shall not be required to make any contributions in order to receive prior service credit, but such credit shall not be granted until the member has been reemployed for 12 continuous months.

(d) For prior service as defined in s. 121.021(19)(b) and (c) during which no contributions were made because the member did not participate in a retirement system, the member shall contribute 9 percent of all salary received during such period or 9 percent of \$100 per month during such period, whichever is greater, plus 4 percent interest compounded annually from the first year of service claimed until July 1, 1975, and 6.5 percent interest compounded annually thereafter, until full payment is made to the Retirement Trust Fund.

121.091 Benefits payable under the system.—

(1) **NORMAL RETIREMENT BENEFIT.**—Upon attaining his normal retirement date, the member, upon application to the administrator, shall receive a monthly benefit which shall commence on the last day of the month of retirement and be payable on the last day of each month thereafter during his lifetime. The amount of monthly benefit shall be determined as the product of A and B, subject to the adjustment of C, if applicable, when:

(a) A is 1.60 percent of his average monthly compensation, up to his normal retirement age. The first year after his normal retirement age, A is 1.63 percent of his average monthly compensation. The second year after his normal retirement age, A is 1.65 percent of his average monthly compensation. The third year after his normal retirement age, A is 1.68 percent of his average monthly compensation. A shall not exceed 1.68 percent of his average monthly compensation, except that for all creditable years of special risk service, A is 2 percent of his average monthly compensation for all creditable years prior to October 1, 1974, for which additional retirement credit has not been purchased, and 3 percent of his average monthly compensation until October 1, 1978, when all years of creditable service thereafter as a special risk member shall be worth 2 percent of his average monthly compensation; however, the normal retirement benefit, including any past or additional retirement credit, may not exceed 100 percent of the average final compensation.

(b) B is the number of his years and any fractional part of a year of creditable service earned subsequent to November 30, 1970, and

(c) C is the normal retirement benefit credit brought forward as of November 30, 1970, by a former member of an existing system. Such normal retirement benefit credit shall be determined as the product of A and B when A is the percentage of average final compensation which the member would have been eligible to receive if he had attained his normal retirement date as of November 30, 1970, all in accordance with the existing system under which the member is covered on November 30, 1970, and B is average monthly compensation as defined in s. 121.021(25). However, any member of an existing retirement system who is eligible to retire and who does retire, become disabled, or die prior to April 15, 1971, may have his retirement benefits calculated on the basis of the best 5 of the last 10 years of service.

(2) **BENEFITS PAYABLE FOR DUAL NORMAL RETIREMENT AGES.**—In the event a mem-

ber shall accumulate retirement benefits to commence at different normal retirement ages by virtue of his having performed duties for an employer which would entitle him to benefits as both a regular member and special risk member, the amount of benefits payable shall be computed separately with respect to each such age and the sum of such computed amounts shall be paid as provided in this section.

(3) **EARLY RETIREMENT BENEFIT.**—Upon retirement on his early retirement date, the member shall receive an immediate monthly benefit which shall commence the last day of the month of his retirement date and be payable on the last day of each month thereafter during his lifetime. The amount of each monthly payment shall be computed in the same manner as for a normal retirement benefit, in accordance with subsection (1) of this section, but based on average monthly compensation and creditable service as of the member's early retirement date, and the benefit so computed shall be reduced by five-twelfths of 1 percent for each complete month by which the early retirement precedes his normal retirement date.

(4) **DISABILITY RETIREMENT BENEFIT.**—

(a) *Disability retirement date.*—A member who becomes totally and permanently disabled, as defined in paragraph (b), after completing 5 years of creditable service, or a member who becomes totally and permanently disabled in line of duty regardless of service, shall be entitled to a monthly disability benefit. The disability retirement date for such member shall be the first day of the month which coincides with or next follows the date the administrator approves payment of disability retirement benefits.

(b) *Total and permanent disability.*—A member shall be considered totally and permanently disabled if, in the opinion of the administrator, he is prevented, by reason of a medically determinable physical or mental impairment, from rendering useful and efficient service as an officer or employee. The decision of the administrator on these questions shall be final and binding.

(c) *Proof of disability.*—The administrator, before approving payment of any disability retirement benefit, shall require proof that the member is totally and permanently disabled as provided herein, which proof shall include the certification of the member's total and permanent disability by two licensed physicians of the state and such other evidence of disability as the administrator may require.

(d) *Disability retirement benefit.*—A member, upon retirement on his disability retirement date, shall receive a monthly benefit which shall commence on the last day of the month of his disability retirement and shall be payable on the last day of each month thereafter during his lifetime and continued disability. The amount of each monthly payment shall be computed in the same manner as for a normal retirement benefit, in accordance with subsection (1) of this section, but based on the member's average monthly compensation and creditable service as of his disability retirement date, subject to the following conditions:

1. If the member's disability occurred in the line of duty, his monthly benefit shall not be less than 42

percent of his average monthly compensation as of his disability retirement date; or

2. If the member's disability occurred other than in the line of duty, his monthly benefit shall not be less than 25 percent of his average monthly compensation as of his disability retirement date. The minimum monthly benefit allowed in this subparagraph shall not apply to an officer or employee who has attained normal retirement age.

(e) *Recovery from disability.*—The administrator may require periodic reexaminations at the expense of the retirement fund, and:

1. If the administrator finds that a member who is receiving disability benefits is, at any time prior to his normal retirement date, no longer disabled, the administrator shall direct that the benefits be discontinued. The decision of the administrator on this question shall be final and binding.

2. If the member, described in subparagraph 1., who recovers from such disability prior to his normal retirement date does not reenter the employ of an employer and had not completed 10 years of creditable service as of his disability retirement date, he shall be entitled to the excess, if any, of his accumulated contributions over the total disability benefits received up to his date of recovery.

3. If the member, described in subparagraph 1., who recovers from such disability prior to his normal retirement date does not reenter the employ of an employer but had completed 10 or more years of creditable service as of his disability retirement date, he may elect to receive:

a. The excess, if any, of his accumulated contributions over the total disability benefits received up to his date of recovery, or

b. A deferred benefit commencing on the last day of the month of his normal retirement date which shall be payable on the last day of the month thereafter during his lifetime. The amount of such monthly benefit shall be computed in the same manner as for a normal retirement benefit, in accordance with subsection (1) of this section, but based on average monthly compensation and creditable service as of the member's disability retirement date.

4. If the member recovers from disability and reenters employment of an employer within 6 months after his recovery, his service will be deemed to have been continuous, but the period beginning with the first month for which he received a disability benefit payment and ending with the date he reentered employment will not be considered as creditable service for the purpose of computing benefits. The term "accumulated contributions" for such member wherever used in this section after such recovery shall mean the excess of a member's accumulated contributions as of his disability retirement date over total disability benefits received under paragraph (d).

(f) *Nonadmissible causes of disability.*—A member shall not be entitled to receive any disability retirement benefit if his disability is a result of any of the following:

1. Injury or disease sustained by the member while willfully participating in a riot, civil insurrection, or other act of violence or while committing a felony;

2. Injury or disease sustained by the member after his employment has terminated; or

3. Intentional, self-inflicted injury.

(g) *Disability retirement of justice or judge by order of Supreme Court.*—

1. If a member is a Justice of the Supreme Court, Judge of a District Court of Appeal, Circuit Judge, or Judge of a County Court who has served for 10 years or more as an elected constitutional judicial officer, including service as a judicial officer in any court abolished pursuant to Article V of the State Constitution, and who is retired for disability by order of the supreme court upon recommendation of the Judicial Qualifications Commission pursuant to the provisions of Art. V of the State Constitution, his monthly benefit shall not be less than two-thirds of his monthly compensation as of his disability retirement date.

2. Should any justice or judge who is a member of the Florida Retirement System be retired for disability by order of the Supreme Court upon recommendation of the Judicial Qualifications Commission pursuant to the provisions of Art. V of the State Constitution, then all contributions to his account and all contributions made on his behalf by his employer shall be transferred to and deposited in the General Revenue Fund of the state, and there is hereby appropriated annually out of the General Revenue Fund, to be paid into the Florida Retirement System Fund, an amount necessary to pay the benefits of all justices and judges retired from the Florida Retirement System pursuant to Art. V of the State Constitution.

(5) **TERMINATION BENEFITS.**—

(a) A member whose employment is terminated for any reason other than death or retirement prior to the completion of 10 years of creditable service shall be entitled to the return of his accumulated contributions as of his date of termination.

(b) A member whose employment is terminated for any reason other than death or retirement after the completion of 10 years of creditable service may elect to receive a deferred monthly benefit which shall commence on the last day of the month of his normal or early retirement and shall be payable on the last day of each month thereafter during his lifetime. The amount of monthly benefit shall be computed in the same manner as for a normal retirement benefit in accordance with subsection (1) of this section or early retirement benefit in accordance with s. 121.021(30), but based on average monthly compensation and creditable service as of his date of termination.

(c) In lieu of the deferred monthly benefit provided in paragraph (b), the terminated member may elect to receive a lump sum amount equal to his accumulated contributions as of his date of termination.

(d) If any retired member dies without having received in benefit payments an amount equal to his accumulated contributions, there shall be payable to his designated beneficiary an amount equal to the excess, if any, of the member's accumulated contributions over the total monthly payments made to the member prior to his date of death.

(e) A member shall be deemed a terminated

member only at such time as he is no longer employed by an employer.

(f) Any member who has been found guilty by a verdict of a jury, or by the court trying the case without a jury, of committing, aiding, or abetting any embezzlement or theft from his employer, bribery in connection with the employment, or other felony specified in chapter 838, committed prior to retirement, or who has entered a plea of guilty or of nolo contendere to such crime, or any member whose employment is terminated by reason of his admitted commitment, aiding, or abetting of an embezzlement or theft from his employer, bribery, or other felony specified in chapter 838, shall forfeit all rights and benefits under this chapter, except the return of his accumulated contributions as of his date of termination.

(g) Any elected official who is convicted by the Senate of an impeachable offense shall forfeit all rights and benefits under this chapter, except the return of his accumulated contributions as of the date of his conviction.

(h) Any member who, prior to retirement, is adjudged by a court of competent jurisdiction to have violated any state law against strikes by public employees, or who has been found guilty by such court of violating any state law prohibiting strikes by public employees, shall forfeit all rights and benefits under this chapter, except the return of his accumulated contributions as of the date of his conviction.

(6) **OPTIONAL FORMS OF RETIREMENT BENEFITS.**—

(a) A member shall elect, prior to the receipt of his first monthly retirement payment, to receive the retirement benefits to which he is entitled under subsections (1), (2), or (3) of this section in accordance with one of the following options:

1. The maximum retirement benefit payable to the member during his lifetime.

2. A decreased retirement benefit payable to the member during his lifetime and, in the event of his death within a period of 10 years after his retirement, the same monthly amount shall be payable for the balance of such 10-year period to his beneficiary or, in case the beneficiary is deceased, in accordance with subsection (8) of this section as though no beneficiary had been named.

3. A decreased retirement benefit which shall be payable during the joint lifetime of both the member and his joint annuitant and which shall continue after the death of either during the lifetime of the survivor in the same amount.

4. A decreased retirement benefit which shall be payable during the joint lifetime of the member and his joint annuitant and which shall continue after the death of either during the lifetime of the survivor in an amount equal to 66% percent of the amount which was payable during the joint lifetime of the member and his joint annuitant.

(b) The benefit payable under any option stated above shall be the actuarial equivalent, based on tables adopted by the administrator for this purpose, of the amount to which the member was otherwise entitled.

(c) A member who elects the option in subparagraph 2. of paragraph (a) shall, in accordance with

subsection (8) of this section, designate a person to receive the benefits payable in the event of his death. Such person shall be the beneficiary of the member.

(d) A member who elects the option in subparagraph 3. or subparagraph 4. of paragraph (a) shall, on a form provided for that purpose, designate his spouse or other dependent to receive the benefits which continue to be payable upon the death of the member. Such person shall be the joint annuitant of the member. If, after benefits have commenced under the option in subparagraph 3. or subparagraph 4., the retired member desires to change his designation of a joint annuitant, he may do so only if his first designated joint annuitant is alive and can show evidence of good health which shall be substantiated by a statement from a physician licensed in this state. A member desiring to change his designation of a joint annuitant shall file with the division a notarized "change of joint annuitant" form. Upon receipt of a completed "change of joint annuitant" form, the division shall adjust the member's monthly benefit by the application of actuarial tables and calculations developed to ensure that the benefit paid is the actuarial equivalent of the benefit to which the member was otherwise entitled under the option in subparagraph 1. of paragraph (a), taking into consideration the benefits that have already been paid at the time the member elects to change his designation of a joint annuitant. The consent of a retired member's first designated joint annuitant to any such change shall not be required.

(e) The election of an option shall be null and void if either the member, designated beneficiary, or designated joint annuitant shall die before benefits commence.

(f) A member who elects to receive benefits under the option in subparagraph 3. of paragraph (a) may designate one or more qualified persons, either a spouse or other dependent, as his joint annuitant to receive the benefits after his death in whatever proportion he so assigns to each person named as joint annuitant. The division shall adopt appropriate actuarial tables and calculations necessary to ensure that the benefit paid is the actuarial equivalent of the benefit to which the member is otherwise entitled under the option in subparagraph 1. of paragraph (a).

(7) DEATH BENEFITS.—

(a) If the employment of a member is terminated by reason of his death prior to the completion of 10 years of creditable service, there shall be payable to his designated beneficiary the member's accumulated contributions.

(b) If the employment of a member is terminated by reason of his death subsequent to the completion of 10 years of creditable service but prior to his actual retirement, it shall be assumed that the member retired as of his date of death in accordance with subsection (1) of this section if eligible for normal retirement benefits, subsection (2) of this section if eligible for benefits payable for dual normal retirement or subsection (3) of this section if eligible for early retirement benefits, having elected in accordance with subsection (6) of this section, the optional form of payment most favorable to his beneficiary, as determined by the administrator. However, the

value of the benefit determined under this paragraph shall not be less than the value of the benefit determined under paragraph (a) of this subsection. The monthly benefit provided in this paragraph shall be paid to the member's beneficiary (spouse or other dependent) for his or her lifetime.

(c)1. The surviving spouse of any member killed in the line of duty may receive a monthly pension equal to one-half of the monthly salary being received by the member at the time of death for the rest of the surviving spouse's lifetime, unless said surviving spouse remarries, in which case the pension shall terminate on the date of remarriage; or, in lieu of the above, the surviving spouse may elect to receive the benefit provided in paragraph (b) of this subsection.

2. If the surviving spouse of a member killed in the line of duty dies prior to remarriage, the monthly payments which would have been payable to such surviving spouse had such surviving spouse lived shall be paid for the use and benefit of such member's child or children under 18 years of age and unmarried until the 18th birthday of the member's youngest child.

3. If a member killed in the line of duty leaves no surviving spouse but is survived by a child or children under 18 years of age, the benefits provided by subparagraph 1., normally payable to a surviving spouse, shall be paid for the use and benefit of such member's child or children under 18 years of age and unmarried until the 18th birthday of the member's youngest child.

(d) The surviving spouse or other dependent of any member whose employment is terminated by death shall, upon application to the administrator, be permitted to pay the required contributions for any service performed by the member which could have been claimed by the member at the time of his death. Such service shall be added to the creditable service of the member and shall be used in the calculation of any benefits which may be payable to the surviving spouse or other surviving dependent.

(e) Notwithstanding any other provisions in this chapter to the contrary, if any member who has accumulated at least 10 years of creditable service dies and the surviving spouse receives a refund of the accumulated contributions made to the retirement trust fund, such spouse may pay to the Division of Retirement an amount equal to the sum of the amount of the deceased member's accumulated contributions previously refunded plus interest at 4 percent compounded annually each June 30 from the date of refund to the date of repayment and receive the monthly retirement benefit as provided in paragraph (b).

(f) The designated beneficiary who is the surviving spouse or other dependent of a member whose employment is terminated by death subsequent to the completion of 10 years of creditable service but prior to actual retirement may elect to receive a deferred monthly benefit as if the member had lived and had elected a deferred monthly benefit, as provided in s. 121.091(5)(b), calculated on the basis of the average final compensation and creditable service of the member at his death and the age the member would have attained on the commencement date of

the deferred benefit elected by his beneficiary, paid in accordance with option 3 of s. 121.091(6)(a).

(8) **DESIGNATION OF BENEFICIARIES.**—Each member may, on a form provided for that purpose, signed and filed with the division, designate a choice of one or more persons, named sequentially or jointly, as his beneficiary who shall receive the benefits, if any, which may be payable in the event of his death pursuant to the provisions of this chapter. If no beneficiary is named in the manner provided above, or if no beneficiary designated by the member survives him, the administrator shall direct the payment of such benefits to the spouse of the deceased, if living. If the member's spouse is not alive at his death, any payments to which he was entitled shall be paid to the living children of the member or on their behalf if under 18 years of age. If no children survive, any remaining benefits shall be payable to the member's father or mother, if living; otherwise, to the legal representative of the member's estate.

(9) **EMPLOYMENT AFTER RETIREMENT; LIMITATION.**—

(a) Any person who has accepted and is receiving retirement compensation under this chapter may be employed by an employer only if the employer is unable to employ a qualified individual who has not retired, and such employment shall not affect the rights of such retired member under this retirement system, including, without limiting the general terms thereof, his right to receive his retirement allowance. Said total employment, by one or more employers, is limited and shall not exceed employment in excess of 500 hours during any one calendar year without suspending his retirement benefits as provided in paragraph (c) of this subsection, except when a longer period of employment is requested by the employer and approved by the administrator.

(b) The employment by an employer of any retiree of any state retirement system shall have no effect on the average final compensation or years of creditable service of such retiree, nor shall any deduction for retirement or social security contributions be made from the compensation received by such retiree with respect to such employment, unless such persons desire to utilize paragraph (d) of this subsection or paragraph (e) of subsection (4).

(c) Any person receiving retirement compensation under this chapter who is employed by an employer covered under this chapter in excess of 500 hours, as provided in paragraph (a) of this subsection, shall furnish timely notice in writing to the employer by which he is being or becoming employed and to the administrator of the fact that he is or would be receiving retirement compensation and employment compensation or salary at the same time. Should he fail to do so, and should he receive and retain both benefits and compensation in excess of that provided in paragraph (a) of this subsection, he shall forfeit all of the benefits of this chapter until full restitution has been made to the trust fund of all such excess benefits with interest at 10 percent compounded annually from date of receipt to date of repayment.

(d) Any person who has previously retired and who is holding public office on or after July 1, 1969, may have his membership in the Florida Retirement

System reinstated by making the necessary contributions to the retirement fund for the period of re-employment. Any person electing this alternative shall not be eligible for retirement compensation during the period of employment. During this period of employment, such contributions shall be included in the computation of the employee's average final compensation, and his years of creditable service.

(e) Any person who has retired and subsequently is elected or appointed to an elective public office which is covered by the Florida Retirement System and who does not elect to reinstate his membership in the Florida Retirement System as authorized in paragraph (d) shall continue to receive his retirement benefits in addition to the compensation of the elective office to which he is elected or appointed without regard to the time limitations otherwise provided in this subsection.

(10) **FUTURE BENEFITS BASED ON ACTUARIAL DATA.**—It is the intent of the legislature that future benefit increases enacted into law in this chapter shall be financed concurrently by increased contributions or other adequate funding, and such funding shall be based on sound actuarial data as developed by the actuary or state retirement actuary, as provided in ss. 121.021(6) and 121.192.

(11) A member who becomes eligible to retire and has accumulated the maximum benefit of 100 percent of average final compensation may continue in active service, and, if upon the member's retirement the member elects to receive a retirement compensation pursuant to subsection (2), subsection (6), or subsection (7), the actuarial equivalent percentage factor applicable to the age of such member at the time the member reached said maximum benefit and to the age, at said time, of the member's spouse shall determine the amount of benefits to be paid.

121.101 Cost-of-living adjustment of benefits.—

(1) The purpose of this section is to provide cost-of-living adjustments commencing January 1, 1971, to the monthly benefits payable to certain retirees who are 65 years old or older or who retire on disability, or to their beneficiaries, as provided herein.

(2) The terms used in this section are defined as follows:

(a) "Average cost-of-living index" as of an adjustment date means the average of the monthly consumer price index figures for the 12-month period from April 1 through March 31 immediately prior to the adjustment date, relative to the United States as a whole, issued by the Bureau of Labor Statistics of the United States Department of Labor.

(b) "Base benefit" means the total monthly benefit payable to a retiree or beneficiary in accordance with existing laws as of June 30, 1970, or date of retirement, if later.

(c) "Standard benefit" means the monthly benefit calculated in accordance with s. 121.091 as for normal retirement, early retirement, or disability retirement, and adjusted, if an optional form of benefit payment was elected by the member, in the same ratio as his original benefit payment was adjusted.

Such determination shall be made on the assumptions that:

1. Creditable service is the number of years of service for which benefits are provided by the system under which benefits are being paid; and

2. Average final compensation is the compensation base on which benefits being paid were determined.

(d) "Initial benefit" means the first monthly benefit payable to a retiree or beneficiary in accordance with the laws governing the determination of such benefit at time of retirement or earlier death.

(3) On January 1, 1971, the administrator shall adjust the benefit of all retirees who, as of June 30, 1970, had attained age 65 or who had retired on account of disability and the benefit of all beneficiaries of deceased members who would have attained age 65 as of June 30, 1970. The amount of benefit payable to such person for the 6-month period commencing January 1, 1971, shall be the greater of A and B when:

(a) A is the member's base benefit; and

(b) B is the sum of the member's initial benefit and a percentage of the member's standard benefit, such percentage to be equal to the percentage change in the average cost-of-living index over the period between the date of actual retirement and June 30, 1970.

(4) On July 1, 1971, and each July 1 thereafter through July 1, 1973, the administrator shall adjust the benefit of all retirees who, as of the date of adjustment, have attained age 65 or who have retired on account of disability and the benefit of all beneficiaries of deceased members who would have attained age 65 as of the adjustment date. The amount of benefit payable to such person for the 12-month period commencing on the adjustment date, shall be the greater of C and D when:

(a) C is the member's base benefit; and

(b) D is the sum of the member's initial benefit and a percentage of the member's standard benefit, such percentage to be equal to the percentage change in the average cost-of-living index over the period between the date of retirement and date of adjustment, ignoring changes in the cost-of-living index which are greater than 3 percent for any year after June 30, 1970. If a retiree or beneficiary of a deceased retiree qualifies for a cost-of-living adjustment within 12 months subsequent to the member's date of retirement, the percentage change in the average cost-of-living index used in the calculation of his initial adjustment shall be determined by interpolation from the average cost-of-living index for the two nearest adjustment dates. On and after July 1, 1974, the adjustment to retirement benefits provided in this subsection shall be applied only when a retiree first qualifies for and receives his cost-of-living adjustment and shall be considered his initial adjustment. After the initial adjustment has been applied to a retiree's retirement benefit, all subsequent cost-of-living adjustments shall be made as provided in subsections (5), (6), and (7).

(5) On July 1, 1974, and each July 1 thereafter, the benefit of each retiree and annuitant who has received his initial cost-of-living adjustment under this section shall be adjusted as follows: The adjusted

monthly benefit shall be the sum of the monthly benefit being received on June 30 immediately preceding the adjustment date and a percentage of this benefit, such percentage to be equal to the percentage change in the average cost-of-living index as of the date of adjustment from said index for the next preceding adjustment date. However, in no event shall the percentage for the annual cost-of-living adjustment exceed 3 percent for any annual adjustment date.

(6) On July 1, 1974, and each July 1 thereafter, the benefit of each retiree and annuitant whose benefit has been adjusted pursuant to s. 112.362 for 1 full year prior to the adjustment date shall be adjusted by using the procedures set forth in subsection (5).

(7) In no event shall a retiree's or annuitant's monthly retirement benefit be reduced by the application of this section below the benefit he was receiving as of July 1, 1970, or at date of retirement, if later, nor shall his benefit be reduced below the minimum monthly benefit provided him under s. 112.362.

(8) The base benefit, initial benefit, and standard benefit of a retiree who elected an optional form of benefit payment which provided for a percentage of the benefit to be continued to a beneficiary after his death shall be reduced at the death of the retiree by application of the stated percentage. In no case, however, shall the total monthly benefit payable to a retiree be less than his base benefit.

History.—s. 10, ch. 70-112; s. 8, ch. 74-302.

121.111 Credit for actual "wartime service."

(1) Creditable service of any member shall also include military service as defined in s. 121.021(20) if:

(a) The member was in the active employ of an employer immediately prior to such service and was granted official military leave of absence and is legally entitled to reemployment under the provisions of the Universal Military Training Service Act or other law applicable to such reemployment and if said member shall apply for and be reemployed within 1 year from his date of discharge or separation from active military service; and

(b) The member makes the required contributions for service credit during such period, based on his rate of monthly compensation as of his date of entry into wartime service plus 4 percent interest on such contributions compounded annually from the due date of the contribution until July 1, 1975, and 6.5 percent interest compounded annually thereafter until the payment is made to the proper retirement trust fund.

(2) Any member as defined in s. 121.021(12), who has military service as defined in s. 121.021(20) but is ineligible to claim same under subsection (1) of this section may receive creditable service if:

(a) The member has completed a minimum of 10 years creditable service of employment; and

(b) The member pays into the proper retirement trust fund 4 percent of gross salary, based on his first year of salary subsequent to July 1, 1945, that he has credit for under this system, he would have paid for this period of service had he been a member, plus 4 percent interest thereon, compounded annually

from date of first creditable service under this chapter until July 1, 1975, and 6.5 percent interest compounded annually thereafter until the payment is made to the proper retirement trust fund.

(3) Creditable service not to exceed 4 years under this subsection shall be credited as provided in s. 121.091(1).

History.—s. 11, ch. 70-112; s. 9, ch. 74-302.

History.—s. 2, ch. 72-267.
cf.—s. 121.052 Membership class of certain elected state officers.

121.113 Participation in system by spouses of certain elected officials.—

(1) In the event any elected official dies in office subsequent to July 1, 1970 who would have had 10 years of creditable service in any state-administered contributory retirement system had he lived to complete the term of office in which he was serving at the time of his death, his spouse may elect to leave his retirement contributions in the retirement trust fund and pay such additional amounts into said fund as the deceased member would have paid plus the matching contributions that would have been paid had he lived to complete 10 years of creditable service. Any spouse electing to make such additional contributions to any state retirement system shall be eligible to receive the monthly benefit that is payable to the surviving spouse of a member who dies after accumulating ten years of creditable service.

(2) If a deceased member's surviving spouse coming under the provisions of subsection (1) has previously received a refund of the member's contributions made to the retirement trust fund, such spouse may, at any time prior to July 1, 1972, pay to the Division of Retirement an amount equal to the sum of the amount of the deceased member's contributions previously refunded together with interest at 4 percent compounded annually on the amount of such refunded contributions from date of refund to date of payment plus such additional contributions as may be required under subsection (1) in order to qualify for 10 years of creditable service. Any surviving spouse electing to make the payments required herein shall be eligible to receive the monthly benefit that is payable to the surviving spouse of a member who dies after accumulating 10 years of creditable service.

History.—s. 1, ch. 72-267; s. 3, ch. 72-345.

121.121 Future service to include authorized leaves of absence.—Future service of any member as defined in s. 121.021(21) shall also include authorized leaves of absence if:

(1) The member has completed a minimum of 10 years of creditable service, excluding periods of leave of absence.

(2) The leave of absence is authorized in writing

by the employer of the member and approved by the administrator.

(3) The leave does not exceed 12 months at any one time nor 24 months in total during his employment.

(4) The member makes the required contributions for service credit during the leave of absence, which shall be 8 percent until January 1, 1975, and 9 percent thereafter of his rate of monthly compensation in effect immediately prior to the commencement of such leave for each month of such period, plus 4 percent interest until July 1, 1975, and 6.5 percent interest thereafter on such contributions, compounded annually from the due date of the contribution to date of payment.

121.125 Credit for workers' compensation payments.—A member of the retirement system created by this chapter who has been eligible or becomes eligible to receive workers' compensation payments for an injury or illness occurring during his employment while a member of any state retirement system shall be subject to the following provisions:

(1) If the member receives no salary payments for the period of time he receives workers' compensation payments, upon his return to active employment, he shall receive full retirement credit for the period for which workers' compensation payments were received. No employee or employer contributions shall be required in order for the member to receive retirement credit for such period. Such credit shall be based on the member's rate of monthly compensation immediately prior to his receiving workers' compensation payments; or

(2) If the member receives partial salary for the period of time he receives workers' compensation payments, the required employee contributions shall be deducted from his partial salary each pay period, and, upon his return to active employment, he shall receive full retirement credit for the period for which workers' compensation payments were received. Such credit shall be based on the member's rate of monthly compensation immediately prior to his receiving workers' compensation payments; or

(3) If the member is retained in full-pay status in lieu of receiving workers' compensation payments, the required employee contributions shall be deducted from his salary each pay period and he shall receive retirement credit for such period in the same manner he would have received credit had he not been injured or incapacitated.

Should a vacancy occur, it shall be filled by appropriate appointment by the Governor for the period of the unexpired term.

(3) No person shall serve as a member who holds an elective public office of the state or any political subdivision thereof or who holds any office in, or serves as an agent for, a political party. (3) The exercise by the Retirement Commission of the powers, duties, and functions prescribed by this section shall be reviewable by the District Court of Appeal in the appellate district where the Division of Retirement maintains its headquarters.

(4) The exercise by the Retirement Commission of the powers, duties, and functions prescribed by this section shall be reviewable by the judiciary on the grounds that:

(a) The commission did not afford a fair and equitable hearing in accordance with chapter 120;

(b) The decision of the commission was not in accordance with existing statutes or rules and regulations promulgated thereunder; or

(c) The decision of the commission was not based on substantial evidence.

The court shall not, however, substitute its judgment for that of the commission as to the weight of the evidence on any disputed finding of fact where the decision of the commission was supported by substantial evidence; nor shall the court substitute its judgment for that of the commission on an issue of discretion.

History.—s. 1, ch. 75-248; s. 5, ch. 78-95.

(a) A quorum shall consist of four members, and the concurring vote of four members shall be required to reach a decision, issue orders, and conduct the business of the commission.

(b) The commission shall elect a chairman and such other officers as it deems necessary. The chairman shall conduct the meetings and hearings of the commission and shall take whatever action is neces-

sary to ensure that the business of the commission is conducted in an equitable, orderly, and expeditious manner. All parties shall abide by the chairman's decisions, unless the chairman is overruled by a majority of members present.

(2) Legal counsel for the commission may be provided by the Department of Legal Affairs or by the Department of Administration, with the concurrence of the said commission, and shall be paid by the Department of Administration from the appropriate funds.

(3) The Division of Retirement shall furnish administrative and secretarial assistance to the commission and shall provide a place where the commission may hold its meetings.

(4) The members of the commission shall be paid an honorarium of \$50 for each day spent on the work of the commission. In addition to the honorarium, each member shall receive per diem and travel expenses as provided in s. 112.061. The official headquarters of each member, for purpose of calculating per diem and travel expenses, shall be his permanent home address. Members of a state-administered retirement system who are appointed to the commission shall have their work on the commission considered as part of their regular job assignments and shall not be required to take leave while engaged in the commission's business. The receipt of an honorarium shall have no effect on the retirement benefits of a retired member of the commission.

(2) No part of the principal or income of the trust fund created hereunder shall be used or diverted for purposes other than for the exclusive benefit of the member employees or their beneficiaries and for the payment of administrative cost.

(3) Forfeitures, if any, shall not be applied to increase the benefits any member employee would otherwise receive under this chapter.

(4) Upon termination or partial termination, upon discontinuance of contributions, abandonment, or merger, or upon consolidation or amendment of this chapter, the rights of all affected employees to benefits accrued as of the date of any of the foregoing events, or the amounts credited to the account of any member employee, shall be and continue thereafter to be nonforfeitable except as otherwise provided by law.

(5) No benefit hereunder shall exceed the maximum amount allowable by law for qualified pension plans under existing or hereafter-enacted provisions of the Internal Revenue Code of the United States.

(6) The provisions of this section are declaratory of the legislative intent upon the original enactment of this chapter and are hereby deemed to have been in effect from such date.

122.01 State and County Officers and Employees' Retirement System; consolidation; divisions.—

(1) Former chapter 121, the State Officers and Employees' Compulsory Retirement System, and former chapter 134, the County Officers and Em-

ployees' Compulsory Retirement System, are hereby consolidated and shall be known as the "State and County Officers and Employees' Retirement System."

(2) Any person who is employed after the effective date of this chapter, (July 1, 1955), by a county having a retirement system shall be a compulsory member of this retirement system unless he becomes a member of a local county retirement system at the time of employment.

(3) The rights of members of the retirement system established by former chapters 121 and 134, Florida Statutes, shall not be impaired, nor shall their benefits be reduced by virtue of any part of this chapter.

(4)(a) The State and County Officers and Employees' Retirement System shall be deemed to be divided into two divisions to be designated division A and division B.

1. Division A of this system shall consist of those members of the system who were employed prior to July 1, 1963, who did not elect to become members of division B; and ss. 122.01-122.13, 122.15, 122.16, 122.18 to 122.20, inclusive and ss. 122.34 to 122.35, inclusive shall control with respect to division A and membership therein.

2. Division B of this system, established for the purposes and within the contemplation of section 218(d)(6) of the Federal Social Security Act [42 USCA s. 418(d)(6)] for the purpose of affording to the members of said division B the opportunity to obtain Federal Social Security coverage, shall consist of those members of the system who elected to or were required to become members of division B, as hereinafter provided, and ss. 122.21-122.24, 122.26 to 122.321 shall control with respect to division B and membership therein.

(b) Notwithstanding any provision to the contrary contained in this chapter, s. 122.34 shall apply with respect to sheriffs and "high hazard" deputy sheriffs, as provided for herein, to the extent that the provisions of such sections are at variance or in conflict with the sections otherwise applicable, and with respect to members who are classified as "high hazard" members as hereinafter defined, the provisions of ss. 122.03, 122.08, 122.27, and 122.28 shall be subject to the provisions of s. 122.34.

(5) Notwithstanding any provision contained herein to the contrary, the provisions of this chapter relating to age for retirement under s. 122.08 shall be subject to amendment or modification by subsequent legislation at any time and all other provisions of this chapter relating to the administration of the system or to the duties, rights, privileges, requirements, and benefits of those persons who become members on or after July 1, 1963, shall be subject to amendment, modification, deletion or substitution by act of the 1965 Legislature of the state and all such legislation shall apply retroactively to July 1, 1963, with respect to those persons who become members on or after July 1, 1963; provided, however, that such legislation shall not set the age for retire-

ment, as specified in s. 122.08(1) to exceed the age of 65 years, nor shall such legislation affect any benefit which becomes payable to, or with respect to, such members prior to July 1, 1965.

History.—ss. 1, 25, 26, ch. 29801, 1955; s. 1, ch. 57-382; ss. 1, 2, ch. 63-555; s. 1, ch. 67-447; s. 1, ch. 69-127; s. 28, ch. 71-355.

122.02 Definitions.—The following words and phrases as used in this chapter shall have the following meaning unless a different meaning is plainly required by the context:

(1) "State and county officers and employees" shall include all full-time officers or employees who receive compensation for services rendered from state or county funds, or from funds of drainage districts or mosquito control districts of a county or counties, or from funds of the State Board of Administration or from funds of closed bank receivership accounts or from funds of any state institution or who receive compensation for employment or service from any agency, branch, department, institution or board of the state, or any county of the state, for service rendered the state or county from funds from any source provided for their employment or service regardless of whether the same is paid by state or county warrant or not; provided that such compensation in whatever form paid shall be specified in terms of fixed monthly salaries by the employing state or county agency or state or county official and shall not include amounts allowed for professional employees for special or particular service or for subsistence or traveling expenses; provided further the division shall prescribe appropriate procedure for contribution deduction out of such compensation in accordance with the provisions of this chapter, provided further that such officers and employees defined herein shall not include those officers and employees excepted from the provisions by s. 122.18 of this law.

(2) "Average final compensation" shall mean the average salary of the 10 best contributing years of the last 15 years prior to retirement, or the career average since July 1, 1945, whichever is greater. A year shall be 12 running months. In the event that an officer or employee has not contributed to the retirement trust fund for at least 10 years, then the average final compensation shall mean the average salary of the last 10 years' service.

(3) "Salary" shall mean the fixed monthly compensation paid officers and employees, and where officers' or employees' compensation is derived from fees set by statute, salary shall be the total cash remuneration received from such fees. Under no circumstances shall salary include fees paid professional persons for special or particular services.

(4)(a) In determining the aggregate number of years of service of any officer or employee, the time of military service between 1939 and 1946 by the employee on leave of absence shall be added to the years of state or county service. Credit for any other military service shall not exceed 4 years; provided that those individuals who were employed by the War Manpower Commission in Florida (or on military leave from the War Manpower Commission) prior to November 16, 1946, by the National Reemployment Service in Florida subsequent to June 30, 1933, the Florida State Employment Service subsequent to

June 30, 1935, or in the readjustment allowance or employment service departments of the Veterans' Administration in Florida between July 1, 1944 and January 1, 1950, and who continued in employment with the state or any county without more than one interruption in the performance of service, this interruption not to exceed 5 years, shall be entitled to credit for continuous service for all such employment with the named agency or department, and shall have such time added to their aggregate number of years of service; provided further, that any such employee claiming such credit shall pay into the State and County Officers and Employees' Retirement Trust Fund an amount equivalent to the amount which would have been placed in the fund had such employee been paying into the fund from July 1, 1945, on the basis of the wages paid to such employee by the Federal Government, plus interest thereon at the rate of 3 percent compounded annually until July 1, 1975, and thereafter at the rate of 6.5 percent interest compounded annually until date of payment; and provided further, that such persons shall furnish proper proof from the governmental agency showing the payment of wages for such service and that such persons are not claiming and have not been allowed credit for such service in a federal or any other retirement system, except those persons formerly with the War Manpower Commission who, prior to 1961, received federal service credit. Leave of absence shall be construed to cover any officer or employee of the state or county who was serving as such during the calendar year of 1940, or any time subsequent thereto, and who resigned his employment in time of war or national emergency to enter military service and who thereafter returned to his former employment with the state or county as soon as possible after release from military service.

(b) Any person claiming prior service credit under the provisions of this subsection shall pay into the State and County Officers and Employees' Retirement Trust Fund a contribution equal to 5 percent of the earnings received during the period being claimed, plus 3 percent interest thereon compounded annually, such interest to commence and run from July 1, 1945, with respect to service prior thereto and from dates of employment with respect to service subsequent to June 30, 1945, and such interest shall continue to be figured at the rate of 3 percent until July 1, 1975, on which date and thereafter such interest shall be figured at the rate of 6.5 percent interest, compounded annually until date of payment.

(5) If compensation for accumulated annual leave is due and payable and is paid to the surviving spouse and the necessary contribution is made to the retirement trust fund, time for accumulated annual leave, not to exceed 30 working days, shall be added to the aggregate number of years service and to the member's age, provided such time is needed to make the member eligible for retirement benefits at the time of death, in which event the retirement benefits shall be computed on the basis of the retirement age specified in ss. 122.08(1) and 122.08(2)(a) if the member died prior to July 1, 1963, or on the basis of a retirement age of 65 years if the member died on or

after July 1, 1963. Otherwise aggregate number of years of service shall mean the total number of years, and fractional parts of years, of service of any officer or employee omitting intervening years and fractional parts of years, when such officer or employee may not be employed by the state or county. Provided that any nonacademic employee of a school board shall receive a full year's service credit for all years under the following conditions:

(a) Provided all necessary contributions have been made to the retirement trust fund.

(b) Provided the employee is employed and receives salary for the full school year.

(6) "Division" means the Division of Retirement of the Department of Administration.

122.03 Contributions; participants; prior service credit.—

(1)(a) From and after July 1, 1955, the officer or board paying salaries to officers or employees entitled to the benefits of this law shall deduct 6 percent from each installment of salary of each officer or employee so long as such officer or employee shall hold office, or be employed and said amount so deducted shall be deposited in a special trust fund hereby established in the state treasury, to be known as the "State and County Officers and Employees' Retirement Trust Fund." Provided further, whenever any county now or hereafter authorized by law to take over and perform the functions of a municipality, exercises such power and takes over functions heretofore performed by a municipality, and as a result thereof municipal employees become county employees and are paid salaries from county funds, such employees who are members and continue to be members of a municipal retirement system shall not be eligible to participate in the State and County Officers and Employees' Retirement Trust Fund. Such employees, whose pension or retirement rights are otherwise preserved, who by merger, transfer or assignment of governmental units or functions, become county employees, shall not lose their municipal pension or retirement rights, or any reserves accrued to their benefit during their period of employment with a municipality and the county is authorized to pay into such municipal retirement system during the period that such employees remain as county employees the sums of money previously paid by the municipality for the benefits of such employees, and may make appropriate deductions from the employees' salaries to preserve their retirement benefits. Provided further, such employees who by merger, transfer or assignment of government units or functions, become county employees shall have 6 months from the date they become county employees to elect to remain in the retirement system of which they were members as municipal employees or become compulsory members of the State and County Officers and Employees' Retirement System. Such employees becoming compulsory members of the State and County Officers and Employees' Retirement System shall be classed as new members of the State and County Officers and Employees' Retirement System and any service ren-

dered by such employees as municipal officers or employees, prior to becoming compulsory members of the State and County Retirement System, shall not be allowed.

(b) This subsection shall not apply to members covered under s. 122.32, when transferred to state employment by statute on or after July 1, 1967. Should such employees be transferred by statute, they shall be transferred from division A to division B with service credit under division A up until date of transfer and service credit under division B thereafter.

(2) Any officer or employee who held office or was employed by the state or a county of the state on July 1, 1945 or October 1, 1950 and has been holding office or has been continuously employed from April 1, 1955:

(a) May receive credit for prior service rendered subsequent to 1945;

(b) Credit for service rendered prior to July 1, 1945 shall be continuous except that one period of absence not more than 5 years shall be allowed, and in computing such service credit, the period of absence shall not be creditable service.

(c) Provided any person receiving prior service credit under (a) or (b) pays into the retirement trust fund the amount he would have paid had he been a member since July 1, 1945, plus interest compounded annually from date of service to date of payment at the rate of 3 percent for any period of time before July 1, 1975, and at the rate of 6.5 percent compounded annually for any period of time after and including July 1, 1975; however, no officer or employee shall make contributions under this section for less than 10 years or for his total service being claimed, whichever is less.

(3) Any officer or employee claiming prior service under subsection (2) of this section shall make the required payment on or before the time of actual retirement.

(4) Any officer or employee who formerly rejected the provisions of the retirement law may elect to become a member of the retirement system at any time. Any person becoming a member under this subsection shall not receive any prior service credit.

(5) Any state or county officer or employee who prior to becoming a state or county officer or employee was a member of the Department of Public Safety Pension Fund, and who is not receiving retirement benefits under said fund, shall be a compulsory member of the State and County Officers and Employees' Retirement System, and if any such state or county officer or employee has not received a refund from the Department of Public Safety Pension Fund, the amount he has paid into said fund, plus the amount the state has paid into said fund to match the employee's payment, shall be transferred from the Department of Public Safety Pension Fund to the State and County Officers and Employees' Retirement Trust Fund, or if such person has received a refund from the Department of Public Safety Pension Fund, then any such state or county officer or employee shall, within 24 months from the time such person becomes a state or county officer or employee, or within 24 months from July 1, 1963, whichever is the later date, pay into the State and

County Officers and Employees' Retirement Trust Fund 5 percent of the salary he has received from the Department of Public Safety, beginning with July 1, 1945, to June 30, 1955, inclusive and from July 1, 1955, 6 percent of the salary he has received from the Department of Public Safety, plus 3 percent per annum interest thereon. Thereupon the total time spent with the Department of Public Safety since its creation in chapter 19551, Acts of 1939, shall be added to and computed with such person's service as a state or county officer or employee. No state or county officer or employee who is receiving benefits under the Department of Public Safety Pension Fund shall be eligible to become a member of the State and County Officers and Employees' Retirement Trust Fund.

(6) Any officer or employee who held office or was employed by the state or a county of the state continuously from May 1, 1959, and who has not previously received credit for, or is not eligible to claim credit for, prior years of service under subsection (2); or any officer or employee who holds office or is employed by the state or a county of the state on June 1, 1961, and is continuously employed; or any officer or employee who holds office or is employed by the state or county of the state after June 1, 1961, and who is continuously employed for 3 years, during which period of time no back payments may be made:

(a) May claim credit for all prior years of service under the conditions hereinafter set forth.

(b) Credit for service prior to July 1, 1955, may be allowed, provided a contribution of 5 percent of all salary received in the period being claimed, plus interest compounded annually from date of service to date of payment at the rate of 3 percent for any period of time before July 1, 1975, and at the rate of 6.5 percent for any period of time after and including July 1, 1975, is made to the State and County Officers and Employees' Retirement Trust Fund on or before the time of actual retirement.

(c) Credit for service subsequent to July 1, 1955, may be allowed, provided a contribution of 6 percent of all salary received in the period being claimed, plus interest compounded annually from date of service to date of payment at the rate of 3 percent for any period of time before July 1, 1975, and at the rate of 6.5 percent for any period of time after and including July 1, 1975, is made to the State and County Officers and Employees' Retirement Trust Fund on or before the time of actual retirement.

(d) Prior service allowance may be made only for those periods in which state or county records of service and salary are available, or at least three affidavits and such other information as might be required by the division to meet the provisions of this law.

(7) A member of the retirement system created by this chapter who has been eligible or becomes eligible to receive workers' compensation payments for an injury or illness occurring during his employment while a member of any state retirement system shall be subject to the following provisions:

(a) If the member receives no salary payments for the period of time he receives workers' compensation payments, upon his return to active employ-

ment, he shall receive full retirement credit for the period for which workers' compensation payments were received. No employee or employer contributions shall be required in order for the member to receive retirement credit for such period. Such credit shall be based on the member's rate of monthly compensation immediately prior to his receiving workers' compensation payments;

(b) If the member receives partial salary for the period of time he receives workers' compensation payments, the required employee contributions shall be deducted from his partial salary each pay period, and, upon his return to active employment, he shall receive full retirement credit for the period for which workers' compensation payments were received. Such credit shall be based on the member's rate of monthly compensation immediately prior to his receiving workers' compensation payments; or

(c) If the member is retained in full-pay status in lieu of receiving workers' compensation payments, the required employee contributions shall be deducted from his salary each pay period, and he shall receive retirement credit for such period in the same manner by which he would have received credit had he not been injured or incapacitated.

(8) Any widow of a county official or former county official, who was formerly employed full time in the office of the county official and who is presently employed by the said county official or is a county official of any such county and who did not receive compensation for a period of more than 10 years as such employee, may receive credit for retirement purposes as provided for in this chapter by:

(a) Contributing to the said retirement trust fund on a salary computed on the basis of one-third of the compensation received by the said county official for the period of time the said employee did not receive any compensation, and interest on said contribution shall be paid at the rate of 3 percent per annum from July 1, 1945.

(b) Submitting affidavits from one assistant auditor general and two county officials or former county officials from any such county to substantiate said employment.

(9) The surviving spouse or other dependent of any member whose employment is terminated by death shall, upon application to the director of the Division of Retirement of the Department of Administration, be permitted to pay the required contributions for any service performed by the member which could have been claimed by the member at the time of his death. Such service shall be added to the creditable service of the member and shall be used in the calculation of any benefits which may be payable to the surviving spouse or other surviving dependent.

122.04 Compulsory participation.—The provisions of this law shall be compulsory as to all persons who enter the employment of the state or county of the state on or after July 1, 1947, and there shall be deducted from the salary of every officer and employee who thereafter enters the employment of the

state or county of the state 6 percent as provided for in s. 122.03. All persons entering the service of the state or county of the state after July 1, 1947 shall be considered new employees or new officers and no prior service of such employees or officers shall be computed as part of their aggregate number of years of service under this law, except employees in military service on leave of absence who return immediately from military service to the service of the state or county of the state. Provided further that any person who is employed after the effective date of this chapter by a county having a retirement system shall be a compulsory member of this retirement system unless he becomes a member of its local retirement system.

History.—s. 4, ch. 29801, 1955.

122.05 Legislator services included.—

(1) The aggregate days of service heretofore or hereafter rendered the State Legislature as a member of the Senate or House of Representatives by any participants of the State and County Officers and Employees' Retirement System shall be computed as a part of the aggregate years of state or county service of such participant in said retirement system, and it shall be the duty of state officials administering the provisions of said system to allow any such participant such legislative service, together with other service rendered by such participant to the state or county.

(2) The division and state officials administering said retirement system shall make the contribution deductions required by law from the compensation hereafter received by any of the said participating members of the Legislature for service rendered the State Legislature in the same manner as in the case of other state employment.

(3) Any member of the Legislature on the effective date of this chapter may claim credit for all prior service as such member by paying into the State and County Officers and Employees' Retirement Trust Fund the required amount as computed by the division, plus 3 percent interest compounded annually until July 1, 1975, and thereafter at the rate of 6.5 percent interest compounded annually until date of payment and upon making such payment shall be entitled to receive credit for his full terms as such legislator. Provided further that any member of the Legislature who previously had vested rights under the retirement law would not have his benefits accumulated at the time he takes office as such legislator reduced by virtue of such service as a legislator.

(4) Any member of the Legislature who had vested rights under the retirement law, prior to becoming a member of the Legislature, may use the average salary of the best 10 years of the last 15 years of creditable service earned prior to becoming a member of the Legislature.

(5) Any member of the Legislature who is a member of any state and county retirement system on the effective date, or any future member of the Legislature, may pay into any state and county retirement trust fund, based on his prior or future service, 45 percent of his salary for the first 10 years of service, 60 percent of his salary for the second 10 years, and 75 percent of his salary for the third 10 years, said

salary to be considered during his total service, \$100 per month. In computing the retirement benefit for such members of the Legislature, the average final compensation shall be the amount that a 6-percent contribution would have applied to produce the contribution required above.

122.051 Eligibility of retired state employee for Legislature; compensation.—Any retired state employee who is presently drawing retirement benefits under any state retirement system may, as any other citizen, serve in the Legislature without affecting in any way his retirement status or the receipt of retirement funds while a member of the Legislature. Such person may be paid the salary of a legislator, and per diem and mileage in connection with his official legislative duties in addition to his retirement benefits during his term of legislative service except that service as a legislator after retirement shall not increase retirement benefits.

History.—s. 1, ch. 65-476.

122.06 Legislative employee services included.—

(1) Aggregate days of attaché service heretofore or hereafter rendered the State Legislature by any participant of the State and County Officers and Employees' Retirement System shall be computed as a part of the aggregate years of state service of such participant in said retirement system, and it shall be the duty of state officials administering the provisions of said system to allow any such participant such legislative attaché service, together with other service rendered by such participant to the state or county.

(2) The division and other state officials administering said retirement system shall make the contribution deductions required by law from the compensation hereafter received by any of the said participating attaches for service rendered the State Legislature in the same manner as in the case of other state employment.

(2) All boards of hospital districts and county hospital corporations who now have officers and employees participating in the State and County Officers and Employees' System will continue to have such coverage as provided by this chapter. History.—ss. 1-4, ch. 57-47; s. 1, ch. 67-612.

122.07 Seasonal state employment included; time limit and procedure for claiming.—

(1) Any seasonal state employee who works for and draws compensation from the state, or any of its departments, for a period of more than 6 months during the fiscal year, that is, from July 1 of any year to June 30 of the following year, inclusive, but who works the remainder or a part of such fiscal year in the same or a similar capacity for another state or department thereof, may receive credit for the actual time employed by another state or department thereof, provided that such employee shall comply with the conditions hereinafter specified.

(2) Any state employee in the classification set forth in s. 122.01 may elect to receive credit as a state employee under the State and County Officers and Employees' Retirement System and shall thereupon within 30 days after the end of each fiscal year file with the division upon a form to be provided by the division a statement under oath stating his name and permanent address within this state; the nature of his employment in the state during said fiscal year, giving the dates of commencement and termination thereof; the nature of his work within the state, together with his compensation from the state during said period, together with a statement that he was employed in employment of the same character out of the state during the remainder of such fiscal year; and such other information as may, in the opinion of the division, be necessary or appropriate in the carrying out of this section. Such statement shall be accompanied by a cash payment to the division by such employee of an amount equal to 6 percent, plus the state's percentage of contribution, of the salary drawn by such employee during his last full month of employment by the state, or any department thereof, for each month during said fiscal year for which such employee was not employed by the state, or any department thereof, but was employed by some other state. The division shall thereupon examine said statement, and if the same complies with this law, the division shall thereupon deposit said payment in said retirement trust fund and shall advise such person that he is entitled to credit for said additional contribution under said State and County Officers and Employees' Retirement System. The fiscal year herein referred to shall be from July 1 to June 30 of the succeeding calendar year.

(3) If such person fails, or does not elect, to file said statement and make said tender within 30 days after the end of such fiscal year, such employee shall forfeit any right to credit for such time of unemployment in Florida.

(4) Notwithstanding any other provision of this section, any member who would have been entitled to receive credit under this section had such member claimed such credit within the time prescribed in subsection (2) may receive credit under this section for any period to which such member would have been so entitled if such member files, prior to July 1, 1979, the required statement and cash payment,

plus interest compounded annually from the date such statement was required to have been filed under subsection (2) to the date of payment at the rate of 3 percent for any period of time before July 1, 1975, and at the rate of 6.5 percent for any period of time after June 30, 1975; provided however, that members purchasing out-of-state service pursuant to this section shall not claim such service in any other retirement system.

122.08 Requirements for retirement; classifications.—There shall be two retirement classifications for all state and county officers and employees participating herein as hereafter provided in this section:

(1) Any state or county officer or employee who has attained normal retirement age, which shall be age 60 for persons who had become a member prior to July 1, 1963, and age 62 for persons who had or shall become a member on or after July 1, 1963, and has accumulated at least 10 years' service in the aggregate within the contemplation of this law, and who has made or makes contributions to the State and County Officers and Employees' Retirement Trust Fund for 5 or more years as prescribed in this law, may voluntarily retire from office or employment and be entitled to receive retirement compensation, the amount of which shall be 2 percent for each year of service rendered, based upon the average final compensation, payable in equal monthly installments, upon his own requisition. Requisition requirements shall be set by the division.

(2)(a) Any state or county officer or employee who has attained the age of 55 or more and has accumulated at least 10 years' service in the aggregate within the contemplation of this law and who has made or makes contributions to the State and County Officers and Employees' Retirement Trust Fund for 5 or more years as prescribed by this law but who is not eligible to retire in accordance with subsection (1) may elect to retire and receive a reduced benefit, which would be the actuarial equivalent of the benefits provided in subsection (1).

(b) Any county officer or employee who has served as sheriff or a full-time deputy sheriff for the last 10 years or more of his employment and has attained the age of 50 or more and accumulated at least 10 years' service in the aggregate within the contemplation of this law, and who has made or makes contributions to the State and County Officers and Employees' Retirement Trust Fund for 5 or more years, as prescribed by this law, but who is not eligible to retire in accordance with subsection (1) may elect to retire and receive a reduced benefit, which would be the actuarial equivalent of the benefits provided in subsection (1).

(3) Any state or county officer or employee shall have the right at any time prior to receipt of his first monthly installment of retirement compensation to elect to receive a reduced retirement compensation with the provisions that if such officer or employee dies after retirement compensation installments have commenced the excess if any of his total contributions made to the retirement trust fund, without interest, over the total retirement compensation re-

ceived by him shall be paid in accordance with the beneficiary designation of this law. The amount of such reduced retirement compensation shall be the actuarial equivalent of the amount of such retirement compensation otherwise payable to him.

(4) Any state or county officer or employee shall have the right at any time prior to receipt of his or her first monthly installment of retirement compensation to elect to receive a reduced retirement compensation with the provision that the surviving spouse shall continue to draw such reduced retirement compensation, or one-half thereof if so designated, so long as such spouse shall live. The amount of such reduced retirement compensation shall be the actuarial equivalent of the amount of such retirement compensation otherwise payable such officer or employee. Any state or county officer or employee who becomes eligible for retirement and continues to hold office or be employed shall be construed to have selected the option herein which will afford the surviving spouse the greatest amount of benefits. Should such officer or employee die before retiring, his surviving spouse shall be entitled to receive either the accumulated contributions of such officer or employee at the date of death or the reduced retirement compensation to which the surviving spouse would have been entitled under such option, calculated on the assumption that such officer or employee retired on the date of his death; provided, that for all those persons who become members of the retirement system on or after July 1, 1963, the amount of retirement compensation otherwise payable to the member at his date of death shall be determined on the basis of a retirement age of 62 years. Any officer or employee shall have the right at the time of retirement to change the option so provided; and, should the option be changed or not at the time of retirement, such option shall be effective immediately upon retirement and thereafter may not be revoked.

(5) Tables for computing the actuarial equivalent shall be approved by the division.

(6) Any person retiring under the disability provision of this chapter shall not be entitled to the options of subsection (4).

(7) No state or county official or employee who has a shortage in his accounts, as certified by the auditor general, may retire or receive any benefits under this chapter so long as such shortage exists.

(8) Any member of the retirement system whose rights have been preserved under s. 122.01(3), and who has had 30 years of service may exercise the option provided for in subsection (4) as it applies to persons who are eligible for normal retirement benefits.

(9) Notwithstanding any other provision in this chapter to the contrary, the following provisions shall apply to any officer or employee who has accumulated at least 10 years of service and dies;

(a) If the deceased member's surviving spouse has previously received a refund of the member's contributions made to the retirement trust fund, such spouse may pay to the division an amount equal to the sum of the amount of the deceased member's contributions previously refunded and interest at 3 percent compounded annually on the amount of

such refunded contributions from the date of refund until July 1, 1975, and thereafter at the rate of 6.5 percent interest compounded annually to the date of payment to the division, and by so doing be entitled to receive the monthly retirement benefit provided in paragraph (c).

(b) If the deceased member's surviving spouse has not received a refund of the deceased member's contributions, such spouse shall, upon application to the division, receive the monthly retirement benefit provided in paragraph (c).

(c) The monthly benefit payable to the spouse described in paragraphs (a) or (b) shall be the amount which would have been payable to the deceased member's spouse, assuming that the member retired on the date of his death and had selected the option in subsection (4) which would afford the surviving spouse the greatest amount of benefits, such benefit to be based on the ages of the spouse and member as of the date of death of the member. Such benefit shall commence on the first day of the month following the payment of the aforesaid amount to the division, if paragraph (a) is applicable, or on the first day of the month following the receipt of the spouse's application by the division, if paragraph (b) is applicable.

122.09 Disability retirement; medical examinations.—Whenever any officer or employee of the state or county of the state has service credit as such officer or employee for 10 years within the contemplation of this law, the last 5 years of which, except for a single break not to exceed 1 year, must be continuous, unbroken service and who is regularly contributing to the State and County Officers and Employees' Retirement Trust Fund and shall while holding such office or employment become permanently and totally disabled, physically or mentally, or both, from rendering useful and efficient service as such officer or employee, such officer or employee may retire from his office or employment, and upon such retirement he shall be paid, so long as his permanent and total disability continues, on his own monthly requisition, from the State and County Officers and Employees' Retirement Trust Fund hereinafter established, retirement compensation as provided in s. 122.08; provided that no officer or employee retiring under this section shall receive less than 50 percent of his average final compensation not to exceed \$75, provided further that the minimum benefits shall not apply to an officer or employee who has attained the age of 60 or is receiving disability payments from social security. No officer or employee of the state and county of the state shall be permitted to retire under the provisions of this section until examined by a duly qualified physician or surgeon or board of physicians and surgeons, to be selected by the Governor for that purpose, and found to be disabled in the degree and in the manner specified in this section. Any officer or employee retiring under this section shall be examined periodically by a duly qualified physician or surgeon or board of physicians and surgeons to be selected by the Governor for that purpose and paid from the retirement

trust fund herein provided for, at such time as the Department of Administration shall direct to determine if such total disability has continued and in the event it be disclosed by said examination that said total disability has ceased to exist, then such officer or employee shall forthwith cease to be paid benefits under this section. Reference to s. 122.08 is for the purpose of computing benefits only. Any person heretofore retired under this section shall be eligible to qualify for the minimum benefits provided herein; however, minimum benefits shall not be paid retroactively.

122.10 Separation from service; refund of contributions.—

(1) Should any officer or employee leave the service of the state before accumulating aggregate time of 10 years toward retirement, such officer or employee shall be entitled to a refund of 100 percent of his contributions made to the retirement trust fund without interest, provided however that any such officer or employee may leave such contributions in said retirement trust fund for a period not exceeding 5 years pending reemployment, and upon reemployment by the state or county within those 5 years receive credit for such prior service. Any such officer or employee who fails to be reemployed by the state or a county of the state within those 5 years shall be refunded 100 percent of his contributions to the retirement trust fund, without interest, and all prior service credit shall be forfeited should he be reemployed at a later date. Should any officer or employee who has 10 or more years service within the contemplation of this law leave the service of the state and county, such officer or employee may leave said contributions in the retirement trust fund and receive the same retirement benefits as provided for current employees in s. 122.08, provided however that such officer or employee shall have made contributions as required by this law, or such officer or employee may elect to accept a refund of 100 percent of his contributions to the fund, without interest. Any officer or employee who accepts such refund shall be forever barred from receiving prior service credit under the provisions of this law. No officer or employee who has received benefits under this law shall be entitled to a refund.

(2) Any former members of the state or county retirement systems established by former chapters 121 and 134, that terminated their service after 10 or more years of service and received a refund of 50 percent of their retirement contributions may, upon written request to the division, receive a refund of any balance credited to their account provided they are not members of the state and county retirement system under this chapter.

(3) Any person who hereafter elects to receive retirement benefits under s. 112.05, shall not be entitled to the retirement benefit of this chapter, except for the refund of his contributions to the retirement trust fund as provided in this section; likewise any person who elects to receive retirement benefits under this chapter shall thereby become ineligible to receive retirement benefits under s. 112.05.

(4) Should any officer or employee elect to re-

ceive a refund as provided in this section, his application for refund shall be submitted in the manner prescribed by the regulations adopted by the division and shall accompany the payroll certification, submitted to the division, on which he was last paid prior to termination. The division shall pay the entire refund due within 45 days after the first day of the month subsequent to receipt of such application for refund and said payroll certification.

(5) Notwithstanding any other provision in this chapter to the contrary, any officer or employee who has accumulated an aggregate of 25 or more years of service and terminates his employment and elects to receive a refund of his contributions made to the retirement trust fund in accordance with this section may, at any time prior to July 1, 1970, pay to the division an amount equal to the sum of: The amount of his contributions previously refunded and interest at 3 percent compounded annually on the amount of his refunded contributions from the date of refund to the date of payment to the division. Upon the payment of such amount, the former member of the retirement system shall be reinstated and shall receive the monthly retirement benefit to which he is entitled under this section, such benefit to commence on the latter of the first day of the month following the payment by the reinstated member of the aforesaid amount to the division or the date he otherwise would have been entitled to such benefits. The division, at its discretion, may require that such retirement benefits be paid under one of the optional forms of payment (described in s. 122.08) as chosen by the division.

122.12 Designation of beneficiary; death of participant; forfeiture of contributions after benefits paid; survivor benefits.—

(1) Any officer or employee may file, in writing, a designation of beneficiary and it shall be the duty of the division to refund 100 percent, without interest, of the contributions made to the retirement trust fund by such deceased officer or employee to such designated beneficiary. The officer or employee shall have the privilege of changing, in writing, the designated beneficiary at any time. Upon failure to designate a beneficiary, the refund shall be made to the persons in the same order as designated in s. 222.15, for wages due deceased employees. If the deceased officer or employee has received any benefits under this law, no refund shall be made unless such officer

or employee has elected to accept benefits under s. 122.08(3) or (4).

(2) Provided further any heir who received a refund under s. 10 of chapter 22938, Laws of 1945, or s. 10 of chapter 22831, Laws of 1945, shall be entitled to receive any accumulated retirement contributions credited to the deceased officer or employee's account.

At the end of each fiscal year, beginning with the fiscal year 1959-60, the administrative cost of the state and county retirement system for the fiscal year just ended shall be refunded to the General Revenue Fund from interest earned on investments made subsequent to June 30, 1959.

Such employment shall not affect the employee's right to receive retirement benefits, provided said total employment, by one or more employers, does not exceed employment in excess of 500 hours during any one calendar year, unless a longer period of employment is requested by the employer and approved by the Director of the Division of Retirement.

(2) The employment of any retiree referred to in subsection (1) shall have no effect on the average final compensation or years of creditable service of such retiree.

(3) Any retired person who is employed, as provided in subsection (1), in excess of 500 hours shall furnish timely notice in writing to the employer by

which he is being or becoming employed and to the Director of the Division of Retirement of the fact that he is, or will be, receiving retirement compensation and salary at the same time. The Director of the Division of Retirement shall cause such retiree's benefits to be suspended for such period of employment in excess of 500 hours in a calendar year. Should the retiree fail to notify the Director of the Division of Retirement as required by this section and should he receive and retain both benefits and compensation in excess of that provided in subsection (1), he shall forfeit all of the benefits of this chapter until full restitution has been made to the retirement trust fund of all such excess benefits with interest at 10 percent compounded annually from date of receipt to date of repayment.

(4) The provisions of this section shall also apply to any member who retired prior to July 1, 1972 and who is employed or becomes employed in a position covered by chapter 121. (1) An officer or employee who is a member of this system on June 19, 1957 or who becomes such a member after June 19, 1957, and prior to execution of the agreement in pursuance of affirmative referendum as hereinafter provided, may transfer to this division by electing to do so in writing filed with the administrator. While membership in division B shall date from the filing of such election with the administrator, for the purposes of contributions to the system and benefits to members under division B, membership in division B shall take effect upon the date of execution of the agreement.

(2) A person who becomes a member of this system after execution of the agreement shall become a member of division B of the system.

(3)(a) A person who is in a position covered by this system and who is not a member of this system but is eligible to become a member thereof shall, but only for the purposes of subsection 218(d) of the Social Security Act (other than paragraph (8) of said subsection), be regarded as a member of this system. If such person becomes a contributing member of this system after December 31, 1957, he shall become a member of division B as required by subsection (2) of this section. In addition he may, under the conditions prescribed by section 218(d) (6) (E) of the Social Security Act, and if still in a position covered by this system, obtain division B coverage effective January 1, 1956, or the date he first occupied a position covered by this system, whichever is the later, by filing a written request therefor with the administrator by December 1, 1959, and paying the contributions and interest incident to such coverage.

If such payment is made after July 1, 1970, the member shall be required to pay interest at the rate of 10 percent of the unpaid balance compounded annually each June 30 from July 1, 1972 to the date of repayment.

(4) Any highway patrolman who becomes disabled to the extent that he is no longer qualified for the highway patrol and is retired from the highway patrol on account of disability but is able to render useful and efficient service to the state may be employed by the state or a county of the state and upon such employment become a member of the state and county retirement system under division B. Any highway patrolman who has retired from the highway patrol and is subsequently employed by the state or a county of the state shall be eligible to participate under social security in the same manner as any other state or county employee.

The officer or board so withholding such percentage of salary shall without delay deposit the same in the State and County Officers and Employees' Retirement Trust Fund.

(2) The percentage of such salary which shall constitute the contribution of the member required for social security coverage as now or hereafter fixed by relevant federal statutes. The officer or board so withholding such percentage of salary shall deposit the same without delay in the Social Security Contribution Trust Fund.

(3) Any contributions made by a member of division B during the calendar years 1956 and 1957, for state and county retirement contributions, in excess of 4 percent of the member's total salary shall be returned to the member on the effective date of the member's retirement or applied to any shortage which may exist in the member's retirement account.

The estimated annual primary insurance amount of the member shall be determined by the administrator on the basis of the social security coverage in effect on the member's retirement date, assuming that payment of such primary insurance amount shall commence at

the later of the member's 65th birthday or actual age of retirement, and that the member earned his average final compensation in each year between his date of retirement and his 65th birthday for those members retiring prior to age 65.

122.34 Special provisions for certain sheriffs and full-time deputy sheriffs.—

(1)(a) In addition to sheriffs and full-time deputy sheriffs, the provisions of this section shall apply with respect to members who are officers or full-time employees of the state or the several counties of the state whose duties are to enforce the criminal laws of the state, except for those officers or full-time employees holding office or employed on or before July 1, 1963, who were then 55 years old or older and who elected in writing, and filed with the Comptroller within 90 days after July 1, 1963, their rejection to this section and except those officers or full-time employees, excluding present "high hazard" members, holding office or employed on or before July 1, 1967, who are then 55 years old or older and who elect in writing, filed with the Comptroller within 90 days after July 1, 1967, to reject this section, and such members who do not so elect to reject this section hereinafter shall be referred to as "high hazard" members.

(b) Only those members who are full-time criminal law enforcement officers or agents, as certified by the employing authority, who perform duties according to rule, order, or established custom as full-time criminal law enforcement officers or agents shall be certified to the division as "high hazard" members, and only such members will be approved by the division.

(c) The Division of Retirement of the Department of Administration shall make such rules and regulations as are necessary for the effective administration of the intent of this section.

(2) All "high hazard" members shall contribute 2.5 percent of each installment of salary, to the State and County Officers and Employees' Retirement Trust Fund, which percentage shall be in addition to the percentage required in s. 122.03, or in s. 122.27 whichever is applicable.

(3) Any "high hazard" member who has been classified within the contemplation of this section as a "high hazard" member for the last 10 years or more of his employment and who is serving as a "high hazard" member, and who has made the additional contributions to the State and County Officers and Employees' Retirement Trust Fund provided in subsection (2) for a period of not less than 5 years or who makes total additional contributions in amount equal to 5 years of additional contribution based on his then current rate of salary, may retire under s. 122.08(1) or s. 122.28, whichever is applicable, if the "high hazard" member has attained normal retirement age which shall be 55 for persons who had become a member prior to July 1, 1963, and age 57 for persons who had or shall become a member on or after July 1, 1963. For the purpose of estimating the annual primary insurance amount under social security coverage under s. 122.28(3) for such "high hazard" member, the administrator shall estimate the primary insurance amount as the amount the member shall be entitled to receive at the later of age 62 or his retirement age.

(4) Any "high hazard" member within the con-

templation of this section who has been classified as a "high hazard" member for the last 8 years or more of his employment, who is serving as a "high hazard" member, and who has made the additional contributions to the State and County Officers and Employees' Retirement Trust Fund provided in subsection (2) for a period of not less than 5 years or who makes total contributions in amount equal to 5 years of contributions based on his then current rate of earnings may retire under s. 122.08(2)(b) or s. 122.28, whichever is applicable, if the "high hazard" member has attained the age of 50 years or more and is not eligible to retire in accordance with the provisions of subsection (3).

(5) Any "high hazard" member who becomes eligible to retire under any other section of this chapter shall not receive a refund of the additional 2.5 percent contributions provided for in this section unless he requests in writing to the division a lump sum refund of all his contributions to the State and County Officers and Employees' Retirement Trust Fund in lieu of monthly retirement benefits. However, any "high hazard" member who changes position or is reclassified or otherwise becomes ineligible for classification as a "high hazard" member for any reason before retiring, or before becoming eligible to retire under any other section of this chapter shall lose all benefits under this section and may receive a refund of the additional 2.5 percent contribution without interest or leave the additional 2.5 percent contribution in the State and County Officers and Employees' Retirement Trust Fund pending reclassification as a "high hazard" member; provided further, should any member receive a refund and be reinstated as a "high hazard" member, he shall pay into the State and County Officers and Employees' Retirement Trust Fund the full amount refunded plus 3 percent interest compounded annually from date of refund until July 1, 1975, and thereafter at the rate of 6.5 percent interest compounded annually to date of repayment. Should such member apply for another refund before such payment is made, the interest on the first refund shall be deducted from the second refund, interest to be figured from date of first refund through date of second application for refund, at 3 percent interest compounded annually until July 1, 1975, and thereafter at the rate of 6.5 percent interest compounded annually.

(6)(a) The widow of any "high hazard" member hereafter killed in the line of duty shall receive a monthly pension equal to one-half the monthly salary drawn by the deceased member at the time of death for the rest of her life, unless she remarries, in which case the pension shall terminate at the date of her remarriage.

(b) Any sums of money which would have accrued to such widow had she lived until the 18th birthday of such "high hazard" member's youngest child shall accrue, share and share alike, for the use and benefit of such member's child or children under 18 years of age and unmarried during such minority. Such sums, as the same would have accrued to such widow, shall be paid to the legal guardian of the estate of such child or children, or either of them, during such minority to age 18 years.

(c) In determining the amount of pension to be

received under this section, the benefits received in the form of workers' compensation and social security shall be considered, and the total monthly compensation shall not exceed one-half of the salary received by the deceased "high hazard" member at the time of his death. Should such total compensation exceed one-half of the monthly salary drawn by the deceased member at the time of his death, the pension herein provided for shall be reduced by the amount of such excess.

(7) Any "high hazard" member who becomes totally disabled as a result of occupation while in the performance of duty shall be retired and shall receive, in addition to the award made to him under the Workers' Compensation Law, an annual pension payable monthly in an amount equal to not less than 45 percent of the annual salary of the member at the time of his disability, and he shall continue to receive the said pension so long as such disability exists.

(8) Any "high hazard" member who becomes partially disabled as a result of occupation while in the performance of duty shall be retired and shall receive, in addition to the award made to him under the Workers' Compensation Law, an annual pension payable monthly in an amount equal to not less than 35 percent of the annual salary of the member at the time of his disability, and he shall continue to receive the said pension so long as such disability exists.

(9) The term "total disability" shall be construed to mean any "high hazard" member who has been declared permanently totally disabled under the provisions of chapter 440 as a result of occupation while in the performance of duty.

(10) The term "partial disability" shall be construed to mean any "high hazard" member who has been declared permanently partially disabled under the provisions of chapter 440 as a result of occupation while in the performance of duty.

(11) No "high hazard" member shall be permitted to receive benefits under this section until examined by a duly qualified physician or surgeon, or board of physicians and surgeons, to be selected by the Governor for that purpose, and found to be disabled in the degree and in the manner specified in this section. At such time as the Department of Administration shall direct, any "high hazard" member receiving disability benefits under this section shall submit to a medical examination to determine if such disability has continued, and the cost of such examination shall be paid from the retirement trust fund herein provided for; and in the event it be declared by said examination that said disability has cleared, such member shall be ordered to return to active duty with the same rank and salary that he had at the time of disability. Any such member who shall fail to return to duty following such order shall forfeit all rights and claims under this law. Every "high hazard" member retiring under this provision shall be paid so long as his permanent total or partial disability continues, on his own requisition.

122.35 Funding.—

(1) Commencing July 1, 1967, for all state agencies and commencing October 1, 1967, for all other agencies with employees who are members under this chapter, former ss. 122.17 and 122.30(4) shall be of no further force and effect and each officer or board paying salaries to members and withholding contributions required of members under this chapter for purposes of providing retirement benefits and social security benefits to or on behalf of such members, shall budget, set aside and pay over to account B of the intangible tax trust fund, herein created, matching payments in the following specified amounts:

(a) An amount equal to the amount of member contributions paid to the State and County Officers and Employees' Retirement Trust Fund as specified in ss. 122.03 and 122.27 but excluding any additional contributions required of "high hazard" members under s. 122.34; and

(b) An amount equal to the amount of member contributions paid to the Social Security Contribution Trust Fund as specified in s. 122.27.

(2) The monthly payments required by subsection (1) shall be payable within 10 days after the first day of each calendar month after July 1, 1967, for all state agencies and October 1, 1967, for all other agencies. The state funds required to be paid hereunder shall be provided and paid from the sources as set forth in subsections (3) and (4).

(3) The appropriations provided each state agency, beginning with the 1967-69 biennium and each biennium thereafter, shall include sufficient amounts to pay the matching contributions for social security and retirement as required by this section and the matching contributions for retirement required of state agencies under s. 238.11(1)(a). No state agency, whether its funds are provided by state appropriation or not, shall employ any person or maintain any person on its payroll unless it has allotted for such person sufficient funds to meet these required payments.

(4) Effective October 1, 1967, the proceeds of the intangible tax collections of the state remaining after the payment of administrative expenses, commissions which are applicable, and other costs incident to its collection shall be set aside into an account designated as account B of the Intangible Tax Trust Fund, which account shall also receive all of the matching payments for retirement and social security remitted by each officer or board as provided in subsection (1). The amounts received and deposited into account B of the Intangible Tax Trust Fund are appropriated and shall be used for the following purposes and paid out on the priority basis as shown below:

(a) First, from the funds accumulated in account B there shall be transferred:

1. To the Social Security Contribution Trust Fund, an amount equal to the social security contributions remitted by each officer or board to said fund as specified in s. 122.27.

2. To the State and County Officers and Employees' Retirement Fund, an amount equal to the retirement contributions withheld from the salaries of members and remitted by each officer or board to

said fund as required by ss. 122.03 and 122.27, but excluding any additional contributions required of "high hazard" members under s. 122.34; provided, however, that during the 1967-69 biennium the amount transferred to said account shall not exceed the total amount received in account B from the various state and county agencies for retirement matching purposes.

(b) After the retirement and social security contributions of all members have been matched as provided in paragraph (a), the balance remaining in account B of the Intangible Tax Trust Fund shall be distributed as follows:

1. Each county shall receive each fiscal year ending June 30 an allocation in an amount equal to 55 percent of the total net intangible taxes collected and remitted to the Department of Revenue by the tax collector of the county during the prior fiscal year.

a. Commencing October 1, 1967, and every October 1 thereafter and continuing on the first day of each subsequent month through June 30 of each fiscal year each board of county commissions of the several counties of the state shall receive an allocation from account B of the Intangible Tax Trust Fund. This allocation shall not include the school boards of the several counties of the state. The amount of said monthly allocation shall be equal to the average amount required to be matched by the Intangible Tax Trust Fund for the corresponding months during the 1966-67 fiscal year as computed by the Comptroller, or one-twelfth of the Comptroller's estimate of the county's allocation, whichever is smaller, and an adjustment to reconcile the monthly allocations with the actual amount to be received pursuant to paragraph (b) 1. of this subsection, shall be made not later than 60 days after the end of the fiscal year.

b. Each county, county agency and school board shall pay all matching cost for retirement and social security as required by this act and s. 238.11(1), notwithstanding the provisions of any other law.

2. The balance remaining in account B of the Intangible Tax Trust Fund after the retirement and social security contributions have been matched and the allocations to each county have been paid as provided in this act, shall be paid over to the General Revenue Fund of the state.

(c) The amounts allocated to the several counties from account B of the Intangible Tax Trust Fund shall be paid by the Department of Revenue to the respective boards of county commissioners who shall deposit same in the general fund of the county, and may expend them for any lawful county purpose. These amounts may be used to assist any county officer or agency within the county including school boards to make the matching payments for retirement and social security as required by law. Provided, however, should the income of any constitutional fee officer in any year be insufficient to make the matching payments required by this act, the boards of county commissioners shall provide such fee officer sufficient funds from the allocation received under this law to make these required payments.

(d) Should any officer or board other than a state officer or board fail to make the retirement and so-

cial security contributions required herein, the Department of Revenue shall deduct the amount owed by the officer or board from the allocation accruing to the credit of the county affected, or the Department of Revenue shall deduct the amount owed from any other funds to be distributed by him to the officer or board using the procedure he shall deem most appropriate. The amounts so deducted shall remain in or be transferred to account B of the Intangible Tax Trust Fund for further distribution in accordance with this subsection.

(e) Should any officer or board other than a state officer or board, for whom the tax collector collects taxes, fail to make the retirement and social security contributions required by this act, the tax collector, at the request of the Department of Revenue and upon receipt of a certificate from him showing the amount owed account B by the officer or board, shall deduct the amount so certified from any taxes collected for the officer or board and remit the amount to the Department of Revenue for deposit in account B of the Intangible Tax Trust Fund.

(f) The boards of county commissioners of each county and the Department of Revenue, acting individually or jointly, are hereby authorized to file and maintain action in the courts of this state against any county agency to require it to remit any retirement or social security matching payments due account B of the Intangible Tax Trust Fund under the provisions of this law.

122.351 Funding by local agencies.—Commencing on July 1, 1969, all county and local agencies covered under the provisions of s. 122.35 shall accumulate and be responsible for the payment of social security and retirement matching costs as required under s. 122.35, from the intangible tax allocation of that county and any other source available to the local governmental units, except that all agencies, other than the school boards, shall be given credit for 50 percent of their 1967-1969 actual employer matching cost, actual cost being that cost in cash actually paid by the employer for matching retirement and social security into the fund by the agency for said biennium. The above credit of 50 percent shall be calculated by the director of the Division of Retirement.

(1) The purpose of this chapter is to provide pension benefits for the exclusive benefit of the member employees or their beneficiaries.

(2) No part of the principal or income of the trust fund created hereunder shall be used or diverted for purposes other than for the exclusive benefit of the member employees or their beneficiaries and for the payment of administrative cost.

(3) Forfeitures, if any, shall not be applied to increase the benefits any member employee would oth-

erwise receive under this chapter.

(4) Upon termination or partial termination, upon discontinuance of contributions, abandonment, or merger, or upon consolidation or amendment of this chapter, the rights of all affected employees to benefits accrued as of the date of any of the foregoing events, or the amounts credited to the account of any member employee, shall be and continue thereafter to be nonforfeitable except as otherwise provided by law.

(5) No benefit hereunder shall exceed the maximum amount allowable by law for qualified pension plans under existing or hereafter-enacted provisions of the Internal Revenue Code of the United States.

Such credit shall be based on the member's rate of monthly compensation immediately prior to his receiving workers' compensation payments;

(3)(a) No enumeration of powers herein shall be deemed exclusive or restrictive, but shall be deemed to incorporate all implied powers necessary or incident to carrying out such enumerated powers, including, specifically, authority to employ personnel, expend funds, enter into contractual obligations, and purchase or lease and sell or exchange real or personal property.

(b) The provisions of this section shall be liberally construed in order to effectively carry out the purpose of this section and to secure for the counties the broad exercise of home rule powers authorized by the State Constitution.

(4) The legislative and governing body of a county shall not have the power to regulate the taking or possession of saltwater fish, as defined in s. 370.01, with respect to the method of taking, size, number, season, or species. However, this subsection shall not be construed to prohibit the imposition of excise taxes by county ordinance.

(5)(a) To an extent not inconsistent with general or special law, the governing body of a county shall have the power to establish, and subsequently merge or abolish those created hereunder, special districts for any part or all of the county, including incorporated areas if the governing body of the incorporated area affected approves such creation by ordinance, within which may be provided municipal services and facilities from funds derived from service charges, special assessments, or taxes within such district only. Such ordinance may be subsequently amended by the same procedure as the original enactment.

(b) The governing body of such special district may be composed of representatives of both county

VII of the State Constitution.

(6)(a) The governing body of a municipality or municipalities by resolution, or the citizens of a municipality or county by petition of 10 percent of the qualified electors of such unit, may identify a service or program rendered specially for the benefit of the property or residents in unincorporated areas and financed from countywide revenues and petition the board of county commissioners to develop an appropriate mechanism to finance such activity for the ensuing fiscal year, which may be by taxes, special assessments, or service charges levied or imposed solely upon residents or property in the unincorporated area, by the establishment of a municipal service taxing or benefit unit pursuant to paragraph (q) of subsection (1), or by remitting the identified cost of service paid from revenues required to be expended on a countywide basis to the municipality or municipalities, within 6 months of the adoption of the county budget, in the proportion that county ad valorem taxes collected within such municipality or municipalities bears to the total amount of countywide ad valorem taxes collected by the county, or by any other method prescribed by state law.

(b) The board of county commissioners shall, within 90 days, file a response to such petition, which shall either reflect action to develop appropriate mechanisms or reject said petition and state findings of fact demonstrating that the service does not specially benefit the property or residents of the unincorporated areas.

(7) No county revenues, except those derived specifically from or on behalf of a municipal service taxing unit, special district, unincorporated area, service area, or program area, shall be used to fund any service or project provided by the county where no real and substantial benefit accrues to the property or residents within a municipality or municipalities.

125.0103 Ordinances and rules imposing price controls; findings required; procedures.—

(1)(a) Except as hereinafter provided, no county, municipality, or other entity of local government shall adopt or maintain in effect an ordinance or a rule which has the effect of imposing price controls

upon a lawful business activity which is not franchised by, owned by, or under contract with, the governmental agency, unless specifically provided by general law.

(b) The provisions of this section shall not prevent the enactment by local governments of public service rates otherwise authorized by law, including water, sewer, solid waste, public transportation, taxicab, or port rates.

(2) No law, ordinance, rule, or other measure which would have the effect of imposing controls on rents shall be adopted or maintained in effect except as provided herein and unless it is found and determined, as hereinafter provided, that such controls are necessary and proper to eliminate an existing housing emergency which is so grave as to constitute a serious menace to the general public.

(3) Any law, ordinance, rule, or other measure which has the effect of imposing controls on rents shall terminate and expire within 1 year and shall not be extended or renewed except by the adoption of a new measure meeting all the requirements of this section.

(4) Notwithstanding any other provisions of this section, no controls shall be imposed on rents for any accommodation used or offered for residential purposes as a seasonal or tourist unit, as a second housing unit, or on rents for dwelling units located in luxury apartment buildings. For the purposes of this section, a luxury apartment building is one wherein on January 1, 1977 the aggregate rent due on a monthly basis from all dwelling units as stated in leases or rent lists existing on that date divided by the number of dwelling units exceeds \$250.

(5) No municipality, county, or other entity of local government shall adopt or maintain in effect any law, ordinance, rule, or other measure which would have the effect of imposing controls on rents unless:

(a) Such measure is duly adopted by the governing body of such entity of local government, after notice and public hearing, in accordance with all applicable provisions of the Florida and United States Constitutions, the charter or charters governing such entity of local government, this section, and any other applicable laws.

(b) Such governing body makes and recites in such measure its findings establishing the existence in fact of a housing emergency so grave as to constitute a serious menace to the general public and that such controls are necessary and proper to eliminate such grave housing emergency.

(c) Such measure is approved by the voters in such municipality, county, or other entity of local government.

(6) In any court action brought to challenge the validity of rent control imposed pursuant to the provisions of this section, the evidentiary effect of any findings or recitations required by subsection (5) shall be limited to imposing upon any party challenging the validity of such measure the burden of going forward with the evidence, and the burden of proof (that is, the risk of nonpersuasion) shall rest upon any party seeking to have the measure upheld.

125.0104 Tourist development tax; procedure for levying; authorized uses; referendum; enforcement.—

(1) **SHORT TITLE.**—This section shall be known and may be cited as the "Local Option Tourist Development Act."

(2) **APPLICATION.**—The provisions contained in chapter 212, shall apply to the administration of any tax levied pursuant to this section.

(3) **TAXABLE PRIVILEGES; EXEMPTIONS; LEVY; RATE.**—

(a) It is declared to be the intent of the Legislature that every person who rents, leases, or lets for consideration any living quarters or accommodations in any hotel, apartment hotel, motel, resort motel, apartment, apartment motel, rooming house, tourist or trailer camp, or condominium for a term of 6 months or less is exercising a privilege which is subject to taxation under this section, unless such person rents, leases, or lets for consideration any living quarters or accommodations which are exempt according to the provisions of chapter 212.

(b) Subject to the provisions of this section, any county in this state may levy and impose a tourist development tax on the exercise within its boundaries of the taxable privilege described in paragraph (a), except that there shall be no additional levy under this section in any cities or towns presently imposing a municipal resort tax as authorized under chapter 67-930, Laws of Florida, and this section shall not in any way affect the powers and existence of any tourist development authority created pursuant to chapter 67-930, Laws of Florida. A county may elect to levy and impose the tourist development tax in a subcounty special district of the county. However, if a county so elects to levy and impose the tax on a subcounty special district basis, the district shall embrace all or a significant contiguous portion of the county, and the county shall assist the Department of Revenue in identifying the rental units subject to tax in the district.

(c) The tourist development tax shall be levied, imposed, and set by the governing board of the county at a rate of 1 or 2 percent of each dollar and major fraction of each dollar of the total consideration charged for such lease or rental. When receipt of consideration is by way of property other than money, the tax shall be levied and imposed on the fair market value of such nonmonetary consideration.

(d) The tourist development tax shall be in addition to any other tax imposed pursuant to chapter 212 and in addition to all other taxes and fees and the consideration for the rental or lease.

(e) The tourist development tax shall be charged by the person receiving the consideration for the lease or rental, and it shall be collected from the lessee, tenant, or customer at the time of payment of the consideration for such lease or rental.

(f) The person receiving the consideration for such rental or lease shall receive, account for, and remit the tax to the Department of Revenue at the time and in the manner provided for persons who collect and remit taxes under s. 212.03. The same duties and privileges imposed by chapter 212 upon dealers in tangible property, respecting the collection and remission of tax; the making of returns; the

keeping of books, records, and accounts; and compliance with the rules of the Department of Revenue in the administration of said chapter shall apply to and be binding upon all persons who are subject to the provisions of this section. However, the Department of Revenue may authorize a quarterly return and payment when the tax remitted by the dealer for the preceding quarter did not exceed \$25.

(g) The Department of Revenue shall keep records showing the amount of taxes collected, which records shall also include records disclosing the amount of taxes collected for and from each county in which the tax authorized by this section is applicable. These records shall be open to the public during the regular office hours of the Department of Revenue, as provided in s. 213.072.

(h) Collections received by the Department of Revenue from the tax, less costs of administration of this section, shall be paid and returned, on a monthly basis, to the county which imposed the tax, for use by the county in accordance with the provisions of this section. They shall be placed in the county Tourist Development Trust Fund of the respective county, which shall be established by each county as a condition precedent to receipt of such funds.

(i) The Department of Revenue, under the applicable rules of the Career Service Commission, is authorized to employ persons and incur other expenses for which funds are appropriated by the Legislature.

(j) The Department of Revenue shall promulgate such rules and shall prescribe and publish such forms as may be necessary to effectuate the purposes of this section.

(4) **ORDINANCE LEVY TAX; PROCEDURE.**—

(a) The tourist development tax shall be levied and imposed pursuant to an ordinance containing the county's tourist development plan prescribed under paragraph (c), enacted by the governing board of the county. A certified copy of the ordinance shall be furnished by the county to the Department of Revenue.

(b) At least 60 days prior to the enactment of the ordinance levying the tax, the governing board of the county shall adopt a resolution establishing and appointing the members of the county's Tourist Development Council, as prescribed in paragraph (e), and indicating the intention of the county to consider the enactment of an ordinance levying and imposing the tourist development tax.

(c) Prior to enactment of the ordinance levying and imposing the tax, the county's Tourist Development Council shall prepare and submit to the governing board of the county for its approval a plan for tourist development. The plan shall set forth the anticipated net tourist development tax revenue to be derived by the county for the 24 months following

the levy of the tax; the tax district in which the tourist development tax is proposed; and a list, in the order of priority, of the proposed uses of the said tax revenue by specific project or special use as the same are authorized under subsection (5). The plan shall include the approximate cost or expense allocation for each specific project or special use.

(d) The governing board of the county shall adopt the county's plan for tourist development as part of the ordinance levying the tax. After enactment of the ordinance levying and imposing the tax, the plan of tourist development may not be substantially amended except by ordinance enacted by an affirmative vote of a majority plus one additional member of the governing board.

(e) The governing board of each county which levies and imposes a tourist development tax under this section shall appoint an advisory council to be known as the ".....(name of county)..... Tourist Development Council." The council shall be established by ordinance and composed of nine members who shall be appointed by the governing board. The chairman of the governing board of the county shall be the chairman of the council. Two members of the council shall be elected municipal officials. Three members of the council shall be owners or operators of motels, hotels, or other tourist accommodations in the county and subject to the tax. Three members of the council shall be persons who are involved in the tourist industry and who have demonstrated an interest in tourist development, but who are not owners or operators of motels, hotels, or other tourist accommodations in the county and subject to the tax. All members of the council shall be electors of the county. The members of the council shall serve for staggered terms of 4 years. The terms of office of the original members shall be prescribed in the resolution required under paragraph (b). The council shall, from time to time, make recommendations to the county governing board for the effective operation of the special projects or for uses of the tourist development tax revenue and perform such other duties as may be prescribed by county ordinance or resolution. The council shall continuously review expenditures of revenues from the Tourist Development Trust Fund and shall receive, at least quarterly, expenditure reports from the county governing board or its designee. Expenditures which the council believes to be unauthorized shall be reported to the county governing board and the Department of Revenue. The governing board and the department shall review the council's findings and take appropriate administrative or judicial action to insure compliance with this section.

(5) **AUTHORIZED USES OF REVENUE.—**

(a) All tax revenues received pursuant to this section by a county imposing the tourist development tax shall be used by that county for the following purposes only:

(6) **REFERENDUM.—**

(a) No ordinance enacted by any county levying the tax authorized by this section shall take effect until the ordinance levying and imposing the tax has been approved in a referendum election by a majority of the electors voting in such election in the county or by a majority of the electors voting in the subcounty special tax district affected by the tax.

(c) If a majority of the electors voting on the question approve the levy, the ordinance shall be deemed to be in effect.

(d) In any case where a referendum levying and imposing the tax has been approved pursuant to this section and 15 percent of the electors in the county or 15 percent of the electors in the subcounty special district in which the tax is levied file a petition with the board of county commissioners for a referendum to repeal the tax, the board of county commissioners shall cause an election to be held for the repeal of the tax which election shall be subject only to the outstanding bonds for which the tax has been pledged.

(7) **AUTOMATIC EXPIRATION ON RETIREMENT OF BONDS.—**Anything in this section to the contrary notwithstanding, if the plan for tourist development approved by the governing board of the county, as amended from time to time pursuant to paragraph (4)(d), includes the acquisition, construction, extension, enlargement, remodeling, repair, or improvement of a publicly owned and operated convention center, sports stadium, sports arena, coliseum, or auditorium, the county ordinance levying and imposing the tax shall automatically expire upon the retirement of any bonds issued by the county for financing the same; however, nothing herein shall preclude that county from enacting an ordinance pursuant to the provisions of this section reimposing a tourist development tax, upon or following the expiration of the previous ordinance.

(8) **PROHIBITED ACTS; ENFORCEMENT; PENALTIES.—**

(a) Any person who is taxable hereunder who fails or refuses to charge and collect from the person

Any person who willfully violates any provision of this subsection shall be guilty of a misdemeanor of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(2) The bonds of each issue and other evidences of indebtedness shall be dated, shall mature at such time or times not exceeding 40 years from their date or dates, as may be determined by the board, and may be made redeemable before maturity, at the option of the county, at such price or prices and under such terms and conditions as may be fixed by the board prior to their issuance. Such bonds and

However, in the event such bonds or other evidences of indebtedness are sold at public sale pursuant to advertisement for sealed bids for their purchase, such bonds or other evidences of indebtedness shall bear interest at any rate or rates submitted by the lowest responsible bidder and approved by the board. The board shall determine the form of bonds or other evidences of indebtedness, including any interest coupons to be attached to such bonds, and the manner of execution, and shall fix the denomination or denominations thereof and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the state. In case any officer whose signature or a facsimile of whose signature appears on any bonds or coupons or other evidences of indebtedness shall cease to be such officer before the delivery thereof, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. Other evidences of indebtedness may be issued in such form as the board may determine. The issuance of such bonds or other evidences of indebtedness shall not be subject to any limitations or conditions contained in any other law, and the board may sell such bonds or other evidences of indebtedness in such manner, either at public or at private sale, for such price, as it may determine to be for the best interest of the county, but no such sale shall be made at a price of less than 95 percent of par value plus accrued interest.

The proceeds of all such taxes shall, when collected, be paid into a special fund and used for no other purpose than the payment of such principal and interest. However, there may be pledged to the payment of such principal and interest the surplus of the revenues of the project or projects, after payment of the costs of operation, maintenance and repair thereof, and in the event of such pledge, the amount of the annual tax levy herein required may be reduced in any year by the amount of such revenues actually received in the preceding year and then remaining on deposit to the credit of the special

fund for the payment of such principal and interest.

125.563 Abatement of water pollution and shore erosion of inland lakes.—

(1)(a) It is declared to be the legislative intent to provide for a speedy and effective procedure whereby property owners of land abutting or constituting the bottom of the small inland lakes of this state shall be able to gain relief from water pollution and shore erosion through the ordinance-making powers of the boards of county commissioners.

(b) "Small inland lakes," for the purpose of this section, shall be those inland freshwater lakes essentially at rest and essentially surrounded by land, having a water surface area at mean water level of 150 acres or less.

(2) The following activities shall constitute a nuisance on evidence indicating that the shores of the small inland lakes are being eroded or that their waters are being polluted by:

(a) Dumping of raw or treated sewage into the lake.

(b) Introduction into the lake of chemicals which threaten, rather than enhance, the natural ecosystem of the lake.

(c) Use of dynamite or other explosives in the water or in altering the shoreline.

(d) Dumping of refuse into the water or dredging or filling operations in the lake.

(e) Removal from, or addition to, the lake of suffi-

cient quantities of water to substantially alter the water level.

(3) Owners of more than 50 percent of the land abutting the lake or constituting the bottom of privately owned lakes may file a petition with the appropriate board of county commissioners (or boards when the lake lies in more than one county) alleging that any one of the nuisances enumerated in subsection (2) exists. The petition may be informally prepared, but each owner's signature shall be acknowledged by an officer authorized to administer oaths. When the state or any of its agencies is an abutting or bottom owner, the responsible state official may sign for the state or his agency.

(4) On receipt of the petition, the chairman of the board of county commissioners shall notify the State Department of Environmental Regulation, the Board of Trustees of the Internal Improvement Trust Fund, and the Department of Natural Resources. Such agencies may submit recommendations to the board of county commissioners within 60 days of receipt of notice of the petition.

(5) On receipt of the recommendations from the state agencies listed in subsection (4), or sooner if no such recommendations are to be submitted, the board of county commissioners may determine if any of the nuisances enumerated in subsection (2) exists. If such a positive determination is made, the board may enact an ordinance to abate such nuisance in such manner as is reasonable, unless there is a compelling public purpose to permit its continuance. Violation of such ordinance shall constitute a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

(6) Nothing in this section shall be construed as restricting any general or local laws or ordinances of greater stringency or any municipal jurisdiction or powers over inland lakes, or portions thereof, within a municipality.

History.—ss. 1-6, ch. 73-147; s. 2, ch. 79-65.

125.59 Special grand jury fund.—

(1) The boards of county commissioners of the respective counties are hereby authorized to budget and expend county funds for the creation and use of a special grand jury fund.

(2) The moneys of the special grand jury fund may be used by any grand jury in the county, in their discretion, in investigating crime and enforcing the criminal laws. The grand jury may employ special investigators and special legal counsel and may pay all expenses incidental to such purposes; provided, that no expenditure shall be made without the approval of a majority of the members of the grand jury, whose vote shall be recorded in the minutes of the grand jury's proceedings.

(3) The moneys in the special grand jury fund shall be payable to the grand jury on their order upon a voucher being presented to the clerk of the circuit court, signed by the foreman and by a member of the grand jury designated as grand jury treasurer.

(2) The regular enactment procedure shall be as follows: The board of county commissioners at any regular or special meeting may enact or amend any ordinance, except as provided in subsection (5), if notice of intent to consider such ordinance is given at least 15 days prior to said meeting, excluding Sundays and legal holidays. Such notice shall be made by the clerk of the board of county commissioners and shall be kept in a separate book which shall be open to public inspection during the regular business hours of his office. Certified copies of ordinances or amendments thereto enacted under this regular enactment procedure shall be filed with the Department of State by the clerk of the board of county commissioners within 10 days after enactment by said board and shall take effect upon receipt of official acknowledgment from that office that said ordinance has been filed. However, any ordinance may prescribe a later effective date.

(3) The emergency enactment procedure shall be as follows: The board of county commissioners at any regular or special meeting may enact or amend any ordinance, except an ordinance or resolution which rezones private real property or an ordinance or resolution which enacts or amends land use plans, with a waiver of notice requirements by a four-fifths vote of the membership of such commission, declaring that an emergency exists and that the immediate enactment of said ordinance is necessary. Certified copies of ordinances or amendments thereto enacted under this emergency enactment procedure shall be filed with the Department of State by the clerk of the board of county commissioners as soon after enactment by said board as is practicable. An emergency ordinance enacted under this procedure shall be deemed to be filed and shall take effect when a copy has been accepted by the postal authorities of the Government of the United States for special delivery by registered mail to the Department of State.

(4) Notice as herein set forth shall mean, in addition to the provisions herein contained, publication of the title of the ordinance or amendment to be considered in a newspaper of general circulation within the county. Said notice shall state the substance of the contemplated ordinance, the same as required by s. 10, Art. III of the State Constitution.

(5) Ordinances or resolutions, initiated by the board of county commissioners or its designee, which rezone private real property shall be enacted pursuant to the following procedure:

(a) In cases in which the proposed rezoning involves less than 5 percent of the total land area of the county, the board of county commissioners shall direct its clerk to notify by mail each real property owner whose land the governmental agency will rezone by enactment of the ordinance or resolution and whose address is known by reference to the latest ad valorem tax records. The notice shall state the substance of the proposed ordinance or resolution as

it affects that property owner and shall set a time and place for one or more public hearings on such ordinance or resolution. Such notice shall be given at least 30 days prior to the date set for the public hearing, and a copy of such notice shall be kept available for public inspection during the regular business hours of the office of the board of county commissioners. The board of county commissioners shall hold a public hearing on the proposed ordinance or resolution and may, upon the conclusion of the hearing, immediately adopt the ordinance or resolution.

(b) In cases in which the proposed rezoning involves 5 percent or more of the total land area of the county, the board of county commissioners shall provide for public notice and hearings as follows:

1. The board of county commissioners shall hold two advertised public hearings on the proposed ordinance or resolution. Both hearings shall be held after 5 p.m. on a weekday, and the first shall be held approximately 7 days after the day that the first advertisement is published. The second hearing shall be held approximately 2 weeks after the first hearing and shall be advertised approximately 5 days prior to the public hearing. The day, time, and place at which the second public hearing will be held shall be announced at the first public hearing.

2. The required advertisements shall be no less than one-quarter page in a standard size or a tabloid size newspaper, and the headline in the advertisement shall be in a type no smaller than 18 point. The advertisement shall not be placed in that portion of the newspaper where legal notices and classified advertisements appear. The advertisement shall be published in a newspaper of general paid circulation in the county and of general interest and readership in the community pursuant to chapter 50, not one of limited subject matter. It is the legislative intent that, whenever possible, the advertisement shall appear in a newspaper that is published at least 5 days a week unless the only newspaper in the community is published less than 5 days a week. The advertisement shall be in the following form:

NOTICE OF ZONING CHANGE

The (name of local governmental unit) proposes to rezone the land within the area shown in the map in this advertisement.

A public hearing on the rezoning will be held on (date and time) at (meeting place).

The advertisement shall also contain a geographic location map which clearly indicates the area covered by the proposed ordinance or resolution. The map shall include major street names as a means of identification of the area.

3. In lieu of publishing the advertisements set out in this paragraph, the board of county commissioners may mail a notice to each person owning real property within the area covered by the ordinance or resolution. Such notice shall clearly explain the proposed ordinance or resolution and shall notify the person of the time, place, and location of both public hearings on the proposed ordinance or resolution.

125.67 Limitation on subject and matter embraced in ordinances; amendments; enacting clause.—Every ordinance shall embrace but one subject and matter properly connected therewith, and the subject shall be briefly expressed in the title. No ordinance shall be revised or amended by reference to its title only. Ordinances to revise or amend shall set out in full the revised or amended section, subsection, or paragraph of a subsection. The enacting clause of every ordinance shall read: "Be It Ordained by the Board of County Commissioners of County:"

History.—s. 2, ch. 69-32.

125.68 Codification of ordinances; public record.—

(1) Counties shall maintain a current codification of all ordinances. Such codification shall be published annually by the board of county commissioners.

(2) All ordinances shall be public records, and copies of such ordinances shall be available to the public. A reasonable charge may be made for the provision of copies, but such charges shall not exceed the actual costs incidental to providing such copies.

History.—s. 3, ch. 69-32.

125.69 Penalties.—Violations of county ordinances shall be prosecuted in the same manner as misdemeanors are prosecuted. Such violations shall be prosecuted in the name of the state in a court having jurisdiction of misdemeanors by the prosecuting attorney thereof and upon conviction shall be punished by a fine not to exceed \$500 or by imprisonment in the county jail not to exceed 60 days or by both such fine and imprisonment.

PART III

COUNTY ADMINISTRATION

- 125.70 Short title.
- 125.71 Purpose.
- 125.72 Application of the part.
- 125.73 County administrator; appointment, qualifications, compensation.
- 125.74 County administrator; powers and duties.

125.70 Short title.—This part shall be known and may be cited as the "County Administration Law of 1974."

History.—s. 1, ch. 74-193.

125.71 Purpose.—It is the legislative intent that it is necessary to authorize a form of county administration that best assures an adequate and efficient provision of services to the citizens in this state, that provides for coordinated administration of county departments to better protect the health, welfare, safety, and quality of life of the residents in each of the more urbanized counties, and that places in the hands of a county administrator the multitude of details which must necessarily arise from the operation of a county as a unit of local government and, thus, enables the board of county commissioners to perform freely, without unnecessary interruption,

its fundamental intended purpose of making policies within the framework of law applicable to county government in this state. It is the further legislative intent to provide a formula and structure for the economic and efficient conduct of county affairs by making the county administrator established by this act responsible for handling of all things necessary to accomplish and bring to fruition the policies established by the board of county commissioners.

History.—s. 1, ch. 74-193.

125.72 Application of the part.—The provisions of this part may apply to any county in this state which has not adopted a charter form of county government upon passage of a county ordinance by the governing body of such county expressly adopting this part.

History.—s. 1, ch. 74-193.

125.73 County administrator; appointment, qualifications, compensation.—

(1) Each county to which this part applies shall appoint a county administrator, who shall be the administrative head of the county and shall be responsible for the administration of all departments of the county government which the board of county commissioners has authority to control pursuant to this act, the general laws of Florida, or other applicable legislation.

(2) The county administrator shall be qualified by administrative and executive experience and ability to serve as the chief administrator of the county. He shall be appointed by an affirmative vote of not less than three members of the board of county commissioners and may be removed at any time by an affirmative vote, upon notice, of not less than three members of the board, after a hearing if such be requested by the county administrator. The administrator need not be a resident of the county at the time of his appointment, but during his tenure in office he shall reside within the county.

(3) The compensation of the administrator shall be fixed by the board of county commissioners unless otherwise provided by law.

(4) The office of county administrator shall be deemed vacant if the incumbent moves his residence from the county or is, by death, illness, or other casualty, unable to continue in office. A vacancy in the office shall be filled in the same manner as the original appointment. The board of county commissioners may appoint an acting administrator in the case of vacancy or temporary absence or disability until a successor has been appointed and qualified or the administrator returns.

History.—s. 1, ch. 74-193.

125.74 County administrator; powers and duties.—

(1) The administrator may be responsible for the administration of all departments responsible to the board of county commissioners and for the proper administration of all affairs under the jurisdiction of the board. To that end, the administrator may, by way of enumeration and not by way of limitation, have the following specific powers and duties to:

(a) Administer and carry out the directives and policies of the board of county commissioners and

enforce all orders, resolutions, ordinances, and regulations of the board to assure that they are faithfully executed.

(b) Report to the board on action taken pursuant to any directive or policy within the time set by the board and provide an annual report to the board on the state of the county, the work of the previous year, and any recommendations as to actions or programs he deems necessary for the improvement of the county and the welfare of its residents.

(c) Provide the board, or individual members thereof, upon request, with data or information concerning county government and to provide advice and recommendations on county government operations to the board.

(d) Prepare and submit to the board of county commissioners for its consideration and adoption an annual operating budget, a capital budget, and a capital program.

(e) Establish the schedules and procedures to be followed by all county departments, offices, and agencies in connection with the budget and supervise and administer all phases of the budgetary process.

(f) Prepare and submit to the board after the end of each fiscal year a complete report on the finances and administrative activities of the county for the preceding year and submit his recommendations.

(g) Supervise the care and custody of all county property.

(h) Recommend to the board a current position classification and pay plan for all positions in county service.

(i) Develop, install, and maintain centralized budgeting, personnel, legal, and purchasing procedures.

(j) Organize the work of county departments, subject to an administrative code developed by the administrator and adopted by the board, and review the departments, administration, and operation of the county and make recommendations pertaining thereto for reorganization by the board.

(k) Select, employ, and supervise all personnel and fill all vacancies, positions, or employment under the jurisdiction of the board. However, the employment of all department heads shall require confirmation by the board of county commissioners.

(l) Suspend, discharge, or remove any employee under the jurisdiction of the board pursuant to procedures adopted by the board.

(m) Negotiate leases, contracts, and other agreements, including consultant services, for the county, subject to approval of the board, and make recommendations concerning the nature and location of county improvements.

(n) See that all terms and conditions in all leases, contracts, and agreements are performed and notify the board of any noted violation thereof.

(o) Order, upon advising the board, any agency under his jurisdiction as specified in the administrative code to undertake any task for any other agency on a temporary basis if he deems it necessary for the proper and efficient administration of the county government to do so.

(p) Attend all meetings of the board with authority to participate in the discussion of any matter.

(q) Perform such other duties as may be required of him by the board of county commissioners.

(2) It is the intent of the Legislature to grant to the county administrator only those powers and duties which are administrative or ministerial in nature and not to delegate any governmental power imbued in the board of county commissioners as the governing body of the county pursuant to s. 1(e), Art. VIII of the State Constitution. To that end, the above specifically enumerated powers are to be construed as administrative in nature, and in any exercise of governmental power the administrator shall only be performing the duty of advising the board of county commissioners in its role as the policy-setting governing body of the county.

History.—s. 1, ch. 74-193.

If two-thirds of the members of the board present and voting and constituting a quorum shall, upon reconsideration, vote for the ordinance, the executive's veto shall be overridden and the ordinance shall become law in 10 days or at such other time as may be provided in the ordinance or by resolution of the board, without the executive's signature.

(8) All other powers of local self-government not inconsistent with general law as recognized by the Constitution and laws of the state and which have not been limited by the county charter.

(2) The administrative code shall be effective upon adoption or as otherwise provided therein, and all existing agencies shall assume the form, perform the duties, and exercise the power granted them under the administrative code and shall do so in the manner prescribed.

History.—s. 2, ch. 74-193.

125.88 Civil service.—

(1) Upon adoption of an administrative code and also upon the adoption of a charter, all officers and employees in the classified service of the county shall be transferred to the department, division, or agency to which the functions, powers, and duties in which they were engaged are allocated under the administrative code. Such transfer shall be without examination or diminution of existing compensation, pension or retirement rights, privileges, or obligations of any such officer or employee existing immediately prior to the referendum at which the charter was adopted. It is the intent of the Legislature that the adoption of any plan required by the charter shall not adversely affect the civil service tenure, pension, seniority, or promotional rights of any county officer or employee in the classified service.

(2) The board of county commissioners of any county adopting a charter may, by ordinance, administer the merit system through a county department of civil service unless otherwise provided by the charter. Such administration shall include classification, recruitment, examination, establishment of eligibility lists, grievances, compensation, and other conditions of employment pursuant to law.

RIGHT OF EMINENT DOMAIN TO COUNTIES

- 127.01 Counties delegated power of eminent domain.
- 127.02 County commissioners may authorize acquirement of property by eminent domain.

127.01 Counties delegated power of eminent domain.—

(1) All counties of the state are delegated authority to exercise the right and power of eminent domain; that is, the right to appropriate property, except state or federal, for any county purpose; and the absolute fee simple title to all property so taken and acquired shall vest in such county, unless the county seeks to condemn a particular right or estate in such property.

(2) Provided, however, that no county shall have the right to condemn any lands outside its own county boundaries, for parks, playgrounds, recreational centers or other recreational purposes; and provided, further, that in all actions now pending or which hereafter may be instituted by a county to acquire title, by eminent domain, to any lands for parks, playgrounds, recreational centers, or other recreational purposes, the party or parties, whose lands are sought to be taken shall, in such condemnation suit have the right to present an issue before the court as

to the necessity for the proposed taking, and the amount of land required for the purpose sought, and thereupon it shall be the duty of the court to receive and hear all relevant testimony on the issues created, and the court shall determine such issues as other issues of fact and law are determined before the court in equity, without regard to or presumption in favor of any prior determination by the county commissioners or the exercise of discretion by them. Only land for the taking of which there is a public necessity as determined in accordance with this subsection shall be condemned for any of the purposes referred to in this subsection. Any party shall have the right of appeal, with supersedeas, as is now provided by law for appeals generally.

- 129.06 Execution and amendment of budget.
- 129.07 Unlawful to exceed the budget; certain contracts void; commissioners contracting excess indebtedness personally liable.
- 129.08 County commissioner voting to pay illegal claim or for excess indebtedness.
- 129.09 County auditor not to sign illegal warrants.

129.01 Budget system established.—There is hereby established a budget system for the control of the finances of the boards of county commissioners of the several counties of the state, as follows:

(1) There shall be prepared, approved, adopted, and executed, as prescribed in this chapter, for the fiscal year ending September 30, 1952, and for each fiscal year thereafter, an annual budget for such funds as may be required by law or by sound financial practices and generally accepted accounting principles. The budget shall control the levy of taxes and the expenditure of money for all county purposes during the ensuing fiscal year.

(2) Each budget shall conform to the following general directions and requirements:

(a) The budget shall be prepared, summarized, and approved by the board of county commissioners of each county.

(b) The budget shall be balanced; that is, the total of the estimated receipts, including balances brought forward, shall equal the total of the appropriations and reserves. It shall conform to the uniform classification of accounts prescribed by the appropriate state agency. The receipts division of the budget shall include 95 percent of all receipts reasonably to be anticipated from all sources, including taxes to be levied, and 100 percent of the amount of the balances both of cash and liquid securities, estimated to be brought forward at the beginning of the fiscal year. The appropriation division of the budget shall include itemized appropriations for all expenditures authorized by law, contemplated to be made, or incurred for the benefit of the county, during the said year and the provision for the reserves authorized by this chapter. Both the receipts and appropriation divisions shall reflect the approximate division of expenditures between countywide expenditures and noncountywide expenditures and the division of county revenues derived from or on behalf of the county as a whole and county revenues derived from or on behalf of a municipal service taxing unit, special district, unincorporated area, service area, program area, or otherwise not received for or on behalf

of the county as a whole.

(c) Provision may be made for the following reserves:

1. A reserve for contingencies may be provided in a sum not to exceed 10 percent of the total of the budget.

2. A reserve for cash balance to be carried over may be provided for the purpose of paying expenses from October 1, of the ensuing fiscal year until the time when the revenues for that year are expected to be available. This reserve may be not more than 20 percent of the total receipts and balances of the budget; provided that for the bond interest and sinking fund budget, this reserve may be not more than the total maturities of debt (both principal and interest) that will occur during the ensuing fiscal year, plus the sinking fund requirements, computed on a straight line basis, for any outstanding obligations to be paid from the fund.

(d) An appropriation for "outstanding indebtedness" shall be made to provide for the payment of vouchers which have been incurred in and charged against the budget for the current year or a prior year, but which are expected to be unpaid at the beginning of the ensuing year for which the budget is being prepared. The appropriation for the payment of such vouchers shall be made in the same fund for which the expenses were originally incurred.

(e) Any surplus arising from an excess of the estimated cash balance over the estimated amount of unpaid obligations to be carried over in a fund at the end of the current fiscal year may be transferred to any of the other funds of the county, and the amount so transferred shall be budgeted as a receipt to such other funds; provided, that no such surplus in a fund raised for debt service shall be transferred to another fund, except to a fund raised for the same purposes in the same territory, unless the debt of such territory has been extinguished in which case it may be transferred to any other fund raised for that territory; provided, further, that no such surplus in a capital outlay reserve fund may be transferred to another fund until such time as the projects for which such capital outlay reserve fund was raised have been completed and all obligations paid.

129.011 Consolidation of funds.—

(1) In order to simplify and otherwise improve the accounting system provided by law and to facilitate a better understanding of the fiscal operation of the county by the general public, the board of county commissioners may, by resolution duly adopted, consolidate any of its separate budgetary funds into a single general fund, except that the road and bridge tax shall be levied under s. 336.59 and all revenue and expenditures of the county transportation trust fund established pursuant to s. 339.083 shall be shown as a separate budgetary fund.

(2) Subsequent to the consolidation of any budgetary funds as provided in subsection (1), the maxi-

mum permitted tax millage of the combined fund shall be the total amount authorized by law for the separate funds so consolidated.

(3) This section is deemed to be in the general public interests and it is the intent of the Legislature that the provisions hereof shall be liberally construed to accomplish the purposes contained herein.

History.—ss. 1, 2, 4, ch. 70-282; s. 2, ch. 77-165.

129.02 Requisites of budgets.—Each budget shall conform to the following specific directions and requirements:

(1) General fund budget shall contain an estimate of receipts by source, including any taxes now or hereafter authorized by law to be levied for any countywide purpose, except those countywide purposes provided for in the budgets enumerated below, any tax millage limitation to the contrary notwithstanding, and including any balance brought forward as provided herein; and an itemized estimate of expenditures that will need to be incurred to carry on all functions and activities of the county government now or hereafter authorized by law, except those functions and activities provided for in the budgets enumerated below, and of unpaid vouchers of the general fund; also of the reserve for contingencies and of the balances, as hereinbefore provided, which should be carried forward at the end of the year.

(2) The County Transportation Trust Fund budget shall contain an estimate of receipts by source and balances as provided herein, and an itemized estimate of expenditures that need to be incurred to carry on all work on roads and bridges in the county except that provided for in the capital outlay reserve fund budget and in district budgets pursuant to this chapter, and of unpaid vouchers of the County Transportation Trust Fund; also of the reserve for contingencies and the balance, as hereinbefore provided, which should be carried forward at the end of the year.

(3) The fine and forfeiture fund budget shall contain an estimate of receipts by source and balances as provided herein, and an itemized estimate of expenditures that need to be incurred to carry on all criminal prosecution as provided in s. 142.01, and all other law enforcement functions and activities of the county now or hereafter authorized by law, and of indebtedness of the fine and forfeiture fund; also of the reserve for contingencies and the balance, as hereinbefore provided, which should be carried forward at the end of the year.

(4)(a) Capital outlay reserve fund budget shall contain an estimate of receipts by source, including any taxes authorized by law to be levied for that purpose, and including any balance brought forward as provided for herein; and an itemized estimate of expenditures for capital purposes to give effect to general improvement programs. It shall be a plan for the expenditure of funds for capital purposes, showing as income the revenues, special assessments, borrowings, receipts from sale of capital assets, free surpluses, and down payment appropriation to be applied to the cost of a capital project or projects, expenses of issuance of obligations, engineering, supervision, contracts, and any other related expenditures. It may contain also an estimate for the re-

serves as hereinbefore provided and for a reserve for future construction and improvements. No expenditures or obligations shall be incurred for capital purposes except as appropriated in this budget, except for the preliminary expense of plans, specifications and estimates.

(b) Under the provision herein set forth, a separate capital budget may be adopted for each district in the county, or a consolidated capital budget may be adopted providing for the consolidation of capital projects of the county and the several districts within the county into one budget, treating borrowed funds and other receipts as special revenue earmarked for capital projects as separately itemized appropriation for each district project or county project, as the case may be.

(c) Any funds in the capital budget not required to meet the current construction cost of any project may be invested in any securities of the federal government or in securities of any county of the state pledging the full faith and credit of such county or pledging such county's share of the gas tax provided for in s. 16 of Art. IX of the Constitution of 1885 as adopted by the 1968 revised Constitution or in s. 9, Art. XII of said revision.

(5) A bond interest and sinking fund budget shall be made for each county and for each district within the county having bonds outstanding. The budget shall contain an estimate of receipts by source, including any taxes authorized by law to be levied for that purpose, and including any balances brought forward as provided herein; and an itemized estimate of expenditures and reserves as follows: The bond interest and principal maturities in the year for which the budget is made shall be determined and estimates for expenses connected with the payments of such bonds and coupons, commissions of the tax collector, and of the property appraiser, and expenses of refunding operations, if any are contemplated, shall be appropriated. A sufficient "cash balance to be carried over" may be reserved as set forth hereinbefore. The sinking fund requirements provided for in the said reserve may be carried over either in cash or in securities of the federal government and of the local governments in Florida, or both.

(6) Special district operating fund budget shall contain an estimate of receipts by source and balances as provided herein, and an itemized estimate of expenditures that will need to be incurred to carry on all functions and activities of each special district within the county as now or hereafter provided by law, and of the indebtedness of each special district operating fund; also of the reserves for contingencies and the balances, as hereinbefore provided, which should be carried forward at the end of the year.

129.021 County officer budget information.—Notwithstanding other provisions of law, the budgets of all county officers, as submitted to the board of county commissioners, shall be in sufficient detail and contain such information as the board of county commissioners may require in furtherance of their

powers and responsibilities provided in ss. 129.01(2)(b) and 125.01(1)(q) and (r) and (6).

History.—s. 2, ch. 78-132.

129.025 County budget officer.—

(1) Each board of county commissioners may designate a county budget officer to carry out the duties set forth in this chapter. Unless the board designates a different officer, the clerk of the circuit court or the county comptroller, if applicable, shall be the budget officer for the purposes of this chapter.

(2) The Legislature finds that the duties of county budget officer set forth in this chapter do not fall within the constitutional responsibilities performed by the several clerks of the circuit court as auditor and custodian of county funds. The position of county budget officer shall not constitute an office in the meaning of s. 5, Art. II of the State Constitution.

History.—s. 1, ch. 78-303.

129.03 Preparation and adoption of budget.—

(1) On or before July 1 of each year the county property appraiser shall certify to the county budget officer his estimate of the total valuations against which taxes may be levied, reasonably to be expected by him to be spread upon the general tax roll of the current year, separately of homestead real property and of nonhomestead property in the entire county and in each district in the county in which taxes are authorized by law to be levied by the board of county commissioners for funds under its control.

(a) If at any time after the certification of his estimates and before equalization of the tax roll, it shall appear to the property appraiser that the said estimates, or any of them, were in error by 10 percent or more, he shall immediately certify his revised estimate to the county budget officer, and such revised estimate shall be substituted for the original estimate at any time before the final adoption of the budget.

(b) Immediately upon the equalization of the tax roll by the board of county commissioners, the property appraiser shall certify to the board of county commissioners the actual assessed valuation of property, as prescribed above, in each district and in the entire county.

(c) In preparing the budget, the latest figure so certified shall be used as the basis for estimating the taxes to be levied, and the millage rate required to be levied, based on the latest figure thus certified and calculated as provided in this chapter, to raise the amount estimated to be received from taxes, shall be noted on each tentative budget and each official budget, on the same line with the amount estimated to be raised from taxes.

(2) On or before June 1 of each year, the sheriff, the clerk of the circuit court or county comptroller, and the supervisor of elections shall submit to the board of county commissioners a tentative budget for their respective offices for the ensuing fiscal year.

(3) On or before July 15 of each year, the county budget officer, after tentatively ascertaining the proposed fiscal policies of the board for the ensuing fiscal year, shall prepare and present to the board a tentative budget for the ensuing fiscal year for each

of the funds provided in this chapter, including all estimated receipts, taxes to be levied, and balances expected to be brought forward and all estimated expenditures, reserves, and balances to be carried over at the end of the year.

(a) The board of county commissioners shall receive and examine the tentative budget for each fund and shall require such changes to be made as it shall deem necessary; provided that the budget shall remain in balance. The county budget officer's estimates of receipts other than taxes, and of balances to be brought forward, shall not be revised except by a resolution of the board, duly passed and spread on the minutes of the board; provided that the board may allocate to any of the funds of the county any anticipated receipts, other than taxes levied for a particular fund, except receipts designated or received to be expended for a particular purpose.

(b) Upon receipt of the tentative budgets and the completion of any revisions made by the board, the board shall prepare a statement summarizing all of the tentative budgets. This summary statement shall show, for each budget and the total of all budgets, the proposed tax millages, the balances, the reserves, and the total of each major classification of receipts and expenditures, classified according to the classification of accounts prescribed by the appropriate state agency. The board shall cause this summary statement to be advertised one time in a newspaper of general circulation published in the county or by posting at the courthouse door if there be no such newspaper, and the advertisement shall state that the board will meet on a day fixed in the advertisement, not earlier than 1 week and not later than 2 weeks from the date of the advertising, for the purpose of hearing requests and complaints from the public regarding the budgets. The board shall meet upon the day fixed in the advertisement, and from day to day thereafter if it deems it necessary, for the purpose of holding a public hearing and making whatever revisions in the budgets it may deem necessary, and shall thereupon tentatively adopt the budgets, and the tentative budgets shall be filed in the office of the county auditor as a public record.

(c) The budgets as finally adopted as provided herein, and all amendments thereto, shall be kept in a substantial book as a public record in the office of the county auditor. Sufficient reference in words and figures to identify the particular transactions shall be made in the minutes of the board to record its actions with reference to the budgets.

129.04 Fiscal year.—The fiscal year of each county of the state shall commence on October 1, and end on September 30 of each year, and whenever the word "year" appears in this chapter, it shall be construed as meaning the fiscal year as hereby established.

History.—s. 4, ch. 6814, 1915; RGS 1527; CGL 2305.

129.05 Method of determination of millage to be levied.—After the equalization of the tax roll and the certification of the valuations by the property appraiser, and after the final adoption of the budg-

et for each fund, the board shall proceed to fix the millage rate for each fund as provided by law. The board shall determine the millage to be levied for each fund by dividing the applicable assessed valuation into an amount, 95 percent of which is the amount budgeted to be received from taxes, using the nearest $\frac{1}{4}$ of a mill or other fraction or decimal ordinarily used in the county.

129.06 Execution and amendment of budget.

(1) Upon the final adoption of the budgets as provided in this chapter, the budgets so adopted shall regulate the expenditures of the county and district, and the itemized estimates of expenditures shall have the effect of fixed appropriations and shall not be amended or altered or exceeded except as provided in this chapter.

(a) The accrual basis of accounting shall be followed for all funds in accordance with generally accepted accounting principles.

(b) The cost of the investments provided in this chapter, or the receipts from their sale or redemption, shall not be treated as expense or income, but the investments on hand at the beginning or end of each fiscal year shall be carried as separate items at cost in the fund balances; provided, that the amounts of profit or loss received on their sale shall be treated as income or expense, as the case may be.

(2) The board at any time within a fiscal year may amend a budget for that year as follows:

(a) Appropriations for expenditures in any fund may be decreased and other appropriations in the same fund correspondingly increased by motion recorded in the minutes, provided that the total of the appropriations of the fund be not changed. The board of county commissioners, however, may establish procedures by which the designated budget officer may authorize certain intradepartmental budget amendments, provided that the total appropriation of the department shall not be changed.

(b) Appropriations from the reserve for contingencies may be made to increase the appropriation for any particular expense in the same fund, or to create an appropriation in the fund for any lawful purpose, but no expenditures shall be charged directly to the reserve for contingencies.

(c) The reserve for future construction and improvements may be appropriated by resolution of the board for the purpose or purposes for which the reserve was made.

(d) A receipt of a nature from a source not anticipated in the budget and received for a particular purpose, including but not limited to grants, donations, gifts, or reimbursement for damages, may, by resolution of the board spread on its minutes, be appropriated and expended for that purpose, in addition to the appropriations and expenditures provided for in the budget. Such receipts and appropriations shall be added to the budget of the proper fund.

(e) Increased receipts for enterprise or proprietary funds received for a particular purpose may, by resolution of the board spread on its minutes, be appropriated and expended for that purpose, in addition

to the appropriations and expenditures provided for in the budget.

(3) Transfers may be made between funds only for the following purposes:

(a) To correct errors in handling receipts and disbursements.

(b) Budgeted transfers.

(4) All unexpended balances of appropriations at the end of the fiscal year shall revert to the fund from which the appropriation was made, but reserves for sinking funds and for future construction and improvements may not be diverted to other purposes.

129.07 Unlawful to exceed the budget; certain contracts void; commissioners contracting excess indebtedness personally liable.—It is unlawful for the board of county commissioners to expend or contract for the expenditure in any fiscal year more than the amount budgeted in each fund's budget, except as provided herein, and in no case shall the total appropriations of any budget be exceeded, except as provided in s. 129.06, and any indebtedness contracted for any purpose against either of the funds enumerated in this chapter or for any purpose, the expenditure for which is chargeable to either of said funds, shall be null and void, and no suit or suits shall be prosecuted in any court in this state for the collection of same, and the members of the board of county commissioners voting for and contracting for such amounts and the bonds of such members of said boards also shall be liable for the excess indebtedness so contracted for.

129.08 County commissioner voting to pay illegal claim or for excess indebtedness.—Each member of the board of county commissioners who knowingly and willfully votes to incur an indebtedness against the county in excess of the expenditure allowed by law or county ordinance, or to pay an illegal charge against the county, or to pay any claim against the county not authorized by law or county ordinance shall be guilty of malfeasance in office and subject to suspension and removal from office as now provided by law, and shall be guilty of a misdemeanor, and shall upon conviction be punished by a fine of not less than \$100 nor more than \$500 or by imprisonment in the county jail for not more than 6 months, for each offense.

129.09 County auditor not to sign illegal warrants.—Any clerk of the circuit court, acting as county auditor, who shall sign any warrant for the payment of any claim or bill or indebtedness against any county funds in excess of the expenditure allowed by law, or county ordinance, or to pay any illegal charge against the county, or to pay any claim against the county not authorized by law, or county ordinance, shall be personally liable for such

amount, and if he shall sign such warrant willfully and knowingly he shall be guilty of a misdemeanor of the second degree, punishable as provided in s.

132.01 How chapter may be cited.—This chapter may be cited as the "General Refunding Law."

History.—s. 1, ch. 15772, 1931; CGL 1936 Supp. 2383(1).

132.02 Taxing units may refund obligations.—

(1) Each county, city, town, special road and bridge district, special tax school district, and other taxing districts in this state, herein sometimes called a unit, may issue, pursuant to a resolution or resolutions of the governing body thereof (meaning thereby the board or body vested with the power of determining the amount of tax levies required for taxing the taxable property of such unit for the purpose of such unit) and either with or without the approval of such bonds at an election, except as may be required by the Constitution of the state, bonds of such unit for the purpose of refunding any or all bonds, coupons, or interest on any such bonds, or coupons or paving certificates of indebtedness or interest on any such paving certificates of indebtedness, now or hereafter outstanding, or any other funded debt, all of which are herein referred to as bonds, whether such unit created such indebtedness or has assumed, or may become liable therefor, and whether indebt-

edness to be refunded has matured or to thereafter become matured.

(2) In the event any such unit having outstanding bonded or other funded debt shall have been, or shall hereafter be, abolished otherwise than by annexation to, or consolidation with, a like political subdivision or district, the territory within such unit shall be deemed to be a taxing district within the meaning of this chapter, and the board of county commissioners of the county wherein such abolished unit, or any part thereof, is situate, or the governmental authority having power or authority to levy a tax for the retirement of the indebtedness to be refunded, shall be the governing body thereof, and may issue refunding bonds in behalf of such unit for the purpose of refunding its outstanding indebtedness, and may provide for the annual levy of ad valorem taxes without limitation as to rate or amount fully sufficient to pay principal of and interest on such refunding bonds, the tax to be levied on the same property which would have been taxable for payment of the outstanding indebtedness had such taxing unit not been abolished or dissolved.

(3) If the territory of such abolished unit lies in more than one county, the territory in each county shall be deemed to be a taxing district in such county and the board of county commissioners of each county within which any of such territory is situate, or the governmental authority having power or authority to levy a tax for the retirement of the indebtedness to be refunded, may issue refunding bonds as herein provided for the purpose of refunding such portion of the indebtedness of the abolished unit as shall be chargeable against the territory in said county; provided, however, that nothing in this section shall affect or limit the powers of the State Board of Administration in the issuance of refunding bonds under s. 16, Art. IX of the State Constitution of 1885 as adopted by the 1968 revised Constitution or under s. 9, Art. XII of said revision.

History.—s. 2, ch. 15772, 1931; CGL 1936 Supp. 2383(2); s. 1, ch. 22001, 1943; s. 18, ch. 69-216.

132.03 Interest; maturity; payment; right to redeem in advance.—Such resolution or resolutions shall determine the rate or rates of interest to be paid, not exceeding 7½ percent per annum, payable annually or at shorter intervals, and the maturity or maturities of the bonds which shall be at a time or times not exceeding 60 years from the date of the bonds, (except that in the issuance of bonds of taxing districts where the maturities are fixed under the Constitution, then such maturities shall be in accordance with the maturities fixed in the constitutional provision), as well as determine the medium of payment and the place or places in Florida or any other state at which the principal and interest shall be payable. In the discretion of the governing body the right to redeem all or any of the bonds at par

before maturity may be reserved upon terms and conditions to be fixed by resolution.

History.—s. 3, ch. 15772, 1931; CGL 1936 Supp. 2383(3); s. 2, ch. 73-302.

132.04 Redemption before maturity.—Any such unit may obligate itself to redeem any or all of the refunding bonds before maturity on such terms and conditions as the resolution authorizing such bonds may determine. Bonds subject to redemption shall state the manner of giving notice of intention to redeem (which may be by publication without actual notice), and when such notice has been given such bonds shall not bear interest after the date fixed in such notice of redemption, nor shall coupons maturing thereafter be valid; provided that adequate funds for their redemption shall have been provided and set aside by such unit.

History.—s. 4, ch. 15772, 1931; CGL 1936 Supp. 2383(4).

132.05 Form; execution; delivery.—The refunding bonds herein provided for may be issued in registered form, or may be coupon bonds with the privilege of registration either as to principal only or as to both principal and interest, and shall be executed in the manner and by the officials provided in the resolution authorizing same. Except one signature on each bond, the signatures on the bonds and coupons may be facsimile signatures. Bonds and coupons duly executed by officials then in office may be negotiated and delivered after such officials have ceased to hold such office. The authentication or certificate of a registrar may be required on the bonds.

History.—s. 5, ch. 15772, 1931; CGL 1936 Supp. 2383(5).

132.06 Separate series of bonds; rates of interest.—One resolution may provide for several separate series of refunding bonds. Each of such series and separate bonds of the same series may have different terms and provisions from the others. The same bonds may bear different rates of interest at different times. Bonds issued for the purpose of refunding accrued interest may be noninterest-bearing or may bear a lower rate than other bonds of the same series as may be provided in the resolution.

History.—s. 6, ch. 15772, 1931; CGL 1936 Supp. 2383(6).

132.07 Maturity date.—Such resolution may provide that all or any part of the bonds issued thereunder shall mature in annual installments beginning at such time after date and running to such time, not longer than 60 years after date as said resolution may provide.

History.—s. 7, ch. 15772, 1931; CGL 1936 Supp. 2383(7).

132.08 Exchange of bonds.—Bonds issued under this chapter may be exchanged for not less than an equal principal amount and accrued interest of indebtedness to be retired thereby, including indebtedness not yet due, if the same be then redeemable or if the holders thereof be willing to surrender the same for retirement, but otherwise shall be sold and the proceeds thereof shall be applied to the payment of such indebtedness and accrued interest due or redeemable which may be so surrendered.

History.—s. 8, ch. 15772, 1931; CGL 1936 Supp. 2383(8).

132.09 Notice of sale; bids and award; private sale.—When sold, the refunding bonds (except as otherwise expressly provided) shall be sold pursuant to the terms of a notice of sale which shall be published at least twice. The first publication to be not less than 7 days before the date fixed for the sale and to be published in a newspaper published in the unit, or if no newspaper is published in the unit, then in a newspaper published in the county, or if no newspaper is published in the county, then in a newspaper published in Tallahassee, and in the discretion of the governing body of the unit may be published in a financial newspaper in the City of New York. Such notices shall state the time and place and when and where sealed bids will be received, shall state the amount of bonds, their dates, maturities, denominations and interest rate or rates (which may be a maximum rate), interest payment dates, an outline of the terms, if any, on which they are redeemable or become payable before maturity, the amount which must be deposited with the bid to secure its performance if accepted, and such other pertinent information as the governing body of the unit may determine. The notice of sale may require the bidders to fix the interest rate or rates that the bonds are to bear subject to the terms of the notice and the maximum rate permitted by this chapter. The award of the bonds shall be made by the governing body of the unit to the bidder making the most advantageous bid which shall be determined by the governing body in its absolute and uncontrolled discretion. The right to reject all bids shall be reserved to the governing body of the unit. If no bids are received at such public sale, or if all bids are rejected, the bonds may be sold without notice at private sale at any time within one year thereafter, but such bonds shall not be sold at private sale on terms less favorable to the unit than were contained in the best bid at the prior public sale.

History.—s. 9, ch. 15772, 1931; CGL 1936 Supp. 2383(9).

132.10 Minimum sale price.—No bonds shall be sold under this chapter at less than 95 percent of par, with accrued interest to date of delivery thereof.

History.—s. 10, ch. 15772, 1931; CGL 1936 Supp. 2383(10).

132.11 Amount of refunding bonds to be sold.—In case of refunding bonds which are not exchanged for bonds outstanding but are sold, only such amount thereof shall be delivered as is necessary to provide for the payment of matured bonds and legally accrued interest and of such unmatured bonds as the holders thereof have agreed in writing to surrender upon payment of a sum not exceeding par and legally accrued interest.

History.—s. 11, ch. 15772, 1931; CGL 1936 Supp. 2383(11).

132.12 Exchange without notice.—In the case of refunding bonds which are exchanged for bonds outstanding and are not sold, such exchange may be made by the unit without the requirement of the publication of any notice thereof.

History.—s. 12, ch. 15772, 1931; CGL 1936 Supp. 2383(12).

132.13 Delivery of bonds sold.—In case of refunding bonds which are not exchanged for bonds outstanding but are sold, they shall not be delivered until payment in full has been received therefor. Pursuant to agreement between unit and purchaser made either before or after the sale of the bonds, the bonds may be delivered in deferred installments and the total purchase price shall be divided and paid on the installments as may be agreed, but delivery shall not be deferred more than 1 year after the sale.

History.—s. 13, ch. 15772, 1931; CGL 1936 Supp. 2383(13).

132.14 Exchange in lieu of sale.—As hereinbefore provided the refunding bonds instead of being sold may be exchanged for bonds or for interest on bonds or interest on overdue interest on bonds to refund which they are issued. The principal and accrued interest of the refunding bonds shall not exceed the amount of the obligations refunded.

History.—s. 14, ch. 15772, 1931; CGL 1936 Supp. 2383(14).

132.15 Provision for conditional increase of rate of interest.—If the refunding bonds bear a lower rate of interest than the bonds for which they are exchanged, either the resolution authorizing the bonds or the refunding bonds themselves may provide that the refunding bonds shall bear the lower rate of interest only so long as the unit shall not be in default of any agreement or obligations to the holders and that after any such default, or at the option of the holders after any such default, the refunding bonds shall bear the same rate of interest as the bonds for which they were exchanged. The unit may impose limitations on the right to exercise such option, and may provide that the option may only be exercised after a period of default, or by the holders of a certain amount or proportion of bonds, all as provided in the said resolution or in the refunding bonds, and if the right to the higher interest accrues may agree to substitute new bonds and coupons bearing such higher interest.

History.—s. 15, ch. 15772, 1931; CGL 1936 Supp. 2383(15).

132.16 Sinking fund.—The resolution authorizing the refunding bonds may contain an agreement on the part of the unit to provide a sinking fund for such bonds, and said resolution may provide for payments of such sinking fund, the investment thereof, the administration thereof, and the application thereof to the payment, purchase and redemption of the refunding bonds.

History.—s. 16, ch. 15772, 1931; CGL 1936 Supp. 2383(16).

132.17 Pledge of anticipated revenues.—The resolution authorizing refunding bonds may assign, pledge, or set aside as a trust for the payment of principal or interest of refunding bonds or for a sinking fund for the bonds, subject to prior liens or contract obligations, and on, or subject to, such terms and conditions as may be stated, any unpaid taxes or assessments whether due or to grow due, and any revenues due or to grow due, or proceeds of sale of improvements or properties of the unit. The resolution authorizing the bonds may contain agreement

to collect and pay over the moneys derived from such source.

History.—s. 17, ch. 15772, 1931; CGL 1936 Supp. 2383(17).

132.18 Pledge of fixed portion of revenues.—The resolution authorizing the refunding bonds may pledge to the payment of principal and interest of such refunding bonds or to a sinking fund for the bonds, a fixed proportion, or a proportion to be determined from time to time as provided in said resolution, of the moneys from time to time collected either by taxation of any kind, whether upon real or personal property, or collected from other revenues or receipts of the unit, and such resolution may provide that the said fixed proportion or the proportions so determined out of each dollar collected by the unit shall be applied to the payment of the principal or interest of the refunding bonds, or be paid into or set aside as a sinking fund for the bonds.

History.—s. 18, ch. 15772, 1931; CGL 1936 Supp. 2383(18).

132.19 Priority of payment of refunding bonds.—The resolution authorizing the bonds may provide that the unit shall first set aside out of the tax collections the amount required in any year for the payment of principal and interest of refunding bonds and for the sinking fund for the bonds, before any tax collections shall be set aside or applied to the payment of any bonds of the unit that may thereafter be issued, except bonds thereafter issued to pay or refund bonds then outstanding.

History.—s. 19, ch. 15772, 1931; CGL 1936 Supp. 2383(19).

132.20 Proportionate taxes for sinking fund.—The resolution authorizing the refunding bonds may provide that in addition to all other amounts to be paid into a sinking fund for such bonds, such sums shall be levied, assessed and collected for such sinking funds as bear a stated proportion of taxes of any kind which are imposed or collected for all purposes other than the payment of refunding bonds issued pursuant to this chapter, so that for every dollar of tax imposed or collected for all such purposes a stated amount shall be imposed for the said sinking fund.

History.—s. 20, ch. 15772, 1931; CGL 1936 Supp. 2383(20).

132.21 Pledge of special assessments.—In the discretion of the governing board there may be pledged to the payment of any or all such bonds the collections or proceeds of any or all uncollected special assessments, subject, however, to any other outstanding pledge of such assessment previously made.

History.—s. 21, ch. 15772, 1931; CGL 1936 Supp. 2383(21).

132.22 Levy of ad valorem tax for payment of bonds.—

(1) In each year while any of the bonds shall be outstanding there shall be levied by or under the authority of the governing board upon all taxable property in the unit, an ad valorem tax sufficient to pay the interest and principal of such refunding bonds and any sinking funds which may be provided for by the bonds, or by the proceedings authorizing the sale, provided, however, that when there shall be in any fund or funds provided for such bonds, interest and sinking fund, an amount exceeding the

amount at that time required for such fund or funds, the ad valorem tax required by this section for the current year may be reduced in the amount of such excess.

(2) It is expressly provided that in the case of taxing districts where bonds have been issued and are outstanding, which bonds are payable exclusively out of special assessments levied for the payment of such bonds, that no authority to levy an ad valorem tax upon the property of such taxing district shall be conferred or exist under this chapter, unless the same shall be duly authorized or approved by the affirmative vote of a majority of the taxpayers who are the owners of freeholds in said unit not wholly exempt from taxation voting at an election called and held under the provisions of law relating to the issuance of bonds under s. 12, Art. VII of the State Constitution and such election shall be called within 60 days after the governing body of such taxing district shall receive a petition requesting the same signed by a number of owners of freeholds not wholly exempt from taxation equal to 25 percent of the qualified electors who are owners of such freeholds residing in such district and by the holder or holders of a majority in amount of the bonds or outstanding indebtedness to be refunded, but nothing in this chapter shall preclude the issuance of refunding bonds under this chapter when such refunding bonds are issued and are provided to be supported by the proceeds of special assessments of the same kind and character as were provided for the issue which is refunded.

History.—s. 22, ch. 15772, 1931; CGL 1936 Supp. 2383(22); s. 15, ch. 69-216.

132.23 Tax by municipalities; bonds to constitute general obligations; debt limit inapplicable.—

(1) In case of refunding bonds issued by municipalities it shall be the duty of the governing board of the municipality charged by law with determining and fixing the amount of general property taxes for any fiscal year of the municipality, to ascertain the amount of:

(a) Principal and interest of refunding bonds due in such year for which moneys are not in hand.

(b) Principal and interest of refunding bonds due prior to such year and which are then or will be in default in such year, together with interest thereon.

(c) Sinking fund payments due in such year or due prior to such year and which are then or will be in default in such year.

(d) Such additional sum as may be necessary to make up for the estimated failure to collect taxes in such year.

(2) The said governing body of the municipality shall determine and fix the total of said sums as the amount to be raised by tax in addition to all other taxes for said fiscal year. The said amount shall thereupon be apportioned against, and levied and assessed on, all property subject to taxation in the manner provided by law, for taxes for other purposes in the municipalities and shall be collected and applied to such purpose by the official of the municipality charged by law with duty of apportioning, levying, assessing, collecting and applying taxes for other purposes.

(3) The refunding bonds issued in pursuance of

this chapter by municipalities shall be general and unlimited obligations of the municipalities and the full faith and credit of the municipality is hereby irrevocably pledged for their payment. The municipality and each and every official and governing board thereof shall levy, assess, apportion and collect on and from all taxable real and personal property in the municipality such taxes as shall be sufficient to pay the interest and principal of the refunding bonds as they become due and payable.

(4) No other section of this chapter or of any other law, or of any agreement or resolution made by the municipality shall be construed to limit or restrict the powers or obligations of the municipality under this chapter and the provisions of any resolution of the municipality made pursuant to this chapter shall be construed as supplemental hereto for the greater protection of the refunding bonds, and shall not be construed as limiting or restricting the application of this section.

(5) All refunding bonds issued pursuant to the provisions of this chapter shall not be subject to any limitation or indebtedness prescribed by any statutes, charter or other special act relating to the municipality.

History.—s. 23, ch. 15772, 1931; CGL 1936 Supp. 2383(23).

132.24 Elections, notice, etc.—Any election which may be held to determine whether any such refunding bonds shall be issued, if required by the Constitution of the state, shall be called, noticed and conducted, and the result thereof determined and declared as shall have been or may be required by law for the issuance of any bonds of the unit proposing to issue the bonds herein authorized; but if an election be not required by the Constitution and nevertheless be held, it may be called, noticed and conducted, and the result thereof determined and declared, in such manner as the governing body may provide by resolution. It shall not be necessary to hold any election for the issuance of any refunding bond, except in those cases in which an election is required by the Constitution of the state.

History.—s. 25, ch. 15772, 1931; CGL 1936 Supp. 2383(25).

132.26 Chapter supplemental and additional.—This chapter is intended as a supplemental and additional grant of power to each and all the various units of the state as hereinabove defined and shall apply as well to all municipalities whether heretofore or hereafter incorporated either under general or special act, and shall not supplant or repeal any existing powers for the issuance of funding or refunding bonds or any provisions of law of bonds issued under such powers, or for the custody of moneys provided for such payment, but shall nevertheless repeal all laws and parts of laws, general or special, so far as the same may be inconsistent with the complete exercise of any and all powers herein granted

or may deny the right to exercise any power herein granted as to the levy of taxes upon all taxable property of such unit or as to the custody of moneys provided for the payment of bonds or as to any other thing.

History.—s. 26, ch. 15772, 1931; CGL 1936 Supp. 2383(26).

132.27 Chapter complete within itself.—This chapter constitutes full authority for the things herein authorized, and no proceedings, publications, notices, consents or approval shall be required for the doing of the things herein authorized except as are herein prescribed and required. This chapter shall be deemed complete within itself, except insofar as other laws are specifically made applicable, nor shall powers hereby granted be restricted or limited by any other law.

History.—s. 27, ch. 15772, 1931; CGL 1936 Supp. 2383(27).

132.28 Chapter applicable to school districts.—In the event that any school district shall be authorized by the Constitution and laws of this state to legally issue refunding bonds the provisions of this chapter shall be deemed to apply to such school district.

History.—s. 29, ch. 15772, 1931; CGL 1936 Supp. 2383(28).

132.29 Validation.—Refunding bonds provided to be issued under this chapter shall be subject to validation and judicial proceedings in like manner and with like force and effect as bonds generally are provided to be validated by judicial proceedings under the laws of this state.

cf.—s. 237.211 Provisions as to depositories of school funds.

136.02 Method of qualifying as depository; securities to be deposited.—

(1) Any bank as described in s. 136.01 desiring to become a county depository as herein provided shall make satisfactory deposit with or to the credit of the clerk of the circuit court of such county of securities of the kind and amount as herein authorized, conditioned that said bank insure the safekeeping, proper accounting for, and payment over to the proper authority of all money that may come into its possession by virtue of its acting as said depository, and further conditioned that it will in all respects duly and faithfully perform the duties imposed upon it by reason of acting as such depository. When a bank or banks in the county offer satisfactory inducement as to security as herein provided, the clerk of the circuit court of such county shall issue a certificate showing that said bank has qualified as a county depository, and the securities deposited by such bank as herein provided shall secure all funds, jointly and severally, that shall be deposited in such banks by the boards or officials of such county. When a bank or banks in the county qualify as a county depository as herein provided, such bank or banks shall be eligible to receive deposits of the funds of the boards or officials of such county. If at any time a bank ceases to be qualified as a county depository, the clerk of the

circuit court of such county shall revoke the certificate of qualification of such bank and shall advise the applicable board or county official of such revocation, and until again qualified hereunder such bank shall not be eligible to receive or retain deposits of any of the funds herein mentioned.

(2) On the first day of each month, each county official and board maintaining funds on deposit in any such bank shall make and file with the clerk of the circuit court of such county a written report setting forth the balance of each fund on deposit in each bank in which such funds are deposited as of the close of business of the preceding month and setting forth the estimate of such officer or board of the highest balance expected to be on deposit in each such bank during the ensuing month.

(3) If at any time after a bank has qualified as a county depository as herein provided, the security furnished by it becomes insufficient or inadequate, the clerk of the circuit court of such county shall have authority, on such terms, conditions, and penalties as he may prescribe, to require other securities of the kind herein authorized in such additional amounts to be provided as he may deem necessary. If, at any time after a bank has qualified as a county depository as herein provided, the security furnished by it becomes, by reason of decreases in balances or deposits, more than sufficient to meet the requirements, the clerk of the circuit court of such county shall have the authority to authorize the security to be decreased to not less than the amount necessary to provide adequate safeguards for the funds deposited.

(4) The securities to be deposited by such banks desiring to qualify as a county depository hereunder shall consist of securities which are eligible for investment by any state bank authorized to do business in the state; provided, however, that except as to bonds or other obligations of the United States or bonds or other obligations the payment of whose principal and interest is guaranteed by the United States or federal certificates of indebtedness and Florida state and county bonds and Florida municipal general obligation bonds, the securities herein referred to shall be rated in one of the four highest classifications by a nationally recognized investment rating service.

(5) The fact that a county or municipal officer or member of a public board or body, including a district school officer and an officer of any district within a county is a stockholder or an officer or director of a bank will not bar such banks from qualifying as a depository of funds coming under the jurisdiction of any such county or municipal officer, provided it shall appear in the records of the state or county agency that the governing body of such agency has investigated and determined that such county officer or member of a public board or body as aforesaid has not favored such bank or banks over other quali-

fied banks and that there is no violation of subsection (1).

Funds in a saving or time deposit account shall not be subject to check without being transferred to the checking account by order of the board or officer having control of the same. Each board or officer at all times may transfer money from one of the classes or types of accounts to another. Interest shall be paid by banks receiving savings or time deposit accounts at such rate or rates as may be agreed upon with respect to such savings or time deposit accounts by the bank and the board or officer having control of such account. All interest earned on any of such deposits shall be credited to the account and fund on which it was earned, and all interest shall be computed and credited quarterly.

to number and amount, person to whom drawn and purpose for which drawn shall be recorded in the minutes of the board having ordered the same drawn, and each check or warrant so drawn shall be signed by the chairman of said board, attested by the clerk or secretary of said board with the corporate seal thereof affixed; however, money under the control of any school board may be withdrawn as may be otherwise provided by law.

(2) For the purpose of providing for the direct deposit of funds under the circumstances herein specified, each board or county officer authorized by law to issue checks or warrants for the withdrawal of money from a depository qualified under the provisions of this chapter is authorized to establish the form or forms of warrants for the withdrawal, payment, or disbursement of money out of such qualified depository and to change the form thereof from time to time as such board or officer deems appropriate. If authorized in writing by the payee, such warrants may provide for direct deposit of the funds to the account of the payee in any financial institution which is designated in writing by the payee and which has lawful authority to accept such deposits. The written authorization of the payee shall be filed with the appropriate board or county officer. Direct deposit of funds may be by any electronic or other medium approved by such board or officer for such purpose.

Upon the failure of any state or county officer to give the new bond required by s. 137.05, within 60 days after he is called upon to do so, such failure on the part of any county officer shall be deemed and held to be a misfeasance within the meaning of the Constitution; and the Governor shall suspend such officer, as provided in s. 7, Art. If any clerk of court shall fail to make such report for any month, the board of county commissioners shall immediately report to the Governor any such failure or refusal, and the Governor may, in his discretion, suspend such officer or officers from office. 145.011 Legislative intent.—

(1) In compliance with s. 5(c), Art. II of the State Constitution, it is the intent of the Legislature to provide for the annual compensation and method of payment for the several county officers named herein.

(2) The Legislature has determined that a uniform and not arbitrary and discriminatory salary law is needed to replace the haphazard, preferential, inequitable, and probably unconstitutional local law method of paying elected county officers.

(3) It is further the intent of this Legislature to provide by general law for such uniform compensation of county officials having substantially equal duties and responsibilities, taking into account the multitude of changes that have affected these offices within the past decade.

(4) The salary schedules in this chapter are therefore based on a classification of counties according to each county's population, which the Legislature determines to be the most practical basis from which to arrive at an adequate, uniform salary system.

History.—s. 1, ch. 61-461; s. 1, ch. 67-576; s. 4, ch. 69-216; s. 1, ch. 69-346; s. 7, ch. 69-403.

145.012 Applicability.—This chapter applies to all officials herein designated in all counties of the state except those officials whose salaries are not subject to being set by the Legislature because of the provisions of a county home rule charter and except officials, other than the property appraiser who if qualified shall receive in addition to his salary the

special qualification salary as provided in s. 145.10(2), of counties which have a chartered consolidated form of government as provided in chapter 67-1320, Laws of Florida.

History.—s. 2, ch. 69-346; s. 15, ch. 73-173; s. 45, ch. 73-333; s. 1, ch. 77-102.

145.021 Definitions.—As used in this chapter:

(1) "Population" means the population according to the latest annual determination of population of local governments produced by the Executive Office of the Governor in accordance with s. 23.019.

(2) "Salary," when referring to amounts payable under the schedules set forth in this chapter, means the total annual compensation to be paid to an official as personal income.

(3) To fix and collect rates, fees and other charges for the service and facilities furnished by any such water supply system or water system improvements and sewage disposal system or sewer improvements and to fix and collect charges for making connections with the water system of the county.

(4) To receive and accept from the federal government or any agency thereof grants for or in aid of the planning, purchase, construction, reconstruction, or financing of any facility and to receive and accept contributions from any source of either money, property, labor, or other things of value to be held, used, and applied only for the purpose for which such grants and contributions may be made.

(5) To acquire in the name of the county by gift, purchase as hereinafter provided or by the exercise of the right of eminent domain, such lands and rights and interests therein, including lands under water and riparian rights, and to acquire such personal property as it may deem necessary for the efficient operation or for the extension of or the improvement of any facility purchased or constructed under the provisions of this chapter and to hold and dispose of all real and personal property under its control; provided, however, that no county shall have the right to exercise the right of eminent domain over any such lands or rights or interests therein or any personal property owned by any municipality within the state nor to exercise such right with respect to any privately owned water supply system or sewage disposal system including without limitation ponds, streams and surface waters constituting a part thereof, provided any such system is primarily used, owned or operated by an industrial or manufacturing plant for its own use as a water supply system or in disposing of its industrial wastes.

(6) To make and enter into all contracts and agreements necessary or incidental to the performance of its duties and the execution of its powers under this chapter and to employ such consulting and other engineers, superintendents, managers, construction and accounting experts and attorneys and such other employees and agents as it may deem necessary in its judgment and to fix their compensation.

(7) Subject to the provisions and restrictions as may be set forth in the resolution hereinafter mentioned authorizing or securing any bonds issued under the provisions of this chapter to enter into contracts with the government of the United States or any agency or instrumentality thereof or with any other county or with any municipality, private corporation, copartnership, association, or individual providing for or relating to the acquisition and supplying of water and the collection, treatment and disposal of sewage.

(8) To acquire by gift or purchase at a price to be mutually agreed upon, any of the facilities or portions thereof, provided for by this chapter, which shall, prior to such acquisition, have been owned by any private person, group, firm, partnership, association or corporation; provided, however, if the price

for same cannot be agreed upon, the price shall be determined by an arbitration board consisting of three persons, one of whom shall be selected by the board of county commissioners, one shall be appointed by the private company or corporation, and the two persons so selected shall select a third member of said board; and provided, further, that in the event said board cannot agree as to the price to be paid by the said board of county commissioners, then the board of county commissioners shall exercise the right of eminent domain.

(9) To enter into agreements and contracts with building contractors erecting improvements within any duly platted subdivision within the county, the terms of which said agreements or contracts may provide that such building contractors shall install within such subdivision water mains, lines and equipment and sewer mains and lines, to be approved by the county commission, said mains and lines to run to a point or location to be agreed upon, at which said point or location said mains and lines shall be connected to the water supply system or water system improvements and/or to the sewage disposal system or sewer improvements of the county. In the event such agreements or contracts are entered into they shall provide that upon the connection of the mains or lines within the subdivision to the water or sewer facilities of the county said mains, lines and equipment running to the various privately owned parcels of land within such subdivision shall become the property of the county and shall become a part of the county water system improvements and/or sewer improvements.

(10) To restrain, enjoin or otherwise prevent any person or corporation, public or private, from contaminating or polluting (as defined in s. 387.08) any source of water supply from which is obtained water for human consumption to be used in any water supply system or water system improvement as authorized by this chapter, and to restrain, enjoin or otherwise prevent the violation of any provision of this chapter or any resolution, rule or regulation adopted pursuant to the powers granted by this chapter; provided, however, that this chapter shall not apply to or affect any existing contract that a municipality may have for water or sewage disposal without the consent of both parties to said contract but this subsection shall not authorize the institution or prosecution of any proceeding hereunder nor the adoption of any resolution, rule or regulation which shall in anywise affect the right of any industrial or manufacturing plant to discharge industrial waste into any nonnavigable or navigable waters unless such waters are now being used or are hereafter used hereunder as a source of water for human consumption and unless the industrial wastes of any such plant are not being discharged into such waters prior to the time that action is taken by the commission under this chapter to include such water as a part of any water supply system.

(11) To acquire by gift or purchase, at such price, and upon such deferred or other terms, as may be mutually agreed upon, all the capital stock of any domestic or foreign corporation which, prior to such acquisition, shall have owned or operated any of the facilities or portions thereof provided for by this

chapter; to pledge the revenues from the facilities as security for payment of the purchase price for said stock; and to operate the facilities through the corporation so acquired or to dissolve said corporation and operate the facilities in any other manner authorized by law.

153.04 Construction of water supply systems, water system improvements, sewage disposal systems, and sewer improvements.—Whenever the county commission of any of the several counties of the state by resolution chooses to exercise the powers granted by this chapter it shall make or cause to be made such surveys, investigations, studies, borings, maps, plans, drawings and estimates of costs and of revenues as it may deem necessary to prepare or have prepared so that such county commission shall have available to it a comprehensive study and report setting forth either or both of the following:

(1) The type and estimate of costs of each water supply system, the purchase or construction of which shall be deemed by it to be desirable and feasible, together with the location thereof, and of each integral part, and also setting forth what water system improvements, if any, it deems necessary to purchase or construct to protect the health of and render fire protection to the inhabitants of the county, together with the location by terminal points and route of each such improvement, a description thereof by its material, nature, character and size and an estimate of the cost of its purchase or construction.

(2)(a) The type of treatment and estimate of cost of each sewage disposal plant or system, the purchase, or construction of which shall be deemed by the county commission to be desirable and feasible, together with the location thereof and of each integral part, and also setting forth what sewer improvements, if any, it deems necessary to purchase or construct to protect the health of the inhabitants of the county, together with the location by terminal points and route of each such improvement, a description thereof by its material, nature, character, and size and an estimate of the cost of its purchase or construction.

(b) If such study and report reveals, or if it is a fact that any parcel, plot or area of land proposed to be served by county-owned and operated facilities as contemplated by this chapter is being served or there is available to it for service such facilities which are owned and operated by private individuals, copartnerships, corporations or associations, then the county is hereby prohibited from furnishing the facilities provided by this chapter to such property without the written consent of the owner or owners of such privately owned facilities.

(c) The obtaining of such surveys, investigations, studies, borings, maps, plans, drawings and estimates is hereby declared to be a county purpose and the costs thereof may be paid out of the general funds of the county.

(d) Upon receipt of such report the county commission may authorize the purchase and/or con-

struction of such facilities as it may deem feasible and practicable.

(e) All public or private property damaged or destroyed in carrying out the powers granted by this chapter shall be restored or repaired and placed in its original condition as nearly as practicable or adequate compensation made therefor out of the funds provided by this chapter.

(f) The state hereby consents to the use of all state lands lying under water which are necessary for the accomplishments or purposes of this chapter.

153.05 Water system improvements and sanitary sewers; special assessments.—

(1) Any county may provide for the construction or reconstruction of a facility and for the levying of special assessments upon benefited property under the provisions of this section. The initial proceeding hereunder shall be the passage at any lawful meeting of the commission of a resolution ordering the construction or reconstruction of such facility under and subject to the provisions of this section, indicating the location by terminal points and route and either giving a description of the improvements by its material, nature, character and size or giving two or more such descriptions with the direction that the material, nature, character and size shall be subsequently determined in conformity with one of such descriptions. Water system improvements or sewer improvements need not be continuous and may be in more than one locality or street. The resolution ordering any such improvement may give any short and convenient designation to each improvement ordered thereby, after which it shall be sufficient to refer to such improvement and property by such designation in all proceedings and assessments, except in the notices provided by subsections (3) and (4).

(2)(a) As soon as may be after the passage of such resolution the engineer for the county shall prepare in duplicate plans and specifications of each improvement ordered thereby and an estimate of the cost thereof. Such cost may include, in addition to the items of cost set forth in s. 153.02(8) the cost of relaying streets and sidewalks necessarily torn up or damaged and shall include the following items of incidental expense:

1. Printing and publishing of notices and proceedings, costs of abstracts of title; and

2. Any other expense necessary or proper in conducting the proceedings and work provided for in this section.

(b) If the resolution shall provide alternative descriptions of material, nature, character and size, such estimate shall include an estimate of the cost of the improvement of each such description.

(c) The engineer shall also prepare in duplicate a tentative apportionment of the estimated cost as between the county and each lot or parcel of land subject to special assessment under the resolution, such apportionment to be made in accordance with the provisions of the resolution and the provisions of subsection (6) in relation to apportionment of cost in the preliminary assessment roll. Such tentative apportionment of estimated cost shall not be held to limit or restrict the duties of the engineer in the preparation of such preliminary assessment roll.

One of the duplicates of such plans, specifications and estimate and such tentative apportionment shall be filed with the clerk of the circuit court in the county and the other duplicate shall be retained by the engineer in his files, all thereof to remain open to public inspection.

(3) The county commission upon the filing with it of such plans, specifications, estimate and tentative apportionment of cost shall publish once in a newspaper published in the county a notice stating that at a regular meeting of the commission on a certain day and hour, not earlier than 10 days from such publication, the commission will hear objections of all interested persons to the confirmation of such resolution, which notice shall state in brief and general terms a description of the proposed improvement with the location thereof and shall also state that plans, specifications, estimate and tentative apportionment of cost thereof are on file in the office of such clerk. The commission shall keep a record in which shall be inscribed, at the request of any person, firm or corporation having or claiming to have an interest in any lot or parcel of land, the name and post-office address of such person, firm or corporation, together with a brief description or designation of such lot or parcel, and it shall be the duty of the commission to mail a copy of such notice to such person, firm or corporation at such address, at least 10 days before the time for the hearing as stated in such notice, but the failure of the commission to keep such record or so to inscribe any name or address or to mail any such notice shall not constitute a valid objection to holding the hearing as provided in this section or to any other action taken under the authority of this section.

(4) At the time named in such notice, or to which an adjournment may be taken by the commission, the commission shall receive any objections of interested persons and may then or thereafter repeal or confirm such resolution with such amendments, if any, as may be desired by the commission and which do not cause any additional property to be specially assessed.

(5) All objections to any such resolution on the ground that it contains items which cannot be properly assessed against property, or that it is, for any default or defect in the passage or character of the resolution or the plans or specifications or estimate, void or voidable in whole or in part, or that it exceeds the power of the commission, shall be made in writing, in person or by attorney, and filed with the commission at or before the time or adjourned time of such hearing. Any objections against the making of any improvement not so made shall be considered as waived, and if an objection shall be made and overruled or shall not be sustained, the confirmation of the resolution shall be the final adjudication of the issues presented unless proper steps shall be taken in a court of competent jurisdiction to secure relief within 10 days.

(6) Promptly after the completion of the work, the engineer for the county shall prepare a preliminary assessment roll and file same with the clerk, which roll shall contain the following:

(a) A description of the lots and parcels of land within the district, which shall include all lots and

parcels which abut upon the sides of that part of any street in which a water supply system, water system improvement or sanitary sewer, except a curb sewer, is to be constructed or reconstructed, all lots and parcels which abut upon the side or sides of any street in or along which side or sides a sanitary curb sewer shall have been constructed or reconstructed, and all lots and parcels which are served or are to be served by such water supply system, water system improvement or sanitary sewer. Such lots and parcels shall include all property, whether publicly or privately owned. There may also be given, in the discretion of the engineer, the name of the owner of record of each lot or parcel, where practicable, and in all cases there shall be given a statement of the number of feet of property so abutting, which number of feet shall be known as frontage.

(b) The total cost of the improvement, and the amount of incidental expense.

(c) An apportionment as between the county and the property included in the preliminary assessment roll of the cost of each improvement, including incidental expense, to be computed as follows:

1. To each lot or parcel of land, to the property or curb line of which a water supply lateral or sanitary sewer lateral shall have been laid, shall be apportioned the cost of such lateral or laterals.

2. To abutting property shall be apportioned according to frontage, or any other method being deemed equitable by the commission, all or any part of the cost of such water system improvements or sewer improvements as may be fixed by resolution ordering the improvements.

3. To the county shall be apportioned the remaining costs of the water system improvements or sewer improvements, unless all of such costs shall be apportioned to the abutting property; provided, however, that in the case of lots or parcels which abut on more than one street or which are served or are to be served by such water system improvements or sewer improvements although not abutting on either side of the street in which such improvement is constructed, the apportionment shall be made under such rules and regulations as the commission shall deem to be fair and equitable.

(7) The preliminary roll shall be advisory only and shall be subject to the action of the commission as hereinafter provided. Upon the filing with the commission of the preliminary assessment roll, the commission shall publish once in a newspaper published in the county a notice stating that at a meeting of the commission to be held on a certain day and hour, not less than 12 days from the date of such publication, which meeting may be a regular, adjourned or special meeting, all interested persons may appear and file written objections to the confirmation of such roll. Such notice shall state the class of the improvement and the location thereof by terminal points and route. Such meeting of the commission shall be the first regular meeting following the completion of the notice hereinabove required, unless the commission shall have provided for a special meeting for such purpose.

(8) At the time and place stated in such notice the commission shall meet and receive the objections in writing of all interested persons as stated in such

notice. The commission may adjourn the hearing from time to time. After the completion thereof the commission shall either annul or sustain or modify in whole or in part the prima facie assessment as indicated on such roll, either by confirming the prima facie assessment against any and all lots or parcels described therein, or by canceling, increasing or reducing the same, according to the special benefits which the commission decides each such lot or parcel has received or will receive on account of such improvement. If any property which may be chargeable under this section shall have been omitted from the preliminary roll or if the prima facie assessment shall not have been made against it, the commission may place on such roll an apportionment to such property. The commission shall not confirm any assessment in excess of the special benefits to the property assessed, and the assessments so confirmed shall be in proportion to the special benefits. Forthwith after such confirmation, such assessment roll shall be delivered to the county property appraiser. The assessment so made shall be final and conclusive as to each lot or parcel assessed unless proper steps be taken within 10 days in a court of competent jurisdiction to secure relief. If the assessment against any property shall be sustained or reduced or abated by the court, the county property appraiser shall note that fact on the assessment roll opposite the description of the property affected thereby. The amount of the special assessment against any lot or parcel which may be abated by the court, unless the assessment upon the entire district is abated, or the amount by which such assessment is so reduced, may be, by resolution of the commission made chargeable against the county at large; or, in the discretion of the commission, a new assessment roll may be prepared and confirmed in the manner hereinabove provided for the preparation and confirmation of the original assessment roll.

(9) Any assessments may be paid at the office of the county tax collector within 30 days after the confirmation thereof, without interest. Thereafter all assessments shall be payable in equal annual installments, with interest at 8 percent per annum from the expiration of said 30 days in each of the succeeding 20 calendar years at the time or times in each year at which the general county taxes are payable; provided, however, that the commission may by resolution fix a shorter period of payment for any assessment; provided, further, that any assessment may be paid at any time before due, together with interest accrued thereon to the date of payment.

(10) All assessment shall constitute a lien upon the property so assessed from the date of confirmation of the resolution ordering the improvement, of the same nature and to the same extent as the lien for general county taxes falling due in the same year or years in which such assessment or installments thereof fall due, and any assessment or installment not paid when due shall be collectible in the same manner and at the same time as such general taxes are or may be collectible, with the same attorney's fee, interest and penalties and under the same provisions as to forfeiture and the right of the county to purchase the property assessed as are or may be

provided by law in the case of county taxes; provided, however, that no such sale of any property for general county taxes or for an installment or installments of any such assessment and no perfecting of title under any such sale shall divest the lien of any installment of such assessment not due at the time of the sale. Collection of such assessments, with such interest and with a reasonable attorney's fee and costs, but without penalties, may also be made by the county by proceedings in a court of equity to foreclose the lien of assessments as a lien for mortgages or may be foreclosed under the laws of the state; or by an action in rem in the manner provided by law for the foreclosure and collection of ad valorem taxes; provided that any such proceedings to foreclose shall embrace all installments of principal remaining unpaid with accrued interest thereon, which installments shall, by virtue of the institution of such proceedings, immediately become and be due and payable. Nevertheless, if, prior to any sale of the property under decree of foreclosure in such proceedings, payment be made of the installment or installments which are shown to be due under the provisions of the resolution passed pursuant to subsection (9), with interest as required by said subsection and by this subsection (10) and all costs including attorney's fee, such payment shall have the effect of restoring the remaining installments to their original maturities as provided by the resolution passed pursuant to said subsection (9), and the proceedings shall be dismissed. It shall be the duty of the county to enforce the prompt collection of assessments by one or the other of the means herein provided, and such duty may be enforced at the suit of any holder of bonds issued under this chapter in a court of competent jurisdiction by mandamus or other appropriate proceedings or action. Not later than 30 days after the annual sale of property for delinquent taxes of the county, or if such property or taxes are not sold by the county, then within 60 days after such taxes become delinquent, it shall be the duty of the commission to direct the attorney or attorneys whom the commission shall then designate, to institute actions within 3 months after such direction to enforce the collection of all special assessments for local improvements made under this section and remaining due and unpaid at the time of such direction (unless theretofore sold at tax sale). Such action shall be prosecuted in the manner and under the conditions in and under which mortgages are foreclosed under the laws of the state. It shall be lawful to join in one action the collection of assessments against any or all property assessed by virtue of the same assessment roll unless the court shall deem such joinder prejudicial to the interest of any defendant. The court shall allow a reasonable attorney's fee for the attorney or attorneys of the county, and the same shall be collectible as a part of or in addition to the costs of the action. At any sale pursuant to decree in any such action, the county may be a purchaser to the same extent as an individual person or corporation, except that the part of the purchase price represented by the assessments sued upon and the interest thereon need not be paid in cash. Property so acquired by a county, including the certificate of sale thereof, may be sold or otherwise

disposed of, for cash or upon terms, the proceeds of such disposition to be placed in the fund provided by subsection (11) of this section; provided, however, that no sale or other disposition thereof shall be made unless notice calling for bids therefor to be received at a stated time and place shall have been published in a newspaper published in the county one time at least 1 week prior to such disposition.

(11) All assessments and charges made under the provisions of this section for the payment of all or any part of the cost of any sewer improvement or improvements for which bonds shall have been issued under the provisions of this chapter, are hereby pledged to the payment of the principal of and the interest on such bonds and shall when collected be placed in a separate fund, properly designated, which fund shall be used for no other purpose than the payment of such principal and interest.

(12) Each school district and other political subdivision wholly or partly within the county and each public agency or instrumentality owning property within the county shall possess the same power and be subject to the same duties and liabilities in respect of assessment under this section affecting the real estate of such county, district, political subdivision, or public agency or instrumentality which private owners of real estate possess or are subject to hereunder, and such real estate shall be subject to liens for said assessments in all cases where the same property would be subject had it at the time the lien attached been owned by a private owner.

153.06 Issuance of bonds.—

(1) The county commission is hereby authorized to provide by resolution at one time or from time to time for the issuance of either water revenue bonds, sewer revenue bonds, or general obligation bonds of the county for the purpose of paying all or any part of the cost of any one or more of the following:

- (a) A water supply system or systems;
- (b) Extensions and additions thereto;
- (c) Water system improvements;
- (d) A sewage disposal system or systems;
- (e) Extensions and additions thereto; and
- (f) Sewer improvements.

The bonds of each issue shall be dated, shall bear interest at such rate or rates not exceeding 7½ percent per annum, shall mature at such time or times not exceeding 50 years from their date or dates as may be determined by the county commission, and may be made redeemable before maturity at the option of the county at such price or prices and under such terms and conditions as may be fixed by the county commission prior to the issuance of the bonds.

(2) The county commission shall determine the form of the bonds including any interest coupons to be attached thereto, and the manner of the execution of the bonds and shall fix the denomination or denominations of the bonds and place or places of payment of principal or interest which may be at any bank or trust company within or without the state. In case any officer whose signature or facsimi-

le of whose signature shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery.

(3) All bonds issued under the provisions of this chapter shall have and are hereby declared to have all the qualities and incidents of negotiable instruments. Bonds may be issued in coupon or in registered form or both as the county commission may determine and provision may be made for the registration of any coupon bonds as to principal alone and also as to both principal and interest and for the reconversion into coupon bonds of any bonds registered as to bond principal and interest.

(4) The issuance of such bonds shall not be subject to any limitations or conditions contained in any other statute and the county commission may sell such bonds in such manner either at public or private sale and for such price as it may determine to be for the best interests of the county, but no such sale shall be made at a price so low as to require the payment of interest on the money received therefor at more than $7\frac{1}{2}$ percent per annum computed with relation to the absolute maturity of the bonds in accordance with the standard tables of bond values, excluding, however, from such computations the amount of any premium to be paid on redemption of any bonds prior to maturity. Prior to the preparation of definitive bonds, the county may, under like restrictions, issue interim receipts or temporary bonds with or without coupons exchangeable for definitive bonds when such bonds have been executed and are available for delivery. The county commission may also provide for the replacement of any bonds which shall become mutilated or be destroyed or lost.

(5) Bonds may be issued under the provisions of this chapter without obtaining the consent of any commission, board, bureau or agency of the state and without the proceeding or happening of any other condition or thing than those proceedings, conditions or things which are specifically required by this chapter.

(6) The proceeds of such bonds shall be used solely for the payment of costs of the water supply system or systems or the water system improvements or the sewage disposal system or systems or the sewer improvements, for the purchase, construction or reconstruction of which such bonds shall have been authorized, and shall be disbursed in such manner and under such restrictions, if any, as the county commission may provide in the authorizing resolution. If the proceeds of such bonds, by error of estimates or otherwise shall be less than such costs, additional bonds may in like manner be issued to provide the amount of such deficit and unless otherwise provided in the authorizing resolution shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued for the same purpose. If the proceeds of the bonds of any issue shall exceed the amount required for the purpose for

which such bonds shall have been issued, the surplus shall be paid into the fund provided under the provisions of this chapter for the payment of principal of and the interest on such bonds.

153.07 General obligation bonds.—

(1) No general obligation bonds shall be issued by county unless the issuance of such bonds shall be approved by a majority of the votes that are cast in an election in which a majority of the freeholders who are qualified electors residing in the county shall participate. Such election shall be called, noticed and conducted and the result thereof determined and declared in the manner required by law for the issuance of bonds of the county.

(2) For the payment of the principal and the interest on any general obligation bonds of the county issued under the provisions of this chapter, the county commission is hereby authorized and required to levy annually a special tax upon all taxable property within the county over and above all other taxes authorized or limited by law sufficient to pay such principal and interest as the same respectively become due and payable, and the proceeds of all such taxes shall when collected be paid into a special fund and used for no other purpose than the payment of such principal and interest; provided, however, that there may be pledged to the payment of such principal and interest the proceeds of such water service charges and/or sewer service charges, and in the event of such pledge the amount of the annual tax levy herein required may be reduced in any year by the amount of such proceeds actually received in the preceding year and then remaining on deposit to the credit of such fund for the payment of such principal and interest.

History.—s. 7, ch. 29837, 1955; s. 6, ch. 67-547.

153.08 Water and sewer district general obligation bonds.—

(1) The county commission is hereby authorized to establish within the county such water and sewer districts as it may deem necessary. For the purpose of providing for and financing the facilities provided for in this chapter, general obligation bonds may be issued covering the facilities located in such district and to be paid by general ad valorem taxes levied in and collected from such district or districts; provided, however, that no such general obligation bonds for such district or districts shall be issued by the county unless the issuance of such bonds shall be approved by a majority of the votes in an election in which a majority of the freeholders who are qualified electors residing in such district or districts shall participate. Such election shall be called, noticed and conducted and the result thereof determined and declared in the manner required by law for the issuance of bonds of the county.

(2) For the payment of the principal and interest thereon on any such general obligation bonds issued for the benefit of such district or districts issued under the provisions of this chapter the county commission is hereby authorized and required to levy annually a special tax upon all taxable property within the said district or districts over and above all other taxes authorized or limited by law sufficient to pay

such principal and interest as the same respectively becomes due and payable, and the proceeds of all such taxes shall when collected be paid into a special fund and used for no other purpose than the payment of such principal and interest; provided, however, that there may be pledged to the payment of such principal and interest the proceeds of such water service charges and/or sewer service charges and in the event of such pledge the amount of the annual tax levied herein required may be reduced in any year by the amount of such proceeds actually received in the preceding year and then remaining on deposit to the credit of such fund for the payment of such principal and interest.

(3) Revenue bonds as authorized by s. 153.09 may be issued to finance facilities located in any district created under the authority of this section.

History.—s. 8, ch. 29837, 1955; s. 2, ch. 57-323; s. 7, ch. 67-547. cf.—s. 153.05 Special assessments; water and sewer systems.

153.09 Water revenue bonds and sewer revenue bonds.—

(1) Water revenue bonds may be used only in connection with the acquisition, construction or operation of water supply systems or water system improvements, and sewer revenue bonds may be used only in connection with the acquisition, construction and operation of sewage disposal systems and sewer improvements. Water revenue bonds and/or sewer revenue bonds issued under the provisions of this chapter shall not be deemed to constitute a pledge of the faith and credit of the county but such bonds shall be payable solely from the funds provided therefor under the provisions of this chapter. All such bonds shall contain a statement on their face substantially to the effect that the county is not obligated to pay such bonds or the interest thereon except from such funds and that the faith and the credit of the county is not pledged to the payment of the principal of or the interest on such bonds. The issuance of water revenue bonds and/or sewer revenue bonds under the provisions of this chapter shall not directly or indirectly or contingently obligate the county to levy any taxes whatever therefor or to make any appropriation for their payment except from the funds pledged under the provisions of this chapter.

(2)(a) The resolution authorizing the issuance of water revenue bonds under the provisions of this chapter shall pledge the revenues to be received but shall not convey or mortgage any water supply system or water system improvements, or any part thereof.

(b) The resolution authorizing the issuance of sewer revenue bonds under the provisions of this chapter shall pledge the revenue to be received but it shall not convey or mortgage any sewage disposal system or sewer improvements or any part thereof.

(c) Either water revenue bonds or sewer revenue bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the county commission in relation to the purchase, construction, reconstruction, improvement, maintenance, operation, repair and insurance of the water supply system or systems and the water

system improvements and the sewage disposal system or systems and the sewer improvements and provisions for the custody, and safeguarding and application of all moneys, and for the employment of consulting engineers in connection with such purchase, construction, reconstruction or operation. Such resolution may set forth the rights and remedies of the bondholders and may restrict the individual right of action by bondholders as is customary in trust agreements or trust indentures securing bonds or debentures of corporations.

(d) In addition to the foregoing, such resolution may contain such other provisions as the county commission may deem reasonable and proper for the security of bondholders. Except as in this chapter otherwise provided, the county commission may provide for the payment of the proceeds of the sale of the bonds and revenues of the water supply system or systems and of any water system improvements or of the sewage disposal system or systems and of any sewer improvements to such officer, board or depository as it may designate for the custody thereof, and for the method of disbursement thereof, with such safeguards and restrictions as it may determine.

(3) The resolution providing for the issuance of water revenue bonds and/or sewer revenue bonds may also contain such limitations upon the issuance of additional water revenue bonds and/or sewer revenue bonds as the county commission may deem proper, and such additional bonds shall be issued under such restrictions and limitations as may be prescribed by such resolution.

(4) No water revenue bonds or sewer revenue bonds shall be issued under the authority of this chapter unless the county commission shall have theretofore found and determined the estimated cost of the facilities or systems on account of which such bonds are to be issued, the estimated annual revenues of such facilities or systems, and the estimated annual cost of maintaining, repairing and operating such facilities or systems, nor unless it shall appear from such estimate that the annual revenues will be sufficient to pay such cost of maintenance, repair and operation and the interest on such bonds and the principal thereof as such interest and principal shall become due.

(5) If the approval of the issuance of water revenue bonds or sewer revenue bonds at an election of the freeholders who are qualified electors residing in the county shall be required by the constitution of the state, such election shall be called, noticed and conducted and the result thereof determined and declared as shall have been or may be required by law for the issuance of bonds of the county.

History.—s. 9, ch. 29837, 1955.

153.091 Combined systems; issuance of bonds.—

(1) Notwithstanding the provisions of s. 153.09, the county may issue water and sewer revenue bonds for the purpose of the construction, acquisition, or improvement of water supply systems or water system improvements and sewage disposal systems or sewer improvements, which have been combined by the county. Such water and sewer revenue bonds may also be issued for the purposes of the construction, acquisition or improvement of such combined

system, or any part thereof, and the refunding of any outstanding bonds or obligations theretofore issued to finance the cost of such combined system or any part thereof.

(2) In the event that the water supply system or water system improvements and sewage disposal systems and sewer improvements are combined into one water and sewer system all of the provisions of this chapter relating to water supply systems or water system improvements and sewage disposal systems and sewer improvements and water revenue bonds and sewer revenue bonds shall apply to such combined systems and water and sewer revenue bonds to the extent the same are applicable.

History.—s. 8, ch. 67-547.

153.10 Call for bids.—

(1) As soon as practicable after the authorization of bonds under the provisions of this chapter or the appropriation of moneys for the construction of water system improvements or sewer improvements, the commission shall publish once, in a newspaper published in the county, and, if the estimated cost exceeds \$10,000, in a newspaper of general circulation in the state, a notice calling for sealed bids to be received by the commission on a date not earlier than 15 days from the first publication, for the construction of the work.

(2) The notice shall refer in general terms to the extent and nature of the improvement or improvements and may identify the same by the short designation indicated in the initial resolution and by reference to the plans and specifications on file. If the initial resolution shall have given two or more alternative descriptions of the improvement as to its material, nature, character and size, and if the commission shall not have theretofore determined upon a definite description, the notice shall call for bids upon each of such descriptions.

(3) Bids may be requested for the work as a whole or for any part thereof separately and bids may be asked for any one or more improvements authorized by the same or different resolutions, but any bid covering work upon more than one improvement shall be in such form as to permit a separation of cost as to each improvement.

(4) The notice shall require bidders to file with their bids either a certified check upon an incorporated bank or trust company for 2½ percent of the amount of their respective bids or a bid bond in like amount with corporate surety satisfactory to the attorney for the county to insure the execution of a contract to carry out the work in accordance with such plans and specifications and to insure the filing, at the making of such contract, of a bond in the amount of the contract price with corporate sureties satisfactory to such attorney conditioned for the performance of the work in accordance with such contract.

(5) The commission shall have the right to reject any and all bids, and if all bids are rejected the commission may readvertise.

History.—s. 10, ch. 29837, 1955; s. 2, ch. 57-774.

153.11 Water service charges and sewer service charges; revenues.—

(1)(a) The county commission shall in the resolution providing for the issuance of either water revenue bonds or sewer revenue bonds, or both, fix the initial schedule of rates, fees and other charges for the use of and for the services furnished or to be furnished by the facilities, to be paid by the owner, tenant or occupant of each lot or parcel of land which may be connected with and use any such facility by or through any part of the water system of the county.

(b) After the system or systems shall have been in operation the county commission may revise such schedule of rates, fees and charges from time to time. Such rates, fees and charges shall be so fixed and revised as to provide funds, with other funds available for such purposes, sufficient at all times to pay the cost of maintaining, repairing and operating the system or systems including the reserves for such purposes and for replacements and depreciation and necessary extensions, to pay the principal of and the interest on the water revenue bonds and/or sewer revenue bonds as the same shall become due and the reserves therefor, and to provide a margin of safety for making such payments. The county commission shall charge and collect the rates, fees and charges so fixed or revised and such rates, fees and charges shall not be subject to supervision or regulation by any other commission, board, bureau or agency of the county or of the state or of any sanitary district or other political subdivision of the state.

(c) Such rates, fees and charges shall be just and equitable and may be based or computed upon the quantity of water consumed and/or upon the number and size of sewer connections or upon the number and kind of plumbing fixtures in use in the premises connected with the sewer system or upon the number or average number of persons residing or working in or otherwise connected with such premises or upon any other factor affecting the use of the facilities furnished or upon any combination of the foregoing factors.

(d) In cases where the amount of water furnished to any building or premises is such that it imposes an unreasonable burden upon the water supply system an additional charge may be made therefor or the county commission may if it deems advisable compel the owners or occupants of such building or premises to reduce the amount of water consumed thereon in a manner to be specified by the county commission or the county commission may refuse to furnish water to such building or premises.

(e) In cases where the character of the sewage from any manufacturing or industrial plant or any building or premises is such that it imposes an unreasonable burden upon any sewage disposal system, an additional charge may be made therefor, or the county commission may, if it deems it advisable, compel such manufacturing or industrial plant or such building or premises to treat such sewage in such manner as shall be specified by the county commission before discharging such sewage into any sewer lines owned or maintained by the county.

(2) The county commission may charge any owner or occupant of any building or premise receiving

the services of the facilities herein provided such initial installation or connection charge or fee as the commission may determine to be just and reasonable.

(3)(a) No rates, fees or charges shall be fixed under the foregoing provisions of this section until after a public hearing at which all of the users of the facilities provided by this chapter and owners, tenants and occupants of property served or to be served thereby and all others interested shall have an opportunity to be heard concerning the proposed rates, fees and charges. After the adoption by the county commission of a resolution setting forth the preliminary schedule or schedules fixing and classifying such rates, fees and charges, notice of such public hearing setting forth the schedule or schedules of rates, fees and charges shall be given by one publication in a newspaper published in the county at least 10 days before the date fixed in said notice for the hearing, which said hearing may be adjourned from time to time. After such hearing such preliminary schedule or schedules, either as originally adopted or as modified or amended, shall be adopted and put into effect and thereupon the resolution providing for the issuance of water revenue bonds and/or sewer revenue bonds may be finally adopted.

(b) A copy of the schedule or schedules of such rates, fees and charges finally fixed in such resolution shall be kept on file in the office of the clerk of the circuit court in the county and shall be open to inspection by all parties interested. The rates, fees or charges so fixed for any class of users or property served shall be extended to cover any additional property thereafter served which fall within the same class without the necessity of any hearing or notice.

(c) Any change or revision of any rates, fees or charges may be made in the same manner as such rates, fees or charges were originally established as hereinabove provided, but if such change or revision be made substantially pro rata as to all classes of service no notice or hearing shall be required.

History.—s. 11, ch. 29837, 1955.

153.12 Collection of charges.—

(1) Upon the construction of a sewage disposal system and the financing of such construction by the issuance of sewer revenue bonds under the provisions of this chapter, the owner, tenant or occupant of each lot or parcel of land within the county which abuts upon a street or other public way containing a sanitary sewer served or which may be served by such disposal system and upon which lot or parcel a building shall have been constructed for residential or commercial use and which lot or parcel shall not already be served by, or have available to it for service, a sanitary sewer, shall, if so required by the rules and regulations of the county commission or by resolution thereof, connect such building with such sanitary sewer and shall cease to use any other method for the disposal of sewage, sewage waste or other polluting matter. All such connections shall be made in accordance with rules and regulations which shall be adopted from time to time by the county commission.

(2) The county commission may provide in the resolution authorizing the issuance of water revenue

bonds or sewer revenue bonds under the provisions of this chapter that the charges for the services furnished by any facility constructed or reconstructed by the county under the provisions of this chapter shall be included in single bills to be rendered for all the services furnished to the premises, and that if the amount of such charges so included shall not be paid within 30 days from the rendition of any bill, the county commission shall discontinue furnishing water to such premises and shall disconnect the same from the water supply system of the county. Any such resolution may include any or all of the following provisions, and may permit the county commission to adopt such resolution or take such other lawful action as shall be necessary to effectuate such provisions, and the county commission is hereby authorized to adopt such resolutions and to take such other action:

(a) That the county may require the owner, tenant or occupant of each lot or parcel of land within the county who is obligated to pay the rates, fees or charges for the services furnished by any facility purchased, constructed or reconstructed by the county under the provisions of this chapter to make a reasonable deposit with the county commission in advance to insure the payment of such rates, fees or charges and to be subject to application to and payment thereof if and when delinquent.

(b) That if any rates, fees or charges for the use and services of any sewage disposal system or sewer improvements by or in connection with any premises not served by the waterworks system of the county shall not be paid within 30 days after the same shall become due and payable, the owner, tenant or occupant of such premises shall cease to dispose of sewage or industrial waste originating from or on said premises by discharge thereof directly or indirectly into the sewer system of the county until such rates, fees or charges with interest, shall be paid; that if such owner, tenant or occupant shall not cease such disposal at the expiration of such 30-day period it shall be the duty of any district, private corporation, board, body or person supplying water to or selling water for use on such premises to cease supplying water to or selling water for the use on such premises within 5 days after the receipt of notice of such delinquency from the county; and that if such district, private corporation, board, body or person shall not, at the expiration of such 5-day period, cease supplying water to or selling water for use on such premises, then the county may, unless it has theretofore contracted to the contrary, shut off the supply of water to such premises.

History.—s. 12, ch. 29837, 1955.

153.13 Application of revenues.—

(1) All revenues derived from any water supply system, water system improvement, sewage disposal system or sewer improvements for either of which a single issue of water revenue bonds or sewer revenue bonds shall be issued, except such part thereof as may be required to pay the cost of maintaining, repairing and operating such system or systems and to provide reserves therefor as may be provided in the resolution authorizing the issuance of such water revenue bonds or sewer revenue bonds, shall be set aside at such regular intervals as may be provided in

such resolution and deposited for the credit of the following separate funds for the following purposes:

(a) Sinking fund for the payment of interest on and the principal of such water revenue bonds and/or sewer revenue bonds as the same shall become due, necessary charges of paying agents for paying such interest and principal, and any premium upon bonds retired by call or purchase before their maturity or respective maturities, including the accumulation of reserves for such purposes; and

(b) A fund for anticipated renewals and replacements and extraordinary repairs.

(2) The use and disposition of moneys to the credit of such sinking fund shall be subject to such regulations as may be provided in the resolution authorizing the issuance of the water revenue bonds and/or sewer revenue bonds and, except as may otherwise be provided in such resolution, such sinking fund shall be a fund for the benefit of all bonds without distinction or priority of one over the other.

(3) The county commission shall at the close of each fiscal year make or cause to be made a comprehensive report of its operations of the water supply system or systems and sewage disposal system or systems under its control during the preceding fiscal year, including all matters relating to rates, revenues, expenses for maintenance, repair and operation and of replacements and extensions, principal and interest retirements and the status of all funds, and there shall be set forth in such report the budget recommended by the commission for the current fiscal year. A copy of such annual report shall be filed with the clerk of the circuit court in the county and shall be open to the inspection of all interested persons. Any surplus of the gross revenues remaining at the end of any fiscal year after making the required deposits for the credit of the separate funds set forth above, and not appropriated in the budget for the then current fiscal year, shall be paid into the sinking fund.

History.—s. 13, ch. 29837, 1955.

153.14 Trust funds.—All moneys received pursuant to the authority of this chapter shall be deemed to be trust funds, to be held and applied solely as provided in this chapter. The resolution authorizing the issuance of bonds shall provide that any officer to whom, or any bank, trust company or other fiscal agent to which such moneys shall be paid shall act as trustee of such moneys and shall hold and apply the same for the purposes hereof, subject to such regulations as this chapter and such resolution may provide.

History.—s. 14, ch. 29837, 1955.

153.15 Remedies.—Any holder of bonds issued under the provisions of this chapter or any of the coupons appertaining thereto, except to the extent the rights herein given may be restricted by the resolution authorizing the issuance of such bonds, may, either at law or in equity, by suit, mandamus or other proceeding, protect and enforce any and all rights under the laws of Florida or granted hereunder or under such resolution, and may enforce and compel the performance of all duties required by this chapter or by such resolution to be performed by the county or by the county commission, including the

fixing, charging and collecting of rates, fees and charges for services and facilities furnished by the water supply system, water system improvement, sewage disposal system or sewer improvements and the levying and collecting of any special assessments.

History.—s. 15, ch. 29837, 1955.

153.16 Water revenue refunding bonds.—The county commission is hereby authorized to provide by resolution for the issuance of water revenue refunding bonds of the county for the purpose of refunding any water revenue bonds then outstanding and issued under the provisions of this chapter. The county commission is further authorized to provide by resolution for the issuance of water revenue bonds of the county for combined purposes:

(1) Paying the cost of any extension, addition or reconstruction of a water supply system or systems or water system improvements or the cost of a new water supply system or systems or water system improvements; and

(2) Refunding such water revenue bonds of the county which shall theretofore have been issued under the provisions of this chapter and shall then be outstanding and which then shall have matured or be subject to redemption or can be acquired for retirement. The issuance of such bonds, the maturities and other details thereof, the rights and remedies of holders thereof, and the rights, powers, privileges, duties and obligations of the county or of the county commission with respect to the same shall be governed by the foregoing provisions of this chapter insofar as the same may be applicable.

History.—s. 16, ch. 29837, 1955.

The county commission is further authorized to provide by resolution for the issuance of sewer revenue bonds of the county for the combined purposes of:

(1) Paying the cost of any extension, addition or reconstruction of a sewage disposal system or systems or sewer improvements or the cost of a new sewage disposal system or systems or sewer improvements; and

(2) Refunding such sewer revenue bonds of the county which shall theretofore have been issued under the provisions of this chapter and shall then be outstanding and which then shall have matured or be subject to redemption or can be acquired for retirement. The issuance of such bonds, the maturities and other details thereof, the rights and remedies of holders thereof, and the rights, powers, privileges, duties and obligations of the county or of the county commission with respect to the same shall be governed by the foregoing provisions of this chapter insofar as the same may be applicable.

History.—s. 17, ch. 29837, 1955.

153.18 Exemption of property from taxation.

—As proper facilities for the furnishing of water for human consumption and fire protection and proper facilities for the treatment, purification and disposal of sewage are essential for the health of the inhabitants of the county and for its industrial and commercial development, and as the exercise of the powers conferred by this chapter to effect such purposes constitutes the performance of essential county functions, and is hereby declared to be a county purpose, and as the facilities constructed under the provisions of this chapter, constitute public property and are used for county purposes, the county shall not be required to pay any taxes or assessments upon any such facilities or any part thereof.

History.—s. 18, ch. 29837, 1955.

153.19 Private water supplies.—No jurisdiction hereunder shall be exercised by the board of county commissioners over any privately owned industrial water supply system or the disposition of industrial or manufacturing wastes nor shall any rule or regulation be adopted or suit instituted or prosecuted hereunder designed or intended to control or regulate the same, unless one of the following conditions exists:

(1) That prior to the utilization of any waters for the disposition of industrial or manufacturing waste, such waters were being used as a source of, or as a part of a water supply system under this chapter, or

(2) In the case of an industrial or manufacturing plant that is connected with and using any facility authorized by this chapter; but any such rule, regulation or suit shall be limited to the particular waters or the particular industrial or manufacturing plant affected by one of the above conditions; provided, however, this shall not restrain or prevent the Department of Health and Rehabilitative Services in anywise from instituting a suit or taking other action in event said plant or manufacturing company shall pollute the waters in the state as defined in s. 387.08.

History.—s. 19, ch. 29837, 1955; ss. 19, 35, ch. 69-106; s. 28, ch. 77-147. cf.—s. 387.08 Penalty for deposit of deleterious substances in lakes, streams, rivers, ditches, etc.

153.20 Alternative method.—

(1) This chapter shall be deemed to provide an additional and alternative method for the doing of the things authorized hereby and shall be regarded as supplemental and additional to the powers conferred upon the commission by other laws, and shall not be regarded as in derogation of any powers now existing. This chapter being necessary for the welfare of the inhabitants of the several counties of the state shall be liberally construed to effect the purposes thereof.

(2) This chapter shall not repeal any local or special act or law conferring upon any of the several counties or county commissions the powers and duties or any of them imposed hereby, but it shall be deemed to be an alternative or additional method for such counties or county commissions to effect the purposes of this chapter.

153.50 Short title.—This law may be known and cited as the "County Water and Sewer District Law."

History.—s. 1, ch. 59-466.

153.51 Legislative intent.—It is declared as a matter of legislative determination that the extensive growth of population and attendant industry and commerce throughout the state has given rise to public health and water supply problems of statewide concern, in that many unincorporated areas of the counties of the state are not served by water and sewer facilities normally and generally provided and maintained by the municipalities of the state or their agencies or instrumentalities or by private corporations or persons and are not otherwise adequately provided for; that many of such unincorporated areas are in extreme need of such sewage disposal and water supply facilities, and that it is the intent and purpose of this law to provide means for the counties of the state to alleviate such conditions in such unincorporated areas.

History.—s. 2, ch. 59-466.

153.52 Definitions.—As used in this law, the following words and terms shall have the following meanings, unless some other meaning is plainly intended:

(1) "District" shall mean any unincorporated contiguous area comprising part but not all of the area of any county created into and existing as a water and sewer district pursuant and subject to this law, having the rights, powers and privileges granted in this law.

(2) "Board of county commissioners" shall mean the board of county commissioners of the county in which a district created pursuant to this law is located.

(3) "District board" shall mean the board of county commissioners of any county constituting the governing body of any district as provided for in this law, and acting for and on behalf of such district as a body corporate and politic.

(4) "Sewer system" shall mean and shall include any plant, system, facility or property and additions, extensions and improvements thereto at any future time constructed or acquired as part thereof, useful or necessary or having the present capacity for future use in connection with the collection, treatment, purification or disposal of sewage of any nature or originating from any source, including industrial wastes resulting from any processes of industry, manufacture, trade or business or from the development of any natural resources; and without limiting the generality of the foregoing definition shall embrace treatment plants, pumping stations, lift stations, valves, force mains, intercepting sewers, laterals, pressure lines, mains and all necessary appurtenances and equipment, all sewer mains and laterals for the reception and collection of sewage from premises connected therewith, and shall include all real and personal property and any interest therein, rights, easements and franchises of any nature whatsoever relating to any such system and necessary or convenient for the operation thereof.

(5) "Water system" shall mean and include any

plant, system, facility or property and additions, extensions and improvements thereto at any future time constructed or acquired as part thereof, useful or necessary or having the present capacity for future use in connection with the development of sources, treatment or purification and distribution of water for domestic or industrial use and, without limiting the generality of the foregoing, shall include dams, reservoirs, storage tanks, mains, lines, valves, pumping stations, laterals, and pipes for the purpose of carrying water to the premises connected with such system and shall include all real and personal property and any interests therein, rights, easements and franchises of any nature whatsoever relating to any such system and necessary or convenient for the operation thereof.

(6) "Cost" as applied to the acquisition and construction of a water system or a sewer system or extensions, additions or improvements thereto shall include the cost of construction or reconstruction, acquisition or purchase, the cost of all labor, materials, machinery and equipment, cost of all lands and interest therein, property, rights, easements and franchises of any nature whatsoever, financing charges, interest prior to and during construction and for not more than 2 years after completion of the construction or acquisition of such water system or sewer system or extensions, additions or improvements thereto, the creation of initial reserve or debt service funds, bond discount, cost of plans and specifications, surveys and estimates of costs and revenues, cost of engineering, financial and legal services, and all other expenses necessary or incidental in determining the feasibility or practicability of such construction, reconstruction or acquisition, administrative expenses and such other expenses as may be necessary or incidental to financing authorized by this law, and including reimbursement of the county or any other person, firm or corporation for any moneys advanced to a district for any expenses incurred by a district or county in connection with any of the foregoing items of cost, or the creation of such district.

(7) "Assessable improvements" shall mean that portion or portions of a sewer system or a water system of a local nature and of benefit to the premises or lands served thereby and particularly, without limiting the generality of the foregoing, with reference to a sewer system, shall include, without being limited to, laterals and mains for the collection and reception of sewage from premises connected therewith, local or auxiliary pumping or lift stations, treatment plants or disposal plants, and other appurtenant facilities and equipment for the collection, treatment and disposal of sewage; and with reference to a water system shall include such mains and laterals and other distribution facilities, pumping stations, and sources of supply as are of benefit to the property served by such water system together with incidental equipment and appurtenances necessary therefor.

(8) "District clerk" shall mean the clerk of the circuit court and ex officio clerk of the board of county commissioners in and for any county having or establishing a district pursuant to this law, who shall be clerk and treasurer of the district.

(10) "General obligation bonds" shall mean bonds or other obligations secured by the full faith and credit and taxing power of the district and payable from ad valorem taxes levied and collected on all taxable property in the district, without limitation of rate or amount, and may be additionally secured by the pledge of either or both the proceeds of special assessments levied against benefited property, or revenues derived from said water system or sewer system, or both.

(11) "Assessment bonds" shall mean bonds or other obligations secured by and payable from special assessments levied against benefited lands, and which may be additionally secured by a pledge of the full faith and credit of the district.

History.—s. 3, ch. 59-466.

153.53 Establishment of districts in unincorporated areas.—

(1) Subject to this law, the board of county commissioners of any county may establish one or more districts as it shall in its discretion determine to be necessary in the public interest. Any such district shall consist of only unincorporated contiguous areas of such county, comprising part but not all of the areas of such county. As used herein, "unincorporated areas" shall mean all lands outside of the incorporated boundaries of towns, cities, or other municipalities of the state whether existing under the general law or special act and shall include any lands, areas, or property within the district of any special tax districts, school district, or any other public corporations or bodies politic of any nature whatsoever, except municipalities.

(2)(a) As an alternative method of establishing a water and sewer system district, a petition signed by persons owning not less than 10 percent of the property within the boundaries of the proposed district may be filed with the property appraiser of the county in which said district is to be located.

(b) Said petition shall describe the territory to be included in said proposed district, the name of the district if there is one, and the general purpose for which the district is being established, as set out in ss. 153.51 and 153.52.

(c) Said petition shall request the board of county commissioners to call and provide for a referendum election to determine whether such district shall be created and further call for an election of the first board of commissioners for said district.

(d) Within 30 days after the petition is received by the property appraiser, said property appraiser shall determine whether such petition has been duly signed by the requisite number of property owners within the boundaries of the proposed district. If there is a sufficient number of valid signatures, the property appraiser shall forthwith deliver said petition to the board of county commissioners who shall

within 60 days hold an election to determine if the district shall be created. The board of county commissioners shall have notice of such election published once a week for 4 successive weeks in a newspaper of general circulation within the area of the proposed district. Said notice shall describe the purpose for which the district is to be established and the territory proposed to be included in the said district. If there is no such newspaper, then notice may be posted on the courthouse door and in five conspicuous places within the proposed district.

(3)(a) At the same time the board of county commissioners receives from the property appraiser a petition and fixes the date for an election to determine if a district shall be established, said board of county commissioners may also call an election for three persons to serve as commissioners of the proposed district. The county commissioners shall also advertise in the same manner that an election is to be held for three commissioners of the proposed district and shall set out in said notice the qualifications of candidates to qualify by petition for election to said office. The board of county commissioners shall cause to be printed on the ballot for said district referendum the names of any persons qualified as candidates for the office of member of the board of commissioners of the district who have filed with the board of county commissioners a petition signed by not less than the owners of 10 percent of the property within the district. The candidate's petition shall be filed with the board of county commissioners not less than 14 days prior to said election with a qualifying fee in the amount of \$25 payable to the board of county commissioners. Said fee shall be used to defray the expense of the election. Should the qualifying fees exceed the cost of the election, the surplus shall be transferred into the general operating fund of the water and sewer district if it be established or if it be rejected then said surplus shall be transferred to the general county operating fund.

(b) The supervisor of elections shall assist the board of county commissioners in preparing a list of eligible electors from a list of property owners within the proposed district to be furnished by the property appraiser, and said supervisor shall further assist the board of county commissioners with such other administrative matters pertaining to the conduct of the election as the county commission deems appropriate.

(c) The ballot to be used at said election shall be in substantially the following form:

WATER AND SEWER DISTRICT

VOTE FOR THREE WRITE-IN VOTES

Blank lines shall be placed on the ballot so that the name of any person who did not file a petition and who is otherwise qualified may be written in, in the form of an irregular or write-in vote. The inspectors and clerks for said election shall be appointed by the board of county commissioners. The ballots shall be furnished by the board of county commissioners. The board of county commissioners shall designate an appropriate polling place or polling places where said election shall be held. The inspectors and clerks shall make returns to the board of county commissioners and said board of county commissioners shall canvass said election returns and declare the results thereof at a meeting to be held as soon as practical after said election.

(d) Said district shall be established upon a favorable vote in person or by proxy of the owners of 50 percent or more of the property within the district, and the three persons receiving the highest number of votes cast for candidates shall be elected commissioners of the district until their successors are elected. Upon expiration of 20 days after the declaration of the result of said election by the board of county commissioners, such declaration of the results shall be regarded for all purposes as conclusive.

(e) At said election only persons owning property within the district shall be qualified to vote. Such vote shall be in person or by proxy. No proxy shall be effective unless acknowledged by a notary public. If the board of county commissioners shall find and determine that the result of said election is adverse to the proposition of creating a district no other election for the same purpose shall be held within 1 year thereafter.

(f) If a requisite number of votes at such special election shall favor the creation of such a district, then said board of county commissioners shall enter an order constituting the territory in which said special election was held as a district with all the powers granted to water and sewer districts under the provisions of chapter 153.

(g) Commissioners of said district shall be the owners of property within said district who are registered electors in some county in the state, at least one of whom shall reside in the county or adjoining county.

(4) Beginning with the next general election following the creation of the district, and in the general election each 4 years thereafter, the said district commissioners shall qualify by petition and be elected by the property owners of the district. The three persons receiving the highest number of votes cast in the general election shall serve 4 years and shall take office at the same time as do other county officers, on the first Tuesday after the first Monday in January next after their election, and serve on the same cycle as do other constitutional county officers.

(5) In the event of a vacancy due to any cause in any board of commissioners, the same shall be filled by appointment by a majority of the members of the

board of county commissioners for the unexpired term.

(6)(a) As soon as practicable after such district commissioners have been elected and have qualified, they shall meet and organize by election from among their number a chairman, a secretary, and a treasurer. The secretary need not be a commissioner. Two members of the board shall constitute a quorum. The vote of two members shall be necessary to transact business.

(b) Each commissioner, before he assumes office, shall be required to give the Governor a good and sufficient surety bond in the sum of \$2,000, the cost thereof being borne by the district, conditioned on the faithful performance of the duties of his office, said bond to be approved and filed in the same manner as is that of the board of county commissioners. The failure of any person to make and file this bond within 10 days after his election shall create a vacancy on said board.

(7) The powers and duties of the commissioners shall be the same as those of county commissioners supervising districts as provided for under subsection (1).

(8) Members of the board of commissioners shall each be paid \$5 a day for each day's service; provided the per diem compensation shall not exceed the sum of \$300 for each commissioner during any one year. Said members shall be reimbursed for traveling expenses incurred in the performance of their duties as provided in s. 112.061. All boards of commissioners shall hold regular monthly meetings, and special meetings as needed, in the courthouse or in an appropriate place within the district.

(9) The owners of not less than 50 percent of the property within any proposed or established water and sewer district may at any time petition for a referendum calling for any two or more of said districts which are contiguous to be combined and be supervised by a single board elected as hereinabove described. However, if the board of county commissioners shall deem such a combination to be reasonably necessary for the purpose of providing the improvements authorized by this chapter, it may approve same, subject to referendum requirements, notwithstanding that the territories to be combined and included in the new district are not contiguous. Said referendum shall be conducted in substantially the same manner as a referendum to create a single district.

(10) All projects in any district created pursuant to this section as amended by chapter 70-433, Laws of Florida, affecting lakes, streams, or navigable waters shall conform to the provisions of chapter 253.

History.—s. 4, ch. 59-466; ss. 1, 2, ch. 70-433; s. 1, ch. 76-148; s. 1, ch. 77-102.

153.54 Same; petition for; report by county commissioners.—Upon receipt of a petition duly signed by not less than 25 qualified electors who are also freeholders residing within an area proposed to be incorporated into a water and sewer district pursuant to this law and describing in general terms the proposed boundaries of such proposed district, the board of county commissioners if it shall deem it necessary and advisable to create and establish such proposed district for the purpose of constructing, establishing or acquiring a water system or a sewer

system or both in and for such district (herein called "improvements"), shall first cause a preliminary report to be made which such report together with any other relevant or pertinent matters, shall include at least the following:

- (1) A general description of the proposed improvements to be made in such district.
- (2) A general estimate of the cost of the proposed improvements.
- (3) The present condition of water and sewer facilities in the area comprising such proposed district.
- (4) Findings with respect to the necessity or reasonableness of the inclusion of lands proposed to be included within the district with reference to the benefits to be derived or able to be derived by such included lands from such proposed improvements, and the necessity or reasonableness of the exclusion of lands adjacent to or within such proposed district with reference to such benefits.

Such report shall be filed in the office of the clerk of the circuit court and shall be open for the inspection of any taxpayer, property owner, qualified elector or any other interested or affected person.

History.—s. 5, ch. 59-466.

153.55 Same; public hearing; findings of commission.—

(1) Upon submission of any such report the board of county commissioners shall hold a public hearing upon such report and the question of the creation of such district, giving at least 20 days' notice of such hearing by advertisement in a newspaper published in the county and circulating in the area of the proposed district or by posting as provided in s. 153.56 if no such newspaper be published.

(2) At such hearing any taxpayer, property owner, qualified elector or other interested or affected person may make written objections to the creation of such proposed district or the exclusion of any lands therefrom, or the inclusion of any lands therein, the desirability or the feasibility of such proposed improvements or to any other matter, which objections, if any, together with any evidence submitted therewith shall be given full and open consideration by the board of county commissioners.

(3) If upon due consideration of such preliminary report, any such objections and any other pertinent matters, such board of county commissioners shall be satisfied that the construction and acquisition of said improvements is feasible and desirable and of benefit to all the lands included in such proposed district or that certain lands shall be included or excluded, and that the creation of said district is necessary in the public interest, it shall so determine and record such findings and determination, together with an accurate description of the proposed boundaries of the proposed district and the proposed corporate name of such district, by resolution duly adopted.

(4) If the board of county commissioners shall after such hearing deem the creation of such proposed district inadvisable and not in the public interest, it shall make such a finding and determination and no further proceedings shall be taken for the creation of the proposed district under such petition; provided, however, that such finding and determina-

tion shall not be deemed to bar the creation of any proposed district at any future time in the manner provided in this law upon the filing of a new petition therefor as provided in this law.

History.—s. 6, ch. 59-466.

153.56 Call election to determine creation of district, issuance of bonds.—

Said election shall be held not less than 30 days from the date of the first publication or posting of the notice thereof and such notice shall be published once a week for 4 successive weeks in a newspaper published in the county and circulating in the area of the proposed district, and if no such newspaper be published in the county and circulating in the district, such notice shall be posted in at least 10 different public places within the district.

(2) Except as otherwise provided in this law, said election shall be held and conducted pursuant to the general laws of the state applicable thereto, provided, that if the question of the issuance of general obligation bonds is to be voted upon, the election thereon shall conform to the applicable provisions of the constitution and statutes of Florida relating to freeholder elections.

(3) Said call for election of the qualified electors and notice thereof shall include a description of the proposed boundaries of said district, which need not be by metes and bounds but shall be in such detail as to give a reasonable and accurate description thereof and shall further specifically recite that said district, if created, shall be authorized:

(a) To construct or acquire a sewer system or water system or both for said district and any improvements, additions and extensions thereto and to have exclusive control and jurisdiction thereof;

(b) To finance the cost of such construction or acquisition of such improvements by the issuance of either its revenue bonds, general obligation bonds or assessment bonds, as defined in this law, or any combination thereof;

(c) Said notice shall further expressly state that such district, if created and established, shall constitute a special tax district, all the property within which shall be subject to the levy of ad valorem taxes without limitation of rate or amount to secure payment of any of its general obligations, and for the maintenance of such district within the limitations of this law.

(4) The notice of the separate election of the qualified freeholder electors, if held at the same time, shall be in substantially the form provided in the applicable statutes of Florida relating to freeholder

and a majority of such qualified freeholder electors shall vote in favor of the issuance of such general obligation bonds then such general obligation bonds shall be deemed approved, but shall not be issued unless the district shall be duly created at the election of the qualified electors referred to above.

(2) If the qualified electors who vote in said election on the creation of such district shall vote against the creation of such proposed district, a new petition pertaining to any part of the same area just considered by the board of county commissioners shall not be acted upon by the board of county commissioners until after the expiration of 9 months from the date of the election defeating the creation of said proposed district, even though such new petition shall have been filed by petitioners other than those who originally filed the petition just acted upon by the board of county commissioners, unless 25 percent of the qualified electors of the area petition to have an election.

153.63 Revenue bonds; issuance, etc.—

(1) The district board for and on behalf of any district is authorized to provide from time to time for the issuance of revenue bonds to pay all or part of the cost of a water system or sewer system, or both, or any additions, extensions or improvements thereto. The principal of and interest on any such bonds shall be payable from the rates, fees, charges or other revenues derived from the operation of any such system or systems in the manner provided in this law and the resolution authorizing such revenue bonds and pledging such revenues. Such revenue bonds may also be additionally secured by the pledge of special assessments levied pursuant to this law, or by a pledge of the full faith and credit of said district. The revenue bonds of each issue shall be dated, shall bear interest at such rate or rates as shall not exceed 7½ percent per annum, shall mature at such time or times not exceeding 40 years from their date or dates as may be determined by the district board and may be made redeemable before maturity, at the option of the district board, under such terms and conditions and at such prices as may be fixed by the district board prior to the issuance of such bonds. The district board shall determine the form of the bonds, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the state. Such authorizing resolution may further provide that such bonds may be executed manually or by the engraved, lithographed or facsimile signature of the chairman of the district board. The seal of the district may be affixed or lithographed, engraved or otherwise reproduced in facsimile on such bonds and shall be attested by the manual or facsimile signature of the district clerk; provided, however, that the signature of at least one of the officials executing such revenue bonds shall be a manual signature. In case any officer whose signature or a facsimile of whose signature shall appear on the bonds shall cease to be such officer before the delivery of such bonds, such signature or facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. All revenue bonds issued under the provisions of this law shall be and constitute and have all the qualities and incidents of negotiable instruments under the law merchant and the negotiable instruments law of the state. The bonds may be issued in coupon or registered form as the district board may determine in such authorizing resolution and provision may be made for the registration of any coupon bonds as to principal alone and also as to principal and interest, and for the reconversion of coupon bonds or of any bond registered as to principal and interest. The issuance of such bonds shall not be subject to any limitations or conditions contained in any other law and the district board may sell such bonds in such manner, either at public or private sale, and for such price, as it may determine to be for the best interests of the district, but no such sale shall be made at a

price so low as to require the payment of interest on money received therefor at a rate in excess of 7½ percent per annum, computed with relation to the absolute maturity of the bonds in accordance with standard tables of bond values, excluding, however, from such computation the amount of any premium to be paid for the redemption of any bonds prior to maturity.

(2) The proceeds of the sale of any such bonds shall be used solely for the payment of the costs of the construction or acquisition of any water system or sewer system or both or the reconstruction or construction or acquisition of extensions, improvements and additions thereto, and shall be disbursed in such manner and under such restrictions, as the district board may provide in the authorizing resolution. Prior to the preparation or issuance of definitive revenue bonds, the district board may, under like restrictions, issue interim receipts or temporary notes or other form of such temporary obligations without coupons, exchangeable for definitive bonds when such bonds have been executed and are available for delivery. The district board may also provide for the replacement of any bonds which shall have become mutilated and be destroyed or lost upon proper indemnification. (3) A resolution providing for the issuance of revenue bonds may also contain such limitations upon the issuance of additional revenue bonds secured on a parity with the bonds theretofore issued, as the district board may deem proper, and such additional bonds shall be issued under such restrictions and limitations as may be prescribed by such authorizing resolution.

(4) Revenue bonds shall not be deemed to constitute an indebtedness of the district, and shall not be included in the amount of general obligation bonds which the district is authorized to issue under any other provision of this law, unless the full faith and credit of the district is pledged as additional security for such revenue bonds.

History.—s. 14, ch. 59-466; s. 5, ch. 73-302.

153.64 Schedule of rates and fees.—

(1) The district board shall fix the initial schedule of rates, fees or other charges for the use of and the services and facilities to be furnished by any such water system or sewer system to be paid by the owner, tenant or occupant of each lot or parcel of land which may be connected with or used by any such system or systems of the district. After the system or systems shall have been in operation the district board may revise the schedule of rates, fees and charges from time to time; provided, however, that such rates, fees and charges shall be so fixed and revised so as to provide some, which, with other funds available for such purposes, shall be sufficient at all times to pay the expenses of operating and maintaining such water system or sewer system or both, including reserves for such purposes, the principal of and interest on revenue bonds as the same

shall become due and reserves therefor, and to provide a margin of safety over and above the total amount of any such payments, and to comply fully with any covenants contained in the proceedings authorizing the issuance of any bonds or other obligations of the district. The district shall charge and collect such rates, fees and charges so fixed or revised, and such rates, fees and charges shall not be subject to the supervision or regulation by any other commission, board, bureau, agency or other political subdivision or agency of the county or state.

(2) Such rates, fees and charges shall be just and equitable and uniform for users of the same class and where appropriate may be based or computed either upon the quantity of water consumed or upon the number and size of sewer connections or upon the number and kind of plumbing fixtures in use in the premises or upon the number or average number of persons residing or working in or otherwise using or occupying such premises or upon any other factor affecting the use of the facilities furnished or upon any combination of the foregoing factors as may be determined by the district board on any other equitable basis.

(3) No rates, fees or charges shall be fixed under the foregoing provisions of this section until after a public hearing at which all the users of the proposed sewer system or water system, or both, or owners, tenants or occupants served or to be served thereby and all others interested shall have an opportunity to be heard concerning the proposed rates, fees and charges. Notice of such public hearing setting forth the proposed schedule or schedules of rates, fees and charges shall be given by one publication in a newspaper published in the county and circulating in the district at least 10 days before the date fixed in such notice for the hearing, which may be adjourned from time to time. If there be no such newspaper published in the county and circulating in the district the notice of such rate hearing shall be posted as provided for in s. 153.56 regarding the posting of the notice calling the election creating the district. After such hearing such schedule or schedules, either as initially adopted, or as modified or amended, may be finally adopted.

(4) A copy of the schedule or schedules of such rates, fees or charges finally adopted shall be kept on file in the office of the district clerk and shall be open at all times to public inspection. The rates, fees or charges so fixed for any class of users or property served shall be extended to cover any additional users or properties thereafter served which shall fall in the same class, without the necessity of any hearing or notice. Any change or revision of such rates, fees or charges may be made in the same manner as such rates, fees or charges were originally established as hereinabove provided; provided however, that if such changes or revisions be made substantially pro rata as to all classes of service no hearing or notice shall be required.

History.—s. 15, ch. 59-466.

153.65 Trust funds; trustees.—The proceeds of all bonds or other obligations issued under this law and all revenues derived from the operation of any water system or sewer system for the payment of all or part of the cost of which any bonds or other obliga-

History.—s. 16, ch. 59-466.

(1) Reasonable deposits with the district in advance to insure the payment of rates, fees or charges for the facilities of the system.

(2) The discontinuance of the services and facilities of any water system or sewer system, or both, for delinquent payments for either water services or sewer services, and the terms and conditions of the restoration of such service.

(3) Contracts with private or public owners of a water system or sewer system not owned and operated by the district for the discontinuance of service to any users of the water system or sewer system, as the case may be, owned and operated by the district.

(11) Provisions as to the maintenance of any such systems and reasonable insurance thereof.

(12) Any other matters necessary to secure such bonds and the payment of the principal and interest thereof.

All such provisions of the bond proceedings and all such covenants and agreements in addition to the other provisions and requirements of this law shall constitute valid and legally binding contracts between the district and several holders of any such bonds and shall be enforceable by any such holder or holders by mandamus or other appropriate action, suit or proceeding in law or in equity in any court of competent jurisdiction.

History.—s. 17, ch. 59-466.

153.67 Unpaid fees to constitute lien.—In the event that the fees, rates or charges for the services and facilities of any water or sewer system shall not be paid as and when due, any unpaid balance thereof and all interest accruing thereon shall be a lien on any parcel or property affected thereby. Such liens shall be superior and paramount to the interest on such parcel or property of any owner, lessee, tenant, mortgagee or other person except the lien of county taxes and shall be on a parity with the lien of any such county taxes. In the event that any such service charge shall not be paid as and when due and shall be in default for thirty days or more the unpaid balance thereof and all interest accrued thereon, together with attorneys fees and costs, may be recovered by the district in a civil action, and any such lien and accrued interest may be foreclosed or otherwise enforced by the district by action or suit in equity as for the foreclosure of a mortgage on real property.

153.68 General obligation bonds, election; issuance, tax levy.—

(1) The district board is hereby authorized to provide by resolution from time to time for the issuance of general obligation bonds pledging the full faith and credit of the district for the payment thereof, for the purpose of paying all or part of the cost of the acquisition or construction or improvement of a water system or a sewer system or both, provided however, that the issuance of such bonds, or of any revenue bonds, assessment bonds or other obligations for which the full faith and credit of the district shall have been pledged as additional security shall have been approved at an election of the qualified electors who are freeholders residing in said district, such election to be called, noticed and conducted in the manner provided in the constitution and statutes of Florida for freeholder elections.

(2) For the payment of the principal of and the interest on any general obligation bonds of the district issued under the provisions of this law, the district board is hereby authorized and required and in such resolution authorizing the issuance of general obligation bonds shall authorize and require the levy annually of a special tax upon all taxable property within the district over and above all other taxes authorized or permitted by law sufficient to pay such principal and interest as the same shall become due

and payable, and the proceeds of all such taxes, when collected, shall be paid into a special fund and used for no other purpose than the payment of such principal and interest, or reserves therefor; provided however, that there may be pledged as additional security for the payment of such principal and interest the proceeds of such rates, fees and charges made for the services and facilities of any such water system or sewer system or both, or the proceeds of special assessments levied to finance the cost of assessable improvements, or both, and in the event of such pledge or pledges the amount of the annual tax herein required may be reduced in any year subject to and in accordance with the proceedings authorizing the issuance of such general obligation bonds.

(3) In the event the full faith and credit of the district is pledged as additional security for the payment of any revenue bonds or assessment bonds issued hereunder, the district board shall in the manner set out above for general obligation bonds provide for and authorize the levy of a special tax annually on all taxable property in the district sufficient in amount to comply with the proceedings authorizing such revenue bonds or assessment bonds for which the full faith and credit of the district is pledged as additional security.

History.—s. 19, ch. 59-466.

153.69 County property appraiser ex officio tax assessor for district.—The amount of any such annual taxes so levied for general obligation bonds or as additional security for revenue bonds or assessment bonds shall be certified by the district board to the property appraiser of the county who shall be ex officio tax assessor for the district, and such taxes shall be levied and collected in the same manner as other general county taxes.

History.—s. 20, ch. 59-466; s. 1, ch. 77-102.

153.70 Provisions of s. 153.63 applicable to general obligation bonds.—Any general obligation bonds shall be authorized by resolution of the district board and the provisions of s. 153.63 relative to maturities, execution, rate or rates of interest, redemption prior to maturity, registration, method of sale, and all other matters in said s. 153.63 not inconsistent with the other provisions in this law relating to general obligation bonds, shall apply to any general obligation bonds issued hereunder.

History.—s. 21, ch. 59-466.

153.71 Publication of notice of issuance of bonds.—Prior to the issuance of any revenue bonds, general obligation bonds, assessment bonds or other obligations, the district board may, in its discretion, publish a notice at least once in a newspaper published in the county and circulating in the district, or posted in the manner provided in s. 153.56 if there be no such newspaper, stating the date of adoption of the resolution authorizing such obligations, and the amount, maximum rate of interest and maturity of such obligations and the purpose in general terms for which such obligations are to be issued, and further stating that any action or proceedings authorizing the issuance thereof, or of any covenants made therein, must be instituted within 20 days after the first publication of such notice, or the validity of

such obligations or proceedings or covenants shall not be thereafter questioned in any court whatsoever. If no such action or proceeding is so instituted within such 20-day period then the validity of such obligations, proceedings and covenants shall be conclusive, and all persons or parties whatsoever shall be forever barred from questioning the validity of such obligations, proceedings or covenants in any court whatsoever.

History.—s. 22, ch. 59-466.

153.72 Bonds; qualities of negotiable instruments; rights of holders.—All revenue bonds, general obligation bonds or assessment bonds issued hereunder shall be and constitute, and have all the qualities and incidents of negotiable instruments under the law merchant and the Negotiable Instruments Law of Florida, and shall not be invalid for any irregularity or defect in the proceedings for the issuance and sale thereof and shall be incontestable in the hands of bona fide purchasers for value. No proceedings in respect to the issuance of such bonds shall be necessary except such as are required by this law. The provisions of this law shall constitute an irrevocable contract between said district and the holders of any such bonds or coupons thereof issued pursuant to the provisions hereof. Any holder of such bonds may either at law or in equity, by suit, action or mandamus, enforce and compel the performance of the duties required by this law or of any of the officers or persons herein mentioned in relation to said bonds, or the levy, assessment, collection and enforcement and application of the taxes, revenues, assessments or other funds pledged for the payment of the principal and interest thereof.

History.—s. 23, ch. 59-466.

153.73 Assessable improvements; levy and payment of special assessments.—Any district may provide for the construction or reconstruction of assessable improvements as defined in s. 153.52, and for the levying of special assessments upon benefited property for the payment thereof, under the provisions of this section.

(1) The initial proceeding under this section shall be the passage by the district board of a resolution ordering the construction or reconstruction of such assessable improvements, indicating the location by terminal points and routes and either giving a description of the improvements by its material, nature, character and size or giving two or more descriptions with the directions that the material, nature, character and size shall be subsequently determined in conformity with one of such descriptions. Sewer or water improvements need not be continuous and may be in more than one locality or street. The resolution ordering any such improvement may give any short and convenient designation to each improvement ordered thereby, and the property against which assessments are to be made for the cost of such improvement may be designated as an assessment district, followed by a letter or number or name to distinguish it from other assessment districts, after which it shall be sufficient to refer to such improvement and property by such designation in all proceedings and assessments, except in the notices required by this section.

(2)(a) As soon as possible after the passage of such resolution the engineer for the district shall prepare in duplicate plans and specifications for each improvement ordered thereby and an estimate of the cost thereof. Such cost shall include, in addition to the items of cost as defined in this law, the cost of relaying streets and sidewalks necessarily torn up or damaged and the following items of incidental expenses:

1. Printing and publishing notices and proceedings.

2. Costs of abstracts of title, and

3. Any other expense necessary or proper in conducting the proceedings and work provided for in this section, including the estimated amount of discount, if any, upon the sale of assessment bonds or any other obligations issued hereunder for which such special assessments are to be pledged. If the resolution shall provide alternative descriptions of material, nature, character and size, such estimate shall include an estimate of the cost of the improvement of each such description.

(b) The engineer shall also prepare in duplicate a tentative apportionment of the estimated total cost of the improvement as between the district and each lot or parcel of land subject to special assessment under the resolution, such apportionment to be made in accordance with the provisions of the resolution and in relation to apportionment of cost provided herein for the preliminary assessment roll. Such tentative apportionment of total estimated cost shall not be held to limit or restrict the duties of the engineer in the preparation of such preliminary assessment roll. One of the duplicates of such plans, specifications and estimates and such tentative apportionment shall be filed with the district clerk and the other duplicate shall be retained by the engineer in his files, all thereof to remain open to public inspection.

(3) The district clerk upon the filing with him of such plans, specifications, estimates and tentative apportionment of cost shall publish once in a newspaper published in the county and circulating in the district, or posted as provided in s. 153.56 if there be no such newspaper, a notice stating that at a meeting of the district board on a certain day and hour, not earlier than 15 days from such publication or posting, the district board will hear objections of all interested persons to the confirmation of such resolution, which notice shall state in brief and general terms a description of the proposed assessable improvements with the location thereof, and shall also state that plans, specifications, estimates and tentative apportionment of cost thereof are on file with the district clerk. The district clerk shall keep a record in which shall be inscribed, at the request of any person, firm or corporation having or claiming to have any interest in any lot or parcel of land, the name and post-office address of such person, firm or corporation, together with a brief description or designation of such lot or parcel, and it shall be the duty of the district clerk to mail a copy of such notice to such person, firm or corporation at such address, at least 10 days before the time for the hearing as stated in such notice, but the failure of the district clerk to keep such record or so to inscribe any name or

address or to mail any such notice shall not constitute a valid objection to holding the hearing as provided in this section or to any other action taken under the authority of this section.

(4) At the time named in such notice, or to which an adjournment may be taken by the district board, the district board shall receive any objections of interested persons and may then or thereafter repeal or confirm such resolution with such amendments, if any, as may be desired by the district board and which do not cause any additional property to be specially assessed.

(5) All objections to any such resolution on the ground that it contains items which cannot be properly assessed against property, or that it is, for any default or defect in the passage or character of the resolution or the plans or specifications or estimate, void or voidable in whole or in part, or that it exceeds the power of the district board, shall be made in writing in person or by attorney, and filed with the district clerk at or before the time or adjourned time of such hearing. Any objections against the making of any assessable improvements not so made shall be considered as waived, and if any objection shall be made and overruled or shall not be sustained, the confirmation of the resolution shall be the final adjudication of the issues presented unless proper steps shall be taken in a court of competent jurisdiction to secure relief within 20 days.

(6)(a) Whenever any resolution providing for the construction or reconstruction of assessable improvements and for the levying of special assessments upon benefited property for the payment thereof shall have been confirmed, as hereinabove provided, or at any time thereafter, the district board may issue assessment bonds payable out of such assessments when collected. Said bonds shall mature not later than 2 years after the last installment in which said special assessments may be paid, as provided in subsection (11), and shall bear interest at not exceeding $7\frac{1}{2}$ percent per annum. Such assessment bonds shall be executed, shall have such provisions for redemption prior to maturity, shall be sold in the manner and be subject to all of the applicable provisions contained in s. 153.63 for revenue bonds, except as the same are inconsistent with the provisions of this section. The amount of such assessment bonds for any assessable improvement, prior to the confirmation of the preliminary assessment roll provided for in subsection (10), shall not exceed 70 percent of the estimated amount of the cost of such assessable improvements which are to be specially assessed against the land and real estate to be specially benefited thereby, as shown in the estimates of the engineer for the district referred to in subsection (2). The amount of such assessment bonds for any assessable improvement to be issued, after the confirmation of the preliminary assessment roll provided for in subsection (10), including any assessment bonds theretofore issued, shall not exceed the amount of special assessments actually confirmed and levied by the district board as provided in subsection (10).

(b) Such assessment bonds shall be payable from the proceeds of the special assessments levied for the assessable improvement for which such assessment

bonds are issued; provided, however, that any district may pledge the full faith and credit of such district for the payment of the principal of and interest on such assessment bonds if the issuance of such assessment bonds shall be approved by the qualified electors who are freeholders residing in said district in the manner provided in the constitution and statutes of Florida.

(7) After the passage of the resolution authorizing the construction or reconstruction of assessable improvements has been confirmed as provided in subsection (4), the district may publish at least once in a newspaper published in the county and circulating in the district, or post in the manner provided in s. 153.56 if there be no such newspaper, a notice calling for sealed bids to be received by the district board on a date not earlier than 15 days from the first publication for the construction of the work, unless in the initial resolution the district board shall have declared its intention to have the work done by district forces without contract. The notice shall refer in general terms to the extent and nature of the improvement or improvements and may identify the same by the short designation indicated in the initial resolution and by reference to the plans and specifications on file. If the initial resolution shall have given two or more alternative descriptions of the assessable improvements as to its material, nature, character and size, and if the district board shall not have theretofore determined upon a definite description, the notice shall call for bids upon each of such descriptions. Bids may be requested for the work as a whole or for any part thereof separately and bids may be asked for any one or more of such assessable improvements authorized by the same or different resolutions, but any bid covering work upon more than one improvement shall be in such form as to permit a separation of cost as to each improvement. The notice shall require bidders to file with their bids either a certified check drawn upon an incorporated bank or trust company in such amount or percentage of their respective bids, as the district board shall deem advisable, or a bid bond in like amount with corporate surety satisfactory to the district board to insure the execution of a contract to carry out the work in accordance with such plans and specifications and insure the filing at the making of such contract, of a bond in the amount of the contract price with corporate surety satisfactory to the district conditioned for the performance of the work in accordance with such contract. The district board shall have the right to reject any or all bids, and if all bids are rejected the district board may readvertise or may determine to do the work by the district forces without contract.

(8) Promptly after the completion of the work, the engineer for the district, who is hereby designated as the official of the district to make the preliminary assessment of benefits from assessable improvements, shall prepare a preliminary assessment roll and file the same with the district clerk which roll shall contain the following:

(a) A description of abutting lots and parcels of land or lands within the district which will benefit from such assessable improvements and the amount of such benefits to each such lot or parcel of land.

Such lots and parcels shall include the property of the county and any school district or other political subdivision. There shall also be given the name of the owner of record of each lot or parcel where practicable, and in all cases there shall be given a statement of the number of feet of property so abutting, which number of feet shall be known as the frontage.

(b) The total cost of the improvement and the amount of incidental expense.

(9) The preliminary roll shall be advisory only and shall be subject to the action of the district board as hereinafter provided. Upon the filing with the district clerk of the preliminary assessment roll, the district clerk shall publish at least once in a newspaper published in the county, and circulating in the district, or if there be no such newspaper, post in the manner provided in s. 153.56, a notice stating that at a meeting of the district board to be held on a certain day and hour, not less than 15 days from the date of such publication or posting, which meeting may be a regular, adjourned or special meeting, all interested persons may appear and file written objections to the confirmation of such roll. Such notice shall state the class of the assessable improvements and the location thereof by terminal points and route.

(10) At the time and place stated in such notice the district board shall meet and receive the objections in writing of all interested persons as stated in such notice. The district board may adjourn the hearing from time to time. After the completion thereof the district board shall either annul or sustain or modify in whole or in part the preliminary assessment as indicated on such roll, either by confirming the preliminary assessment against any or all lots or parcels described therein or by canceling, increasing or reducing the same, according to the special benefits which the district board decided each such lot or parcel has received or will receive on account of such improvement. If any property which may be chargeable under this section shall have been omitted from the preliminary roll or if the preliminary assessment shall not have been made against it, the board may place on such roll an apportionment to such property. The district board shall not confirm any assessment in excess of the special benefits to the property assessed, and the assessments so confirmed shall be in proportion to the special benefits. Forthwith after such confirmation such assessment roll shall be delivered to the district clerk. The assessment so made shall be final and conclusive as to each lot or parcel assessed unless proper steps be taken within 30 days in a court of competent jurisdiction to secure relief. If the assessment against any property shall be sustained or reduced or abated by the court, the district clerk shall note that fact on the assessment roll opposite the description of the property affected thereby. The amount of the special assessment against any lot or parcel which may be reduced or abated by the court, unless the assessment upon the entire district be reduced or abated, or the amount by which such assessment is so reduced, may by resolution of the district board be made chargeable against the district at large; or, at the discretion of the district board, a new assessment roll may be prepared and confirmed in the manner hereinabove provided for

the preparation and confirmation of the original assessment roll.

(11)(a) Any assessment may be paid at the office of the district clerk within 60 days after the confirmation thereof, without interest. Thereafter all assessments shall be payable in equal installments, with interest at not exceeding 8 percent per annum from the expiration of said 60 days in each of the succeeding number of years which the district board shall determine by resolution, not exceeding 20; provided however, that the district board may provide that any assessment may be paid at any time before due, together with interest accrued thereon to the date of payment, if such prior payment shall be permitted by the proceedings authorizing any assessment bonds or other obligations for the payment of which such special assessments have been pledged.

(b) All such special assessments shall be collected by the tax collector of the county in which the district is located at the same time as the ad valorem taxes of the district and general county taxes are collected by the tax collector of such county, and the district shall certify to the county tax collector in each year a list of all such special assessments and a description of and name of the owners of the properties against which such special assessments have been levied and the amounts due thereon in such year, and interest thereon, and any deficiencies for prior years.

(c) All assessments shall constitute a lien upon the property so assessed from the date of confirmation of the resolution ordering the improvement, of the same nature and to the same extent as the lien for general county taxes falling due in the same year or years in which such assessments or installments thereof fall due, and any assessment or installment not paid when due shall be collectible with such interest and with a reasonable attorney's fee and costs, but without penalties, by the district by proceedings in a court of equity to foreclose the lien of assessments as a lien for mortgages is or may be foreclosed under the laws of the state; provided that any such proceedings to foreclose shall embrace all installments of principal remaining unpaid with accrued interest thereon, which installments shall, by virtue of the institution of such proceedings, immediately become due and payable.

(d) Nevertheless, if prior to any sale of the property under decree of foreclosure in such proceedings, payment be made of the installment or installments which are shown to be due under the provisions of the resolution passed pursuant to subsection (10), and by this subsection and all costs including interest and attorney's fee, such payment shall have the effect of restoring the remaining installments to their original maturities as provided by the resolution passed pursuant to this subsection and the proceedings shall be dismissed.

(e) It shall be the duty of the district to enforce the prompt collection of assessment by the means herein provided, and such duty may be enforced at the suit of any holder of bonds issued under this law in a court of competent jurisdiction by mandamus or other appropriate proceedings or action.

(f) Not later than 30 days after the annual installments are due and payable, it shall be the duty

of the district board to direct the attorney or attorneys whom the district board shall then designate, to institute action within 2 months after such direction to enforce the collection of all special assessments for assessable improvements made under this section and remaining due and unpaid at the time of such direction. Such action shall be prosecuted in the manner and under the conditions in and under which mortgages are foreclosed under the laws of the state.

(g) It shall be lawful to join in one action the collection of assessments against any or all property assessed by virtue of the same assessment roll unless the court shall deem such joinder prejudicial to the interest of any defendant. The court shall allow a reasonable attorney's fee for the attorney or attorneys of the district, and the same shall be collectible as a part of or in addition to the costs of the action.

(h) At the sale pursuant to decree in any such action, the district may be a purchaser to the same extent as an individual person or corporation, except that the part of the purchase price represented by the assessments sued upon and the interest thereon need not be paid in cash. Property so acquired by a district may be sold or otherwise disposed of, the proceeds of such disposition to be placed in the fund provided by subsection (1) of this section; provided, however, that no sale or other disposition thereof shall be made unless the notice calling for bids therefor to be received at a stated time and place shall have been published in a newspaper published in the county and circulating in the district, or posted in the manner provided in s. 153.56 if there be no such newspaper, at least 20 days prior to such disposition.

(12) All assessments and charges made under the provisions of this section for the payment of all or any part of the cost of any assessable improvements for which assessment bonds shall have been issued under the provisions of this law, or which have been pledged as additional security for any other bonds or obligations issued under this law, shall be used only for the payment of principal of or interest on such assessment bonds or other bonds or obligations.

(13) The county in which the district is located and each school district and other political subdivision wholly or partly within the district shall possess the same power and be subject to the same duties and liabilities in respect of assessment under this section affecting the real estate of such county, school district or other political subdivision which private owners of real estate possess or are subject hereunder, and such real estate of any such county, school district and political subdivision shall be subject to liens for said assessments in all cases where the same property would be subject to such liens had it at the time the lien attached been owned by a private owner.

History.—s. 24, ch. 59-466; s. 6, ch. 73-302.

153.74 Issuance of certificates of indebtedness based on assessments for assessable improvements.—

(1) The district board may, after any assessments for assessable improvements are made, determined and confirmed as provided in s. 153.73, issue certificates of indebtedness for the amount so assessed against the abutting property or property otherwise

benefited, as the case may be, and separate certificates shall be issued against each part or parcel of land assessed, which certificates shall state the general nature of the improvement for which the said assessment is made. Said certificates shall be payable in annual installments in accordance with the installments of the special assessments for which they are issued. The district board may determine the interest to be borne by such certificates at a rate no greater than 7½ percent per annum, and may sell such certificates at either private or public sale at not exceeding par and accrued interest and determine the form, manner of execution and other details of such certificates. Such certificates shall recite that they are payable only from the special assessments levied and collected from the part or parcel of land against which they are issued. The proceeds of such certificates may be pledged for the payment of principal of and interest on any revenue bonds or general obligation bonds issued to finance in whole or in part such assessable improvements, or, if not so pledged, may be used to pay the cost or part of the cost of such assessable improvements.

(2) The district may also issue assessment bonds or other obligations payable from a special fund into which such certificates of indebtedness referred to in the preceding subsection may be deposited; or, if such certificates of indebtedness have not been issued, the district may assign to such special fund for the benefit of the holders of such assessment bonds or other obligations, or to a trustee for such bondholders, the assessment liens provided for in s. 153.73(10), unless such certificates of indebtedness or assessment liens have been theretofore pledged for any bonds or other obligations authorized hereunder. In the event of the creation of such special fund and the issuance of such assessment bonds or other obligations, the proceeds of such certificates of indebtedness or assessment liens deposited therein shall be used only for the payment of the assessment bonds or other obligations issued as provided in this section. The district is hereby authorized to covenant with the holders of such assessment bonds or other obligations that it will diligently and faithfully enforce and collect all the special assessments and interest and penalties thereon for which such certificates of indebtedness or assessment liens have been deposited in or assigned to such fund, and to foreclose such assessment liens so assigned to such special fund or represented by the certificates of indebtedness deposited in said special fund, after such assessment liens have become delinquent and deposit the proceeds derived from such foreclosure, including interest and penalties, in such special fund, and to further make any other necessary covenants deemed necessary or advisable in order to properly secure the holders of such assessment bonds or other obligations.

(3) The assessment bonds or other obligations issued pursuant to this section shall have such dates of issue and maturity as shall be deemed advisable by the district board; provided, however, that the maturities of such assessment bonds or other obligations shall not be more than 2 years after the due date of the last installment which will be payable on any of the special assessments for which such assessment

liens, or the certificates of indebtedness representing such assessment liens, are assigned to or deposited in such special fund.

(4) Such assessment bonds or other obligations issued under this section shall bear interest at not exceeding 7½ percent per annum, shall be executed, shall have such provisions for redemption prior to maturity, shall be sold in the manner and be subject to all of the applicable provisions contained in s. 153.63 for revenue bonds, except as the same are inconsistent with the provisions of this section.

(5) All assessment bonds or other obligations issued under the provisions of this law, except certificates of indebtedness issued against separate parcels of land as provided in this section, shall be and constitute and have all the qualities and incidents of negotiable instruments under the law merchant and the Negotiable Instruments Law of the state.

History.—s. 27, ch. 59-466.

of a water system or sewer system; provided, however, that any such bonds so delivered for payment of such services or work performed shall have been authorized and issued in the manner provided in this law and shall otherwise conform to the provisions hereof.

History.—s. 29, ch. 59-466.

153.79 Contracts for construction of improvements, sealed bids.—All contracts let, awarded or entered into by the district for the construction, reconstruction or acquisition or improvement of a water system or a sewer system or both or any part thereof, if the amount thereof shall exceed \$1,000, shall be awarded only after public advertisement and call for sealed bids therefor, in a newspaper published in the county circulating in the district, or, if there be no such newspaper, then in a newspaper published in the state and circulating in the district, such advertisement to be published at least once at least 3 weeks before the date set for the receipt of such bids. Such advertisements for bids in addition to the other necessary and pertinent matter shall state in general terms the nature and description of the improvement or improvements to be undertaken and shall state that detailed plans and specifications for such work are on file for inspection in the office of the district clerk and copies thereof shall be furnished to any interested party upon payment of reasonable charges to reimburse the district for its expenses in providing such copies. The award shall be made to the responsible and competent bidder or bidders who shall offer to undertake the improvements at the lowest cost to the district and such bidder or bidders shall be required to file bond for the full and faithful performance of such work and the execution of any such contract in such amount as the district board shall determine, and in all other respects the letting of such construction contracts shall comply with applicable provisions of the general laws relating to the letting of public contracts. Nothing in this section shall be deemed to prevent the district from hiring or retaining such consulting engineers, attorneys, financial experts or other technicians as it shall determine, in its discretion, or from undertaking any construction work with its own resources, without any such public advertisement.

provided, however, that such special maintenance tax shall in no event exceed 5 mills during any one year. Such special maintenance tax shall be levied and collected in the manner provided herein for ad valorem taxes levied and collected for debt service on bonds issued pursuant to this law.

Each of said authorities shall be constituted as a public instrumentality, and the exercise by an authority of the powers conferred by this part shall be deemed and held to be the performance of an essential public function. Each of said authorities shall not transact any business or exercise any power hereunder until and unless the governing body of the local agency by proper ordinance or resolution shall declare that there is a need for an authority to function in such local agency. The determination as to whether there is such need for an authority to function:

(a) May be made by the governing body on its own motion.

(b) May be made by the governing body upon the filing of a petition signed by 25 residents of the local agency asserting that there is need for an authority to function in such local agency and requesting that the governing body so declare.

(2) The governing body may abolish the authority at any time by ordinance or resolution. However, the authority shall not be abolished until such time as all bonded indebtedness incurred pursuant to this part has been paid.

(3) In any suit, action, or proceeding involving the validity or enforcement of, or relating to, any contract of the authority, the authority shall be conclusively deemed to have been established and authorized to transact business and exercise its powers hereunder by adoption of an ordinance or resolution by the governing body declaring the need for the authority. Such ordinance or resolution shall be sufficient if it declares that there is such a need for an authority in the local agency. A copy of such ordinance or resolution duly certified by the clerk shall be admissible in evidence in any suit, action, or proceeding.

(4) The governing body of the local agency shall designate five persons who are residents of the local agency as members of the authority created for said local agency. Of the members first appointed, one shall serve for 1 year, one for 2 years, one for 3 years, and two for 4 years; in each case until his successor is appointed and has qualified. History.—s. 6, ch. 74-323.

154.213 Agreements of lease.—In undertaking any project pursuant to this part, the authority shall first obtain a valid certificate of need evidencing need for the project and a statement that the project serves a public purpose by advancing the commerce, welfare, and prosperity of the local agency and its people. No project financed under the provisions of this part shall be operated by the authority or any other governmental agency; however, the authority may temporarily operate or cause to be operated all

The authority may lease a project or projects to a health facility for operation and maintenance in such manner as to effectuate the purposes of this part under an agreement of lease in form and substance not inconsistent herewith.

(1) Any such agreement of lease may provide, among other provisions, that:

The authority may, by written contract, engage the services of the lessee or prospective lessee of any project in the construction of such project and may provide in such contract that the lessee or prospective lessee may act as an agent of, or an independent contractor for, the authority for the performance of the functions described therein, subject to such conditions and requirements consistent with the provisions of this part as shall be prescribed in such contract, including such functions as the acquisition of the site and other real property for such project; the preparation of plans, specifications, and contract documents; the award of construction and other contracts upon a competitive or negotiated basis; the construction of such project, or any part thereof, directly by such lessee or prospective lessee; the inspection and supervision of construction; the employment of engineers, architects, builders, and other contractors; and the provisions of money to pay the cost thereof pending reimbursement by the authority. Any such contract may provide that the authority may, out of proceeds of bonds, make advances to or reimburse the lessee or prospective lessee for its costs incurred in the performance of such functions and shall set forth the supporting documents required to be submitted to the authority and the reviews, examinations, and audits that shall be required in connection therewith to assure compliance with the provisions of this part and such contract.

History.—s. 8, ch. 74-323.

154.217 Notes of authority.—The authority is authorized from time to time to issue its negotiable notes for any corporate purposes and renew from time to time any notes by the issuance of new notes, whether the notes to be renewed have or have not matured. Except as otherwise provided herein or in s. 154.219, the maximum maturity of such notes, not including renewals thereof, shall not exceed 1 year. The notes may be authorized, sold, executed, and delivered in the same manner as bonds. All such notes shall be payable solely from the revenues of the authority, subject only to any contractual rights of the holders of any of its notes or other obligations then outstanding.

History.—s. 9, ch. 74-323.

154.219 Revenue bonds.—

(1) The authority is authorized from time to time to issue its negotiable revenue bonds for the purpose of paying all or any part of the cost of any project or projects for which a certificate of need has been obtained, or pursuant to subsections (12) and (13) of s. 154.209 for the purpose of paying all or any part of the cost of acquiring existing or completed health facilities projects. In anticipation of the sale of such revenue bonds, the authority may issue negotiable bond anticipation notes and may renew the same

from time to time, but the maximum maturity of any such note, including renewals thereof, shall not exceed 5 years from the date of issue of the original note. Such notes shall be paid from any revenues of the authority available therefor and not otherwise pledged or from the proceeds of sale of the revenue bonds of the authority in anticipation of which they were issued. The notes shall be issued in the same manner as the revenue bonds. Such notes and the resolution or resolutions authorizing the same may contain any provisions, conditions, or limitation which a bond resolution of the authority may contain.

(2) The revenue bonds and notes of every issue shall be payable solely out of revenues derived by the authority from the sale, operation, or leasing of any project or projects, subject only to any agreements with the holders of particular revenue bonds or notes pledging any particular revenues. Notwithstanding that revenue bonds and notes may be payable from a special fund, they shall be, and be deemed to be, for all purposes, negotiable instruments, subject only to the provisions of the revenue bonds and notes for registration.

(3) The revenue bonds may be issued as serial bonds or as term bonds, or the authority, in its discretion, may issue bonds of both types. The revenue bonds shall be authorized by resolution of the members of the authority and shall bear such date or dates; mature at such time or times, not exceeding 50 years from their respective dates; bear interest at such rate or rates; be payable at such time or times; be in such denominations; be in such form, either coupon or registered, or both; carry such registration privileges; be executed in such manner; be payable in lawful money of the United States at such place or places; and be subject to such terms of redemption, including redemption prior to maturity, as such resolution or resolutions may provide. The authority shall determine the form and manner of execution of the bonds, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest, which may be at any bank or trust company within or without the state. In case any officer whose signature, or a facsimile of whose signature, shall appear on any bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature or facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. The authority shall also provide for the authentication of the bonds by a trustee or fiscal agent. The revenue bonds or notes may be sold at public or private sale for such price or prices as the authority shall determine. Pending preparation of the definitive bonds, the authority may issue interim receipts or certificates which shall be exchanged for such definitive bonds.

(4) Any resolution or resolutions authorizing any revenue bonds or any issue of revenue bonds may contain provisions which shall be a part of the contract with the holders of the revenue bonds to be authorized, as to:

(a) Pledging of all or any part of the revenues of a project to secure the payment of the revenue bonds

or of any particular issue of revenue bonds, subject to such agreements with bondholders as may then exist.

(b) The rentals, fees, and other charges to be charged, the amounts to be raised in each year thereby, and the use and disposition of the revenues.

(c) The setting aside of reserves or sinking funds and the regulation and disposition thereof.

(d) Limitations on the right of the authority to restrict and regulate the use of the project.

(e) Limitations on the purpose to which the proceeds of sale of any issue of revenue bonds then or thereafter to be issued may be applied and pledging such proceeds to secure the payment of the revenue bonds or any issue of the revenue bonds.

(f) Limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured, and the refunding of outstanding bonds.

(g) The procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given.

(h) Defining the acts or omissions to act which shall constitute a default in the duties of the authority to holders of its obligations and providing the rights and remedies of such holders in the event of a default.

(i) The mortgaging of a project and the site thereof for the purpose of securing the bondholders.

(5) Neither the members of the authority nor any person executing the revenue bonds or notes shall be liable personally on the revenue bonds or notes or be subject to any personal liability or accountability by reason of the issuance thereof.

History.—s. 10, ch. 74-323.

154.221 Security of bondholders.—In the discretion of the authority, any bonds issued under the provisions of this part may be secured by a trust agreement by and between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or without the state. Such trust agreement or resolution providing for the issuance of such bonds may pledge or assign the fees, rents, charges, or proceeds from the sale of any project or part thereof, insurance proceeds, condemnation awards, and other funds and revenues to be received therefor, and may provide for the mortgaging of any project or any part thereof as security for repayment of the bonds. Such trust agreement or resolution providing for the issuance of such bonds shall contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the authority in relation to the acquisition of property and the construction, improvement, maintenance, repair, operation, and insurance of the project or projects in connection with which such bonds shall have been authorized; the fees, rents and other charges to be fixed and collected; the sale of any project, or part thereof, or other property; the terms and conditions for the issuance of additional bonds; and the custody, safeguarding, and application of all moneys. It shall be lawful for

any bank or trust company incorporated under the laws of the state which may act as depository of the proceeds of bonds, revenues, or other money hereunder to furnish such indemnifying bonds or to pledge such securities as may be required by the authority. Any such trust agreement or resolution shall set forth the rights and remedies of the bondholders and of the trustee and may restrict the individual right of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as a part of the cost of the project or projects in connection with which bonds are issued or as an expense of administration of such projects, as the case may be.

History.—s. 11, ch. 74-323.

154.223 Payment of bonds.—Revenue bonds issued under the provisions of this part shall not be deemed to constitute a debt, liability, or obligation of the local agency or the state or any political subdivision thereof, or a pledge of the faith and credit of the local agency or the state or any political subdivision thereof, but shall be payable solely from the revenues provided therefor. All such revenue bonds shall contain on the face thereof a statement to the effect that the authority shall not be obligated to pay the same or the interest thereon except from the revenues of the project or the portion thereof for which they are issued and that neither the faith and credit nor the taxing power of the local agency or of the state or of any political subdivision thereof is pledged to the payment of the principal of or the interest on such bonds. The issuance of revenue bonds under the provisions of this part shall not directly, indirectly, or contingently obligate the local agency or the state or any political subdivision thereof to levy or to pledge any form of taxation whatever therefor or to make any appropriation for their payment.

History.—s. 12, ch. 74-323.

154.225 Revenues.—

(1) The authority is hereby authorized to fix and to collect fees, rents, and charges for the use of any project or projects and any part or section thereof. The authority may require that the lessee of any project or part thereof shall operate, repair, and maintain the project and bear the cost thereof and other costs of the authority in connection with the project or projects leased as may be provided in the agreement of lease or other contract with the authority, in addition to other obligations imposed under such agreement or contract.

(2) The fees, rents, and charges shall be so fixed as to provide a fund sufficient to pay the principal of, and the interest on, such bonds as the same shall become due and payable and to create reserves, if any, deemed by the authority to be necessary for such purposes. The fees, rents, charges, and all other revenues and proceeds derived from the project or projects in connection with which the bonds of any issue shall have been issued, except such part thereof as may be necessary for such reserves or any ex-

penditures as may be provided in the resolution authorizing the issuance of such bonds or in the trust agreement securing the same, shall be set aside at such regular intervals as may be specified in such resolution or such trust agreement in a sinking fund which is hereby pledged to, and charged with, the payment of the principal of and the interest on such bonds as the same shall become due and the redemption price or the purchase price of bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time when the pledge is made. The fees, rents, charges, and other revenues and moneys so pledged and thereafter received by the authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the authority, irrespective of whether such parties have notice thereof. The use and disposition of money to the credit of such sinking fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust agreement. Except as may otherwise be provided in the resolution or the trust agreement, the sinking fund shall be a fund for all such bonds without distinction or priority of one over another.

History.—s. 13, ch. 74-323.

154.227 Trust funds.—Notwithstanding any other provisions of law to the contrary, all money received pursuant to the provisions of this part, whether as proceeds from the sale of bonds, sale of property, insurance, or condemnation awards, or as revenues, shall be deemed to be trust funds, to be held and applied solely as provided in this part. The resolution authorizing the bonds of any issue or the trust agreement securing such bonds may provide that any of such moneys may be temporarily invested pending the disbursement thereof and shall provide that any officer with whom, or any bank or trust company with which, such moneys shall be deposited shall act as trustee of such moneys and shall hold and apply the same for the purposes hereof, subject to such regulations as this part and such resolution or trust agreement may provide.

History.—s. 14, ch. 74-323.

154.229 Remedies.—Any holder of bonds issued under the provisions of this part or of any of the coupons appertaining thereto, and the trustee under any trust agreement, except to the extent the rights herein given may be restricted by such trust agreement or the resolution authorizing the issuance of such bonds, may, either at law or in equity, by suit, action, mandamus, or other proceeding, protect and enforce any and all rights under the laws of this state or granted hereunder or under such trust agreement or resolution authorizing the issuance of such bonds, or under any agreement of lease or other contract executed by the authority pursuant to this part, and may enforce and compel the performance of all duties required by this part or by such trust agreement or resolution to be performed by any lessee or the authority or by any officer thereof, includ-

ing the fixing, charging, and collecting of fees, rents, and charges.

History.—s. 15, ch. 74-323.

154.231 Negotiability of bonds.—All bonds issued under the provisions of this part shall have, and are hereby declared to have, all the qualities and incidents, including negotiability, of investment securities under the Uniform Commercial Code, but no provision of such code respecting the filing of a financing statement to perfect a security interest shall be deemed necessary for, or applicable to, any security interest created in connection with the issuance of any such bonds.

History.—s. 16, ch. 74-323.

154.233 Tax exemption.—The exercise of the powers granted by this part will be in all respects for the benefit of the people of this state, for the increase of their commerce, welfare, and prosperity, and for the improvement of their health and living conditions, and because the operation and maintenance of a project by a health facility will constitute the performance of an essential public function, neither the authority nor a hospital institution shall be required to pay any taxes or assessments upon or in respect of a project or any property acquired by the authority under the provisions of this part or upon the income therefrom, and any bonds issued under the provisions of this part, their transfer, and the income therefrom, including any profit made on the sale thereof, shall at all times be free from taxation of every kind by the state, the local agency, and municipalities and other political subdivisions in the state, except that such income shall be subject to the tax imposed pursuant to the provisions of chapter 220. Nothing in this section shall be construed as exempting from taxation or assessments the leasehold interest of any health facility organized for profit. If any project or any part thereof shall be occupied or operated by any health facility organized for profit pursuant to any contract or lease with the authority, the property interest created by such contract or lease shall be subject to taxation to the same extent as other privately owned property.

History.—s. 17, ch. 74-323.

154.235 Refunding bonds.—

(1) The authority is hereby authorized to provide for the issuance of revenue bonds for the purpose of refunding any of its revenue bonds then outstanding, including the payment of any redemption premium thereon and any interest accrued or to accrue to the earliest or subsequent date of redemption, purchase, or maturity of such revenue bonds.

(2) The proceeds of any such revenue bonds issued for the purpose of refunding outstanding revenue bonds may, in the discretion of the authority, be applied to the purchase or retirement at maturity or redemption of such outstanding revenue bonds either on their earliest or any subsequent redemption date, or upon the purchase or at the maturity thereof, and may, pending such application, be placed in escrow to be applied to such purchase or retirement at maturity or redemption on such date as may be determined by the authority.

(3) Any such escrowed proceeds, pending such

use, may be invested and reinvested in direct obligations of the United States, in any obligations of which the principal and interest are unconditionally guaranteed by the United States, in certificates of deposit or time deposits secured by direct obligations of the United States, or in any obligations of which the principal and interest are unconditionally guaranteed by the United States, maturing at such time or times as shall be appropriate to assure the prompt payment, as to principal, interest, and redemption premium, if any, of the outstanding revenue bonds to be so refunded. The interest, income, and profits, if any, earned or realized on any such investment may also be applied to the payment of the outstanding revenue bonds to be so refunded. After the terms of the escrow have been fully satisfied and carried out, any balance of such proceeds and interest, income, and profits, if any, earned or realized on the investments thereof may be returned to the authority for use by it in any lawful manner.

(4) All such revenue bonds issued for the purposes of refunding shall be subject to the provisions of this part in the same manner and to the same extent as other revenue bonds issued pursuant to this part.

History.—s. 18, ch. 74-323.

154.237 Legal investment.—Bonds issued by the authority under the provisions of this part are hereby made securities in which all public officers and public bodies of the state and its political subdivisions and all insurance companies, trust companies, banking associations, investment companies, executors, administrators, trustees, and other fiduciaries may properly and legally invest funds, including capital in their control or belonging to them. Such bonds are hereby made securities which may properly and legally be deposited with and received by any state or municipal officer or any agency or political subdivision of the state for any purpose for which the deposit of bonds or obligations of the state is now or may hereinafter be authorized by law.

History.—s. 22, ch. 74-323.

154.245 Department of Health and Rehabilitative Services certificate of need required as a condition to bond validation and project construction.—Notwithstanding any provision of this part to the contrary, before any project authorized by this part is approved by the authority, and before revenue bonds are validated for the project, the Department of Health and Rehabilitative Services shall issue a certificate of need for such project, which shall be a condition precedent to the validation and issuance of any bonds hereunder, other than bonds for refunding or refinancing purposes, and to the construction of the project.

History.—s. 23, ch. 74-323; s. 2, ch. 78-115.

154.246 Validation of certain bonds and proceedings.—The Legislature finds and declares that the purpose of chapter 78-115, Laws of Florida, is, in part, to clarify the original meaning of the Health Facilities Authorities Law, and, therefore, all bonds heretofore issued and proceedings conducted pursuant thereto which would have been valid had the amendment to s. 154.245, as set forth in s. 2 of chapter 78-115, been in effect when said bonds were issued or proceedings were conducted are hereby declared valid.

History.—s. 3, ch. 78-115.

Such certification shall be made by a person designated by the board of county commissioners or, in the absence of such a designated person, by the director of the full-time health unit.
